HONESTY

PROTECTION

INTEGRITY

HARTMAN'S LEGAL GUARANTEE

We Unreservedly Guarantee every article sold by us to be exactly as represented and described in our catalog.

We Guarantee our prices to be lower than those of any other concern for goods of equal quality.

We Guarantee to ship each and every article on approval, and if within 30 days from receipt of the goods anything is not perfectly satisfactory for any reason whatever, we will accept their return. Simply notify us you wish to return them that we may give you proper instructions for shipping, and then upon receipt of goods by us, we will refund all moneys paid on them, including transportation charges both ways.

HARTMAN'S, CHICAGO, ILL.

When you order goods from HARTMAN'S, you deal with a National Institution, whose success was founded on honesty, protection and integrity 66 years ago. Our Guarantee assures the same principles today. It is backed by our wonderful retail organization; our enormous Mail-Order Plant, and the indorsement of the strongest banks in the UNITED STATES.

Satisfaction Guaranteed

AS TO OUR RESPONSIBILITY

THE VERY FIRST FACT WE WISH TO DRIVE

HOME is that the Great HARTMAN ORGANIZATION was established in 1855. The year of 1922 marks our 67th anniversary. On the following pages you will find a complete detailed description of how to order from us by mail and how simple our credit plan is.

SO VAST AN ENTERPRISE AS OURS

has taken sixty-seven years to build and the investment of many millions of dollars. Yet, even time and money could never have accomplished such tremendous growth if we had not ALWAYS dealt fairly and honestly with our customers. Success of any kind is generally MERITED. We must GIVE in order to GET. After a fruit tree ceases to bear fruit we chop it down and use it for kindling. It is a natural LAW that if you want to succeed you must give others the BEST that is in you ALL THE TIME. That is why, after sixty-seven years, we are today the LARGEST home-furnishing organization in the world. We have succeeded MOST because we have served the people BEST. The little acorn of business honesty and good faith that was implanted into the heart of our business 67 years ago, could not help but grow into the giant oak of today—because the best interests of our customers have always been our first consideration. We gave them, always, the best that was in us, in every respect. In return our customers gave us their utmost confidence and helped us to grow.

YOU HAVE EVERY RIGHT TO KNOW

something about a firm and the RESPONSIBILITY of the firm you are thinking of doing business with before you pay out hard-earned money on any purchase. With this in mind let us state a few simple facts:

SUCH WONDERFUL GROWTH AND SUCCESS AS OURS

CAN GROW OUT OF ONLY ONE CONDITION. Years ago we started out with the firm determination in our hearts to please and satisfy EACH and EVERY customer, no matter who they were, where they lived, or how big or small their purchase from us might be; and we have followed this policy unflinching in every case, regardless of possible loss to us. Then, when we started to grow and we numbered our customers in the thousands, our success did not make us less conscientious; and now, after many years, with over a million and a half customers on our books, we are PROUD to say that success has still not changed our policies. Fair, honest dealing is still our motto. It is our inseparable

FOR OVER THREE-SCORE YEARS

we have been in business. We have succeeded. We have grown to be the largest home-furnishing organization in the world. The 67th year of our business career finds us a PERMANENT establishment—AND IN BUSINESS TO STAY! By honest, square-deal methods we have grown from a modest beginning to our present unquestionable supremacy with more than a million and a half customers on our books. You will find "Hartman" homes—"The Nests that Hartman Feathered"—in every nook and corner of the United States; from the Great Lakes to the Gulf of Mexico; from the Atlantic to the Pacific Ocean. We have a combined capital of over \$12,000,000. Any bank, any newspaper, any farm paper, or magazine will testify to our responsibility, for our organization today stands out alone and supreme—a commercial giant, towering head and shoulders above any and all competition.

THE TREMENDOUS SIZE ALONE

of this institution is sufficient guarantee of our honesty of purpose. The PERMANENCY of our enterprise, the FINANCIAL SOLIDITY are both irrefutable proof that time and test have found no flaw or weakness in us, and substantially proves that our honesty and responsibility are both beyond question.

DURING OUR SIXTY-SEVEN YEAR BUSINESS

JOURNEY millions of satisfied customers have proven conclusively and to their own satisfaction that our service was the best, most efficient and courteous; our methods and policies honorable; our ability to serve the widest in scope; our credit-system extremely generous; our values honest. Nowhere else in the world will you find another institution like this—one which has found its way so THOROUGHLY into the homes and hearts of the people.

arable principle—it is the corner-stone of our business. It is even more than this—IT IS THE SECRET OF OUR TREMENDOUS SUCCESS—it is the secret for the implicit CONFIDENCE with which our customers honor us after once dealing with us; and there will be no exception anywhere at any time toward anyone. Time has taught us that it is better to have your KINDLY FEELING than your money. Therefore, you are safe, absolutely, in dealing with us, because we guarantee you satisfaction; because we are here to STAY; because you are dealing with the LARGEST HOME-FURNISHING ORGANIZATION IN THE WORLD; in fact,—because it is Hartman's, which means HEADQUARTERS.

OUR LIBERAL CREDIT PLAN

OUR UNMATCHABLE BARGAINS AND LOW PRICES.

When you look through this Catalog and notice how low our prices are for the high quality of the goods we offer—or if you compare these prices and qualities with other houses or your home town dealers' prices, say to yourself, "There is a reason for such high quality at such low prices."

There IS a reason for it and a GOOD one: Situated as we are in the very heart of the greatest furniture market in the world, we have the finest facilities for picking the very cream of the goods on the market. Then, do not forget this: We buy in THOUSANDS where other firms or retail dealers buy in hundreds or dozens. We buy more at one time than most retail furniture houses buy in years, because we buy for our immense mail-order plant, and our great chain of retail stores. Buying this way (in the largest quantities known) we can afford to sell at a lower price than any other furniture concern in this country, and save you considerable money on almost any article you select; and you get the best that enormous buying power and experience can command.

We bring the cream of the world's furniture markets right into your own home where you can comfortably select the things you want to beautify your home from the greatest variety of furniture EVER ASSEMBLED BY ANY ONE CONCERN.

Think what this means: The world's best—the largest range for selection—brought right into your own home. No one else can give you such an UNLIMITED variety to choose from—no one else can quote you such bargain prices or such generous, easy credit terms.

REMEMBER THAT YOU HAVE NEARLY A YEAR'S TIME TO PAY YOUR BILL.

A Hartman purchase means that you'll have the FINEST, the BEST that our keen, experienced group of buyers could POSSIBLY find after thoroughly searching all through the furniture markets of the entire world.

WHAT OUR IRONCLAD, LEGAL GUARANTEE MEANS

ON THE INSIDE FRONT COVER of this catalog you will find our guarantee printed in full. Read it carefully before looking through this catalog. It is the strongest guarantee possible to frame—and protects you absolutely—you take no chance whatever—you risk positively nothing. We have always bought only thoroughly dependable merchandise, which we are not afraid to guarantee. That is why we fully pledge ourselves to return your money and whatever freight charges you have paid both ways, if, for any reason whatsoever, you are not satisfied with your purchase; or if you find the goods unsatisfactory or misrepresented.

We are in business to STAY, and we CAN'T AFFORD to have dissatisfied customers. You are the sole judge and jury in this decision, too. We put the furniture in your home and you can use it, examine it; the whole family can inspect it, and judge its value and beauty. Until you say that you are satisfied with the goods we do not consider that the sale has been made.

WE EXTEND LIBERAL CREDIT TO EVERYONE—EVERYWHERE.

Your income makes no difference. It doesn't make a particle of difference where you live or how much you earn, we extend you the invitation to beautify your home and enjoy the comforts of a finely-furnished home while you are paying for it.

On page 1 you will find our terms, giving first payment and monthly payment according to the amount of your bill. A glance will show you how EXTREMELY LIBERAL these terms are, and how easy it is to have a beautiful home and pay for it in small monthly payments which you will never miss. Hartman's is the most modern method of extending credit known. Experience has taught us that we can trust implicitly the people who build and love their homes. We know that people who are buying home-comforts are the kind we want for customers, and the kind we are glad to trust to the fullest extent. In extending you credit we do not quibble; we do not ask questions; there is no red tape about our system whatsoever; there are NO EXTRA CHARGES of any kind; no mortgage to sign; no interest to pay, and we ask for no security; we have no collectors—all payments are made by mail, and no matter if your order is small or large, it will receive the same careful, prompt and courteous attention.

OURS IS A CONFIDENTIAL, DIGNIFIED CREDIT, FREE FROM ANY AND ALL OBJECTIONABLE FEATURES.

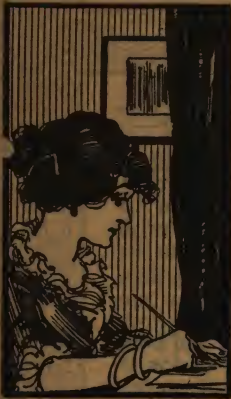

All you have to do is to make out your order on one of our printed order-blanks and send it, together with the first small payment, AND THAT IS ALL THAT THERE IS TO IT. After that you pay the small monthly payment as due.

And to FURTHER show you how liberal our system is, we add this: If monthly payments cannot always be made because of sickness or loss of employment, we will GLADLY help you out by waiting a reasonable length of time until you CAN pay.

It makes no difference who you are or where you live, all you have to do is to write us if you are not satisfied and we will take care of any and all adjustments—and all adjustments are entirely at your option. We ask no questions; there will be no unpleasantness, no delay, no red tape, no arguments. If we can't save you money and sell you the right kind of goods at the right price and please you thoroughly, we won't argue the matter with you at all. We will return every penny you sent us, and any transportation charges you have paid out. We built this business by FAIR DEALING, and we will continue to deal FAIRLY and HONESTLY with EACH and EVERY customer. Thus you see that you risk absolutely nothing whatever in ordering anything pictured or described in this catalog.

This is our guarantee, and back of it is a 67 year honest mercantile reputation, our \$12,000,000 capital, and the solemn pledge of the greatest home-furnishing organization in the world. You risk nothing when you deal with Hartman's. We do not want a dissatisfied customer at any price.

How to Start an Account

PLEASE REFER to the index of this catalog, which gives the page numbers of all articles we offer. Pick out the goods you want. Write your order plainly on one of our printed order blanks. Go over the order to make sure that all is clear and complete. Be careful to sign your name in full and write your address plainly. Give your post office address, name of County and State; also the railway station to which you wish your goods shipped. Give the catalog number of each article you want. When an article is listed in several sizes state size wanted. Also mention color you desire. Figure up the total of your bill, then refer to page 1 of this catalog, which shows you how to determine your

payments and how much each payment should be. We prefer not to open a charge account for accounts less than \$5.00.

Take a full Year to pay

WE TRUST YOU ABSOLUTELY and give you plenty of time to pay for the things you select. Remember that the size of your income has no bearing whatever on the size of the order you send us. With credit as easy to get as it is from us, there is no reason in the world why you should be without the things you have long wished for. So, if you really desire a beautiful home, this is your opportunity—SELECT FROM THIS BOOK AND SEND IN YOUR ORDERS AT ONCE.

You will find that our modern method of extending credit is QUIET, DIGNIFIED and CONFIDENTIAL. There are no embarrassing or disagreeable conditions connected with the way we do business, as you will find out, after trading

with us. We give you a square deal, and expect a square deal from you.

ALL Dealings Confidential

WE SHIP your goods to you marked with tags that mention nothing of your buying on credit. We do this because, as a rule, our customers do not want their friends to know. Local dealers usually give no credit, their prices are high and their assortment does not compare with ours. This is why people prefer to buy from us, because we make our open-charge-account credit STRICTLY CONFIDENTIAL. Every precaution is taken to insure each transaction being held PRIVATE. We even address letters to you in envelopes that do not bear any mark of our being a credit-giving house. No one need feel embarrassed, however, because they buy on credit, but most people prefer to keep such affairs to themselves. Credit is a

thing one should be proud of; because, it shows you are trusted and are considered honest by those who extend the credit.

How to Send Money

THE SAFEST and most satisfactory method of sending money is by POST OFFICE MONEY ORDER, Express Money Order or Bank Draft. Either of these must be made payable to the firm, using the full name as given. It is not advisable for you to send us your personal check, because there will be a charge at this end for collection. Should you send cash, it should be by registered letter. If payment is made by money order or bank draft and either should be lost in the mail a duplicate may be easily procured and the money would not be lost. If you live on a R. F. D. route, give your letter and money to the rural mail carrier and he will buy a money order for you and send it to us. Write your name EXACTLY THE SAME WAY EACH

TIME YOU WRITE TO US; it will enable us to reply promptly and will eliminate mistakes.

Our Stock ready to ship

WE CARRY THE LARGEST FINISHED, READY-TO-SHIP STOCK OF HOUSE-FURNISHINGS IN THE UNITED STATES. A large percentage of the goods you order from this catalog will be shipped in one shipment, direct to you from Chicago, instead of coming from various points.

All goods, whether shipped from Chicago or factories, or warehouses, are carefully inspected before being packed. We take every precaution to see that goods reach you in perfect condition. Occasionally, it is necessary to ship large, bulky articles "knocked down." Shipped in a "knocked down" state, you save money on the lesser freight charge, and the large articles are easier to handle, thus saving them from possible injury.

No Cash Discount Allowed

WE QUOTE ONE PRICE to all, whether you pay us cash or buy from us on credit. Customers who wish to pay cash are just as welcome to our Bargains as credit customers. It is simply impossible for us to give any discount whatever, because our catalog prices are figured with only ONE small percentage of profit added to the SPECIAL LOW FACTORY PRICES we obtain through our great quantity buying power. There is NOTHING ADDED for the credit we extend, and, as our price on every article we sell is as low as it is possible to quote, consistent with good quality of materials and dependable workmanship, you can see that it is absolutely out of the question to allow any discount for cash.

SIZE of Orders and C.O.D.s

WE ACCEPT ORDERS FOR ANY AMOUNT, but prefer not to open charge accounts for less than \$5.00. Should you wish to order small priced items amounting to less than \$5.00, please refer to page 1 for terms. We advise you to order goods amounting to more than \$5.00, as it is more profitable to you; besides you get the advantage of our long time credit.

WE NEVER SHIP GOODS C. O. D., because we sell on open-charge-account, credit-terms. We take all risk by allowing customers to have full possession of the Goods before they are paid for, and if, after comparison and inspection, you decide not to keep them, the goods may be returned to us at our expense, as

per our legal guarantee, and any money you have paid us as well as freight charges paid out by you will be promptly refunded.

Prompt Shipment

OUR SHIPPING STATION HAS IMMEDIATE ACCESS TO THE TRACKS OF 24 RAILROADS and is located right in the heart of Chicago's most important transportation center. This gives us the advantage of getting shipments out in the quickest possible time. Monstrous elevators load all outgoing freight directly into cars, switched immediately before our great merchandise building, where the goods you order are selected, inspected and carefully packed.

WE GUARANTEE SAFE DELIVERY and exercise EVERY effort to prevent the LEAST mishap or damage to goods while in transit. In order to completely relieve our customers of every element of risk, we take it upon ourselves to guarantee safe delivery. For further important information on this subject please read "DAMAGES AND ERRORS" below.

antee safe delivery.
subject please read

FREIGHT charges paid by you—

CUSTOMERS PAY THE FREIGHT WHEN THEY RECEIVE THE GOODS, EXCEPT WHEN WE SHIP GOODS to any prepaid station where there is no agent to collect the freight charges, these charges must be prepaid by you.

Figure the freight charges to some town near you, which is equally distant from Chicago; by referring to page 6 for table of freight rates. Look over the freight rates carefully; if your point is not mentioned take the nearest town to you as a basis, and you will have no trouble in estimating the charges. In the case of prepaid stations, include the extra amount for prepaying freight with your order so that we can prepay the freight for you.

Be liberal in your freight allowance; if you send more than is required the balance left will be credited to your account.

About Goods Returning

BEFORE YOU RETURN ANY GOODS, on account of error or any dissatisfaction, BE SURE TO WRITE US. State in your letter what you desire; advise us fully as to the number of articles you wish to return; give the date of your purchase, and your account number. We can then adjust matters to your entire satisfaction. All transportation charges in adjusting errors are paid by us. We promise you the best care and attention to every detail and guarantee to please you ABSOLUTELY and THOROUGHLY. WE take all the risk, selling under LEGAL GUARANTEE of satisfaction or your money back. Our intention is that anything you buy here shall be not only satisfactory, but GOOD VALUE for your money. Big value is a part of the satisfaction we guarantee, AND WE LIVE UP TO OUR AGREEMENT.

your money. Big value is a part of the satisfaction we guarantee, AND WE LIVE UP TO OUR AGREEMENT.

Unnecessary Correspondence

We are MORE than glad to answer customers' letters at ALL times; glad to give you any information about our prices, terms, merchandise and freight rates. However, correspondence and time may be saved if you will READ THE INFORMATION PRINTED ON THE FRONT PAGES OF THIS CATALOG. We wish to avoid, as much as possible, all unnecessary correspondence in order to keep our expenses down so that we can always quote our low prices. It requires an enormous army of clerks and correspondents to answer letters from over a million customers, and we ask you to co-operate with us by studying the information and instructions printed in this catalog. If

you will observe the rules we have outlined, we feel confident we can adjust all matters satisfactorily.

Damages —and Errors

IT IS VERY IMPORTANT that you be careful and inspect your shipment BEFORE accepting it from the transportation company. This should always be done so that they can be held responsible for damages or shortages which sometimes occur. Should you discover either, SEE THAT YOUR AGENT MAKES NOTATION OF THE CONDITION OF GOODS ON THE RECEIPTED EXPENSE BILL he gives you for freight you pay.

BE SURE to have the agent write the nature of the damage or shortage, if any, in full, for with this agent's notation on the expense bill, you are then in position to secure satisfaction. Send the expense bill with its notation, to us, and we'll take up your claim immediately and do all in our power to protect you from any loss.

up your claim immediately and do all in our power to protect you from any loss.

The Rates Given Below are per one hundred pounds. As we could not print the rate to every city and town in the United States, we have selected prominent cities in various sections of each state and give the rate to those cities. If the name of your city does not appear in the table below, you may obtain a very fair idea of the rate to your city by noting the rate to the city which is situated near you.

We Always Pack and Ship Our Goods So As to Secure the Lowest Possible Freight Rates Railroads charge for freight according to the kind of home furnishings, etc., that are being shipped. This classification of articles changes in different sections of the country.

RATE PER 100 LBS.

NEAT WOOL FACE TAPESTRY BRUSSELS RUG

AN EXCELLENT
PATTERNSEAMED
BRUSSELS RUG.
GUARANTEED
TO GIVE SERVICE

Just think of the extremely low price at which we offer this handsome seamed Brussels rug. It has a wool surface and the medallion floral pattern in the rich colorings shown is printed on a firmly woven back. It is a wool faced rug, and a splendid value at our price. The brown, tan, green and light colorings blend most charmingly and the design gives it a very effective appearance, as the illustration plainly shows. The floral medallion center is very rich and pleasing, as is the neatly arranged wreath design surrounding it and the pretty border is very artistic. It is made in one size only, 9 x 12 ft. We know that you will be well pleased with this rug.

A SEAMLESS VELVET RUG OF MERIT

FLORAL PATTERN
VELVET RUG
WITH RICH BOR-
DER. NEAT ME-
DALLION CENTER

This is a very strong pattern in a floral medallion designed wool face seamless velvet rug. The various shades of green, tan and brown form a pleasing contrast to the natural colored flowers which are found throughout the rug. The border effect is extremely artistic and matches in pattern the general idea of the design. The illustration gives you a good idea of the richness of both the design and colorings found in this elegant rug, but to see it actually in use on the floor of your parlor is the only way to really appreciate its beauty.

CONGOLEUM GOLD SEAL ONE-PIECE ART RUGS

Pattern No. 51C65

THE GOLD SEAL GUARANTEES

Congoleum quality. It shows that the manufacturers stand squarely behind every claim they make for Congoleum Gold-Seal rugs and floor-coverings. In buying this well known brand you therefore are protected by a double guarantee—that of the manufacturer and that of Hartman's. In this way you are taking no chances whatever. Your protection is assured. We recommend Congoleum because, where a low-priced floor covering is desired, there is nothing else that answers the purpose so well as a Congoleum rug.

WELL KNOWN, because

these rugs are found in so many homes throughout the country. Besides the name has become a household word because of the national wide-spread advertising this product has received from coast to coast in the best magazines of the land. All well informed householders know that the name "Congoleum" is in floor coverings a positive standard of quality. These rugs are first grade in every way—containing new materials and comprise no inferior goods of any character. We carry no "seconds"—remember that.

Pattern No. 51C58

SANITARY and very easy to keep clean.

There is no burlap in a Congoleum rug, so water will not injure it. A damp mop will keep the colors clear and bright. A Congoleum rug is very durable. The surface is wear-resisting and absolutely sanitary. Then, too, it lies flat without fastening. The above points are all guaranteed by the gold seal which is pasted on the face as visible evidence that it is genuine. Besides, the name "Congoleum" is stamped on the back of each rug.

SUN-PROOF and storm-proof are all of

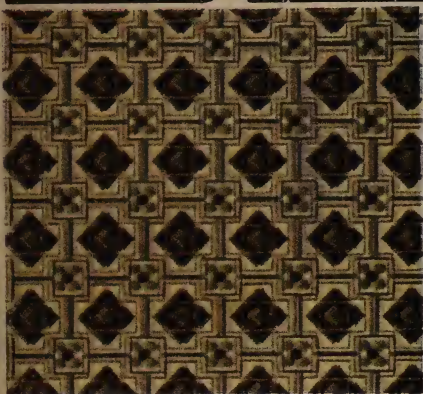

these rugs. On this page we illustrate four very popular patterns of Congoleum floor coverings. Each one of these is seamless, being made in one piece, and may be ordered in your choice of three sizes listed. When sending us your order be sure to mention the number of the pattern you desire, as shown under each illustration. Also state the size of rug that you prefer. Both the number and size desired are essential for correct filling of your order.

Window Shades-Ready To Hang

Oil Finished Opaque Window Shades

HIGH GRADE shades. These are not the very cheap water color shades usually sold at the low prices quoted, but they are made from a good grade well finished opaque cloth, and possess a genuine oil finish. We guarantee that the colors will not fade or run. Each shade is mounted on a guaranteed spring roller; the metal parts are nickel plated, and the roller end is closed completely, tightly protected from rust and dust that so often interfere with the mechanism of unprotected rollers. These shades are guaranteed by both the manufacturer and ourselves to work smoothly, evenly and freely. They can be furnished in light green, dark green or yellow. When ordering be sure to specify which color you prefer.

No. 54A16. 6 Ft. Long x 36 In. Wide.
Price, each..... **\$1.98**
No. 54A17. 7 Ft. Long x 36 In. Wide.
Price, each..... **1.10**

Duplex Two-Color Hand Made Opaque Window Shades

THESE SHADES have one color on one side and a different color on the reverse side, conforming to outside of house as well as decorations of interior. They are mounted on guaranteed Quaker rollers and are hand made from a good grade well finished opaque cloth. The colors are guaranteed to be fast. All metal parts of the spring roller, upon which these shades are mounted, are nickel plated. They can be ordered in light green and white, dark green and white, or dark green and yellow. When ordering be sure to specify which colors you prefer. These shades operate smoothly, evenly and freely.

Be Sure to Specify Which Color You Desire on the Inside; Otherwise We Put the Light Color on the Inside.

Best Quality Plain Oil Opaque Shades

HIGHLY RECOMMENDED. For genuine durability, as well as beauty we recommend these very serviceable oil opaque window shades. These shades are mounted on a guaranteed spring roller, the metal parts of which are all nickel plated. Roller end is closed completely, tightly protected from dust and rust, and operates smoothly, evenly and freely. These shades may be ordered in either dark green, light green or yellow. Be sure to state color preferred when ordering. We guarantee the color to be fast, light and opaque. The material used is heavy and durable. Is offered in choice of two sizes quoted below. When ordering be sure to give correct number, mentioning size that you desire.

DUPLEX TWO-COLOR SHADES can be ordered in your choice of Light Green and White; Dark Green and White, or Dark Green and Yellow.

Steel Shade Pulls | Covered Shade Pulls

Fringed, Scalloped Extra Quality Shades

VERY ATTRACTIVE. The practical housewife prefers a scalloped and fringed shade, because it adds so much to the appearance of windows. These shades are well made from high grade excellently finished guaranteed opaque cloth, with a genuine oil finish. A good quality of heavy fringe is sewed onto each shade, the ends of which are neatly scalloped. These shades are furnished in light green, dark green and yellow. When ordering be sure to specify color wanted. Mounted on guaranteed spring roller with nickel plated dust proof cap. Extremely light running. May be ordered in choice of sizes quoted below. We know that you will be thoroughly satisfied in every way with this shade.

Silver Star

The bed spread set and bed spreads illustrated and described below represent unusual values in the truest sense of the word. An analysis of the details of the structure will reveal durable selvaged edges, and more warp ends of cotton than are usually found in bed spreads of this class. This fact is responsible for the clearness of pattern, which stands out in striking relief, placing these goods in a class by themselves. Bed coverings of this type will improve the appearance of your bedroom, thereby adding tone and refinement to your household appointments. You may order any of the items on this page, with the assurance of being well pleased and satisfied. Any of these goods will be sent promptly from Chicago warehouse.

SPREAD AND BOLSTER COVER TO MATCH

Made In Splendid Marseilles
Pattern Effect, Scalloped, With
Cut-Out Corners As Illustrated.

Bed Spread Measures 87x76 Inches And
The Bolster Cover Measures 76x28 Inches.

EXTRA HEAVY WHITECROCHET BEDSPREAD SET

THIS SET consists of a full sized bed spread measuring 87x76 inches, and one bolster cover to match, which measures 76x28 in. Spread and bolster cover have rich scalloped edges all around. The corners of the bed spread are cut out to fit around each bed post. The quality of this set is unequalled at our price and it is made of a splendid Marseilles pattern with rich embossing. It will prove a set that will give excellent wear and is handsome in finish and appearance. Will launder beautifully because it is woven of clean cotton yarn that is dependable in every respect. Have it sent to you on approval. Set weighs about 4½ lbs., neatly put up in a box. No. 215B40. Price **\$7.85**

HANDSOME CROCHET BED SPREAD. Extra heavy in weight, made of selected cotton yarn, finished with beautiful scalloped edges, as shown in the illustration. Comes in white only. NEAT CROCHET BED SPREAD. This spread is made of selected cotton yarns. Has plain edges; selvaged edges are extra strong. Comes in white only. Size finished 72x83 inches. Weighs about 2 pounds, 3 ounces. No. 215A32. Price..... **\$2.89**

ATTRACTIVE CROCHET BED SPREAD. Large size white crocheted bed spread of excellent quality. Has medallion centers and neat borders. Size 72x83 in. finished. Weight, 2 pounds, 8 ounces. Hemmed square selvaged edges are reinforced. No. 215A33. Price..... **\$3.48**

Bed Spreads

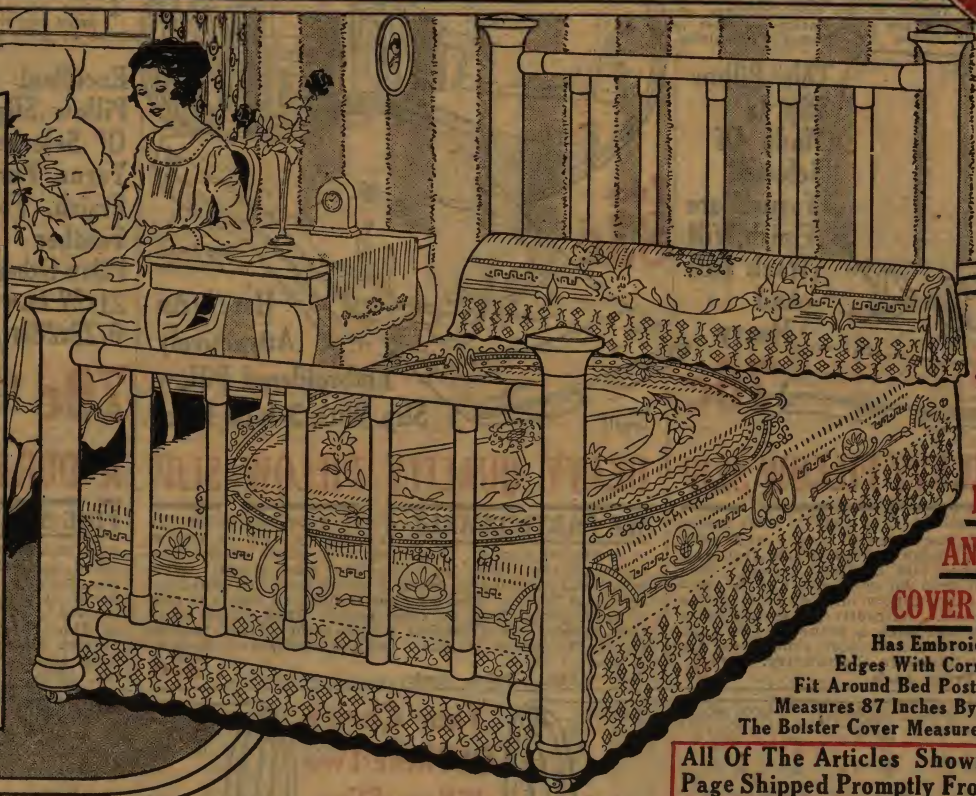

We cannot impress you too strongly with the excellent quality that is represented in the bed spread set and bed spreads shown below. The selvaged edges are very durable. The great quantity of warp ends of cotton used in these spreads are responsible for the fact that these patterns stand out in striking relief, giving individuality and character to the designs. We particularly direct your attention to the bed spread set shown at the top of this page, which is an unusual offering. If, however, you desire one of the spreads without bolster to match, you will do well to select any of the qualities shown.

SPLENDID VALUE IN A FINE SATIN FINISH BEDSPREAD SET

FINE VALUE in a very fine satin finish bed spread set, consisting of a serviceable bed spread measuring fully 76x87 inches, with embroidered scalloped edges and bolster cover to match. This bolster cover is also scalloped and measures 30x76 in. The patterns in which these bolster bed spread sets are offered are entirely new in design, very rich in appearance and highly recommended as to wearing quality. In fact, the quality is so unusual that we have no hesitancy in stating that we consider them a most unusual value at our low price. The corners of the spread are cut out to fit around corners of bed posts as shown in the illustration to the right. Weighs about 4½ lbs.

No. 215B41. Price. **\$9.65**

"AUTO-VAC" SUCTION VACUUM SWEEPER

This Is A Non-Electric Vacuum Sweeper That Draws Every Bit Of Dust And Dirt Through The Floor Coverings. It Is Reliable And Efficient In Every Way And At This Price It May Be Considered An Exceptional Bargain

No Plugs,
Sockets
Or
Wires

Very
Simple
And Effi-
cient. Anyone
Can Operate It

COSTS NOTHING to operate. Remember, it is not an electric cleaner—it is better. It has no plugs, sockets or wires—no heavy or complicated mechanism—no current needed—your first cost is your last, when you buy an Auto-Vac. It weighs only 7½ lbs. and runs on noiseless rubber tired wheels. The body is made of durable cast aluminum. Just think of the convenience of being able to purchase a cleaner of this kind at our low price. It is easier to operate than an ordinary carpet sweeper and not as heavy or clumsy as electric vacuum cleaners. Think what this means to you in saving of labor and bear in mind at the same time that it does its work just as thoroughly.

ANY SMALL boy or girl can operate it and get the same perfect results as can a grown-up. There is absolutely nothing on the market that is as simple as the Auto-Vac. You do not even have to oil it, for the drive mechanism is packed in grease. Just a little push. W-h-i-r goes the suction device and the strong air suction draws all the dust and dirt into the bag. Rugs and carpets get to be like new—not a speck of dirt left. Really no effort expended at all. Guaranteed easier to operate than any carpet sweeper or electric vacuum cleaner. Do not lose any time—send your order for an Auto-Vac today. See page one of this catalog for our liberal credit terms.

The Auto-Vac Is Not An Electric Cleaner, Therefore No Electric Current Is Needed

Try It In Your Own Home

SEND for this vacuum sweeper immediately, and try it in your own home, use it on your rugs and carpets. The efficient way in which it draws out every bit of dust and dirt from your carpets will positively be a delight to you. The strenuous work of beating carpets will be done away with for this suction sweeper does its work so thoroughly that there is not any dust and dirt left to beat. In operation this vacuum sweeper is decidedly simple. The wheels turning operate a device in the head of the sweeper which in turn creates a powerful suction. This suction suffices to draw through the nozzle, all the dust and dirt that has accumulated in the carpet. Thoroughly efficient and practical in every way.

CAN BE USED in any home whether it is wired for electricity or not. This sweeper operates on a simple pushing principle. It has no electric motor, therefore, no electric current is needed. Merely push it about as you would a carpet sweeper. The wheels as they revolve operate the suction device inside the cast aluminum body. While sweeper is in use the dirt bag is inflated. Hartman guarantees the Auto-Vac to be a non-electric suction vacuum sweeper that draws every bit of dust and dirt through the floor coverings equal to any other sweeper made—that no wires or electricity are needed—that it weighs less and is easier to operate, and that all parts are mechanically perfect and with ordinary care will give complete satisfaction. Shipped promptly from our Chicago warehouse. Shipping weight, carefully packed about 10 pounds.

THIS IS as perfect a suction sweeper as can be made. A sweeper that cleans your house in a jiffy with hardly any work. The Auto-Vac suction sweeper is the last word in mechanical cleaners. It saves your time and your strength and will work perfectly. We have put a very low price on this wonderful Auto-Vac sweeper and it is now within reach of those with the smallest income. It is absolutely the simplest, most efficient and best cleaner at anywhere near the price. We want you to decide for yourself, therefore, we advise you to send for it and try it out in your own home. If it does not do all we claim for it, does not meet with your satisfaction in every way, you do not have to keep it. You may return it to us at our expense and if you have paid any money to us, we will gladly refund it to you.

A Combination Sweeper With New Hinged Nozzle. Up-to-date Brush Attachment Secure Nozzle Clamp, Steel Frame Dust Box With Wide Opening

New Auto Roller EFFICIENCY, Bearings

quality, ease of operation and good looks are combined in this splendid vacuum sweeper. Mouth of dust sack is 2 inches wide, 9 inches long. Frame and mouth are all metal. Reinforced rubber gasket prevents leakage—no lost vacuum. Patented hinged nozzle cannot be replaced incorrectly to lose suction. All metal handle connector; no wood threads to wear out. Wheels and brush mechanism are on outside of cleaner and are easily accessible. Nozzle is clamped on. Steel nozzle shoe—not tin. Very powerful suction, despite the big nozzle opening, 11½ inches. Vacuum box and frame made of pressed steel. Cannot crack, warp or check. Litter pans are both opened by one handy lever at rear. Sides as well as top, made of steel. The fibre roller makes running easy.

THE BRUSH is designed to sweep with a light, dusting stroke. It operates easily. The genuine horsehair brush is 9½ inches long. Patented brush adjustment is outside of hood and is very simple to operate. Brush can be adjusted to any point—no notches. Pitmans made of fibre and are practically unbreakable. Tires are put on to stay, without flanges which cut rings when tires become slightly worn; are high quality, extra large size, insuring long life. Curved metal top made of rustless and oil-free sheets of reannealed steel. Three coats of high grade mahogany enamel are then applied, each being baked on separately, making tops impervious to scratches and finger marks. Shipping weight about 18 pounds. Shipped promptly from Chicago warehouse.

The Small Illustration Above Shows Dust Sack And Hinged Nozzle.

GUARANTEE.

This sweeper is fully guaranteed to be free from mechanical defects and we will replace at any time without charge all parts proving defective as to material and workmanship. Set of directions accompany each machine.

"HARTMAN'S MODEL Z" VACUUM SWEEPER

A Combination Vacuum Cleaner And Sweeper With Automatic Brush Adjustments For Carpets And Rugs Of All Lengths of Nap. Has Fibre Roller Nozzle Supports

THE MODEL "Z" is an inexpensive combination vacuum sweeper and cleaner that produces the highest grade of efficiency and is a cleaner that with ordinary care will give a good many years of service. The brush has an automatic adjustment that comes in contact with the carpet or rug in such a way that none of the dust that usually lurks beneath the nap of your carpets or rugs and usually escapes the broom or ordinary carpet-sweeper can escape from the model "Z" Vacuum Sweeper. The brush is controlled by a lever attachment. Can be raised when not in use, lowered for use or dropped down ready for cleaning. Read the description over carefully.

IT HAS three bellows which create powerful suction in extracting dust from beneath the surface of the carpet. The Model "Z" has an all steel, seamless, non-leak vacuum box with a polished wood top of genuine mahogany. The wide mouth dust bag is built on a strong steel frame, with heavy rubber gaskets and easy to keep clean. It has specially hinged dust nozzle, easily detached; simple action nozzle plant and pressed steel plated nozzle shoe with braided pad safety cushion, reinforced at corners with rubber bumpers. With this sweeper it is not necessary to lift it onto rugs or over thresholds and it will not scratch the finest floor. Ship. wt., about 17 lbs. **No. 67A10. Price.....\$11.98**

Page 1

MADE OF

metal, finished in beautiful mahogany with three coats of high-grade enamel, each coat baked on separately. It is 6 inches high at its highest point making cleaning under all modern furniture very easy. The big feature is the automatic brush adjustment which consists of an automatic spring made of genuine piano wire, the tension of which on the brush holds it in position for perfect sweeping and leaves its movement entirely automatic, making the moving of levers or other adjustments unnecessary. The 6-inch brush is located between and operated by four small rubber tired drive wheels and has four-rows of genuine bristles with spiral twist setting.

MODEL "Y" combination cleaner has three highly efficient bellows to produce a continuous, even suction. The dust bag is made of heavy mercerized cloth mounted on steel frame with thick rubber gasket and wide mouth opening. It will retain the finest dust and is easily emptied. The steel vacuum box is air-tight and will not warp or crack. Litter pans are made of steel, wide and deep, both dumping with one push of lever. This is a high class article at a very reasonable price. Be sure to include one of these sweepers in your order. Ship. wt. about 18 lbs. **No. 67R6. Price.....\$8.85**

Both Dust Pans Dump With One Push Of Button

BEARINGS

of all moving parts are of auto roller type which assures easy operation. The nozzle is hinged to the body of sweeper. The nozzle shoe is made of nickelled steel supported by two small side wheels and will not become dented or scratched by running over tacks, door-sills, etc.

Guaranteed
Against
Defects
Of Any
Kind

Occupies
Very Little
Storage
Space

THIS SWEEPER has an all metal body finished in mahogany. It has only five moving parts, thus insuring freedom from the usual troubles. Its total height is about 3 inches and it therefore goes easily under all modern furniture. Is easy to operate and picks up threads, dust, pins and litter in a remarkable manner. Size 12 1/2 x 9 1/2 x 13 inches. Occupies very little storage space. Has a 45 1/2-inch, 3-section handle. Sweeper is guaranteed against defects and costs but little more than a good broom. Shipping weight, about 5 pounds.

PROVE FOR YOURSELF what a wonderful value this rocker really is by ordering it sent upon approval. We are confident that you will agree with us that it is an exceptional bargain for the money and that you will be more than pleased with it. Our liberal credit terms are shown on page one of this catalog. As the accompanying illustration shows, the rocker is of generous proportions, is splendidly upholstered and of a design that is distinctively graceful and stylish. It is constructed in a manner that is sure to give it the utmost in service-giving quality.

IT IS WELL MADE with artistic solid oak frame, neatly finished gloss golden. Has embossed front posts measuring full 3 3/4 inches in width; shapely arms measuring 23 inches long by 3 3/4 inches wide. Back is divided into two sections, the upper section trimmed with straps and large buttons. Seat measures full 19 1/2 inches in width by 18 inches deep, and is supported by six heavy steel coil springs, fully covered with wood fibre and jute. The upholstery is of durable imitation Spanish brown leather. Shipped from Chicago warehouse or Western New York factory. Shipping weight, about 42 pounds.

No. 71R5. Price.....

INTERESTING FACTS ABOUT UPHOLSTERY

Our line of upholstered furniture is the product of the leading and most reliable upholstered furniture makers in America. The elegant assortment of Rockers, Parlor Suits, Davenport, Couches, etc., are all choice patterns in the newest coverings. For your information we give below detailed descriptions of various coverings, used on our upholstered furniture and an explanation of the different finishes used on various kinds of home furnishings.

IMITATION LEATHER has exceptionally good wearing qualities and closely resembles the real leather in appearance. The heavy leather-like surface is applied to a strong fabric, producing a splendid material for furniture covering. Made in black or Spanish brown leather color. The imitation leather we use is far above the quality used on the average upholstered furniture.

MOLESKIN LEATHER is the very highest grade of imitation leather. The surface is leather-like and is procured by a pressing process which produces a grain similar to genuine leather. This is applied to an extra heavy felted back fabric. It will not crack or peel and will outlast cheaper grades of genuine leather. Made in black or Spanish brown leather color.

GENUINE LEATHER used in upholstering our furniture is of a high grade and very satisfactory in every way. We recommend it to give absolute and lasting satisfaction. It is soft and pliable. The black leather is of uniform graining. The Spanish brown leather is of a dark brown color with darker brown graining. It is a very popular covering for furniture.

TAPESTRY is a heavy, closely woven fabric that comes in different figured patterns in attractive designs. The colorings are always well blended and will harmonize with the furnishings of any room in the home. The tapestry we use in covering our upholstered furniture is of a good grade and will give very satisfactory service. The patterns are mostly in floral effects.

VELOUR is a cloth fabric woven similar to velvet but having a heavier and higher pile. The colors are put into the ground of the cloth by a woven process. The background colors and the pattern combinations are always selected to harmonize. We use only the better grades of fully guaranteed figured velour which gives genuine satisfaction in every way.

DAMASK is a heavy quality woven fabric made with a figured surface similar to tapestry except that the pattern is worked in two-tone effects. The various patterns which we use for our Damask upholstery are selected because of their richness of design and harmonious blending of colors. It is very serviceable and has the very best wearing qualities.

INFORMATION REGARDING WOODS AND FINISHES

QUARTERED OAK is sawed in such a way as to bring out the flaky grain of the wood to the best advantage. Solid oak is cut with the lateral grain of the lumber, bringing out the straight grain.

IMITATION QUARTERED OAK is a finish applied to the wood from which the article is made. Hardwood is usually used for this finish. It closely resembles the real quartered oak. This is a very popular finish.

GOLDEN OAK FINISH is applied to the basic wood to bring out the light and dark shadings of a golden brown color. This finish usually is in a bright polished effect and is very attractive.

FUMED OAK FINISH is a durable, dull, nut brown color applied to the basic wood showing the natural grain. This finish is extremely popular on all Mission style furniture and blends well with all styles of furnishings.

IVORY FINISH is applied to the basic wood by enameling, and produces a hard, smooth surface that contains the best wearing qualities. A splendid finish for bedroom furnishings.

WALNUT FINISH is applied to the basic wood to bring out a close representation of Circassian walnut with its large grain and light color, or American walnut with a smaller grain and darker color resembling brown mahogany.

MAHOGANY FINISH is a rich color applied to the basic wood and very effectively brings out the grain. This is one of the most popular finishes for furniture of all kinds and gives long service.

VENEERING is a process of overlaying thin layers of genuine wood such as oak, mahogany, Circassian walnut, etc., on the basic lumber. Built up stock is often stronger than solid lumber and less apt to warp or check.

FINE SOLID OAK ROCKER

Comes In The Popular
Golden Finish. Roomy Seat
Has Spring Construction

\$8.98

Observe The
Comfortable
Side Wings And
Two Panel Back

SPLENDID ROCKER of large size in which to relax and obtain real comfort. You really cannot afford to do without this big, comfortable rocker when you can obtain it at a price no greater than is often charged for a much smaller and less comfortable rocker, and on our liberal credit terms. It is backed by Hartman's binding Legal Guarantee, which unreservedly guarantees every article sold by us to be exactly as represented and described. Order this rocker sent to you on approval. You take no risk whatever, for should this rocker not please and satisfy you after you have tried it in your own home, you are under no obligation to keep it. You may return it to us and we will refund every cent you have paid on it or in freight charges. It is comfortable, serviceable and low priced. Refer to page one for our easy credit terms.

DIMENSIONS of rocker are as follows: Height of seat from floor, 16 inches; height of back from seat, 24 inches; height of back from floor 37 inches; depth of seat 18½ inches; width of seat, 19 inches; width overall 27 inches. Observe the comfortable side wings and two-panel back. Note the sturdy bent runners and substantial construction. The frame is made entirely of kiln-dried hardwood, the exposed parts being of genuine seasoned solid oak, finished in the popular golden color. There are four springs in the seat, supported on steel bands. Is upholstered with imitation Spanish brown leather. This rocker will improve the home and delight the entire family. Shipped promptly from our Chicago warehouse. Is packed in sealed carton in such a way as to take the lower freight rate. Shipping weight, about 35 pounds. **\$8.98**

VERY COMFORTABLE ROCKER

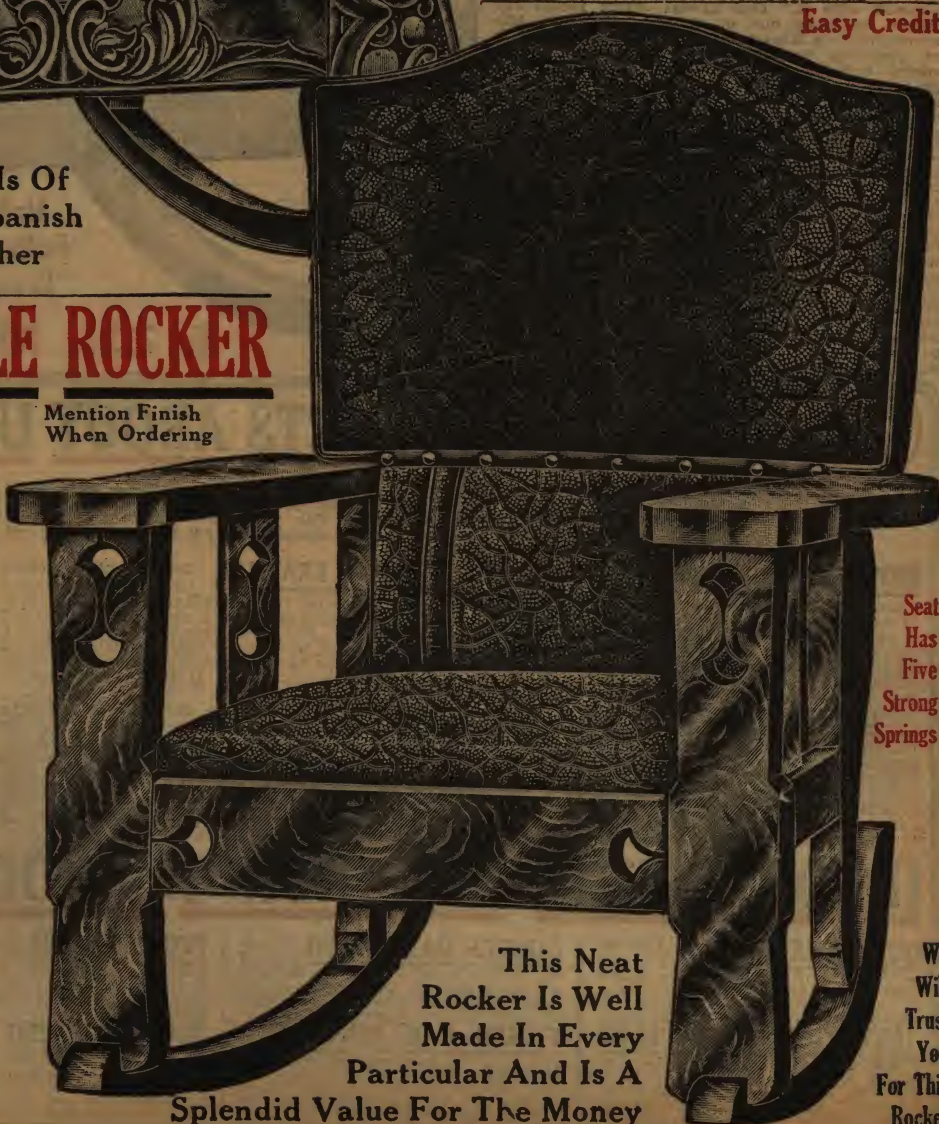

\$10.65

Comes In Your
Choice Of Golden
Or Fumed OakMention Finish
When Ordering

THE FRAME is well constructed in a substantial manner, to give satisfactory service. The lumber used is kiln-dried hardwood, the exposed parts being built of strong, solid oak. Choice of either fumed or glossed golden finish. Mention finish you desire. The seat rests upon five resilient springs, which are supported on tempered steel bands to prevent sagging. The filling used is tow and cotton felt. The entire back as well as the comfortable seat is upholstered with imitation Spanish brown leather. The back is divided into two panels, the lower one embellished with straps as illustrated. Observe also how the Mission pattern frame is enhanced by the attractive cut-out design.

MEASUREMENTS of this rocker follow: Height of seat from floor, 17 in.; height of back from seat, 26 in.; height of back from floor, 40½ in. The seat is 13 in. deep and 19 in. wide. The width over all is 28 in. These dimensions are generous in size so that you are assured of obtaining a rocker that is not skimmed in any particular. Our guarantee protects you absolutely. Send for this rocker upon approval, and if it does not please you in every way, you may return it at our expense. See page one of this book for our liberal credit terms. Shipped promptly from our Chicago warehouse. Shipping weight, about 43 pounds.

GOOD MERCHANDISING is no "trick," but intelligent, hard work, properly applied. It consists of foresight and creative ability so combined as to gain the results desired. For over three score years we have studied the merchandising question from every angle with a view toward the presentation of desirable household goods at popular prices. Our great success in this field is proof positive that we know what the public wants and that we can offer it at prices and on terms that appeal to all. The rocker shown on this page is an example at first hand. It is not only a splendid piece of furniture for the home, strong and durable, but is offered at a remarkably low figure and on easy-to-pay credit terms as shown on page 1 of this book.

THE CONSTRUCTION

of this rocker is as follows: Frame is made entirely of kiln-dried hardwood, the exposed parts being of genuine solid oak, with bent elm rocker runners. Finished golden. Upholstered in imitation black leather, which resembles the genuine. There are four springs in the seat, supported on steel bands and the upholstery in the back is likewise reinforced with steel bands. Height of seat from floor, 17 inches, height of back from seat, 26 inches, height of back from floor, 40 inches. Seat measures 19x19 inches. Width, over all, 29 inches. Observe the neatly embossed front posts, the shapely arm rests, comfortable side wings and head rest. Comes in wood fibre crate packed to insure low freight rate. Shipping weight, about 40 pounds.

LOW PRICE alone for an article does not necessarily mark it as a bargain. Beauty—and in furniture—comfort must also be in evidence. In this chair handsome appearance and comfort are combined with low price to such good advantage that immediately it is marked as a real money-saving bargain. We have always been known to offer these bargains, the kind that assure substantial savings to the many thrifty people who buy from us. Order this chair, you will find this saving to be well worth while, especially when you stop to consider the long period of satisfactory service you will derive from it.

THE FRAME on this handsome rocker is made in a very substantial way. It is constructed throughout of carefully selected and seasoned solid oak. Has broad arms. Comes in the popular golden or fumed oak finish, at prices quoted below. There are six strong springs under the seat. The rocker is well upholstered in imitation Spanish brown leather, which is an exact duplicate of the real leather and wears just as well. Seat is 20x20 inches in size. Height is 41 inches. Height from seat to top of back is 23 inches. Arms 4½ inches wide. Shipped promptly from Chicago. Shipping weight, about 40 lbs.

STRONG, WELL MADE ROCKER

Exposed Parts Made Of Genuine Solid Oak

ORDER THIS handsome rocker on approval. Place it in your parlor or in your living room. Seat yourself and let your body relax. After deriving the pleasure of sitting in it for a short while you will wish that all your furniture had the same comfort-giving qualities. Comfort is built right into every piece of furniture we sell. We realize that a chair can be ever so handsome in appearance, but if it has a hard seat and poorly constructed back the good appearance is lost and the chair is practically worthless. Not only does all our furniture embody comfort, however, but durable quality as well, the kind of quality that gives assurance of a long period of satisfactory service.

STURDILY CONSTRUCTED frame is of kiln-dried hardwood, exposed parts being made of genuine solid oak, with the exception of the bent runners, which are made of elm lumber. Choice of golden or fumed finish. Tow and cotton filling is used in the upholstery, the covering being imitation Spanish brown leather, which closely resembles genuine Spanish leather and will give satisfactory wear. Has five springs in seat supported on steel bands. Upholstery in back also reinforced with strong steel bands. Height of seat from floor, 16½-in.; of back from seat, 24-in.; height of back from floor, 38-in.; seat is 18x19½-in.; width over all, 27-in. Shipping weight, about 45 lbs. Chicago or Western New York shipment.

A NEW DESIGN in the nationally known "Push the Button and Rest" kind. These chairs are too well known to need extended description, but we consider this new design one of the most beautiful and desirable chairs of its kind. It is constructed of quarter-sawed oak and highly finished in polished golden color. The construction is high grade, in keeping with the favorable reputation that Royal Easy chairs have gained. For real comfort and lasting service it stands alone. You will make no mistake in selecting this big, handsome and comfortable Royal Easy chair.

UPHOLSTERED IN genuine black leather or genuine Spanish brown leather at prices quoted. It is built to fit the body perfectly and is an ideal chair for rest and comfort. Its operation is simple and positive—you simply press the button, conveniently placed in the arm rest, and the back automatically reclines with a gentle motion to the desired position, enabling you to relax and enjoy solid comfort in a manner not found in any other chair. Every member of the family will appreciate this chair.

CONSTRUCTION. This chair has eight resilient coil springs in the back and six in the seat, insuring the utmost comfort at whatever angle the back may be inclined. These springs, in connection with the well padded genuine leather covering fit and support the body perfectly in every position. The roomy seat is 22x20½ inches. The back is divided into two panels, the upper one serving as a head rest. The genuine leather upholstery extends over the rear portion of the arms as shown in the illustration. The adjustable foot rest holds a metal basket for storing books, magazines and newspapers.

30 DAYS' TRIAL. QUARTER-SAWED OAK ROCKER

In The Popular Golden Finish.
Imitation Or Genuine Black Leather
Upholstery At Prices Quoted Below

\$14.95

SOME ROCKERS are handsome, others are comfortable; this rocker successfully combines both these qualities with the additional one of being decidedly low in price. The quality of material and the workmanship throughout are of the best—logical reasons why we can give definite assurance of years of satisfactory service. The frame is strongly made of genuine quarter-sawed oak throughout and is finished in a way that elegantly shows the beautiful flake of the grain. The covering is of imitation black leather or of genuine black leather as you may select at the prices quoted. The back of this rocker is very artistically modeled with a wide shaped panel, which lends it much beauty.

THE SEAT is set with oil-tempered springs and filled with the best materials. The front posts and arms are well shaped and securely joined together and are additionally braced by a uniquely designed panel. Shipped promptly from our Chicago warehouse. Shipping weight, about 60 pounds.

Rocker Is Well Made Of Seasoned
Quartered Oak Veneer, Golden Finish

Price in Imitation
Spanish Leather

NOTE the sweeping lines of this large rocker, the broad roll arms and the high head rest back. By judging from the illustration alone you can immediately see that this rocker is comfortable, but to really know just how very comfortable it is you will have to sit on its cushion-like spring seat. Then, indeed, will you be favorably impressed. Other features too are incorporated into this chair, little distinctive improvements that make a chair desirable to those who appreciate good furniture.

THIS ROCKER is finely made and finished in golden oak. Its dimensions are as follows: Height of back from floor 39 inches. Height of back from seat 26 inches. Width of seat 21 1/4 inches. Depth of seat 20 inches. This rocker is finely upholstered in a durable brown Spanish imitation leather. Has heavy 3 inch roll arms. In every way this rocker is finely finished and strongly constructed. See page one of this catalog for our liberal credit terms. Shipped from our Chicago warehouse. Shipping weight, about 70 pounds.

THE COMFORT of the individual has been kept foremost in mind in the designing and construction of this big, comfortable rocker. The wide spring cushion seat, spring back, padded sides and broad arms invite you to perfect rest. The upholstering is of a quality of imitation Spanish leather that looks well and gives excellent service. This big rocker has very pleasing lines, is well constructed throughout and will be found a very desirable addition to your home. It is suitable for living-room, parlor or library—a rocker in which you may relax and rest. You will make no mistake if you select this big, comfort-giving rocker, for it will give long service and be the favorite of every member of your family.

THIS ROCKER illustrated to the left is very well proportioned and constructed in such a way as to render very satisfactory service. The materials are all dependable and will wear well. Another feature of importance is found in the fact that this rocker is extremely comfortable, having nine springs in the seat and four springs in the back. The upholstery used is imitation Spanish brown leather. Measurements are as follows: Depth of seat, 19 inches; width of seat, 21 inches; height of back, 39 inches. Shipping weight, about 80 lbs. AN ATTRACTIVE ROCKER

\$17⁹⁵

Has Springs In
Back And Seat.
Wide Side Wings

REAL REST and genuine comfort is to be found in this big side-winged rocker. The well constructed frame insures long service. The pliable springs in seat and back, the large roll arms and wide side wings make this an ideal rocker for rest and comfort. It is big and roomy and just the right kind of a rocker in which to enjoy a book, a nap, or relax after the day's work is over. It will make a fine addition to your home furnishings. The exposed parts, such as runners and bottom of posts, are mahogany finish.

DESCRIPTION. This rocker is a very comfortable piece of furniture, it has nine springs in the seat and six springs in the back. The upholstery used is imitation Spanish brown leather, which looks like the genuine and wears very well. Dimensions are as follows: Width of seat, 21 inches; depth of seat, 19 inches; height of back, 39 inches. Observe the nicely rounded arm rests and the comfortable side wings found in this design. The owner of this rocker will be well pleased. Shipping weight about 80 pounds. No. 96A8. Price..... **\$17.95**

Tell Us To Send It To You. It Is A Big Bargain

IN MUSEUMS OF ART

we see a rocker that was used by Washington, a chair from the palace of Napoleon, the bed in which Lincoln slept, and pieces of furniture that were seen in the houses of the world's famous men and women. In your own family no doubt there are articles with which you would refuse to part because these are "heirlooms"—relics, as it were, used by your grandfather or great grandfather, perhaps. Some day your children will feel the same about the furniture that you have and that they remembered from their childhood. That's a good argument in favor of substantial, durable furniture such as the elegant, luxurious rocker shown above. It will give years of satisfactory service, and is an article that future generations will cherish and admire. This is an exceptionally fine rocker at the low prices quoted, and because it is such a splendid value we are devoting an entire page to exploit its meritorious qualities. Read the detailed descriptions in the paragraph to the right and you will marvel at the possibility of this great record-breaking offer.

FEATURES OF THIS ROCKER.

Observe the luxurious, comfortable head roll between the two impressive double-ruffled wings, the soft diamond tufted back, the handsome ruffling around the front, joining the great big roll arms into a symmetrical design. Front is set off by the single row of ruffling just below the seat. Has NINE SPRINGS IN THE SEAT, and is expertly filled with tow, cotton and hair. Is also equipped with strong coil rocker spring. The frame is made of kiln dried hardwood with handsome carved claw feet; and the rockers, platform base, and all exposed wood parts are finished in rich mahogany color. Seat is 17 inches from floor, height of back from seat 27 inches, depth of seat 19 inches, width of seat 22 inches, width over all, 35 inches. Shipping weight about 90 lbs.

TWO EXTRA FINE OVERSTUFFED ROCKERS

\$29⁸⁵

↑ Moleskin Upholstered ↑

A FINE ROCKER

of unusual comfort-giving qualities. The frame is well constructed of seasoned lumber and exposed parts are finished a dark brown mahogany color. The seat measures 20x21 inches, and the back 25 inches above the seat. The roll shaped overstuffed arms add to the comfort of this desirable rocker. The covering used on this big overstuffed rocker is dark brown Spanish Moleskin imitation leather or genuine Spanish brown leather. Moleskin is the highest grade imitation leather used in furniture upholstery. When ordering be sure to state upholstery wanted and give correct catalog number. A substantial rocker that will give excellent service. Flax, tow and cotton filling in generous quantities is used in seat, back and arms, adding to the luxuriousness of this rocker. To sink into its depths means rest and relaxation to the fullest extent. Order this chair and see for yourself just how very comfortable it really is.

THE SPRINGS

are an important item in the construction of a rocker of this kind. This massive, substantial rocker contains nine deep 9-inch resilient springs in the seat and 10 6-inch pillow springs in the back, as shown in the small illustration, covered with a generous filling which insures perfect comfort. Shipped set-up in a substantial crate to insure good delivery. Shipped promptly from Chicago. Shipping wt. about 105 pounds.

OVERSTUFFED rocker of fine proportion and attractive style built for real service as well as comfort. The frame is made of selected hardwood with exposed parts in dark mahogany finish. It is very substantial in every way, big, roomy and inviting in appearance, an exceptionally good value at the price we charge. It is finished in an excellent manner, has deep upholstery, broad roll arms and restful side wings. Seat measures 20x21 inches and back is 25 inches high above seat, with wide deeply padded side wings. Real comfort is experienced the moment you sink into the deep upholstery of this big, spring-filled seat. The thick, soft padding of flax, tow and cotton in arms, wings and over the deep flexible springs in seat and back makes this an ideal rocker for real soothing rest and relaxation. The graceful lines and fine workmanship make this a very attractive rocker. It is covered with heavy, dark brown Spanish Moleskin imitation leather or genuine Spanish brown leather. When ordering be sure to mention upholstery wanted and give correct catalog number. Moleskin is the highest grade imitation leather used in furniture upholstery.

Credit Terms On Page 1

FINE SPANISH LEATHER

\$27⁸⁵

Overstuffed Rocker As Shown
Seat Contains Nine Springs
Supported By Steel Bands.
A Very Luxurious Rocker.

Large Side Wings And Pillow Head Rest

COMFORT ASSURED. When we tell you that this is one of the most comfortable arm rockers that we have ever offered we mean just that. But no amount of assurance on our part will be half so convincing as the actual experience of reposing into its inviting depths. The liberal filling, the flared roll arms, pillow head rest and side wings all contribute to its great comfort-giving qualities, and then besides remember that it is so large and roomy that you can relax in this rocker to the utmost. The dimensions quoted below will give you some idea regarding its liberal proportions.

SUBSTANTIAL in construction is this splendid piece of furniture. The frame is very rigid, the exposed parts as well as the runners being finished in mahogany. The upholstery is genuine Spanish brown leather which possesses such an elegant appearance and likewise will give no end of service. The seat possesses 9 springs, supported on steel bands. The back, likewise, is supported over resilient pillow springs. No expense has been spared in its construction to make it a rocker that will endure hard service. This fact will be demonstrated by actual usage.

A GREAT VALUE. With all of the great points of advantage possessed by this model it is sold at so low a price that you will marvel how we do it. The answer is found in our stupendous purchasing power. Measurements are as follows: height overall, 37 inches; height of seat from floor, 15½ in.; height of back from seat to top, 27 in. Seat measures 20 in. wide and 20 in. deep. Extreme width from arm to arm, 35 in. Shipped from western New York State or from our Chicago warehouse. Shipping weight, about 100 pounds.

WELL MADE, liberal size, gracefully proportioned rocker, just as shown in the illustration. Observe the pleasing contour of its design, see what an attractive appearance it presents; then send for it upon approval and we know that you will be simply elated with your selection. Then you can pay for it according to our credit terms as explained on page one of this catalog. For full details covering the construction of this rocker we refer you to the following paragraphs. Read every word carefully for a full and complete understanding of the many advantages of this model.

THE SEAT contains 9 coil springs, supported on strong, steel bands. The back likewise is supported over resilient pillow springs. The exposed parts of the frame and the runners are finished in mahogany. Upholstery is genuine Spanish brown leather, known for its superb wearing quality as well as its rich appearance. It has large side wings, substantially made. The artistic style of this fine rocker will appeal to those of refined taste who also enjoy solid comfort in their home. Look at the illustration, then picture this splendid piece of furniture among your own home surroundings. It is sure to appeal to you.

IS ROOMY. The roominess of this rocker is an assurance of comfort to the occupant, but can be appreciated only after you have had this rocker in your home and put it to the actual test of usage. The extreme height is 40 inches and is 35 inches wide across the arms. The spring seat is 20x20 inches in size. From these measurements you can readily judge that it is a piece of furniture of generous size. But don't take our word for its points of merit—order it and judge for yourself. This rocker will be shipped either from our Chicago warehouse or from Western New York. Shipping weight, about 100 pounds.

FINE MORRIS ROCKER

With Adjustable Back And
Foot Rest. Five Springs In
The Roomy Seat. Choice Of
The Two Coverings Quoted

THIS EXCELLENT ROCKER with its graceful lines is restful to the eye and restful to the body as well. After a day of hard work, sink into its roomy depths, place your hand on the knob at either side, give a slight turn and the back reclines to the position you desire. Stretch your limbs and recline with comfort, using the foot rest provided for this purpose. The large illustration shows back reclined and foot rest extended. Small illustration shows back erect and foot rest folded underneath the seat, entirely out of sight when not in use. Frame made entirely of kiln-dried hardwood, exposed parts finished in imitation mahogany. Choice of upholstery quoted below. State covering desired. There are five springs in the seat, supported on steel bands, and upholstery in back is likewise reinforced with steel bands. Back has curved center rail.

MEASUREMENTS: Height of seat from floor, 16 in.; of back from floor, 26 in.; of back from floor, 39 in. Seat measures

19 1/2 x 19 in.; width overall, 29 1/2 in. Many articles of furniture, including rockers, are advancing in price to such an extent that we advise immediate buying if you want to obtain the advantages of the present market prices. Shipping weight about 60 lbs.

THIS OVERSTUFFED ROCKER

Has Adjustable Back As Well As
Foot Rest. Wood
Parts Finished
In Mahogany

Price Imit. Black Leather

CONSTRUCTION. Frame made entirely of kiln-dried hardwood, exposed parts finished in attractive mahogany color. Choice of imitation black leather or imitation Spanish brown leather upholstery at prices quoted. Tow and cotton filling placed over five springs in the seat. These springs supported on steel bands, as is upholstery in back, this method of construction lessening the possibility of sagging. Ruffling across top of back and seat front, set off on either side by attractive rosette. Back divided into two sections as shown.

BACK RECLINES by means of automatic spring and knob reclining adjustment on either side of rocker. Merely turn knob to adjust back to position you prefer; not necessary to leave seat to adjust back. Foot rest may be folded underneath seat entirely out of sight when not in use.

Height of seat from floor, 16 in.; height of back from seat, measures 27 in.; height of back from floor 38 in. Seat measures 20 1/2 x 20 1/4 in.; width over all, 31 in. Ship. wt. about 70 lbs. No. 95R5, Imitation Black Leather. Price. **\$19.65**

THE STYLISH HOME leans toward the newer adaptations of period furniture. That is why you will find in the well appointed, modern home today, representative Windsor Furniture conceived in the old Colonial days. This artistic rocker, and the chair to match (shown below), are representative pieces of the Windsor style and will be sure to appeal to the man or woman who delights in furnishings for the home that equally combine the desirable qualities of beauty and comfort as well. These pieces are substantially made. The oak rocker and chair are constructed of seasoned solid quarter-sawed oak in the rich and serviceable fumed finish. These pieces may also be secured in stunning dull rubbed mahogany finish, if desired. When ordering be sure to state whether you desire chair or rocker, or both, specify finish you wish and also kindly give correct catalog number as quoted below. Observe the attractive, shapely center back panel, the turned spindles, artistic arm rests and neat, strong stretchers possessed by both of these handsome pieces.

YOUR GOOD TASTE is reflected in the furnishings of your home. They need not necessarily be expensive to make your home comfortable and attractive, if care is exercised in the selection. Moderately priced, attractive furniture may be secured that will add to the enjoyment and happiness of every member of your family. Hartman's liberal credit terms make it possible for you to secure better furnishings, more attractive and desirable articles, than you would probably buy if you had to pay the full amount of cash at the time of purchasing. Our plan enables you to enjoy the furniture while paying for it in easy and convenient amounts. The rocker shown to the right is of unique and neat design. It is Hoop-Back Windsor style, similar in design and proportions to the original on exhibit in East Anglian Galleries in London, England. It has been faithfully reproduced by one of America's leading chair manufacturers and is offered to our customers at a very reasonable price and on our well known liberal credit terms. Lovers of antique or period style furniture will welcome this rocker, or arm chair, to their home.

THIS ROCKER is in the Hoop Back Windsor design. It is made of seasoned hardwood in rich mahogany color with satin-finish. The legs, stretchers, arm posts and spindles are all neatly turned and finished. The arms are continuous and form an extra brace for the hoop back. The saddle shaped seat is 22 in. in width. We can furnish an arm chair of same style, construction and size to match this rocker at the price quoted below. When ordering be sure to state whether rocker or arm chair is wanted and give the correct catalog number. Shipping weight of rocker or arm chair, about 45 pounds. Shipped promptly from Chicago.

6 PIECES

FOR THE LIBRARY

Made Of Seasoned Solid Oak

W strongly recommend the purchase of this complete library set if you desire a room-full of handsome furniture at a sensationally low price. Think of being able to secure six artistic arts and crafts designed pieces for so small a sum! The complete set is made of solid oak in a rich brown waxed Mission finish—all patterned after the same style to correspond perfectly. THE TABLE measures 30 inches high, and has a 42x26-inch top. Observe the handy book shelves, which are 9½ inches wide, and the sturdy 1½-inch square front posts, fitted with domes of silence. ARM CHAIR AND ROCKER match perfectly. Has quartered oak arms. Size of seat, 19½x18 inches. Height of back from seat, 22 inches. Height overall, 38 inches. Size of front post, 1½x2½ inches. Arms, 3½ inches wide. Seat and back upholstered with imitation Spanish brown leather. Has comfortable spring seat.

RECEPTION CHAIR. Size of seat, 16x14 inches. Height of back from seat, 20 inches. Height overall, 37 inches. Front posts, 1½ inches. Seat and back upholstered with imitation Spanish brown leather. Seat has soft luxurious springs. Has quartered oak arms. TABOURETTE AND BOOK BLOCKS. Tabourette has panelled sides, is 13 inches high and has 12x12-inch top. Book blocks measure 7½ inches high with sturdy base made of 2-inch stock. See page one for credit terms. Complete suit, packed in one crate, weighs about 185 pounds.

 Fumed Finish**

ARM CHAIR AND ROCKER

are made of solid oak, fumed finish. Seats have six springs with wood fibre, tow and cotton jute filling. Upholstered with imitation Spanish brown leather. Distance between arms, 19½ inches. Depth of seat, 19 inches. Height of back from seat, 25½ inches. Total height, about 37 inches. Matches other pieces of this set.

MAGAZINE RACK has four shelves as illustrated. Stands 38½ in. high. Each shelf measures 10½ inches deep and 15 inches wide. Strong screw construction and very rigidly built. Observe the attractive side panels used on this magazine rack which correspond in design with the panels used on the table, chair and rocker. Made of solid oak in the popular fumed finish.

LIBRARY TABLE made of solid oak, fumed finish. Table top measures 24x36 in. Easy sliding drawer measures 14½x13½ in. Drawer is fitted with round wooden drawer pulls. Legs measure 1½ inches square. End shelves are 6½ in. deep and measure 18 in. in length. Connecting shelf underneath is 5 inches wide and measures 16½ inches long. Has 3½ in. rim all around.

TABOURETTE is likewise constructed of seasoned solid oak in fumed finish. Is of correct Mission design, the straight line effect prevailing throughout. This tabourette stands 18½ inches high and the top is 12x12 inches. The four legs are securely braced by cross-stretcher construction which are screwed to the legs. This tabourette is handy for jardinières, statues, etc.

\$36⁹⁵

Upholstered Back And Seats

Made Of Quarter-Sawn And Solid Oak

EXCEPTIONAL elegance is apparent in every line of this splendid suit. The quarter-sawn oak lends the beauty of its richly figured grain and the brown fumed finish adds its charm to the general effect. All the pieces are unusually massive, making them very impressive in appearance. This is an unusual bargain. Be sure to take advantage of it.

TABLE is built of solid oak, with top 24x36 inches in size. Book shelf is 7 inches wide. Height from floor is 29 inches. It is of neat Mission design and made to match the other pieces of this set.

ARM ROCKER is made of solid oak with quarter-sawn oak top panel and arm rests. Seat is 18x19 inches. Width over all, 24½ inches. Height of back from seat, 21½ inches. Bent elm runners.

SIDE ROCKER is carefully constructed of solid oak with quarter-sawn oak top rail; the seat is 16x16 inches in size; width over all is 17 inches. Height is 33¼ inches. Matches other pieces in this set perfectly.

ARM CHAIR is also splendidly made, quarter-sawn oak being freely used in its sturdy construction. Stands 37 inches in height. Back and seat are well upholstered, as shown in illustration.

TABOURETTE is 16½ inches high with 10-inch square top, made of solid oak. Book blocks included are very useful and are heavy enough to support a liberal number of volumes.

SIDE CHAIR of quarter-sawn and solid oak. Stands 36 inches high, with seat 16x16 inches. Fitted, same as table and other chairs with noiseless glides. Upholstered with imitation Spanish brown leather. A comfortable chair.

BARONIAL BROWN FIBRE REED ROCKERS

Credit Terms Shown On Page 1

Facts Concerning Our Hand Woven Fibre Reed Furniture

CONTRARY to former impression—that fibre reed furniture is restricted mainly to use in the spring and summer months for the sun parlor or veranda—it is now the case that fibre reed furniture is universally recognized as the ideal "year round furniture." Discriminating people appreciate more than ever the utility and decorative features attainable with fibre reed furniture. It radiates comfort, and cheerfulness. Our reed furniture is all hand made. The material is a strong, pliable fibre made by a patented process and specially treated. It is far superior to reed, inasmuch as it will not break or split. The fibre is wound by hand on hardwood frames of durable construction. Long and satisfactory service is thus assured. The first finishing coat consists of a special glue size preparation which makes the fibre firm and protects it from crumbling. Several coats of high grade varnish especially prepared for this furniture is then applied. The result is a clean, smooth and lasting finish which can be washed or easily kept clean with a damp cloth.

This Rocker Has Removable Cushion Seat Upholstered With Floral Pattern Cretonne

This Rocker Is
Finished In A
Durable
Baronial
Brown

THE GRACEFUL lines, the assurance of comfort and the attractively patterned cretonne seat and back covering of this reed rocker make apparent the fact that it is just the kind of rocker for you to have in your parlor, living room, library, sun parlor or den. Frame is well made in every respect of strong hardwood, durable construction, over which is woven pliable fibre reed, which is treated by a secret scientific process whereby it is rendered practically indestructible. If you desire a rocker that will give you service of a very satisfactory sort, at a price low enough to be within easy reach, this is the rocker to buy.

COMFORT and artistic beauty are both embodied in this rocker. It is hand woven of fibre reed and finished in the popular Baronial brown color. Upholstered with floral design cretonne. The removable cushion seat measures 18x20½ inches. Height of back from seat, 21½ inches; height from floor, 17 inches. Arms are 4¾ inches wide. Width over all is 32 inches. Removable cushion pad seat is unusually comfortable. Has strong fibre wound posts, arms and stretchers. Shipped from Chicago or factory near Chicago. Shipping weight, about 25 lbs.

VERY MODERN FIBRE REED FURNITURE

**Furniture Suitable For Use In The Sun Parlor,
Library, Porch Or In The Living Rooms.**

**Well Constructed, Light And Strong,
Sanitary And Very Serviceable.**

No. 114B26
Price \$12.85

THIS FURNITURE is designed especially for sun parlor or living room. It is well constructed, the frame being made of kiln-dried hardwood stock reinforced to withstand hard usage. Seats and backs are hand woven fibre reed. It has the advantage of being light and strong. Is easily moved about, sanitary and will give long and satisfactory service. All of the pieces on this page are shipped at once from factory near Chicago or Chicago warehouse.

No. 114B25
Price \$12.95

ARM CHAIR. The frame of this chair is made of kiln-dried hardwood stock, substantially re-inforced at all places subject to greatest strain, and is doubly staked throughout insuring maximum strength and rigidity. All legs are finished with brass tips and front legs have artistic rattle-ball ornaments above brass tips. Seat is also reinforced. Posts and braces hand wound with selected fibre reed. The form fitting arms with wide flare top extending all around the back make this an unusually comfortable chair. Total height, 36 inches. Height of seat from floor, 15 1/2 inches; width and depth of seat, 21 1/2 inches. Width across arms, 30 inches. Finished in a beautiful Baronial brown color. Shipping weight, about 26 lbs.

THE SETTEE

illustrated above has a frame made of kiln-dried hardwood stock, re-inforced with cross stretchers and 28 braces. Double staked throughout. The roll extending entirely around top tapers to a point at bottom of legs. The eight legs are strongly braced, fibre wrapped and finished with brass tips. Front legs have rattle ball ornaments. Fibre woven seat, back, sides and front with diamond shaped designs in back and sides. Width across arms 64 inches; across seat 60 inches; height of seat from floor 17 inches; depth 20 inches. Total height 35 inches. Shipping weight, about 58 pounds.

No. 114B31. Settee price \$23⁹⁵

ARM CHAIR

to match other pieces is of the same general construction with tapering roll extending around top and down front legs. Legs and cross stretchers are securely fibre wound. Has woven fibre seat, sides and back with diamond shaped design in back and sides. Width of seat 19½ inches; depth 19 inches. Height from floor 17 inches; total height, 33½ inches. Width across arms 27 inches. We particularly wish to call your attention to the low price at which we offer this attractive arm chair. Shipping weight, about 30 pounds.

No. 114A23. Arm Chair, price \$14⁷⁵

THE ROCKER

is a very well made piece of furniture, correctly proportioned from the standpoint of style as well as comfort-giving qualities. Has a hardwood frame securely re-inforced and double staked throughout. The seat, back and sides are neatly woven fibre reed with diamond shaped design in back and sides. Large roll extends all around top, arms and legs, tapering to a point at the runners. Finished in the rich Baronial brown color to match the other pieces. Width of seat 19½ inches; depth 19 inches; height of seat from floor 17 inches; height of back above seat 19½ inches. Width across arms, 27 inches. Ship. wt. about 30 lbs.

No. 114A22. Rocker, price \$14⁹⁵

THE SWING

The seat, back and arms of the swing are substantially the same as the settee with diamond shaped designs woven in the back, sides and large roll extending all around top. Seat, back and sides are woven fibre over a re-inforced kiln-dried hardwood frame. Has a 5-inch fibre apron in front. Chain connections consist of four irons rigidly attached to bottom of swing. Four strong 8 ft. chains complete with hooks are included. Width of seat 60 inches; depth 20 inches. Height of back above seat 20 inches. Total length 64 inches. Finished in rich Baronial brown color. Shipping weight about 60 pounds.

No. 114B32. Swing, price \$29⁷⁵

CENTER TABLE

The frame is made of selected hardwood stock substantially re-inforced and braced to give rigidity and strength. Has fibre reed woven circular top and lower shelf, surrounded by a braided edge as shown in the cut below. The top is 26 inches in diameter and neatly woven. It may be ordered alone or in connection with any of the other pieces shown on this page. Our price is exceptionally low for this table. Shipping weight, about 25 lbs.

IMPROVED telescopic four-passenger lawn swing, made entirely from selected hard-
wood. Comes assembled in one compact bundle and can be set up in
10 minutes. Has easy motion noiseless malleable bearings. Seat and back can be
adjusted to two positions with perfect ease and platform can be raised, forming couch.
Center brace under seats add rigidity to the seat and platform. Also has a center support under
platform. Bottom brace put on with barbed coated nails and seats have strong supports
across back. Slats are heavy and supporting frame is made from 1x4-inch stock, giving
greater stability against the motion of swing where strain is greatest.

No. 347R12. Lawn Swing. Price.....**\$8.95**

A LONGER GLIDE results from the construction of this swing. Hanging ful-
crum rods from extreme top gives a length of motion equal
to a 9-foot derrick with the average construction and at the same time rendering this
derrick stronger and more compact by reducing height to 8 feet. Square notches on foot
platform reduce friction. Width of seat between arms, 35 inches; extreme height, 8
feet; fulcrum rod, 7 feet; spread 8 feet 6 inches by 5 feet. The derrick is double coated
in red enamel; the seats being natural varnish finish. Shipped from factory near
Chicago. Ship. weight about 110 pounds.

ORDER A SWING AND ENJOY YOUR PORCH

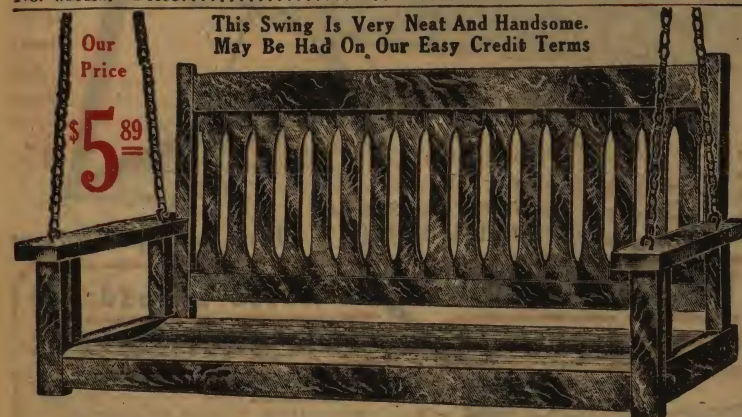

Solid Oak Foot-Propelled Porch Swing

Comes In The Very Attractive Fumed Finish

MADE OF solid oak, thoroughly seasoned and kiln-dried. Comes in favorable climatic conditions. It is furnished complete with footrest attachment and footrest chains and ceiling hooks, as shown in the illustration. Has end panels and wide arm rests. The arm rests, in addition to being of bolted construction, are fastened with 2-inch heavy screws. This swing has a tie bolt running completely through the end. The method of building this Automote is such as to produce a strong, braced construction. This swing is self-propelling and has ample space back of footrest to step in and out of swing. The footrest propels the swing and the slightest pressure of the feet starts it in motion. Has a shaped seat, as illustrated.

THE EXTREME width of this swing is 48 inches, the seat measuring 17½ inches wide, the distance between the arms is 43 inches, back measures 22 inches above seat, arms measure 9 inches above seat, length of arms 21 inches, width 3 inches. The seat construction is strengthened by the use of four braces. It is constructed of 1½-inch rounded slats. Footrest drop is 17 inches, width of footrest 13½ inches. The footrest chains which impart added steadiness insure easy, smooth motion. This swing will be found upon inspection to embody high grade materials and expert workmanship. Both of these qualities assist, materially, in rendering the long period of satisfactory service, which every thrifty person desires, no matter what the article purchased may be. Shipping weight, about 45 lbs. Shipped promptly from Chicago warehouse.

SUBSTANTIAL construction. Made of seasoned hardwood. It has full rod and bolt construction throughout. The chains which support it being attached direct to iron rods which carry the entire weight of swing. Its length is 4 ft, and the shaped seat is 18 inches deep. Height of top of back from seat is 21 inches; height of arms, 8½ inches above seat. Width of arms, 2½ inches. Especial attention is called to the artistically shaped and closely fitted banisters in the back which add greatly to its appearance. The swing comes complete with heavy iron ceiling hooks and extra heavy galvanized Keystone chain of unusually great tensile strength. It is furnished in fumed oak finish. Shipping weight, carefully packed, about 50 pounds.

No. 346B11. Price..... **\$5.89**

A Strong Solid Oak Porch Swing

Extreme Length Is 50 In. Has A Non-Tipable Device

THIS SWING is made of solid oak and is of entirely bolted construction, making it very strong and serviceable. The extreme length of the swing over all is 4 ft. 2 in. Inside length is 3 ft. 6 in. Height of back from seat, 23 in.; depth of seat, 19 in. It is fitted with a slatted back, as shown in the illustration and has a shaped seat which makes it very comfortable. A feature of this swing is the extended base frames to which the chains are attached, giving it added strength. It is also equipped with a metal clip device which makes it practically impossible to tip over. Comes complete with all chains and ceiling hooks for hanging. Finished in waterproof fumed oak. Each swing is carefully packed for shipment. For anyone desiring a swing that will be sure to render excellent service for a long time; also one that is very reasonable in price this is the swing we recommend. Shipped promptly from Chicago warehouse. Shipping weight, about 53 pounds.

The Full Bolted Construction
Of This Swing Assures Strength
And Reliable Service.

54 Inch Solid Oak Porch Swing

Has 8 Feet Chains Strongly Fastened With Heavy Hooks

THIS MASSIVE SWING is very substantially made of solid oak. Comes in the handsome fumed finish, over which is placed a coat of shellac, which gives it a wax-like finish and successfully protects it against the elements. It is equipped complete with heavy galvanized chains and strong ceiling hooks. The chains are fastened to the swing with heavy hooks in such a manner as to insure perfect safety. This excellent swing is full bolted construction, the arms being attached with heavy 2-inch screws in a manner which gives definite assurance of their staying attached. Is made with full box frame seat, this seat being shaped to give the most comfort possible as shown in the illustration. This is an unusually good value for the money.

THE CHAINS are adjustable, measuring 8 feet. The back ends are paneled. The posts are made from 3-inch stock, the panels are all 2¾ inches in width and the rounded seat slats are cut from 2-inch lumber. The sides and back measure 18½ inches above the seat; the extreme width is 54 inches, the seat itself measuring 48 in. wide and 22 in. deep. The front posts are 23-in. long. Seat is braced by four stretchers. The top panel measures 3½ x ¾ inches, the bottom panels being ¾ x 4 inches, the front and back rails are about 3 inches in width. This swing is strongly made in a most substantial manner. It embodies expert workmanship and the best materials possible to put into a swing of this sort. Shipped from Chicago warehouse. Shipping weight of swing, crated, about 50 pounds.

No. 346C12. Price..... **\$9.97**

COMFORTABLE HAMMOCKS AT LOW PRICES

This Hammock Can Be Ordered With Or Without Canopy Or Stand At Prices Quoted

COUCH HAMMOCK is very luxurious, yet low in price. The seat frame is made of special steel angle iron with drop rails, gold bronze; galvanized round wire fabric, non-rusting combined with flat steel cross slats. Helical springs at one end. Adjustable head rest. Size 25x69 inches. Galvanized steel chains fastened to spring frame, securely connected with hanging chains at steel stretcher. Wind shield and ends, 8 oz. duck, \$2 in. high. Mattress made of combination filling. We cannot impress you too strongly with the splendid construction of this couch hammock.

STAND AND CANOPY

The standard is made entirely of heavy angle. Thoroughly finished to give entire satisfaction. Is finished with green, waterproof paint. Weighs about 40 lbs. The canopy is made of standard 6 oz. brown and white awning stripe with full scalloped braided edge all around. If hammock is ordered without stand we advise you to order ceiling hooks and rope under No. 347R3, price 45c extra. When ordering be sure to give correct catalog number. Weight of canopy, about 10 pounds.

THESE MODELS of Columbia Grafonolas are highly endorsed by us in every way. The pleasure that you will derive from the use of a talking machine can be realized only after having one in your own home. To thoroughly understand and appreciate the magnificent tones, perfect mechanism and realistic interpretation send for one on approval. We sell them on credit the same as our other merchandise. You pay a little down as explained in detail on page one of this money saving catalog. Then all you have to do is to send a little every month while you are enjoying the use of one of these Columbia Grafonolas. Select the one you want and send us your order at once. We know that you will be well pleased with it.

TYPE C-2 GRAFONOLA is fitted with an attractively shaped lid. It is complete with all the details of the modern disc Grafonola equipment. Cabinet is of mahogany or quartered oak veneer, golden finish, measuring 16 $\frac{1}{4}$ x 16 $\frac{1}{4}$ inches and 11 $\frac{1}{2}$ inches high. The motor is mounted on metal plate and is silent running. Has two-spring drive. Can be wound while playing. All exposed metal parts heavily nickel plated and is made with the new bayonet joint tone-arm of seamless tapered tubing. Speed regulator operated by graduated dial combined with start and stop device. Tone is governed by exclusive Columbia tone control leaves as well as by a variety of needles. Equipment includes new Columbia No. 6 reproducer and 300 varied tone needles. Shipping weight, about 52 pounds. **Price..... \$45.00**

A HIGH GRADE Phonograph that is exactly as shown in the illustration above. The cabinet is artistic in design and of pleasing proportions. It is 46 inches high, 19 inches wide and 20 1/4 inches deep. It is constructed of the very best kiln-dried woods, scientifically put together by skilled artisans. The case is made of five-ply veneer and will not warp, crack or split. All corner joints are securely glued and keyed, insuring long life and rigidity. This cabinet is furnished in the design illustrated and in the beautifully polished Mahogany finish, fit to grace the finest home. The front of the tone chamber has band-sawed grill-work in neat design. It is very highly finished and beautiful in appearance. The top is artistically shaped and has an automatic cover supporter. It is a first-class cabinet in every respect and will compare favorably in appearance with instruments sold at a much higher price. It has sanitary base, and legs are fitted with easy rolling casters. Doors have neat knob pulls.

THE MOTOR in a phonograph is an important part of it, for the successful playing of the instrument depends upon a steady, continuous operation of the motor. This "Regent" No. 100 Phonograph is fitted with a very reliable, smooth running, dependable double spring motor that will play four or five 10-inch records with one winding. It is mounted in a heavy cast steel frame, has silent running and positive contact bevel gears and is practically noiseless. It is so constructed as to require no care and runs at just the right speed to reproduce records faithfully, clearly and distinctly. It is out of sight in a dust-proof compartment. It is fitted with a nicely nickel-plated crank for winding and can be wound while playing. Another feature of our "Regent" Phonographs that will be appreciated is the convenient record rack, located in the lower part of the cabinet and providing storage space for a large number of records. This rack protects the records and enables you to select instantly just the one you want.

THE REPRODUCER, or sound box, used on this "Regent" No. 100 play Victor, Columbia, Pathé, Edison and other lateral and vertical cut records. By turning the sound box in other lateral position it will play Victor, Columbia or any other lateral-cut records. When turned to the horizontal position it will play Edison, Pathé or other vertical-cut records perfectly. You are not limited to the use of one kind of records on this fine Phonograph. It will reproduce the sounds of the human voice or musical instruments in a marvelously faithful manner. The tone chamber, or horn, is constructed of chemically treated, special wood that reproduces and amplifies the vibrations of the human voice in a wonderful manner. This instrument is fitted with a tone modulator, which may be set to play softly or with such volume as you desire. It may be operated while a selection is being played, thus imparting your own interpretation to the music.

30 DAYS' TRIAL. So great is our confidence in our "Regent" Phonographs that we fully guarantee them in every sense of the word, and in addition are willing to give you the privilege of testing it in your home for a period of 30 days. If it does not live up to our claims and you are not satisfied with it in every way, you may return it to us at our expense and we will refund any money that you have paid us on it or in freight charges. We could not afford to make this offer if we did not feel sure that this instrument will be found exactly as we claim, and that it will meet with your unqualified approval, once you have listened to it in your own home. When you have examined it, noted the high grade construction, artistic design and beautiful finish and listened to its wonderful tone reproductions, you will wonder how we can possibly supply such a fine instrument at such a moderate price and on such liberal terms. You can't afford to miss this chance to secure this instrument. Shipping weight about 130 pounds.

Equipped With An Improved Tone Modulator For Regulating The Volume of Sound.

Has a Powerful Double Spring Motor That Plays A Number Of Records With One Winding

State Finish You Desire

IN SELECTING a phonograph there are many things to be considered. First of all you want a dependable instrument—one that will reproduce the sounds of the human voice or musical instruments with the greatest fidelity and excellence. Secondly, you want an instrument that will not confine you to one style of record, but will play the different makes of disc records on the market. And last of all you want a beautiful case that will be an ornament in your home as well as a means for entertaining. All these features are embodied in this No. 135 "Regent" Phonograph, shown on this page, and we have made the price so low and the method of payment so easy that you can no longer deprive yourself and family of the pleasure and enjoyment this instrument will bring you. Study the illustration and read the following description carefully and then order this phonograph sent to you for 30 days' trial in your home. A trial will convince you of its merits and your investment will pay big returns in pleasure.

THE CABINET is handsomely designed and beautifully finished. It has graceful Queen Anne Period legs, and artistically shaped top. "Regent" cabinets are the last word in the skilled cabinet maker's art. The case is made of five-ply veneer and finished with exquisite care. It may be had in highly polished mahogany, or handsome quartered oak in golden finish. State the finish you desire. The height of the cabinet is 47½ inches, width 19½ inches and the depth is 20½ inches. It is a handsome piece of furniture with graceful lines and piano finish. The lower portion of the cabinet is fitted with our improved record rack, which holds 72 records, protecting them from injury when not in use, yet so constructed that you may instantly select any one you desire. You will find this a decided advantage over machines not provided with a similar device. Top is fitted with an automatic cover supporter, which holds the cover rigidly out of the way while changing records or needles.

No. 269A18. Hartman's No. 135 "Regent" Phonograph, Price **\$86.75**

PLAYS ALL RECORDS of disc design, such as Victor, Columbia, Edison, Pathe or any other vertical or lateral cut records. A simple turn of the reproducer to a different position enables you to play the different makes of records now on the market. (See figures 1 and 2 on a previous page.) This is a feature of great importance, for you are not limited to one make of records in making your selections. You can change the position of the reproducer for different styles of records instantly and with no effort whatever. Another important feature is the tone control, with which "Regent" Phonographs are equipped. This device enables you to play so softly as to scarcely be heard in the next room, yet with the same fine tone qualities as when played with loud volume. This modulator may be operated while playing a selection to give proper interpretation to the music. The horn, or tone chamber, is constructed of chemically treated wood and, like the sounding board of a fine violin, gives volume to the sound.

OUR GUARANTEE protects you and insures your receiving an instrument that will please and satisfy you. We assume all risk—you take no chances. The very fact that we are willing to send you this handsome "Regent" No. 135 Phonograph for 30 days' trial in your own home should be convincing proof of our confidence in the quality of the instrument and its ability to please and satisfy you. If it does not, you are under no obligation whatever to keep it, but may return it to us and we will refund any money you may have paid to us or in freight charges. Don't miss this chance to add to the enjoyment and pleasure of your family by placing this beautiful instrument in your home. It will enable you to listen to the most famous singers and musicians of the world in the privacy of your own home at any time you desire. It will prove to be a never ending source of pleasure to you and your friends. Shipping weight, about 160 pounds.

State Finish You Desire

A BEAUTIFUL CABINET of rich, attractive design and high grade construction fit to grace the finest home. The case is built up of five-ply veneer stock and is furnished in your choice of Polished Golden Quarter-sawed Oak or Mahogany finish. When ordering be sure to state finish you prefer. The cabinet stands 50 inches high, is 21 inches wide and 21 1/4 inches deep. It is artistically designed, correctly proportioned and beautifully finished. The lower part of cabinet contains our improved record rack which will hold 75 records and protect them from damage when not in use. The neatly shaped top, or cover, is fitted with automatic cover supporter to hold it upright while changing records or needles. The cabinet carries just enough ornamentation to make it very attractive in appearance. A band-sawed grill of artistic design is fitted in the front of the tone chamber and adds to the beauty of the instrument without in the least obstructing the sound waves. Read the description of this phonograph carefully.

THE IMPROVED REPRODUCER, or sound box, used on our really wonderful instrument. It enables you to play Victor, Columbia, Edison, Pathé, Emerson or any other vertical or lateral cut records. On many instruments you can play only one style of record, and you are thus limited in your record purchases to the selections issued in that particular style. With a "Regent" Phonograph in your home you can play all kinds of disc records, thus giving you a much wider range of selections from which to choose. The change necessary to play the different styles of records is accomplished by simply turning the reproducer. The tone arm is correctly proportioned and balanced, and the sound chamber is constructed of chemically treated wood. It reproduces the sound of the human voice or of musical instruments with wonderful fidelity and accuracy, restoring every subtle shading of tone and expression.

State Finish You Desire

ANOTHER FEATURE possessed by "Regent" Phonographs that is worthy of your serious consideration is the Tone Modulator. This device enables you to regulate the volume of sound without in the least impairing its quality. With it you are able to play a record so softly that it will not disturb persons in the next room, or you may increase it to the full volume of sound of which the instrument is capable. You may set the modulator at any desired point, thus giving a uniform volume of sound, or the modulator may be manipulated while playing a selection so as to impart your own interpretation to the music. The powerful, silent, double-spring motor is as near perfect as mechanical and human efficiency can make it. Every part is made and fitted with care and precision, and the accurately cut bevel gears are practically noiseless. A perfectly designed governor gives an absolutely uniform speed to the turntable, thus preventing the discords that are sure to appear in variations in speed.

SEND YOUR ORDER for this big, handsome, high-grade "Regent" No. 175 Phonograph and give it a thorough trial in your own home. This is the only place to really decide whether it is the instrument you want. You will not be obligated in any way to keep it if it is not absolutely satisfactory in every detail. All we ask you to do is to give the phonograph a thorough trial. Examine the workmanship and finish. Play any records you desire; observe the beauty of tone, and how faithfully and accurately it reproduces every delicate shading of tone quality and variation of volume. Note the wonderful effect of the tone-modulator device. Compare the style, quality and finish with other instruments, and if you are not entirely satisfied return the instrument to us at our expense. If it meets with your approval and you consider it a really wonderful instrument, keep it and enjoy it while paying for it on our liberal credit terms. Shipping weight, about 180 pounds.

Large Record Rack
 In Lower Part Of
 Cabinet Will Hold
 One Hundred Records.

Sound Box May Be
 Instantly Adjusted
 To Play Lateral Or
 Vertical Cut Records.

UNUSUAL VALUE is offered in our No. 200 "Regent" Phonograph. The cabinet is one of the handsomest examples of woodcraft ever used in a talking machine. The graceful contour and well balanced proportions together with the delicate carvings on legs, posts and lower front apron, produce an effect that makes this cabinet supreme in point of beauty and grace. And the construction is just as substantial as the design is beautiful. The case is made of 5-ply veneer stock, with all corner joints glued and keyed, insuring long life and stability. It is of large size and imposing in appearance. The cabinet stands 61½ inches high, is 22½ inches wide and 23½ inches deep. The improved record rack will hold 100 records. The cover has an automatic cover support which holds it in an upright position while changing records. This beautiful instrument can be furnished in polished mahogany or quarter-sawn oak, golden finish. Mention the finish you desire.

THE REAL WORTH of a phonograph does not lie in a beautiful exterior, however, for the most important thing is its ability to faithfully and accurately reproduce every delicate shading of tone quality, every sound vibration and every variation of volume. In this you will not be disappointed in "Regent" Phonographs. The reproducer, tone arm and amplifying chamber has each been so carefully designed and harmonized with the other two that the result is a remarkably sweet, pleasing tone and the accurate reproduction of the original sound. Every inflection, every subtle shading of tone and expression is there, so that if you close your eyes you may readily imagine you are really in the presence of and listening to some great virtuoso. The reproducer on this instrument enables you to play either lateral or vertical cut records, by simply turning it to a different position. This is a distinct advantage over machines that play only one style of records.

IMPORTANT FEATURES In this No. 200 "Regent" Phonograph, in addition to those already mentioned, are the powerful motor and the tone control device. The silent-running double-spring motor will play five 10-inch records with one winding. The powerful springs furnish an abundance of power, and the perfectly designed governor insures an absolutely uniform turntable speed, thus eliminating the discordances sure to occur in variations of speed. The motor is equipped with a silent winding device, and may be cranked while playing. The tone modulator gives you complete control over the volume of sound. You may set the modulator at any desired point thus giving a uniform volume of sound, or it may be manipulated while a selection is being played to impart your own interpretation of the music. Keep these important features in mind: It plays all makes of disc records; plays five 10-inch records with one winding; has record rack for 100 records; has tone modulator.

OUR BINDING GUARANTEE protects you and insures to you a square deal. You may have this beautiful, high class "Regent" Phonograph sent to your home for a 30-day trial. Try it with any records you desire—Victor, Columbia, Edison, Pathé, Emerson—any lateral or vertical cut disc record, note its beauty of tone, its accuracy in reproduction, its majestic appearance in your home, and if at the end of 30 days you are not convinced it is all we claim and just the instrument you want, you are under no obligation to keep it. It may be returned to us at our expense and we will refund any money you may have paid to us or in transportation charges. If you are satisfied with it and want to keep it, you may pay for it on our liberal credit terms and enjoy it in your home while paying for it. Could any offer be more fair? We know that after you have placed it in your home it will prove a most welcome addition to your home appointments.

A BEAUTIFUL OVAL TOP LIBRARY TABLE

Comes In The
Golden Oak Finish
Or Popular
Mahogany Finish At
The Reasonable
Prices Quoted

THE STYLE of this artistic library table is such that it will please the discriminating purchaser in every way. Its rigid construction and strong lumber, its graceful Colonial lines and workmanlike finish all combine to make it a table much to be desired. In fact, it is one of the best library tables that we have ever offered at the price.

THE ILLUSTRATION was made from a photograph of the original and is a fair reproduction of the design—but does not really do it justice. For that reason we want you to send for the original to convince yourself of its great merit. Made of hardwood to which is applied the attractive imitation quartered oak, golden color or the mahogany finish. State finish wanted when ordering.

Massive and
Handsome**

A MASSIVE and very impressive appearing library table, substantially made of hardwood to which is applied a finish in imitation of quarter-sawn oak which very closely resembles real quartered oak in beauty of grain and coloring. It has a very large top measuring 28x48 inches finished with a very deep and attractive O. G. moulded rim. It is fitted with a drawer of liberal size which has two wood drawer pulls. This table is well made throughout, is very rigid and will give excellent service. The base is well braced by a broad shelf which serves the double purpose of shelf and stretcher. In addition to giving strength and rigidity to the table, this shelf will be found most convenient as a storage place for books, magazines, etc.

**Fine Solid
Oak Library
Table. Comes
In Golden Or
Fumed Finish**

IF YOU WANT an inexpensive library table that will surely please you, this is the table to buy. Never before have we been able to offer such a good, substantial table in strictly Mission style at such an extremely low price. You will know immediately upon looking at it that the quality is unusual for a table at so low a price, and you will greatly appreciate your bargain when you get it home. Is made of solid oak in the golden or fumed finish. We know what a rare bargain this table really is at this low figure, and you will find it so, too. Have us send this fine table to you on approval and if it does not please you we will gladly refund your money. Our legal binding guarantee of satisfaction is your protection. Take advantage of our liberal credit terms as shown on page one of this money-saving catalog.

DETAILS. The top measures 42x26 inches and is securely cleated and mortised to the box frame. There is a long easy sliding drawer fitted with two wood pulls. The long roomy shelf below is a very convenient feature and the panels at each end are most attractive, as may be seen in the illustration. All in all, it would be hard, indeed, to find a more handsome table in this particular style at any price. The correct lines of this table will appeal to all admirers of Mission furniture, and at our price it is a most decided bargain. You will be proud to have such an artistic table in your home and the usefulness of it is so great that in a short time you will wonder how you ever got along without it. See page 1 for credit terms. **Neat Library
Table Of Solid
Oak Construction
Golden Or Fumed
Oak Finish**

A SOLID OAK library table of substantial construction and very neat in appearance. It has well proportioned square corner posts which support the 40x26-inch top. Beneath the top is a large, easy sliding drawer which will be found very convenient for storing stationery, pens and pencils. At either end are provided magazine shelves of ample size, and a long shelf extends across the bottom, providing plenty of space for books, magazines and papers. This table will prove to be a most convenient and desirable piece of furniture for your home.

THE DESIGN is in Mission style, very neat and attractive, and it can be furnished in either fumed or golden oak finish at the prices quoted below. Be sure to state finish you desire when sending your order. This is a well-built table and will give excellent service. The prices at which it is offered are very moderate for a table constructed of solid oak in such a substantial manner. See page one of this book for our easy credit terms. Very Handy Bookcase And Writing Desk. Comes In The Golden Oak Or Mahogany Finish

THIS BOOKCASE deserves the earnest consideration of the man or woman who is in search of a real bargain. It is a combination bookcase and writing desk of unusual worth, from the standpoint both of appearance and service-giving qualities, as well. The illustration will surely appeal to you, but not nearly as forcibly as will the article itself. Once you have had the use of this substantial combination bookcase and writing desk in your home you will wonder how you ever managed to get along without it. May be purchased in golden oak or mahogany finish, as desired, at the prices quoted below. When ordering please be sure to give correct catalog number and also mention finish you prefer. This will save time and eliminate unnecessary correspondence. The bookcase compartment has four roomy shelves, providing ample space for five rows of books. The right hand side contains a convenient desk, above which is an artistically shaped mirror, as illustrated.

OTHER DETAILS. Above the mirror and on the desk fall exterior is a rich scroll design. The mirror is a good quality plain plate, measuring 12x10 inches. The glass door in the bookcase compartment is 12x44 inches. Height of bookcase, overall, is 65 inches; width, 35 inches; depth, 11 inches. The desk section is conveniently arranged with 5 pigeon holes and drawer. Desk fall measures 18x14½ inches and is fitted with brass lid stay. Compartment below desk section measures 17¼x17½x9½ inches, is fitted with shelf and upper part of door to this section is made to look like a drawer. Shipped from Chicago. Shipping weight about 125 pounds.

Oak Bookcase And Handy Writing Desk

A USEFUL article for library, den, living room or bedroom. The illustration gives you a very good idea of the fine appearance of this article, but you cannot tell, however, the large space that is provided and the wise provision made for keeping writing materials, stationery, bills, receipts, account books, correspondence files and other articles in proper order. You probably know how annoying it is to have to hunt for paper, pens or pencils when you want to write a letter or do a little figuring.

WITH THIS writing desk in your home you will have a definite place for each article and will know exactly where to look for it. In addition to being very convenient, this desk will add considerably to the attractiveness of the room in which it may be placed.

Solid Oak Bookcase And Writing Desk Has Beautifully Grained Quartered Oak Front

PEOPLE of artistic taste will no doubt appreciate the splendid appearance that is presented by this attractive piece of furniture. It is well made by master cabinet makers, in a way that assures long and satisfactory service. Everything possible in the way of fine finishing has been incorporated. The handsome embossed carving on front and outside of lid, the open effect design, these in combination with other important features serve to produce as fine a piece of furniture as could be desired. It will be found, too, to be a very useful combination piece of furniture for any home. Writing materials and stationery may be kept so as to be readily accessible. Order it on our easy credit terms. When you see the appearance of your room greatly improved you will wonder why you did not decide sooner to order this combination bookcase and writing desk.

WELL MADE of solid oak with carefully veneered front. Comes in the handsome golden finish that is so very popular. The finely decorated drop lid forms a handy writing desk when desk is opened. Has three roomy drawers below the desk. Bookcase has four adjustable shelves which, with the bottom (or 5th shelf), will accommodate a considerable number of volumes. The total height is 70 inches; width is 33 inches. Size of the plain mirror is 10x12 inches. This is a splendid piece of furniture in every respect. When you stop to consider the reasonable terms upon which we sell this bookcase and writing desk you should not lose any time sending us your order. Shipping weight, about 150 lbs. MASSIVE OVERSTUFFED LOOSE CUSHION SUIT

Upholstered In Tapestry,
Fine Velour Or In Genuine
Brown Spanish Leather

CHAIR AND ROCKER are companion pieces of the davenport shown below. Just a glance at their massive roll arms, seats and backs will indicate the comfort that is attendant, but to really appreciate their superiority you must see them in your own home. The frames of both are made entirely of kiln-dried hardwood with exposed parts handsomely finished in imitation mahogany. They can be ordered in choice of the upholsterings specified below. The filling is of soft material, making them very comfortable. They have loose cushioned seats which contain 9 springs. The dimensions of both the chair and rocker are as follows: Width, 33 inches; depth, 30 inches; height, 43 inches. Shipped from factory in Chicago.

**2 Pillows And Bolster
To Match Upholstery
Come With Davenport**

EVERY line and every curve of each of the three pieces in this suit betrays the touch of the master furniture craftsman. The upholstery is in harmony with the general construction and appearance of the hardwood frames. Each of the three pieces are fitted with loose removable cushions, with soft felt filling and containing finely tempered coiled springs. Great comfort is thus assured. The backs of the pieces are finely made of cane. Davenport is 69 inches long; 30 inches deep and 35 inches high. Contains 27 springs in the seat. Chair and rocker are both 22½ inches wide; 25 inches deep and 35 inches high. Each contain 9 springs in seat. Two pillows and bolster to match upholstery are included. We do not hesitate to recommend this parlor suit to you, because it has features that you would demand if it were made to your especial order. This parlor suit is upholstered after your order is received to insure your getting fresh, clean covering and will be shipped direct to you from the factory in Chicago. Order any or all of the pieces of this suit in your choice of three coverings.

THE FRAME

is strongly built. The arms, front legs, front rails and end panels are seasoned solid oak. There are 24 springs in the seat and 16 springs in the back firmly supported on steel crimp wires and securely tied at top. The filling in both seat and back is flax fibre with cotton top. Choice of golden or fumed oak. This davenport is upholstered after your order is received to insure your getting fresh, clean covering and will be shipped direct to you from the factory as soon as possible.

OPERATION

of this very attractive davenport will be found to be extremely simple. To change from davenport to bed, merely raise seat and back lowers automatically. To return to davenport, reverse the operation. Convenient, full-sized wardrobe under seat, allowing ample room for bedding. Length outside, 79½ inches; length inside, 71½ inches. Depth of seat, 20 inches; back, from seat, 20 inches. Total height, 36 inches. Seat is set off with plain band at front. Shipping weight, carefully packed, is about 160 pounds.

DISTINCTIVE

Mission style davenport. The frame is constructed of seasoned solid oak in choice of golden or fumed finish. Both seat and back are upholstered over steel crimp wire springs. These springs are covered with strong burlap. Large wardrobe box under entire seat will be found very convenient. Extreme length 79½ inches. Size of seat 71½x20 inches. Opens into a bed 71½x42 inches. This automatic davenport requires no mattress. Small illustration to the right shows the appearance of an automatic davenport when made up as a bed, although the frame shown in this illustration is not the one furnished with this davenport.

CONVERTED

to a bed very easily. By merely raising the seat a little at the front, both back and seat are unlocked and will lower to the level of a bed, at the same time automatically moving forward so that it is perfectly centered and balanced. A roomy wardrobe is provided under entire seat for storing bedding, pillows, etc. It takes but a moment to change this automatic from a davenport to a large bed measuring 71½x42 in. This davenport is upholstered after your order is received to insure your getting fresh, clean covering, and will be shipped direct to you from the factory as soon as possible. Shipping weight, about 150 pounds.

PARLOR SUIT WITH KODAV OR DAVENO

See Terms On Page One

Use Your Credit

WHEN YOU BUY a piece of furniture don't judge its value merely by the appearance it presents. Of course, appearance is an important factor in a piece of furniture, but no less important is the comfort that you should derive from it. A piece of furniture may be ever so good looking but if the necessary comfort-giving qualities are lacking, the effect of a good appearance is lost. Comes in the six handsome upholsteries listed below and in golden or fumed oak finish.

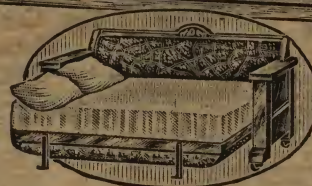

No. 143B48. 18-lb. Cotton Felt Pad Mattress, \$5.98.

No. 143B58. 30-lb. Roll Edge Cotton Felt Mattress, \$9.95.

THE DAVENO

or long davenport is an exceptionally fine piece of furniture. Well made in every respect it will give excellent service. The massive frame is made of solid oak and comes in the fumed or golden oak gloss finish. Has plain panels. The daveno is exceedingly simple in operation, for it unfolds only once in opening. A full sized comfortable bed is then at your service. The length overall is 83½ inches. Length between arms is 75¼ inches. Arms are heavy, being 4 inches wide. Width of front leg is 3½ inches. Height overall is 37 inches. The seat is made with a firm edge. Contains 27 comfort-giving springs, firmly supported on the top. Has heavy duck canvas over the springs. Fine flax fibre and cotton top filling. The facility of another bedroom is yours if you have this handsome daveno in your home. Shipping weight, about 270 pounds.

Kodav Or Short Davenport Opens To A Full Sized Bed

Seats Have Firm Edges

THESE PIECES

are upholstered after your order is received to insure your getting fresh clean covering and will be shipped direct to you from the factory near Chicago as soon as possible.

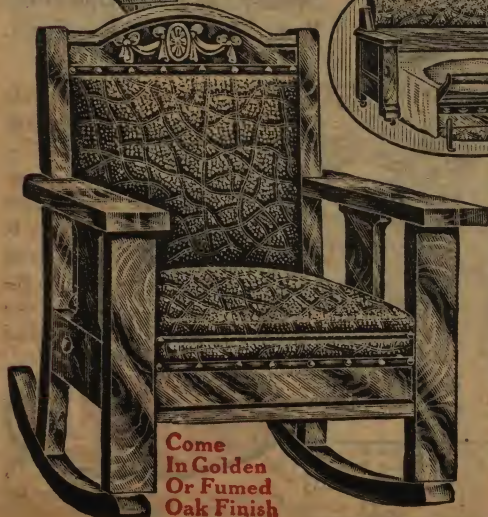

THE "KODAV."

Either this handsome Kodav or Short Davenport or the long Daveno described above, with the chair and rocker, makes as attractive and useful parlor suit as could be desired. Decidedly simple in operation—a double fold being all that is required to open it into a full sized double bed. Frame is made of solid oak in fumed or golden oak gloss finish, with plain panels. Length overall, 60½ inches. Length between arms, 52½ inches. Width of arms, 4 inches. Width of front leg, 3½ inches. Height overall is 37 inches. Seat has a firm edge with 18 springs giving assurance of comfort. Springs are firmly supported on steel crimp wires and hand tied at top. Heavy duck canvas over springs. Fine flax fibre and cotton top filling. Shipping weight, about 220 lbs.

THE ARM ROCKER

is made in the same fine way as is the arm chair. Frame being constructed of solid oak in golden or fumed finish. The same measurements given in the description of the arm chair apply for this handsome rocker. Comes in your choice of the six beautiful upholsteries as listed below. Each is very attractive and will give the maximum amount of service. Approximate shipping weight of arm rocker, 55 pounds.

KODAV or short davenport is very substantially built of select oak with quartered oak top, arms and front. In the mahogany finish, birch is used in the construction. Has spring edge with 24 springs in seat, supported on steel wire. Has massive 4-inch roll arms. Length of kodav between arms is 52½ inches. Height of seat from floor is 13 inches. Total length is 60½ inches. Comes in your choice of six upholstery as priced in table below. The operation of the kodav is simple, one easy motion being sufficient to open it as a full sized double bed. Small insert in illustration shows the Kodav opened as a bed. Order a mattress for the Kodav, listed elsewhere on this page. Shipped from factory near Chicago. Shipping weight, 225 lbs.

DAVENO or long davenport is built of select oak with quartered oak top, arms and front. Birch is used in the construction of the mahogany finished "Daveno." All pieces in this set are upholstered after your order is received to insure your getting fresh, clean covering, and will be shipped direct from factory near Chicago. Comfortable seat contains 36 springs. Heavy duck canvas over springs with flax fibre, moss and cotton top filling. Has spring edge. Total length of "Daveno," 83½ in. Height, 35½ in. Seat, 13 in. from floor. Has large 4-inch roll arms. In operation the Daveno is very simple, an easy pull being sufficient to convert into full sized bed as shown in small insert to the left. Shipped from factory near Chicago. Shipping weight, 275 lbs.

TO CHANGE the "Kodav" into a bed is a very simple operation. All that is required is to lift up the upholstered back and turn seat over forward by strap attached to back of seat. The bed unfolds with one motion to a full size bed. The "Daveno" is operated in a similar manner and also opens to a full size bed, as in the illustration to the right. With the addition of the special mattress, the Kodav or Daveno becomes a very comfortable bed and really adds another bed chamber to your home. The interior provides ample room for the storage of bedding.

Piece You Desire At The Prices Quoted Below

CONSTRUCTION OF DAY-BED.

Expert workmanship and the very best materials, combined with practical construction, make this day-bed one which is sure to give very satisfactory service. The frame is made of select birch in the rich brown mahogany rubbed finish. It is made with the improved revolving seat construction. All that need be done to open the day-bed into a bed is to grasp the side of the seat and turn it completely over, then with a simple easy motion one end folds back, and a bed 46x70 inches in size is the result. Ends have neat panels. The length between the ends is 74½ inches. Width overall is 26½ inches. Height of ends overall is 31 inches. Contains 33 steel springs, which are securely supported and hand-tied at the top. Has spring edge. Heavy duck canvas is placed over springs. The filling is moss and cotton. This day-bed will be found very convenient in a small home or apartment, as it takes up little room. Its use, however, in a large room is not in the least restricted, for it is as handsome a piece of furniture as could be desired and makes a very comfortable day-bed. Shipping weight, about 210 pounds.

THE CHAIR.

The same high grade construction and materials that identify the handsome arm rocker and day-bed are apparent in this chair. The frame of this attractive chair is made of select birch in the brown mahogany rubbed finish. The width overall is 24½ inches. Width between arms is 19½ inches. Width of arms is 2½ inches. Depth overall is 25½ inches. Height overall is 34½ inches. The seat is made with a firm edge and contains 5 comfort-giving springs supported on steel crimp wires and hand-tied on top. Heavy duck canvas is placed over the springs. Has fine flax fibre and cotton filling. Order it with the day-bed and rocker or separately at the low price quoted below. Shipping wt., about 55 lbs.

THE ROCKER

is made of the same materials and finished in the same way as are the other pieces of this set, frame being made of select birch, finished in rich brown mahogany. In every way is this rocker worthy of being a companion piece of the handsome day-bed, described and illustrated above. The width between the arms is 19½ inches and the width overall is 24½ inches. Arms are 2½ inches wide. The depth overall is 25½ inches, while the height overall is 34½ inches. The seat is made with a firm edge and contains 5 springs, securely supported on steel crimp wires and hand-tied on top. Heavy duck canvas is placed over springs. Has fine flax fibre and cotton filling. This rocker will be found to be an object of beauty as well as a piece of furniture that will give satisfactory service. Shipping weight, about 55 pounds.

These Pieces May Each Be Ordered Separately. When Ordered Together They Make A Complete And Handsome Parlor Suit.

Use Your Credit

THE DAVENO

or long davenport is a very convenient and handsome article to have in the home. The frame is strongly made of select hardwood with top, arms and entire front quarter-sawn oak veneered. Comes in golden or fumed oak finish. It also may be had in the attractive mahogany finish. The wood used for the mahogany finish is an excellent grade of birch. Measures 83 1/4 inches over all and 75 1/4 inches between arms, with 36 springs in seat. It opens very easily to a full-size bed as shown in small illustration. Seat is made with a spring edge. It contains 27 comfort-giving springs which are firmly supported on steel crimp wires and securely tied at the top. Heavy duck canvas covers the springs. Filling used is flax fibre, moss and cotton top. Comes in six kinds of upholstery and three finishes as priced below. State covering and finish desired when ordering. Shipping weight of Daveno, 270 pounds.

THESE pieces are upholstered after your order is received to insure your getting fresh, clean covering and will be shipped direct to you from factory near Chicago.

Neat Design

Pieces Come In Your Choice Of Golden Oak, Fumed Oak Or Mahogany Finish

Frames Are Strong

THE ARM CHAIR is a perfect companion piece to the rocker described below, with the same style of construction and finish and approximately the same measurements. It is a very substantial, comfortable and handsome chair, and in connection with the other two pieces forms an ideal Parlor Suit. Arms, top and entire front panels are quartered oak veneered. The mahogany chair is made of birch. The upholstery used is of good quality and will give excellent service. We recommend this Parlor Suit as an exceptionally good value. Please be careful in giving catalog number when sending your order. Shipping weight of arm chair, about 70 pounds.

"Kodav" Makes A Full-Sized Bed When Opened

THE KODAV

or short davenport, is a beautiful piece of furniture that may be used as a davenport by day and a comfortable bed at night. The frame is made of selected hardwood, with top, arms and entire front quartered oak veneered. The panels are plain. Birch is used in the mahogany finished Kodav. Height overall, 36 1/4 in.; length, 60 1/2 in.; length between arms, 52 1/2 inches; depth, 31 1/2 in.; height of seat from floor, 18 in.; width of arms, 4 in.; width of front legs, 3 1/2 in. Opens easily, by folding over twice. Has spring edge with 24 coil springs in seat, supported on steel crimp wires and hand tied on top. Heavy duck canvas over springs, with flax fibre, moss and cotton filling in seat. Wood fibre and cotton filling in back. The covering material has excellent wearing qualities. Shipping weight, about 235 pounds.

THE ARM ROCKER

matches the other pieces described above in style, construction and finish and together with them forms a most desirable parlor suit. The frame of the rocker is made of select hardwood, with arms, top and entire front of quartered oak veneer. Mahogany finish rocker is made of birch. The arms are 3 1/2 in. wide, the front legs, 3 in.; seat is 20x20 in. and width over all, 27 1/2 in. Has firm edge with 5 springs in seat, supported on steel crimp wires and securely tied. Heavy duck canvas over springs and fine flax fibre and cotton filling. Comes in choice of six attractive upholsteries. Furnished in either golden, fumed oak or mahogany to match the other pieces. Credit terms on page one. Shipping weight, about 75 pounds.

Chair and Rocker
Have 12 Deep Springs in
Seat and 9 in Back

ARM CHAIR is of same construction and style as the other pieces on this page and makes a perfect companion piece. It is a big, overstuffed, comfortable chair with 12 deep heavy springs in seat, supported on wood slats, and 9 springs in back. Filling is fine flax fibre, curled fibre and cotton. Width overall 35 inches, between arms 21 inches. Height of seat from floor about 17 inches. Has soft roll arms and is built for genuine comfort. Comes in either tapestry or velour covering as priced below. Shipping weight, 95 pounds.

This parlor suit is upholstered after your order is received to insure your getting fresh, clean covering, and will be shipped direct to you from the factory near Chicago as soon as possible.

THE "DAVENO" shown below represents the acme of comfort and utility. It is an unusually comfortable day-enport of large size by day and may be used as a full size bed at night, thus virtually adding another bed chamber to your home. The construction is the same as the pieces described above. It measures 90 inches over all, 75½ inches between arms, and is 36 inches high. Seat is 18 in. from floor and contains 36 springs. Has spring edge. Back has 9 springs. Filling is of flax fibre, curled fibre and cotton. This "Daveno," and the "Kodav" described above, are easily transformed into a full-size bed by a very simple operation. Comes in tapestry or velour as priced below. Shipping weight, 290 pounds.

THE ROCKER shown to the right matches the other pieces in every respect. It is big, handsome and very comfortable. The runners and other exposed parts of frame are rich mahogany finish. The measurements are the same as the arm chair, with 12 deep wire springs in seat and 9 in the back. Comes in tapestry or velour covering. State preference. The velour may be had in either mulberry or blue color, and if this covering is ordered be sure to state color desired. This big, comfortable rocker in connection with the arm chair "Kodav" or "Daveno" makes an ideal parlor suit. "Kroehler" furniture is known wherever fine furniture is sold for its style and quality. Shipping weight, about 100 pounds.

When Ordering The Velour Covering State Whether Mulberry or Blue Is Wanted

THE COVERING used on the pieces described above is either figured tapestry or figured velour. The velour may be had in mulberry or blue color. Be sure to state your preference of color if you select the velour covering. The deep springs covered with a thick filling of curled fibre and cotton, and the soft spring edge impart a luxurious comfort that must be experienced to be fully appreciated. You may order a single piece, or all of them, with the full assurance that you are receiving extra good value and furniture of a style and quality that will prove a source of satisfaction and comfort for many years.

Each Piece Is Priced Separately
So That You May Order One Or As Many As You
Need. They Are All Made To Match Perfectly.

THE "KODAV" illustrated above is a very beautiful piece of furniture, and just as dependable as it is attractive. It is a genuine "Kroehler" Kodav, nationally advertised and known wherever furniture is sold for its high quality. The frame is made of birch with an antique mahogany finish. It is 61 inches over all, 52½ inches between arms. Arms are 4¼ in. wide. Height of seat, 17½ in. Total height, 34½ in. Depth of seat 20 in. Seat has spring edge and 24 springs on steel crimp wires, with fine flax fibre and cotton filling. Comes in your choice of genuine Spanish Brown leather, Spanish Mole-skin imitation leather, Tapestry and Velour covering, as priced below. Ship. wt., 235 pounds.

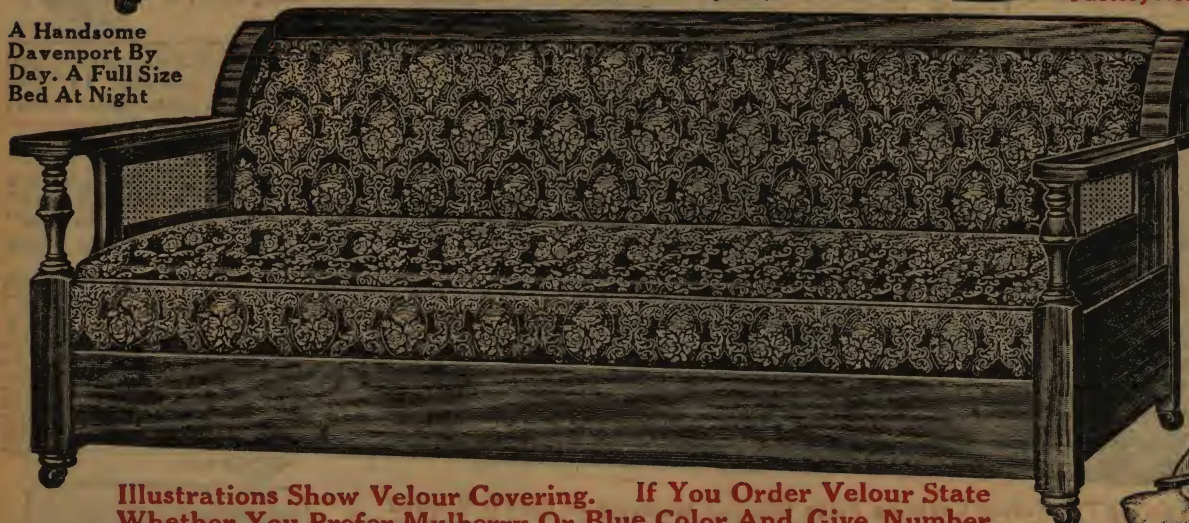

THE CHAIR shown to the left is of high grade construction and beautiful design. Frame is made to match other pieces in antique mahogany finish. Has neat cane panels beneath the broad arms. Seat measures 22 inches wide between arms, has firm edge with 9 springs on steel crimp wires and securely tied at top. Heavy duck canvas over springs. Fine flax fibre, moss and cotton filling. Has 6 springs in the back. Choice of three coverings at prices quoted below. Height over all 36 inches. The general construction and style is the same as the other pieces shown on this page. Shipping weight, about 80 pounds.

THE ROCKER shown to the right is of the same excellent construction and style as the other pieces, and with them makes a beautiful and durable parlor suit. The seat measures 22 inches between arms (29 inches outside) and the total height of rocker is about 36 inches. Arms are 3½ inches wide. Front posts 1¼ inches wide. Seat contains 9 springs and back 6 springs. Covering is genuine Spanish leather, Spanish Mole-skin, Tapestry or Velour, as priced below. May be ordered alone or with the other pieces. Shipping weight, about 85 pounds.

THE "DAVENO" illustrated below is a very handsome and convenient piece of furniture. Is easily changed from a Davenport to a full size bed. The construction is the same as the pieces described above and it comes in the antique mahogany finish. The total length is 90 inches. Length between arms about 75½ inches. Width of arms 4¼ inches; front legs 2¼ inches; depth of seat 20 inches; height of seat 19 inches. Total height about 35 inches. Has spring edge seat with 36 springs on steel crimp wire foundation. Genuine Spanish leather, Spanish Mole-skin, Tapestry or Velour covering. Shipping weight, about 290 pounds.

Whether You Prefer Mulberry Or Blue Color And Give Number

THE UPHOLSTERY. These pieces come in Spanish Mole-skin, Genuine Spanish Leather, Tapestry or Velour as priced to the right. Spanish Mole-skin is the highest grade of imitation leather used for upholstering furniture, and warranted by the manufacturers not to crack or peel. The Spanish leather is of very good quality. The velour covering comes in either mulberry or blue. This parlor suit is upholstered after your order is received to insure your getting fresh, clean covering, and will be shipped direct to you from the factory as soon as possible.

GENUINE "KROEHLER" MADE PARLOR SUIT

Contains "Kodav," "Daveno," Chair
And Rocker In Golden or Fumed
Oak, or Mahogany Finishes

Upholstered In Your Choice
of Six Different Coverings at
The Low Prices Quoted

THIS SET of rich looking parlor furniture consists of "Kodav" or short style davenport; arm chair; comfortable arm rocker and a "Daveno" or long style davenport. The "Kodav" or small davenport unfolds twice in opening. The "Daveno" or long davenport unfolds once in opening. You can make a splendid suit for your parlor or living room, from these pieces, by selecting the chair and rocker with either style davenport. They can be ordered in your choice of six different styles of covering at prices given at bottom of page. These pieces come in golden or fumed oak finish with top rail, arms and entire front veneered with quartered oak; or in mahogany-anized birch with these same parts veneered in mahogany.

This view shows the "Kodav" or small davenport opened up as a bed. You do not sleep on the upholstery. There is a separate set of springs as shown upon which you make your bed.

IMPORTANT

These pieces are upholstered after your order is received, to insure your getting fresh, clean covering, and will be shipped to you from Chicago as soon as possible.

Top Rail, Arms and Entire Front On All Pieces Are Veneered With Genuine Quarter-Sawed Oak or Mahogany, According To Wood Selected

THE "KODAV"

"Kodav" is changed from a davenport into a comfortable bed by lifting up the upholstered back and turning seat over forward by strap attached to back of seat. You do not sleep on upholstery. Plenty of room for removable mattress and bedding. Has spring edge with 24 springs supported on steel crimp wires, hand tied on top. Fine flax fibre, moss and cotton top filling. End panels are upholstered. Length overall, 62½ in.; length between arms, 52½ in.; height, 36 in.; arm rests and front posts, 5 in. wide. Packed to insure lowest freight rates. Shipping weight, about 250 lbs.

UPHOLSTERY

These splendid pieces come in your choice of imitation black leather; imitation Spanish brown leather; black moleskin; Spanish brown moleskin; genuine black leather, or genuine Spanish brown leather at the prices quoted.

The design of these pieces is very graceful and they are made for comfort.

THE CHAIR

comes in the same finishes and different styles of upholstery as other pieces. Seat has firm edge with 9 springs on heavy duck canvas over springs. Fine flax fibre and cotton top filling. Height overall, 36 inches. Seat is 22 in. wide between arms. Arm rests and front posts are 4 in. wide. Shipping weight, about 75 lbs.

Order 18 lb. White Cotton Felt Pad Mattress to fit either Davenport, No. 143B48. Price \$5.98
Order 30 lb. White Cotton Felt Pad Mattress to fit either Davenport, No. 143B58. Price \$9.95

"DAVENO"

or long davenport is easily changed to a full size bed. Its construction is the same as the other pieces described above and it comes in the same finishes and upholstery. The seat has a spring edge with 36 springs, supported on steel crimp wires and hand tied on top. Has flax fibre, moss and cotton top filling. End panels upholstered. Length overall 85½ in.; length between arms 75½ in.; height overall 36 in.; arm rests and front posts are 5 in. wide. Packed to secure lowest freight rates. Shipping weight, about 300 lbs.

This view shows the "Daveno" or long davenport opened up as a full size bed. You sleep upon a separate set of springs, independent of upholstery.

**This Three-Unit Bed is the
Last Word in Sanitary Bed
Construction. Pressed Steel
Corners Render Tremendous
Rigidity and Strength.
Made with Oval Side Tubes.**

IMPORTANT

The Corner Device having more points of contact than ordinary dove-tailed rails, insures rigidity as well as perfect alignment. Head and foot end will never lean toward the center and they will always be at right angles with the spring. Oval side tubing is infinitely stronger than round tubing.

A Light Weight, High Quality, Cold Rolled, Burnished Steel Tube Bed. The steel surface is bright, smooth and as highly polished as the blade of a saw. The finish which this kind of a surface will take is perfect. The enamel flows on this surface almost as smooth as glass.

HERE IS YOUR CHANCE

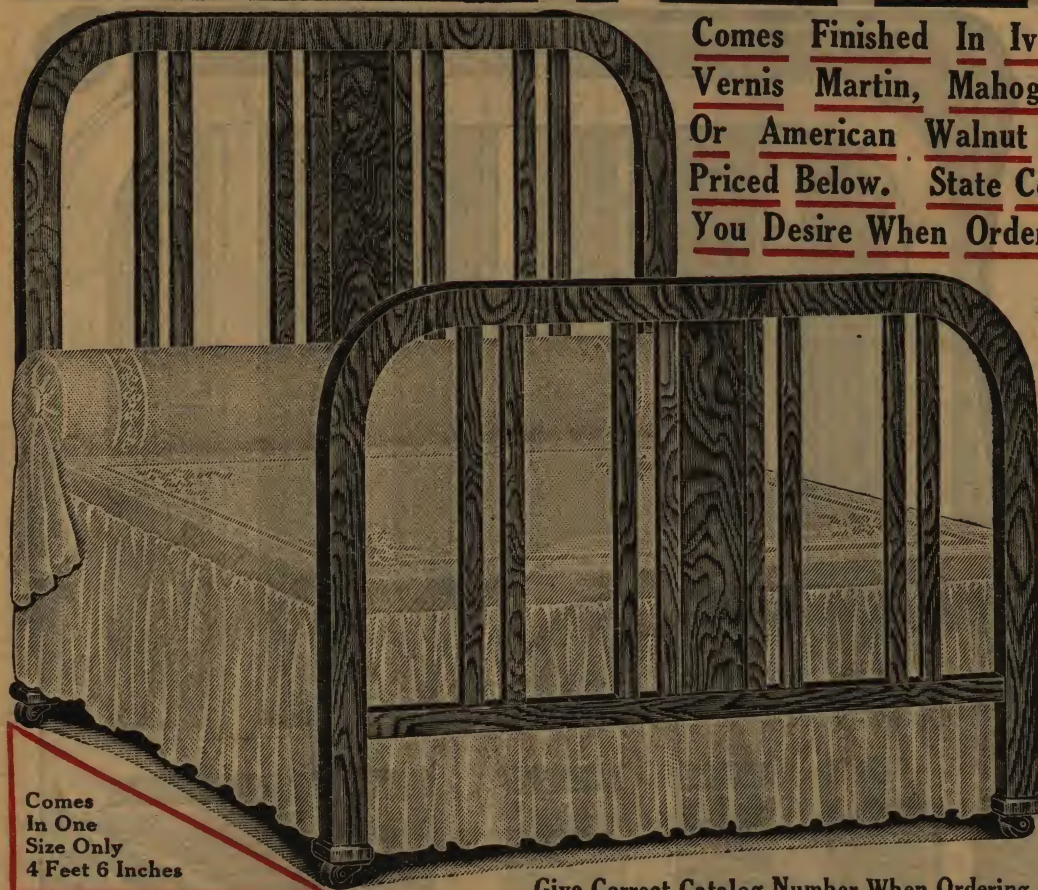

prices. The corners are made of steel stampings which are unbreakable. The corner device has more points of contact than ordinary dove-tailed rails which insures rigidity and perfect alignment. The head and foot ends of bed will never lean to the center, always being at right angle with the spring. The oval side tubing is infinitely stronger than the round tubing. The side tubing and ends of spring are finished in oxidized copper. The bed is without question the lightest, strongest, most rigid, and most serviceable ever produced at these prices, because of the strength and rigidity given it by the newly patented pressed steel corner, which makes the 3-unit steel bed a perfect success. The head and foot units are of excellent style in continuous post design enhanced by the round, seamless tubing fillers with artistic caps. Actual size of post and cap shown above. The third unit consists of the spring which has the new oval tubular side rail, pressed steel corner and patent galvanized twisted link fabric with heels on the ends.

DETAILS OF BED.

The head end measures 52 inches high, and the foot end measures 32 inches high from floor. The continuous posts are 2 inches in diameter and the filling rods and top and bottom rails are 2 inches in diameter. The filling posts are surmounted with an artistic cap measuring 3 1/2 inches in diameter at the widest point. It is a full size bed, measuring 4 ft. 6 in. in width. You can order it in your choice of three finishes—Ivory Enamel, Vernis Martin (gold bronze), or Oxidized Silver-gray, at the prices quoted below. Be sure to give correct number when ordering to insure your receiving finish you desire. In this model the manufacturer has successfully produced a light weight, high quality, cold rolled, burnished steel tubed bed. It is lighter in weight than the iron bed, yet wonderfully strong and because of its light weight, reduces marring of floors, tearing of rugs and carpets. The steel is about one-third the thickness of the old gas pipe. The surface of the steel is bright, smooth and as highly polished as a saw blade, and takes a finish that is superior in every way. The enamel used on it flows almost as smooth as glass. Shipping weight approximately 128 pounds.

No. 153R43, Ivory Enamel Fin. \$22.75 || No. 153R45, Silver Gray Oxidized Fin. \$22.85 || No. 153R44 Vernis Martin Fin. \$22.95

Size Only
4 Feet 6 Inches

Give Correct Catalog Number When Ordering

A VERY NEAT and attractive continuous post steel tube bed, which may be had in your choice of four styles of finish as follows: Ivory, Vernis Martin, Mahogany or American Walnut. When finished in mahogany or walnut the bed closely resembles those woods in grain and color, and presents a very handsome appearance. It is sanitary, strong and durable, of light weight and easy to move about. In selecting this bed you will have something that is different from the usual style of iron beds, a rich appearing and substantially constructed bed that will give excellent service and go well with any period style of furniture you may have in your bedroom. For further details see following paragraph.

THE CONSTRUCTION is high grade. The continuous square steel tube pillars are 1½ inches square. Height of head is 50 inches; of the foot 34 inches. Bottom tube is 1-inch square and the filler tubes 1¼x½ inches. The steel panel is 6 inches wide. This bed is fitted with the new patented pressed steel corners and reversible side rails, for wood slats or overhanging spring. Fitted with steel casters of the easy rolling type. Comes in one size only: 4 ft. 6 in. Shipped promptly from Chicago. Shipping weight, about 95 pounds.

Price In Ivory Finish

May Be Had In Ivory, Ma-
hogany Or Walnut Finish.
State Finish Wanted. Has
1½ In. Square Continuous
Pillars. Comes In 2 Sizes

A STEEL BED like this one, besides being more sanitary than a wood bed, is considerably stronger and lighter in weight. These features in connection with its being easier to keep clean and its numerous other points of superiority over a wood bed is tending to make it more and more popular every day. Finely finished to resemble beautifully grained woods or in the rich ivory finish. It is a bed that will grace any bedroom in which it may be placed, regardless of the character of the rest of the furnishings. Order this splendid bed on our easy credit terms and judge its many noteworthy qualities for yourself. It is highly recommended as a remarkable value at the prices quoted below.

HIGH GRADE materials are used throughout in its construction. It has continuous pillars 1½ inches square. Bottom tube is 1x1¼ inches in size. Filler tubes are ¾x1½ inches in size. Has ornamental case center grill. Height of head is 48 inches. Height of foot, 33 inches. Fitted with steel casters of the easy rolling type. Has patented pressed steel corners with reversible side rails. May be had in your choice of two sizes—4 ft. 6 in. or 3 ft. 3 in. Comes in Ivory, Mahogany or Walnut finishes as priced below. Each of these fine finishes assists materially in making this bed a very attractive one. State finish you want us to send and give correct catalog number. Shipped promptly from Chicago warehouse. Has 1½-Inch Square Continuous Posts and 1⅜x⅝-Inch Filling Rods

A Light Weight, Cold Rolled, Burnished Steel Tube Bed Complete With Patent, Galvanized, Twisted Link Fabric Spring

THE STYLISH SQUARE DESIGN of the bed is very attractive and pleasing to the eye. It is a new idea in steel bed continuous post construction. The continuous posts are 1½ inches square and are made of seamless tubing. The filling tubes are ⅝ by 1⅜ inches square. The heavy cross rods at bottom are made of 1-inch square tubing. The head end of the bed stands 50 inches high, while the foot end is 34 inches high. This 3-unit bed outfit is a very exceptional offering at our prices. The corners of the bed are made of steel stampings which are unbreakable. The tremendous strength and rigidity of the newly patented steel corners makes the 3-unit steel bed a perfect success. You have your choice of ordering this bed in four finishes at the prices quoted below. Comes in Ivory Enamel, Vernis Martin (gold bronze), Mahogany or Imitation Walnut finish. When ordering be sure to give correct number so that you will receive the finish that you desire. It is a full size bed, measuring 4 ft. 6 in. in width.

No. 157B10. Price in Ivory Enamel Finish.....\$23.65

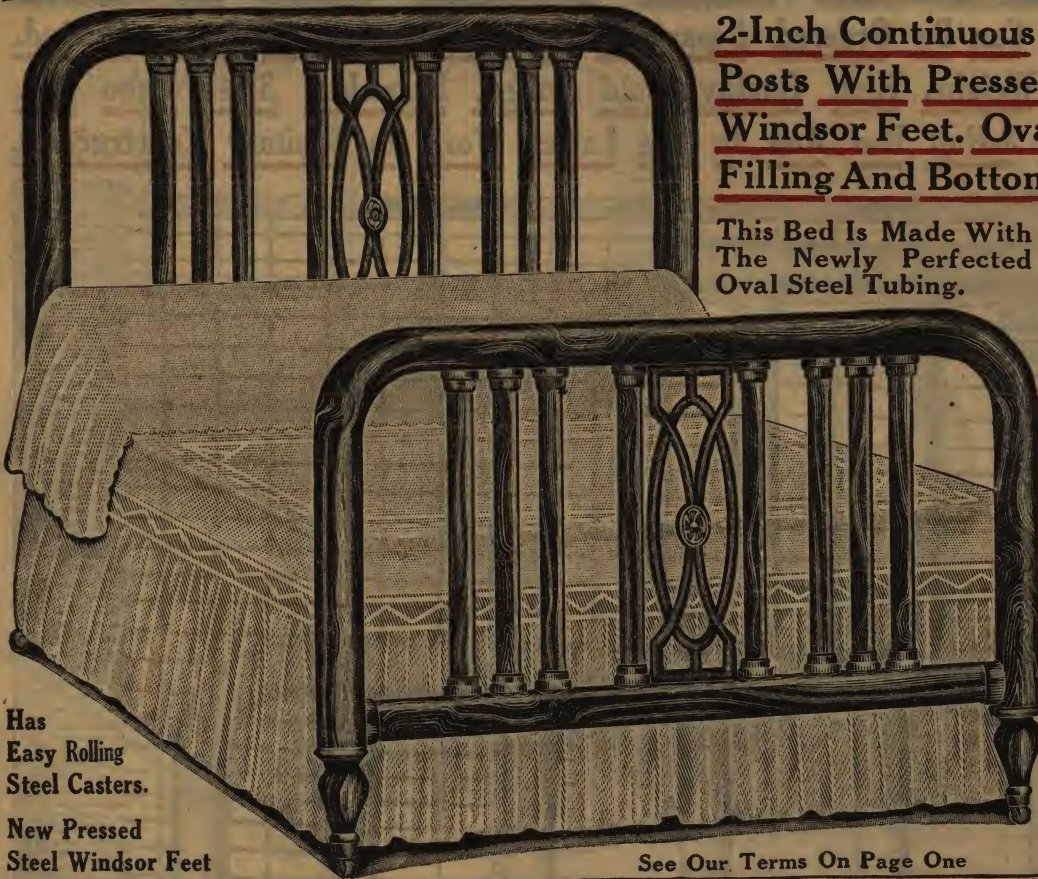

No. 157B11. Price in Vernis Martin Finish..... 23.75

LINK FABRIC SPRING included in this outfit is not excelled by any other spring that was ever offered in a bed outfit. It has a main body made of galvanized, twisted link fabric attached to the frame at ends with oil-tempered helical springs and therefore, forms a mattress bottom that is compact, strong, in perfect alignment and which will not sag. With stress of weight it becomes an integral part of the bed. The side rails are of oval tubing and are fitted into the pressed steel corners which in turn are fitted into the self-adjustable taper connecting hook on the head and foot end and form a bed that is rigid, perfect in alignment and will not lean toward the center; the head and foot end always being at right angles with the spring. This outfit is lighter in weight than the iron bed, yet wonderfully strong. The steel used in constructing this bed is about one-third of the thickness of gas pipe used in constructing iron beds and has a polished surface to which is applied the smooth baked-on enamel finishes. Chicago warehouse shipment. Wt., 100 lbs.

OVAL TUBE STEEL BED COMES IN FOUR FINISHES

2-Inch Continuous Round Posts With Pressed Steel Windsor Feet. Oval Steel Filling And Bottom Tubes

\$22⁷⁵
IN IVORY ENAMEL FINISH

**This Bed Is Made With
The Newly Perfected
Oval Steel Tubing.**

GREATER rigidity—added strength—freedom from rust; these are the results of the new oval tube construction. The perfection and application of this new type of steel tubing makes for a more artistic, better appearing and more rigid bed than has been possible with the old style tubing. Lightness in weight, with the result that it can be easily moved without tearing rugs and carpets is another exclusive steel bed feature. All-in-all the new oval steel tube construction is a decided improvement over the old style bed construction.

FINISHES. The four finishes in which the oval steel tube bed may be chosen include, Ivory, Vernis Martin (gold-bronze), Mahogany and Walnut. While these finishes are all decidedly handsome it will be found that a bedroom having furnishings of mahogany will be greatly improved by the addition of a mahogany finished bed, just as a bed chamber with walnut furnishings requires a bed of walnut finish. Where there are a number of pieces of furniture of different finish, either the Ivory or the Vernis Martin bed will be found very adaptable.

PILLARS are of 2-inch continuous round tubing. Bottom tubes are 1x1/2-inch oval. Filling tubes are 1/2x1-inch oval. Pressed steel. Welded. Standard height of head is 50 inches. Height of foot is 34 inches. Has steel casters of the easy rolling type. This bed comes in the standard width, 4 ft. 6 in. only. Has improved pressed steel corner locks. Shipped from our Chicago warehouse. Shipping weight, carefully packed, approximately 90 lbs.

THE ADVANTAGES

THE ADVANTAGES

ished steel bed over the old style iron bed will appeal to all. In this particular model the manufacturers have successfully produced a high quality, cold rolled burnished steel tube bed that is lighter in weight than the iron bed and at the same time is wonderfully strong. The lighter weight derived from the use of steel tubing is a special feature because it reduces the bending of floors, tearing of rugs and carpets, and likewise reduces the weight cost. The steel tubing used in this bed is about one-third the thickness of gas pipe used in constructing iron beds.

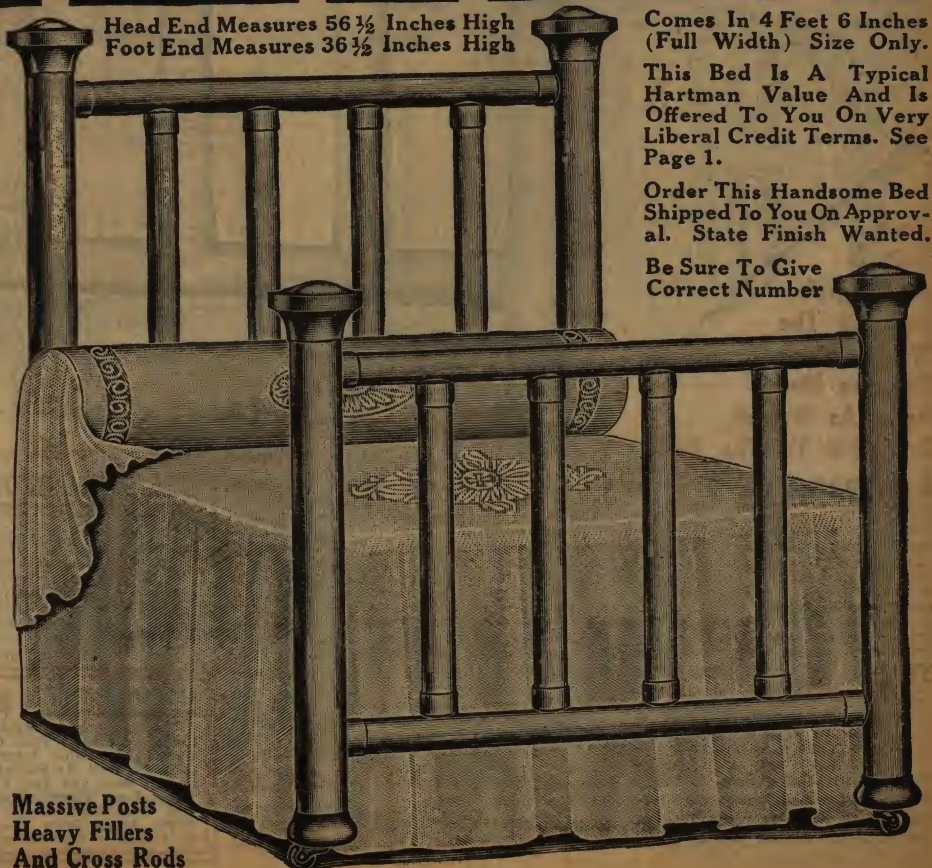

THIS BED is massive in appearance and is of a neat design as shown in the illustration. This picture was made from the actual photograph of the bed itself and shows the advantage its neat pattern, heavy posts, heavy fillers and cross rods, and the large corner casters. An examination of the bed itself, however, will reveal its merits far better than any picture can do. That is why we want you to send for it upon approval and take advantage of our liberal credit terms. If after you receive it you are not entirely pleased with it you do not have to keep it, send it back at our expense.

CORNER POSTS

The top and bottom cross rods and the filling rods are 2 inches in diameter. Head end measures 56½ inches high and foot end measures 36½ inches high. This bed is offered in 4 ft. 6 in. (full size) width only. It may be ordered in your choice of White Enamel or Vernis-Martin finish at the prices quoted. Be sure to state your preference on your order and give correct number. A comparison of our prices with those of others will convince you that this is an exceptional bargain. Ship. wt., about 98 lbs. Shipped from Chicago warehouse.

A BIG BARGAIN. It will probably be a long time before you will again be able to secure a spring with a 6-inch rise and 1 1/2-inch band edge in a 3-unit bed outfit at these prices. The corners are made of steel stampings which are unbreakable. The side tube of the bed is oval, which is infinitely stronger than round tubing. The side tube and ends of the bottom are finished in gray color. The tremendous strength and rigidity of the newly patented pressed steel corner makes the three-unit steel bed a perfect success. The head and foot units are of refined design, with round, seamless tubing. The new oval, tubular side rail, new pressed steel corner and patent galvanized twisted link fabric with helicals on the ends provide the third unit—a compact strong spring in perfect alignment and which, with stress of weight, becomes an integral part of the bed.

YOU HAVE your choice of ordering the bed alone, or the bed complete with the spring, at the prices quoted below. Comes in two finishes; in white enamel or in Vernis Martin, as you desire. When ordering be sure to give correct catalog number. Order this bed or complete outfit sent to you on approval and if it does not please you, send it back at our expense. Shipping weight of bed alone, about 90 pounds; shipping weight of complete outfit, about 123 pounds.

THE STEEL BED. The head end measures 50 inches high from the floor and the foot end stands 34 inches high. The continuous posts are two inches in size; the cross rods and fillers likewise measure 2 inches in diameter. End measurements given above include casters. It is a full sized bed, measuring 4 ft. 6 in. in width. You have your choice of ordering this bed in two finishes; in white enamel or in Vernis Martin finish. When sending your order be sure to give correct number to insure the receipt of the finish you desire. The enamel used on this bed flows as smooth as glass due to the fact that the steel surface is bright, smooth and highly polished, therefore, taking a finish that approximates perfection. It is lighter in weight than the iron bed, yet wonderfully strong. This steel is about one-third the thickness of old gas pipe.

IMPORTANT

The Corner Device Having More Points Of Contact Than Ordinary Dove-Tailed Rails, Insures Rigidity As Well As Perfect Alignment. Head and Foot End Will Never Lean Toward The Center And They Will Always Be At Right Angles With The Spring. Side Tube Is Oval, Being Infinitely Stronger Than Round Tubing.

A Real Improvement!

THE CONSTRUCTION of this bed deserves the serious consideration of the prospective bed purchaser. It is easy to set up without help and without tools, will stand square and stay rigid under all conditions of use and abuse. Will not develop the "wobbles" nor provoke dissatisfaction. The attachments are of steel, accurately die cut and formed. By a process of electric fusing the rail plate becomes an integral part of the rail and the post plate likewise becomes an integral part of the post. Has reinforcing plate on inside of post. Not a rivet is used and there are no screws, bolts, nuts, wedges or other movable parts in the construction of this splendid bed.

OTHER FEATURES. Studs on rail plate drop into slots on post plate forming double anchor connection between post and rail and a counter brace to hold the rail at a rigid right angle to post. Heads on studs bind rail and post plates together, while slight flare in formation of slots utilizes slight springiness in metal to prevent development of play. This bed is light and strong; comes in four finishes quoted, state preference. The measurements are given below. Height of head, 50 in.; height of foot, 36 in.; pillars, 2 in.; fillers, 1 1/4 in. Comes in the 4 ft. 6 in. size only. Shipped from Chicago warehouse. Shipping weight, carefully packed, about 58 pounds. **\$15.85**

This Three Unit Bed Is The Very Last Word In Sanitary Construction. Pressed Steel Corners Render Tremendous Strength and Rigidity. Oval Side Tubes Are Another Feature

PATENT, GALVANIZED, TWISTED LINK FABRIC SPRING FOUND ON THIS OUTFIT

\$13⁸⁵

IMPORTANT

Each Unit An Integral Part Of The Whole Which Becomes More Rigid As Weight Is Added To The Bed

The Corner Device Having More Points Of Contact Than Ordinary Dove-Tailed Rails, Insures Rigidity As Well as Perfect Alignment. Head And Foot End Will Never Lean Toward The Center And They Will Always Be At Right Angles With The Spring. Side Tube Is Oval, Being Infinitely Stronger Than Round Tubing.

A Light Weight, High Quality, Cold Rolled, Burnished Steel Tube Bed. The Steel Surface Is Bright, Smooth, And As Highly Polished As The Blade Of A Saw. The Finish Which This Kind Of Surface Will Take Is Perfect. Enamel Flows On This Surface Almost As Smooth As Glass.

A MARVELOUS OFFERING.

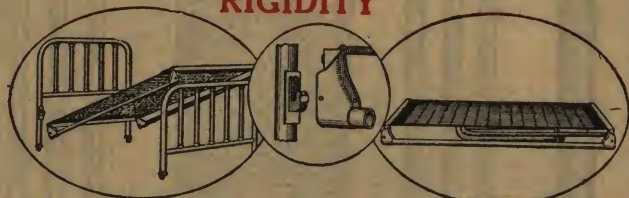

The prominence which we give to this article is evidence of the fact that we consider it a most unusual value. It will probably be a long time before you will again be able to secure a spring with a 6-inch rise and 1 $\frac{1}{2}$ -inch band edge in a 3-unit outfit at these prices. The corners are made of steel stampings which are unbreakable. The corner device, having more points of contact than the ordinary dove-tailed rails, insures rigidity and perfect alignment. The head and foot ends will never lean toward the center and they will always be at right angles with the spring. The side tube of the bed is oval, which is infinitely stronger than round tubing. The side tube and ends of the bottom are finished in gray color. The tremendous strength and rigidity of the newly patented pressed steel corner makes the three-unit steel bed a perfect success. It is unquestionably the lightest, strongest, most rigid and serviceable ever produced at these prices. The head and foot units are of refined design with round, seamless tubing. The new oval, tubular side rail, new pressed steel corner and patent galvanized twisted link fabric with helicals on the ends provide the third unit—a mattress bottom that is compact, strong, in perfect alignment and which, with stress of weight, becomes an integral part of the bed. The elimination of the old style side rails and the substitution of mattress bottom, pressed steel corners and tubular sides and end angles, all in one, lessens the cost, reduces freight and simplifies the entire bed purchasing problem as well.

DIMENSIONS OF BED.

The head end measures 49 inches high and the foot end stands 32 inches from the floor. The continuous pillars are 1 $\frac{1}{2}$ inches in diameter, the bottom tubes and filers each being $\frac{3}{4}$ inch wide. Is a full size bed, measuring 4 ft. 6 in. in width. You have your choice of this bed in two finishes—in Ivory enamel or Vernis Martin (gold bronze), at the prices quoted below. When ordering be sure to give the correct number to insure the receipt of the finish that you desire. In this model the manufacturer has successfully produced a light weight, high quality cold rolled, burnished steel tube bed. It is lighter in weight than the iron bed, yet wonderfully strong. This lighter weight reduces marring of floors, tearing of rugs and carpets. This steel is about one-third the thickness of the old gas pipe. The steel surface is bright, smooth, and is highly polished as the blade of a saw. The finish which this kind of surface will take is superior in every way. The enamel used on it flows almost as smooth as glass. Bear in mind that this bed is the last word in sanitary construction, being made of metal throughout and free from all dirt catching ornamentations. Besides the many advantages of this three-unit bed, in addition to the low prices at which we offer this splendid article, we give you the opportunity of selecting this bed, complete with spring, on liberal credit terms, shown on Page One. When ordering be sure to give correct catalog number. Shipping weight, carefully packed, approximately 75 pounds.

1½-Inch Post Bed In White Finish

THE 1½ INCH POST bed as shown in the illustration is light and easily moved about. Comes in two sizes—4 ft. 6 in. or 3 ft. 3 in. and in either white or Vernis Martin finish. State size and finish you desire. An important feature is the patented pressed steel corners and reversible rails, which enable you to use either wood slats or overhanging springs. This is a great convenience as it enables you to use any kind of springs, and the patented pressed steel corners in which the rail locks insure a perfectly rigid joint. The steel tubes used in the continuous posts are 1½ inches in diameter. Bottom tube and all filling tubes are ¾-inch in diameter. The head stands 49 inches high and the foot is 32 inches. It is fitted with steel casters of the easy rolling type. Shipping weight, about 65 lbs.

THE 2-INCH POST bed is furnished in either white enamel or Vernis Martin finish. It is 50 inches high at the head and 34 inches high at the foot. Has very large 2-inch continuous tubular steel posts and is made in 4 feet 6 inch or 3 feet 3 inch widths, as desired. All filling rods are of finest tube steel. Has heavy 1½-inch fillers joined to the top 2-inch rail and bottom 1½-inch cross rail. 1½-inch and 2-inch post beds are chill-less models. Shipping weight, about 76 lbs.

Price Of This Bed In White Finish

AN ALL STEEL tube bed of neat design and substantial construction, that will give the very best service. The all steel tubing construction makes it practically unbreakable, and it is much lighter and more easily moved around than a cast iron bed. An important feature, and one sure to be appreciated by every housewife is the reversible rail construction, which enables you to use any kind of bed springs. The reversible rails fit into patented pressed steel corners that hold the rails firmly and give to the bed a rigidity not found in beds equipped with the old style of reversible rails. The design is very attractive, the pillars terminating at the top in very artistically shaped caps. This bed is an excellent value and is backed by Hartman's legal guarantee.

THIS FINE BED may be had in either the 4 ft. 6 in. or the 3 ft. 3 in. size, and in your choice of white or Vernis Martin finish, as priced below. The all steel pillars are 2 inches in diameter, fitted with neat caps at top as shown in the illustration. The top, bottom and filling rods are 1½-in. in diameter. The head is 50 inches high and the foot 34 inches. It is fitted with steel casters of the easy rolling type. Comes in two sizes—4 ft. 6 in. and 3 ft. 3 in. and in either white or Vernis Martin finish. When ordering be sure to state size and finish you desire. Shipping weight, about 75 pounds.

OUR POLICY is to be strictly truthful in all representations, and for that reason we cannot in justice to our customers recommend this bed as a very high class article, but we can say, and back our statement with an honest reputation of over 66 years, that for the money this is an excellent value. See page one for our easy-to-pay credit terms.

MADE IN white or blue enamel, the finish being applied according to the modern method and will give satisfaction for the money. When ordering, be sure to give correct number. This iron bed is made in full size only, which is 4 ft. 6 in. wide.

MEASUREMENTS. The corner posts are $\frac{7}{8}$ inch in diameter, the center top rod measures $\frac{1}{2}$ inch in diameter and the side top rods each $\frac{3}{4}$ inch. The remaining filler rods each measure $\frac{1}{4}$ inch in size. Head end 52 inches high; foot end 38 inches high. Ornamental chills add considerably to its appearance. Shipping weight, about 70 lbs.

CHILL-LESS BED

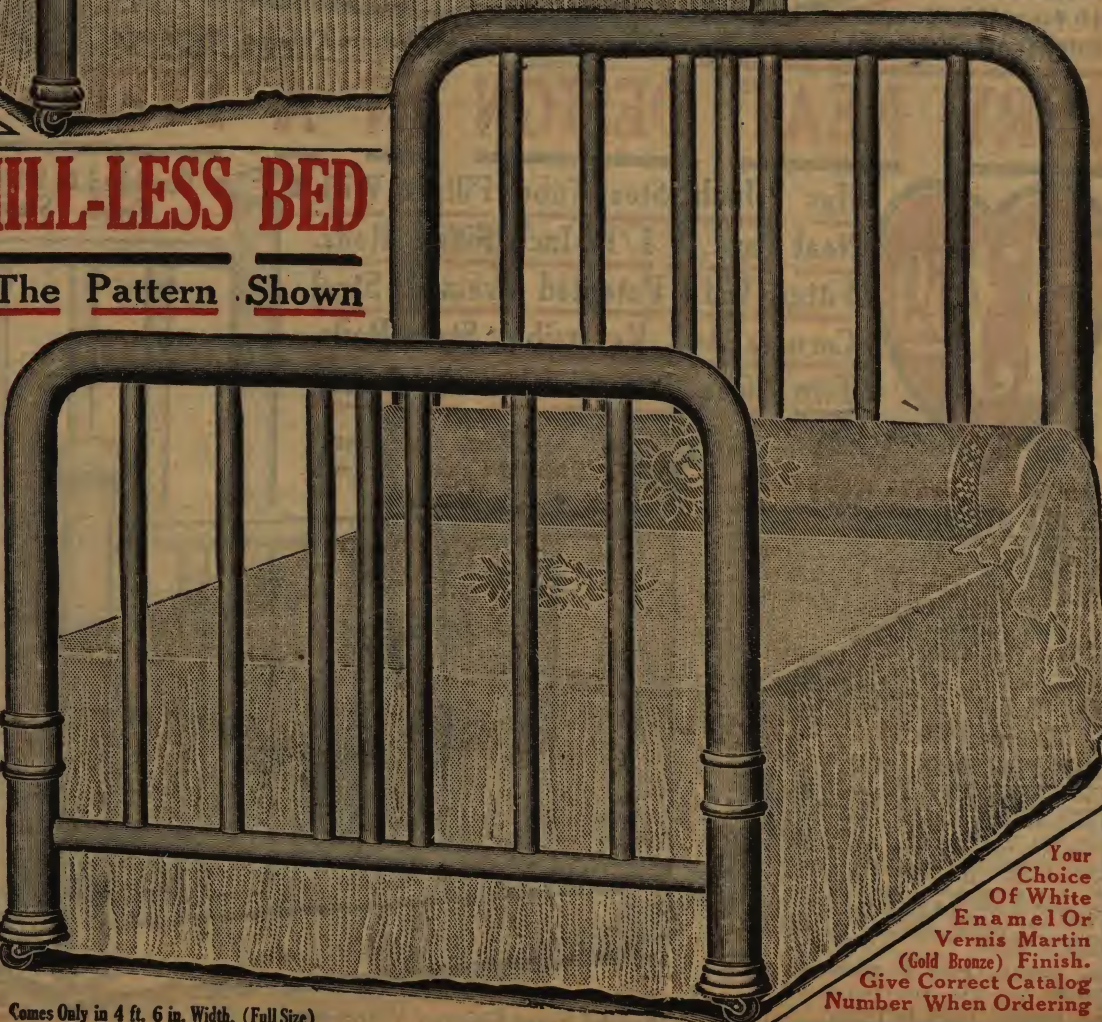

In The Pattern Shown

WE FEATHER THE NESTS

of the working people. We have furnished the homes of generations in many families. If our treatment were not fair, if our methods were not square, such a record would be an utter impossibility. We take pride in our past accomplishments and it is this very feeling of pride that should prompt you to buy here, because you know that we are not going to jeopardize our reputation for anything.

THIS BED is noteworthy because of the fact that it is a chill-less model as shown in the illustration to the right. Besides being very neat in pattern, this is a sanitary feature that will appeal to every housewife as a bed that can be easily cleaned. The continuous steel tube posts are $1\frac{1}{4}$ inches in diameter with $\frac{3}{8}$ -inch filler rods in both head and foot ends. The bottom cross rods measure $\frac{3}{8}$ -inch.

COMES IN white enamel or Vernis Martin (gold bronze finish) in 4 ft. 6 in. width. The head end measures 54 inches from the floor, the foot end being 34 inches. This is an excellent article of merchandise, sold at very reasonable prices. Comes complete with casters. Chicago shipment, weight about 95 lbs.

STRONG STEEL BED WITH COMPLETE OUTFIT

YOU CAN ORDER

The Complete Outfit; Bed, Spring and Mattress Or Bed Only At Prices Quoted Below.

Bed In Choice Of Ivory Or Vernis Martin Finish

THE BED which can be ordered alone, or as part of the three-piece outfit, or of the complete outfit, is well constructed in every way. The continuous posts and cross tubing are 1½ inches in diameter. Filler rods and bottom tubing measure ¾ in. Bed is made in full size only, 4 ft. 6 in. in width and comes in Ivory enamel or Vernis Martin (gold bronze) finish. Head end 49 inches high. Foot end 32 inches high.

THE SPRING included in this outfit has a heavy angle iron frame, with rust-proof fabric; this is the famous Garvey Wishbone link fabric, as shown in the illustration. Each end is supported by 27 oil-tempered helical springs. It is 4 ft. 6 in. size to fit bed. A very resilient and comfortable spring.

THE MATTRESS sent with this outfit is filled with a good grade of excelsior and has a cotton top of clean, sanitary material. The ticking is of durable quality and will give good service. The tufting is secured by leather buttons and the double stitched edge gives additional strength. It is a 4 ft. 6 in. size to fit the bed.

ONE COMFORTER is included with this outfit and it is covered with an extra heavy weight silkoline covering, both sides alike. Has carded cotton filling and scroll stitching. It weighs about 6 lbs. and measures 66x76 in. Comes in neat assorted colors. A good, warm covering for cold weather.

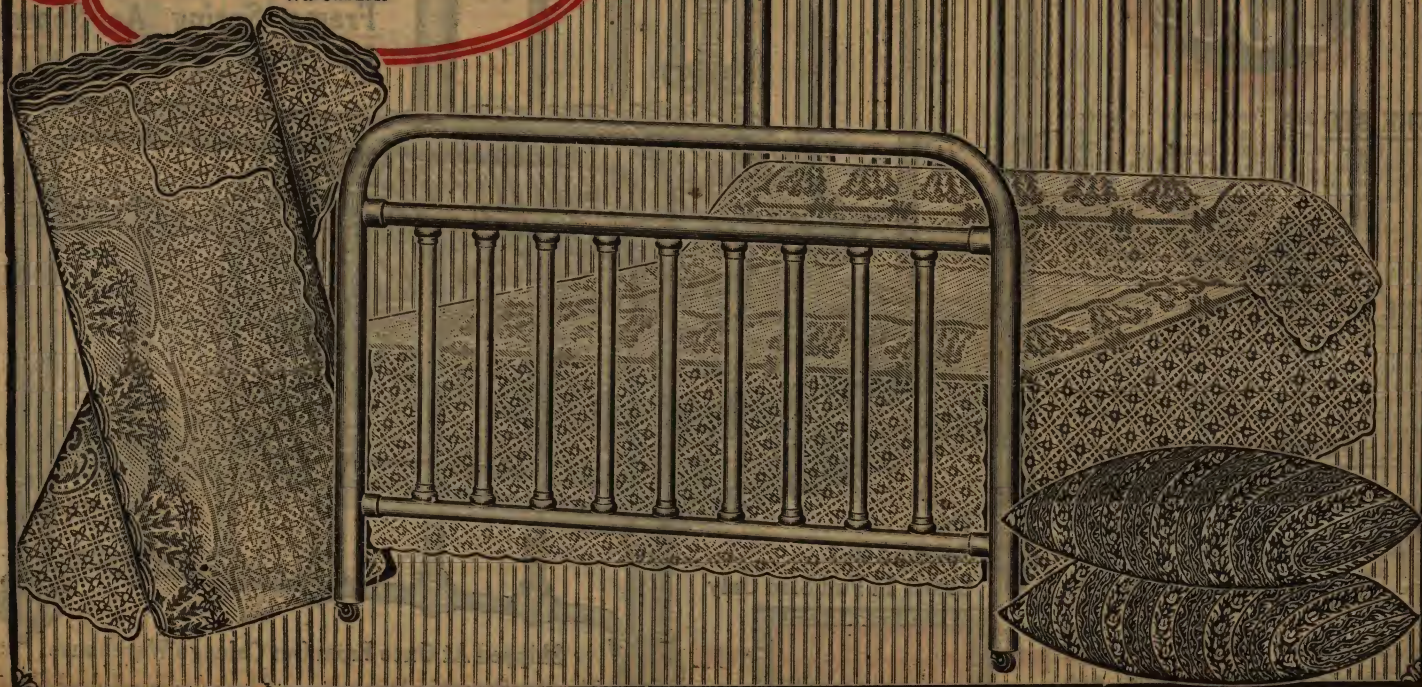

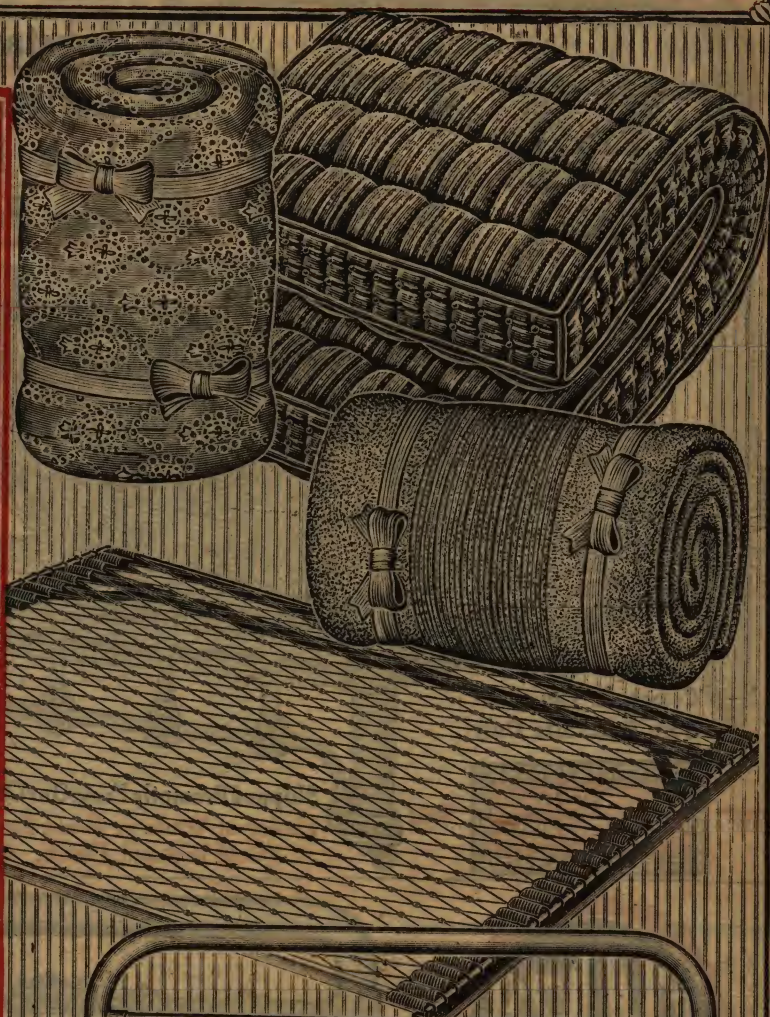

PAIR OF BLANKETS included with this outfit are woven of cotton with soft felted finish and measure 60x76 inches in size. They weigh about 2½ lbs. Comes in gray, tan or white with pink or blue border.

TWO PILLOWS are included in this bargain outfit and are filled with selected hen feathers, properly cured and sterilized. Thoroughly dedusted and curled. They are odorless and sanitary and covered with a heavy art ticking as shown. 18x25 inches in size and weigh about 5 lbs.

BED SPREAD AND BOLSTER COVER. The spread measures 87x76 inches, while the bolster cover to match measures 76x28 inches. Both pieces have rich scalloped edges all around. Bed spread corners are cut out to fit around bed posts. Woven of clean cotton yarn in Marseilles pattern with rich embossing. Weight, about 4½ lbs.

Choice of White or Green Enamel or Vernis Martin
(Gold Bronze) Finish. State Finish Wanted

THE BED is a popular design. Has five fillers with dainty chills connecting them to top and bottom rods. Pillars measure 1½ in.; bottom rod and filling rods, ¾ in.; height of head 58½ in.; height of foot, 40 in. This neat bed comes in the full size only (4 ft. 6 in.). Choice of white, pea green, or Vernis Martin (gold bronze) finish. State finish wanted.

THE MATTRESS is deeply tufted as shown in the illustration. The attractive art ticking used in making it is of a grade that will render very satisfactory service and is recommended by us as a good value when included in a bed outfit at this price. This is a cotton top mattress, strongly stitched and carefully made by men experienced in the manufacture of this character of merchandise.

THE SPRING has a link fabric top with strong copper wire edge. The end angles are heavy and are joined to the link fabric by heavy oil-tempered helical springs. The rigid angle iron frame is nicely finished in black Japan. These three pieces make a very desirable combination and at the low prices quoted below constitute a value that is worthy of your consideration. Shipping weight of the complete outfit is about 160 lbs.

HERE IS a continuous post brass bed made in a very popular design. It is a reproduction from a photograph of the bed itself, but to really appreciate the beautiful contrast produced by the cross bands on the satin finish, you should see the bed itself. We would like to have you order this bed sent to you on approval. We want you to see how attractive it is and what a wonderful addition it will be to the furnishings in that room. You understand that if, after you receive this article, you are not pleased in every way you are not obliged to keep it. Under the terms of our liberal guarantee of satisfaction you have 30 days in which to make up your mind. If, by any chance, you are not satisfied, you can return the bed at our expense and we will refund any money you have paid us.

THE CROSS BANDS produce a very rich effect and appear on corner posts and filling rods directly below mounts as shown in the illustration. A very neat effect is produced by the two small bands immediately below the larger band. Continuous posts are 2-inches in diameter and enhanced in appearance by the neat mounts. Cross rods and filler rods measure 1-inch in diameter. The head end of this bed measures 55 inches high, while the foot end measures 34 inches high. This bed comes only in the 4 ft. 6 in. size (full width). We are absolutely certain that you will be more than pleased with your purchase if you send us your order for this bed and if you pay for it on our liberal credit plan you will have it all paid for almost before you know it without ever missing the money you send us each month. Shipping weight, about 145 pounds. **\$24.95**

Handsome Bed.

THE UNUSUAL in home furnishings is a factor that is considered by the discriminating and particular purchaser. There is a sense of pride that everyone feels in the appearance of their household appointments, not alone because of the source of pleasure that it gives, but because all people like to have their friends admire their home. Surely the bed illustrated to the left will please you and elicit the admiration of your friends and acquaintances. The appearance of this bed is fairly well shown in the illustration. Despite the faithfulness of the picture, however, it does not convey the rich contrast and pleasing effect that is produced by the satin finish, which is set off with stunning cross bands. Both the pillars and the fillers are embellished with these bands as shown.

MEASUREMENTS. The corner posts measure fully 2½ inches in diameter. Its massiveness is enhanced by the addition of 5-inch pillar mounts. There are five fillers in the head end and five fillers in the foot end, each embellished with 3-inch filler mounts. The top and bottom rods in both the head and foot end as well as the fillers themselves all measure 1½ inches in diameter. The head pillars measure 53½ inches high and the foot pillars measure 33 inches high. We cannot impress you too strongly with the handsome effect that this type of brass bed produces, and we know that you will be well pleased if you order it. Comes in the 4 ft. 6 in. (full size) only. Order it sent to you on 30 days approval for a thorough appreciation of its beauty. We know that you will be pleased with it. Shipping weight, carefully packed, about 150 pounds.

3-INCH POST BANDED SATIN BRASS BED

A Beautiful Bed With Massive Three-Inch Posts And Handsome Corner Mounts

\$36⁹⁵

**One Size Only
Full 4 Ft. 6 In. Wide.**

**Ornamented With
Handsome Cross Bands.
Fitted With Reversible Rails
And Pressed Steel Corners.**

No. 161B22—Banded Satin Brass Bed \$36.95

The Head Stands 55 Inches And The Foot 35 Inches High

A BEAUTIFUL BED constructed in a first-class manner by one of the largest and best known bed manufacturers in the United States. The illustration will give you some idea of its handsome appearance, but you should have the bed itself set up in your home to fully appreciate its real beauty and worth. If you wish to possess a banded satin brass bed, that will enhance the furnishings of your home, you will make no mistake by including this one in your order. We know that you will be well pleased with it, and we are so confident that it will satisfy you in every particular, that we are willing to send it to you upon our liberal thirty days' approval plan. If, for any reason, you are not entirely satisfied and pleased in every respect, you are under no obligation whatever to keep it. If, on the other hand, you are convinced that it is a bed of exceptional value, keep it and pay for it on our liberal credit terms. This is a rare opportunity to procure a very beautiful and reliable brass bed at a reasonable price. For detailed description of this handsome bed, please refer to the paragraph immediately to the right.

DESCRIPTION. This is a full size bed, measuring 4 feet 6 inches in width, with massive three-inch pillars, terminating at the top in large beautifully shaped corner mounts. The top cross tube measures 1½ inches in diameter. All filler tubes measure 1¼ inches. The head stands 55 inches and the foot 35 inches high. This bed is fitted with the new patented pressed steel corners and reversible rails, which enable you to use any kind of bed springs. An unusually handsome brass bed, finished in ribbon banded satin as shown in the illustration. The cross bands appear on corner posts and filler rods, which add greatly to the beautiful appearance of the bed. The greatest care has been exercised in its construction and it will give years of excellent service. This bed, like all other articles sold by Hartman, is fully covered by our binding legal guarantee. Order this bed sent to you on approval. Shipped promptly from our Chicago Warehouse. Shipping weight, about 147 pounds. **\$36.95**

2-INCH SATIN FINISH BANDED BRASS BEDS

Corner Posts Measure 2 Inches In Diameter
And Cross Rods And Filler Rods Are All
1-In. In Size. Has Stunning Cross Bands

THE PURCHASER of this bed will secure an article that is different from those found in the homes of his neighbors. He will have a bed whose individuality will place it in a class by itself, and after all, isn't it things of this sort that give character to some homes whereas others are devoid of this factor so much to be desired? If you care to possess a bed that will enhance the furnishings of your household, you will do well to order this design. The picture will give you some idea of its appearance. But, despite the excellence of the illustration it does not and can not possibly convey the rich contrast and pleasing effect that is produced by the satin finish, set off with stunning cross bands.

THESE CROSS BANDS appear on the fillers as well as on the corner posts. The latter are enriched with two extra bands at the top and bottom, as indicated in the picture to the right. The corner posts measure 2 inches in diameter, and the top, bottom and filler rods are all 1 inch in size. Comes in only 4 ft. 6 in. size. The head end is 54 inches high, the foot end measuring 34 inches from the floor. We know that you will be well pleased with this handsome bed. We ask you to send for this bed upon approval. If it pleases you as we feel sure it will, pay for it according to our easy credit terms shown on page one. Shipped promptly from our Chicago warehouse. Shipping weight, about 125 pounds. **\$22.87**

Exceptionally Attractive Banded Satin
Brass Bed With 2-Inch Corner Posts,
2-Inch Cross Rods And 2-Inch Fillers

A PLEASING DESIGN. Examine the illustration of this out-of-the-ordinary banded satin brass bed. Picture it among your home surroundings. Then tell us to ship it to you upon approval. After you have used it for 30 days, decide whether you want to keep it, and if it does not measure up to your expectations, ship it back at our expense. If on the other hand it pleases you, as we firmly believe it will, make your payments as outlined on page one of this money-saving catalog. It is a very substantial bed, made by a factory specializing in the art of brass bed making—whose experts have gained their knowledge of the art through years of experience. For details see the following paragraph.

UNLIMITED SERVICE will result to the purchaser of this number. It is made for service and will not be a disappointment to you, if you select it. The corner posts, top posts, four fillers and the top cross rods are each 2 inches in diameter. The bottom rods measure 1½ inches. The head end stands 55 inches high and the foot end stands 35 inches from the floor. This type of bed has proven very popular among those who have a preference for brass bedsteads, because its stunning appearance greatly enhances the surroundings of the most attractive boudoir, and then besides, see how reasonable the price is! Don't fail to profit by this offer and save money on your household furnishings. Shipped from Chicago. Shipping weight, about 135 pounds. **\$29.68**

MARTHA WASHINGTON COLONIAL 4-POST BED

\$34⁸⁵

**In Your Choice
Of Two Finishes
As Quoted**

COLONIAL STYLE four post bed, as illustrated. Noted for its high grade construction. It is made in Grand Rapids, the home of "quality made" furniture. Carefully selected and seasoned material is used and all joints are fitted, glued and keyed, so as to be tight and to eliminate squeaks. Is fitted with wooden side rails so that you can use the same kind of bed springs as used on steel beds—requiring no slats, except where coil spring is used. For further details see following paragraph.

MADE TO ENDURE. This bed is not only very artistic in appearance, but its construction is such that we know its service will justify our assertion that it is "made to endure". The corner posts are 3 inches in diameter and measure 54 inches high. Head end has deep shaped panel. Cross rail on foot end is 4 inches in diameter. May be ordered in polished mahogany finish with 5-ply genuine mahogany veneered back panel or in polished American walnut finish at the prices quoted below. Chicago shipment. A VERY PRETTY DESIGN in a substantial wooden bed. Being made of wood it is much lighter than a metal bed, yet it is so well constructed and all joints so carefully glued and wedged that it is perfectly rigid and solid. Attention is called to the small illustrations below, showing the style of construction of the reversible, sanitary steel rails. These rails are vermin-proof, and permit the use of wood slats, or any style of bed spring. Comes in golden or fumed oak, ivory, mahogany, or walnut finishes.

THE CONSTRUCTION and finish is high grade. The extreme height of head is 53 inches; width is 4 ft. 6 in. Corner posts are 2 1/4 x 1 1/2 inches. Spindles are 1 1/2 inches square. The 3-inch-wide panels in center of foot and head add to the attractiveness of this bed. Shipped promptly from Chicago warehouse. Shipping weight, about 56 pounds.

A RICH QUEEN ANNE DESIGN BEDROOM SUIT

Stylish Bedroom Suit In Walnut Finish

THE DESIGN of this splendid suit follows closely the lines of the furniture made in the Queen Anne period, every surface and curve expressing a rare beauty which is furthered by the beautiful dark brown Walnut finish. All the pieces in this suit are excellently made and match perfectly. All of these pieces are shipped promptly from factory in central Indiana or Chicago warehouse.

THE BED comes in the full standard width, 4 ft. 6 in. A noteworthy feature of this beautiful piece of furniture is the bow end which is supported by four cabriole legs. Handsome turned columns and graceful embellishments lend additional charm. Strength and rigidity is assured by the metal side rails. Head and foot panels show the fine figured genuine American walnut facings. Head end is 53 inches high. Comes with casters. Shipping weight 105 pounds.

No. 194C26. Price..... **\$41.95**

THE DRESSER is an admirable piece of furniture. Top and front show the beautiful genuine American walnut grain. Top is 42x21 inches in size. The plain mirror is 24x30 inches. Dust proof construction. Well made throughout. Has 2 large drawers and 2 smaller drawers fitted with metal drawer pulls. Mirror supports are handsomely turned. End panels and drawer bottoms are 3-ply veneered stock, thus eliminating warping. Shipping weight 165 pounds.

No. 194C27. Price..... **\$46.75**

THE CHIFFORETTE matches the other pieces of this set, being made of the same materials in the same thorough way. Size of top is 34x19 inches. End panels have 3-ply walnut face. Dust proof construction. Cupboard contains two sliding removable trays wherein apparel may be laid without chance of becoming rumpled or crushed. Has 2 small drawers and 2 large drawers fitted with metal pulls. Comes with casters. Shipping wt. 155 lbs.

No. 194C28. Price..... **\$39.50**

THE DRESSING TABLE is a very convenient article of furniture for the woman's boudoir. Has a genuine American walnut veneered top and drawer front. Balance of selected quarter-sawn gum. The top is 34x19 inches in size. The plain center mirror measures 24x12 inches. The swinging side mirrors each measure 20x8 inches. Has one large roomy drawer which is fitted with metal drawer pulls. Shipping weight 95 pounds.

No. 194C29. Price..... **\$36.95**

BEDROOM CHAIR matches the other pieces in style and finish. It is well constructed with substantial cane seat, neat top and back panel. The front legs are gracefully shaped to conform with the Queen Anne design and are well braced by strong stretchers. Seat is 16½ inches wide by 14½ inches deep. Has broad 5-inch back panel. Height from seat to top 22½ inches. Shipping weight, 30 pounds.

No. 194C31. Price..... **\$8.85**

THE DRESSING TABLE CHAIR is similar in construction to the bedroom chair and rocker, that constitute part of this splendid suit. It is neat and attractive in appearance and of fine finish. Is very adaptable for use with the dressing table. Has a neat cane seat and low back. Front legs are gracefully shaped. Seat is 16½ inches wide by 14½ inches deep. Order this chair to go with Dressing Table. Ship. wt., 30 lbs.

LOUIS XVI FURNITURE FOR THE MODERN BEDROOM

EARS of experience, the latest and most modern equipment and the will and desire to produce high grade furniture at a moderate cost are accountable for the beauty and dependable quality of the products listed on these two pages. This furniture has character—the character of thoroughness. It is thoroughly charming, exquisite in detail and beautifully finished. It is lastingly satisfactory. This is the result of extreme care in every process of manufacture. Comes in choice of three finishes. Mention finish wanted.

THE DRESSER is illustrated in the upper left-hand corner of this page. Has two top drawers and two full-length drawers below, all four drawers being embellished with a continuous decoration in keeping with the Louis XVI design. Fitted with antique metal drawer pulls. Base top measures 21x42 inches. Shapely French bevel plate mirror is 24x30 inches in size. Shipping weight, about 175 pounds.
No. 177C83. In Mahogany, American Walnut or Ivory Enamel. Price..... **\$53.95**

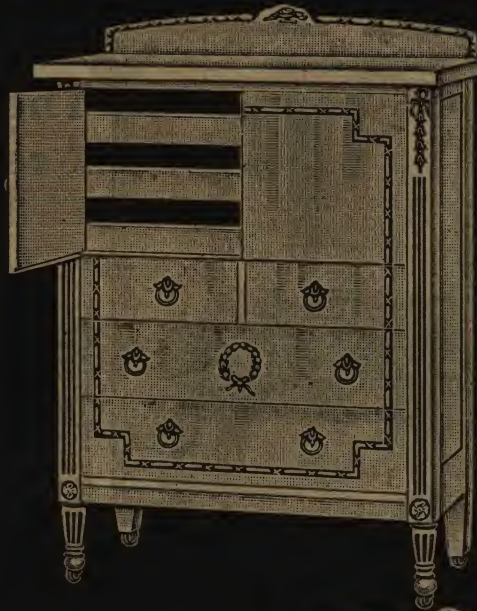

THE DESK is illustrated directly under the dresser. This is a very dainty, refined, lady's writing desk that will adorn milady's bedroom. Designed according to the Louis XVI period. May be ordered in choice of Brown Mahogany, American Walnut, or Ivory Enamel at the prices quoted below. When ordering be sure to mention finish you prefer. Top measures 20x34 inches. Shipping weight, carefully packed, about 90 pounds.
No. 177C84. In Mahogany, American Walnut or Ivory Enamel. Price..... **\$29.95**

BEDSIDE TABLE is illustrated to the left under the desk. Imagine this artistic little table in your room next to your bed. Picture a dainty bedroom lamp upon it, throwing its warm glow of light about your room adorned with this attractive Louis XVI furniture. May be ordered in choice of Brown Mahogany, American Walnut, or Ivory Enamel finish. Top measures 18x18 inches. Height is 30 inches. Shipping weight, about 50 pounds.
No. 177C85. In Mahogany, American Walnut or Ivory Enamel. Price..... **\$14.85**

THE CHAIR is illustrated directly to the left. Although delicate in outline this chair is well constructed and conforms with the style and decoration characteristic of the Louis XVI period. Made according to the standard measurements of bedroom chairs. Has saddle shaped seat and is braced with stretchers. May be ordered in choice of Brown Mahogany, American Walnut or Ivory Enamel as desired. State your preference. Shipping weight, about 14 pounds.
No. 177C86. In Mahogany, American Walnut or Ivory Enamel. Price..... **\$11.95**

THE BED appears at the top of this page and is known as a bow-foot style. Stands 4 ft. 8 in. in height and measures 4 ft. 6 in. wide, which is a full-size bed. An unusually attractive article of furniture designed in the Louis XVI period. When ordering be sure to state whether you prefer the Brown Mahogany, American Walnut, or Ivory Enamel finish, giving the correct catalog number as specified below. Shipping weight, about 125 pounds.
No. 177C87. In Mahogany, American Walnut or Ivory Enamel. Price..... **\$53.65**

BEDROOM FURNITURE IN LOUIS XVI STYLE

The Top, Front And End Panels Are Veneered In Genuine Walnut

DRESSER combines durability, good materials and utility in a very efficient way. It is well made of hardwood with genuine walnut veneered top, front and end panels. Has 2 large and 2 small drawers with 3-ply bottoms. The handsome carvings on the front greatly enhance its appearance. Has large, plain plate mirror, 28x22 inches in size, with gracefully shaped standards. Top has molded edges and measures 42x21 inches. Has fancy metal drawer pulls. Pieces shipped from factory in Central Indiana, Chairs from Chicago.

CHIFFORETTE is made in a substantial manner of select hardwood. The top, front and end panels are veneered in genuine walnut. Has 2 large and two small drawers fitted with attractive metal drawer pulls. Also has 2 sliding trays which are inside the cabinet. Drawer bottoms are of 3-ply wood. Moulded edge top 34x19 inches. Has neatly ornamented top rail. Handsome in appearance and offered at a very reasonable price.

THE BED is substantially made of hardwood with both end panels handsomely veneered in genuine walnut. Is offered in full size, which is 4 ft. 6 in. in width and is 55 inches high. Matches other pieces of this suit perfectly, and together with them makes as fine a bedroom suit as could be desired. Has sanitary steel side rails.

DRESSING TABLE CHAIR. This one is especially neat and attractive companion piece to the dressing table described above. It has the low back which is usually identified with a chair of this type. Is well made of hardwood, attractively finished in walnut. Has saddle shaped seat.

CHAIR AND ROCKER. Both of these are finely made of strong hardwood finely finished in walnut. Made in the attractive Louis XVI style to match the other pieces. They present a very attractive appearance. Height of back from seat on both chair and rocker is 21½ inches. Both have saddle shape seats.

DRESSING TABLE. Top and front are finely veneered in genuine walnut. Frame is well made of selected hardwood. Has one large roomy drawer fitted with handsome metal pulls. Drawer bottom is constructed of 3-ply wood. Top is 34x19 inches in size. Center plain plate mirror is 22x12 inches, while the two swinging side mirrors are each 20x8 inches in size.

BEDROOM SUIT IN THE QUEEN ANNE STYLE

Comes In Your Choice Of Golden Oak, Mahogany Or Walnut Finishes

BUILT for lifetime service. Any of the pieces shown are made for service. The bow-end bed adds a touch of newness that makes this suit so much more distinctive than the regular straight-end pattern. The pieces of this suit are made of hardwood in walnut or mahogany finish with genuine veneers, or in golden oak with quartered oak fronts and tops. All finishes are hand rubbed to a satin polish. The dresser and dressing table have good quality French plain plate mirrors set in graceful frames. Shipped from factory in Central Indiana.

DRESSER. This handsome piece of furniture is very well made of solid oak in the golden finish, with quartered oak fronts and top, or of hardwood in the mahogany or walnut finish with genuine veneer. Has a 20x40 in. top and a 24x26 in. French plain plate mirror. Has 2 long and 2 short drawers with metal drawer pulls. This is a very fine dresser—one that will give you excellent service and satisfaction in every way. Shipping weight, about 160 pounds.

VANITY DRESSER has 5-ply top with drawer bottoms and ends of 3-ply stock. Comes in golden oak, brown mahogany or walnut finish as explained above. Is 40 in wide and 20 in. deep, with 3 drawers on each side. French plain plate mirrors. Center mirror, 20x47 in.; side mirrors, 10x30 in. Ship. wt., about 170 lbs.

THE BED is made of selected lumber in the Queen Anne period style, with bow feet. It is full sized, equipped with metal side-rails in the proper length for a bow-end spring. Has cabriole legs, and neat top rail on both foot and head ends, ornamented by shell carvings. Height, 48 in. In golden oak, brown mahogany or walnut finish, as explained above. Ship. wt., 125 lbs.

CHIFFONIER is carefully built of solid oak in the popular golden finish or of hardwood in the walnut or mahogany finish, as explained above. Has 3 long and 2 short drawers. Size of top is 19x32 inches. Like the other pieces in this suit it has neat metal drawer pulls. State finish you want us to send. Shipping weight, 140 lbs.

DRESSING TABLE

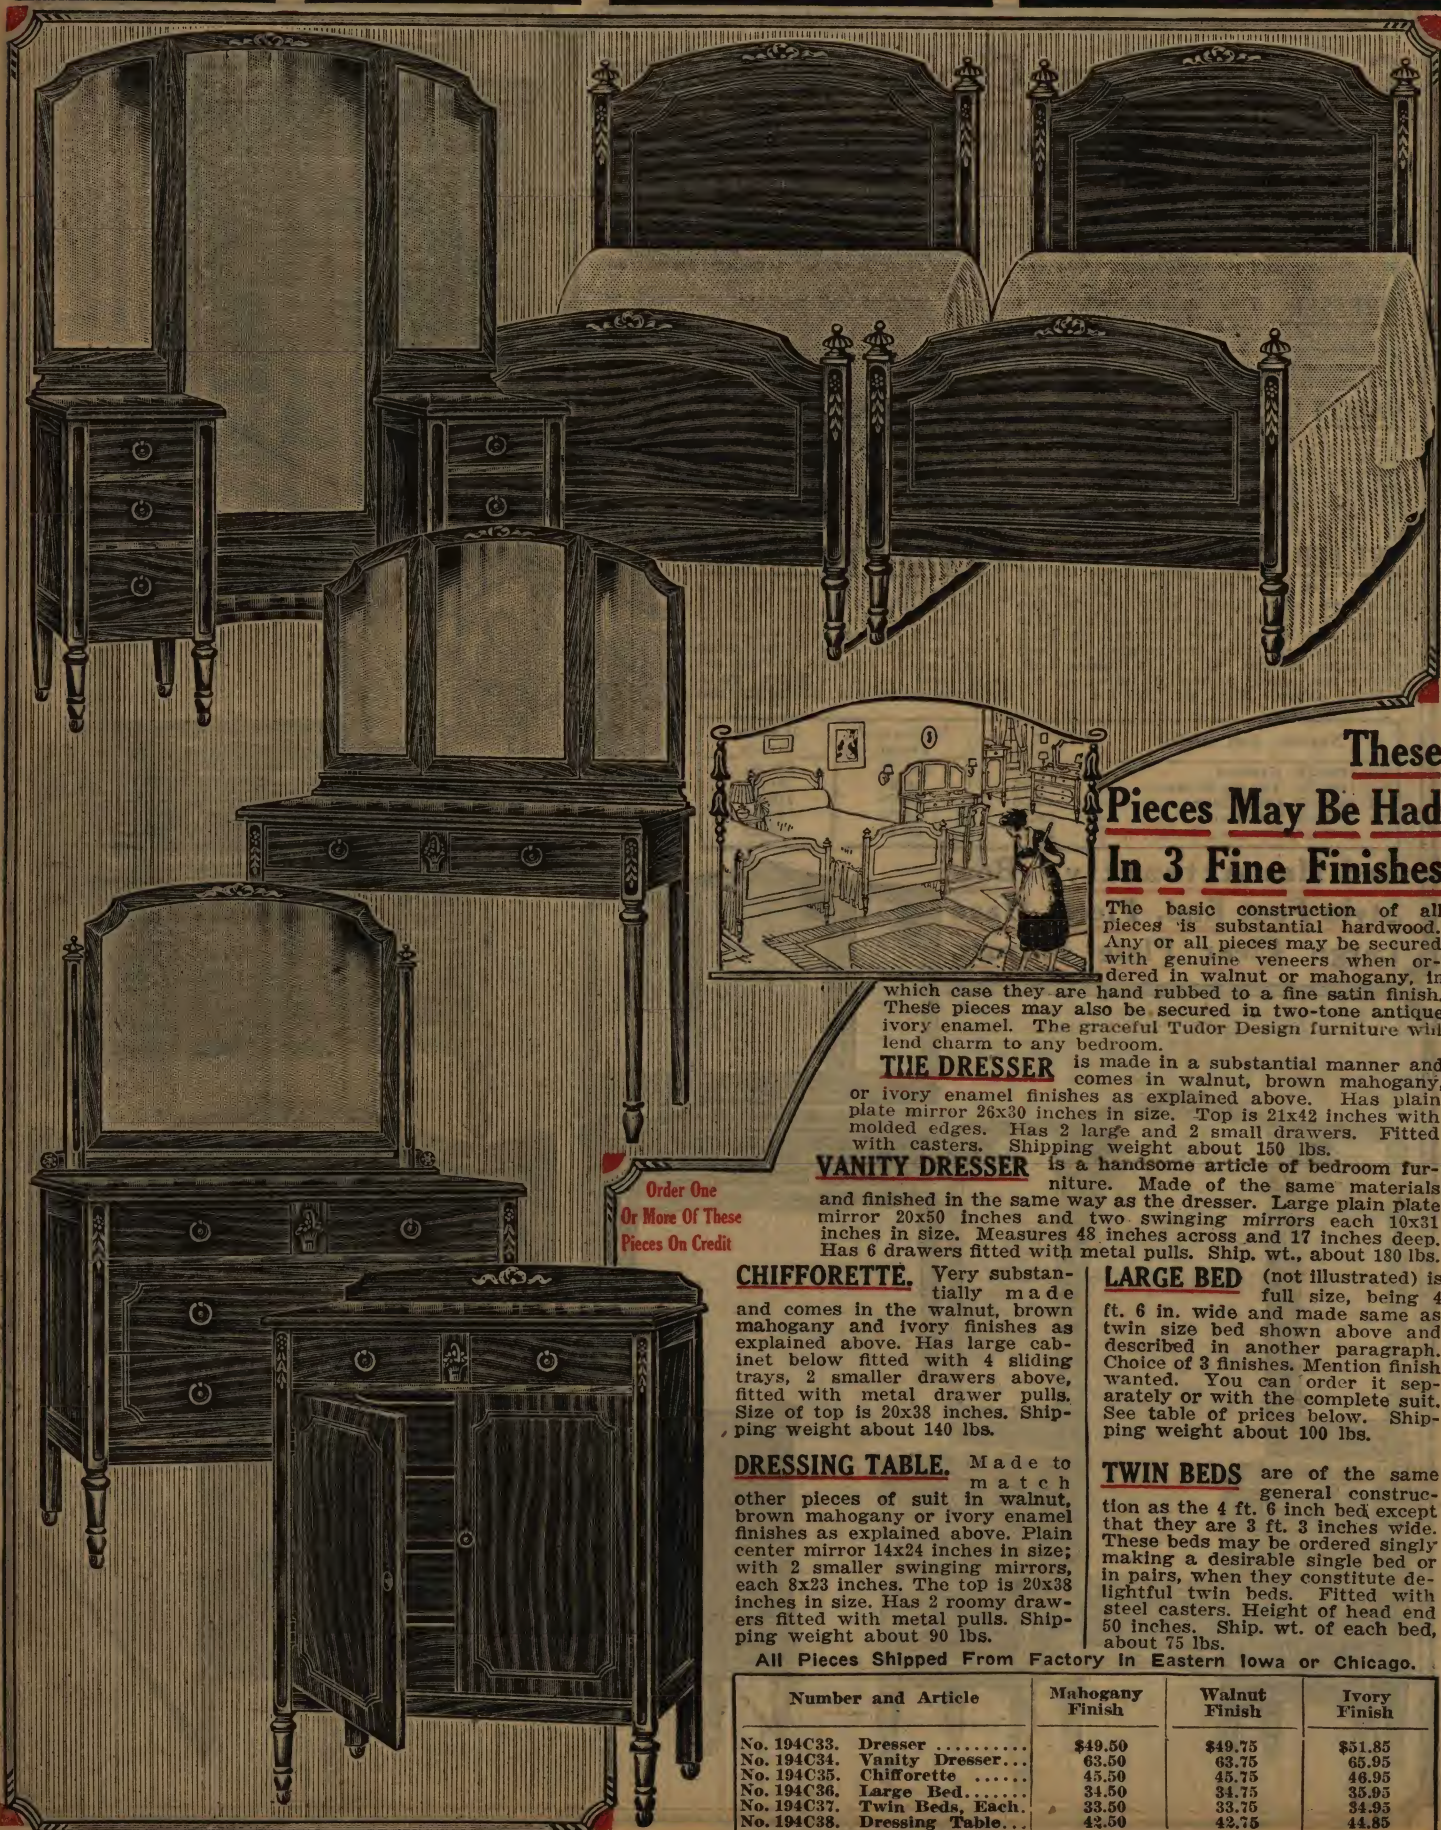

to match other pieces in style and finish. The top is 19x33 inches in size. Center mirror is 16x22 inches, each side mirror is 8x20 inches. Fitted with two small drawers having attractive metal drawer pulls. Shipping weight, about 120 lbs.

Bed Has Attractive Bow Style Foot End. Pieces Have Large Clear Plate Mirrors.

TUDOR DESIGN BEDROOM FURNITURE

These Pieces May Be Had In 3 Fine Finishes

The basic construction of all pieces is substantial hardwood. Any or all pieces may be secured with genuine veneers when ordered in walnut or mahogany, in which case they are hand rubbed to a fine satin finish. These pieces may also be secured in two-tone antique ivory enamel. The graceful Tudor Design furniture will lend charm to any bedroom.

THE DRESSER is made in a substantial manner and comes in walnut, brown mahogany, or ivory enamel finishes as explained above. Has plain plate mirror 26x30 inches in size. Top is 21x42 inches with molded edges. Has 2 large and 2 small drawers. Fitted with casters. Shipping weight about 150 lbs.

VANITY DRESSER is a handsome article of bedroom furniture. Made of the same materials and finished in the same way as the dresser. Large plain plate mirror 20x50 inches and two swinging mirrors each 10x31 inches in size. Measures 43 inches across and 17 inches deep. Has 6 drawers fitted with metal pulls. Ship. wt., about 180 lbs.

CHIFFONETTE. Very substantially made and comes in the walnut, brown mahogany and ivory finishes as explained above. Has large cabinet below fitted with 4 sliding trays, 2 smaller drawers above, fitted with metal drawer pulls. Size of top is 20x38 inches. Shipping weight about 140 lbs.

DRESSING TABLE. Made to match other pieces of suit in walnut, brown mahogany or ivory enamel finishes as explained above. Plain center mirror 14x24 inches in size; with 2 smaller swinging mirrors, each 8x23 inches. The top is 20x38 inches in size. Has 2 roomy drawers fitted with metal pulls. Shipping weight about 90 lbs.

LARGE BED (not illustrated) is full size, being 4 ft. 6 in. wide and made same as twin size bed shown above and described in another paragraph. Choice of 3 finishes. Mention finish wanted. You can order it separately or with the complete suit. See table of prices below. Shipping weight about 100 lbs.

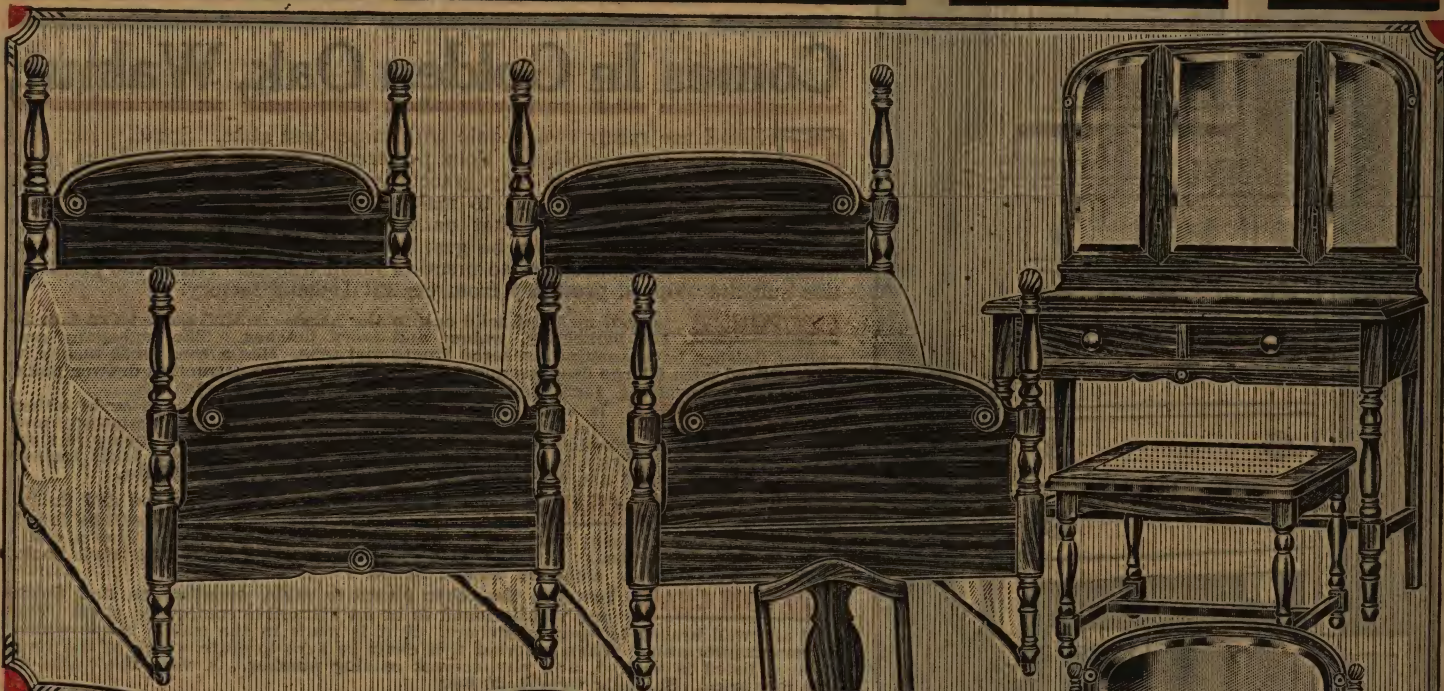

TWIN BEDS are of the same general construction as the 4 ft. 6 inch bed except that they are 3 ft. 3 inches wide. These beds may be ordered singly making a desirable single bed or in pairs, when they constitute delightful twin beds. Fitted with steel casters. Height of head end 50 inches. Ship. wt. of each bed, about 75 lbs.

All Pieces Shipped From Factory in Eastern Iowa or Chicago.

MARTHA WASHINGTON DESIGN SUIT

Pieces Come In The Walnut Or Mahogany Finish

Substantially made and neatly finished in rich brown mahogany or American walnut, with genuine veneers. All of the pieces are hand rubbed to a fine satin finish. Both finishes are decidedly handsome and set off these well made pieces to good advantage. The construction is high grade and will give long and satisfactory service.

THE DRESSER is finely made in every respect. Has attractively turned legs and mirror stand. Size of top is 20x40 inches. Has a large beveled plate mirror, 24x26 inches in size. Has 2 large drawers and two small drawers, fitted with wood pulls. Fitted with good casters. A splendid piece of bedroom furniture that is as attractive as it is useful.

CHIFFONETTE. This extremely useful piece of furniture is well made and matches the other pieces on this page in style and finish. Has attractive turned legs which are fitted with strong casters. The top is 19x36 inches in size. Has 2 small drawers above fitted with neat pulls. Cabinet below contains 4 sliding trays as shown. These are protected by the two doors.

DRESSING TABLE is made in the same careful way as are the other pieces of the suit. Has attractively turned Colonial style front legs. The top is 19x38 inches in size. Fitted with two drawers. Has 3 French beveled plate mirrors. The center one is 14x22 inches in size and each of the swinging side mirrors is 8x22 inches. A handsome piece of furniture.

TWIN BEDS are made in the same style as the full size bed, the only difference being in the width, which is 3 ft. 3 inches. Have strong side rails. The height of the head end is 51 inches. You can order these beds singly, making a fine single bed or in pairs for use as twin beds. Have strong steel casters. The neat ornamentalations make these beds very handsome.

All pieces on this page shipped from Chicago or factory in Eastern Iowa.

LARGE BED is full 4 ft. 6 inches in width. It is well made and has neat ornamentalations and turned Colonial pillars as shown. Comes in two finishes—mahogany and walnut as explained above. Fitted with easy rolling casters and sanitary steel side rails. Height of bed is 52 inches. You can order this splendid bed with the suit or separately as you may desire.

CHAIR, ROCKER AND BENCH.

The seat of the chair and rocker are of cane and measure 16½ inches wide by 14½ inches deep. Height from seat to top on both chair and rocker is 22½ inches. Tops are 1½ inches by 11½ inches in size on both pieces. Dressing table bench has cane seat. It is a companion piece for the dressing table described on this page.

FINE BEDROOM FURNITURE

Comes In Golden Oak, Walnut,

HERE are rarely two people with tastes just alike. Some prefer one design—some another. Your preference may be straight lines, your neighbor may want only gracefully curved pieces. Our purpose in designing this suit was to make one that would occasion universal approval, no matter what one's tastes might be. Your particular choice of finish, however, can be gratified from among the four handsome finishes listed below. Be sure to mention finish wanted. All of the pieces in this suit are shipped promptly from central Indiana factory.

CHIFFONIER is well made of solid oak in the handsome dull golden finish or in the mahogany, walnut and ivory finishes. The mahogany and walnut finishes have genuine veneered fronts and tops. Has a top, 19x32 inches in size. Fitted with 4 large drawers and 3 small drawers, with attractive drawer pulls. Has plain plate mirror, 14x20 inches in size. Shipping weight, 145 lbs.

DRESSING TABLE is made of solid oak in the dull golden finish or in either the mahogany, walnut or ivory finish. The mahogany and walnut finishes have genuine veneered fronts and tops. Top is 19x36 inches in size. Fitted with three drawers having attractive pulls. Center mirror is 14x22 inches. Swinging side mirrors are each 8x22 inches. Shipping weight, 115 lbs.

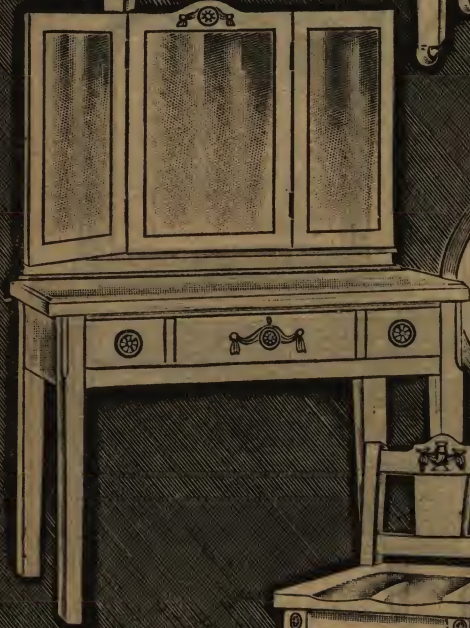

DRESSING TABLE CHAIR. Matches dressing table in style, wood and finish. It is well made in every respect and will be found a very useful complement to the dressing table listed on this page. Has a comfortable saddle shape seat and the conventional low dressing table chair style back. Legs are well braced. Shipping weight 20 lbs.

BEDROOM CHAIR matches the other pieces in style, construction and finish and will be found to be an attractive companion piece. The legs are well braced by neat stretchers. Seat is made in the saddle shape which is very comfortable. When ordering this chair be sure to state which of the four finishes listed is desired, and give correct catalog number. A very fine value at this low price. Shipping weight, 20 lbs.

THE BED matches the other pieces in construction, style and finish. Made in a very neat design with ornaments on head and foot ends. It presents a most attractive and pleasing appearance. May be had in your choice of dull golden oak, or in mahogany, or ivory finishes. The mahogany and walnut finishes have genuine veneered panels. State finish you desire. Is full size and 49 inches high. Fitted with sanitary metal side rails. Shipping weight, about 100 lbs.

OF PARTICULAR WORTH

Mahogany And Ivory Finish

MADE with expert care, of materials that assure long service. This beautiful suit is sure to please everyone who orders it. Any bedroom, no matter if it has polished hardwood floors, or soft pine flooring—plain plaster walls or finely tinted walls cannot help but be made charming in the extreme by the addition of this bedroom furniture. The price is low for furniture of this quality—another definite reason for your filling out an order blank immediately and sending for this suit. Shipped from factory in Central Indiana or Chicago warehouse.

PRINCESS DRESSER. Made of solid oak in golden finish, or in walnut, mahogany or ivory finish. Walnut and mahogany finishes have genuine veneered front and top. Has one large roomy drawer and three smaller drawers. All but small center drawer have handsome drawer pulls. Has a plain plate mirror, 18x30 inches in size. Top is 19x34 inches in size. This is an excellent piece of bedroom furniture sold at a reasonable price. Shipping weight, about 120 pounds.

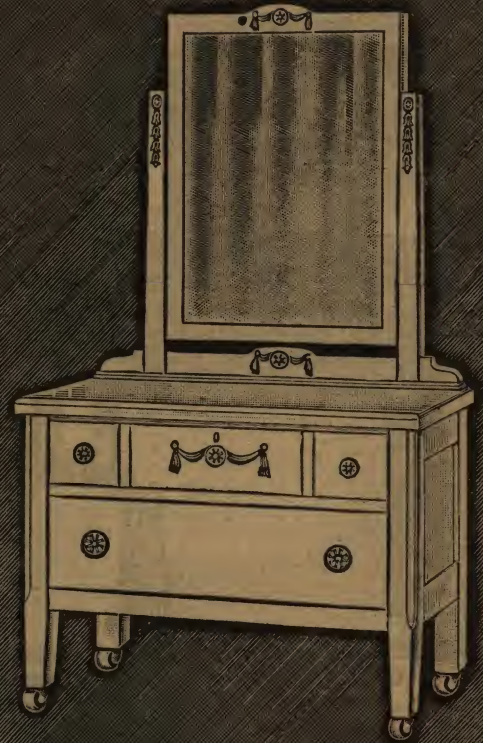

THE DRESSER shown below is a very artistic and beautiful piece of furniture. Comes in a very attractive design in four finishes—ivory, golden oak, walnut, or mahogany. The walnut and mahogany finishes have genuine veneered front and top. Dresser has a 20x40-inch top with three small and two full length drawers. The mirror is French plain plate and is 22x26 inches in size. In every sense of the word, this is a remarkable dresser. Send for it immediately. You will be well satisfied. Shipping weight, 150 pounds.

THE ROCKER. Made of solid oak in the golden finish or of substantial hardwood in the walnut, mahogany or ivory finishes. Has neat saddle seats. Ornamented front legs and top rail. Construction is of the highest grade and is dependable for good service. Has continuous back posts. Legs are well braced by neat stretchers. This is a dainty bedroom rocker. Order it today on our easy terms. You will be well satisfied with your purchase when you see it. Shipping weight, about 20 pounds.

VANITY DRESSER shown below in the beautiful style is of high grade construction throughout. Is 48 inches wide with 3 drawers in each side. The center French plain plate mirror is 20x48 inches and each side mirror 10x32 inches. A very attractive article in your choice of four finishes at the prices quoted. Comes in ivory, golden oak, walnut and mahogany finishes. The walnut and mahogany finishes have genuine veneered front and top. Shipping weight, about 175 pounds.

HIGH GRADE BEDROOM PIECES AT A BIG SAVING

Can Be Ordered In Your Choice Of Bird's-Eye Maple Or Mahogany Finish

MADE IN ADAM PERIOD STYLE. EACH PIECE PERFECTLY MATCHED

THE CONSTRUCTION of these pieces has been carefully watched by the manufacturer, who made an effort to produce at a low price, bedroom furniture that would be a duplicate of the very expensive Adam period pieces of long ago. That he succeeded is shown in the illustration of these handsome articles. The wood used in building these pieces is all kiln-dried, thoroughly seasoned lumber. You can order any article shown on this page in bird's-eye maple or rich mahogany veneer, rubbed and polished, at the remarkable low prices quoted in the descriptions. If you need a new bedroom set, you could not find a bigger bargain in this style of bedroom furniture, than we are offering here. The bed, dresser, chiffonier and dressing table are all made to match each other, having the same style of ornamentation and same design of construction. They are rich appearing, well made pieces, sold to you on our liberal credit terms and sent to you on 30 days' trial.

THE DRESSER is made to match the other pieces of this set and comes in Bird's-eye Maple or Mahogany veneer. Rubbed and polished. Ornamented with rich carvings in Adam period design. The top of base measures 42x21 inches. Base has two small drawers at top, below which are two full length drawers, all have fancy metal drawer pulls. Plain French plate mirror 30x24 inches and fitted into a carved shaped frame, supported by attractive standards. Complete with casters, locks and key. Specify finish. Shipping weight, about 150 pounds.

No. 180A16. Price..... **\$39.95**

THE CHIFFONIER. Made in Adam period style, to match other articles on page and constructed in bird's-eye maple or mahogany veneer. Rubbed and polished. All carvings and ornamentations match those on bed, dresser and dressing table. Base has 32x20-inch top, below which are two small drawers and four full length drawers, fitted with fancy metal drawer pulls. Plain French plate mirror 18x14 inches and mounted into a shaped mirror frame supported by Adam period standards. Comes with casters, locks and key. State finish wanted. Shipping weight about 140 pounds.

No. 180A17. Price..... **\$36.75**

THE BED. Made in Adam period style in bird's-eye maple or mahogany veneer to match the other pieces. Rubbed and polished. Head end stands 62 inches high with foot end of properly proportioned height. Full width (54-inch) bed and equipped with strong side rails and easy rolling casters. In style and decoration, the bed is a harmonious companion piece to the balance of set. Specify finish you want. Shipping weight about 100 pounds.

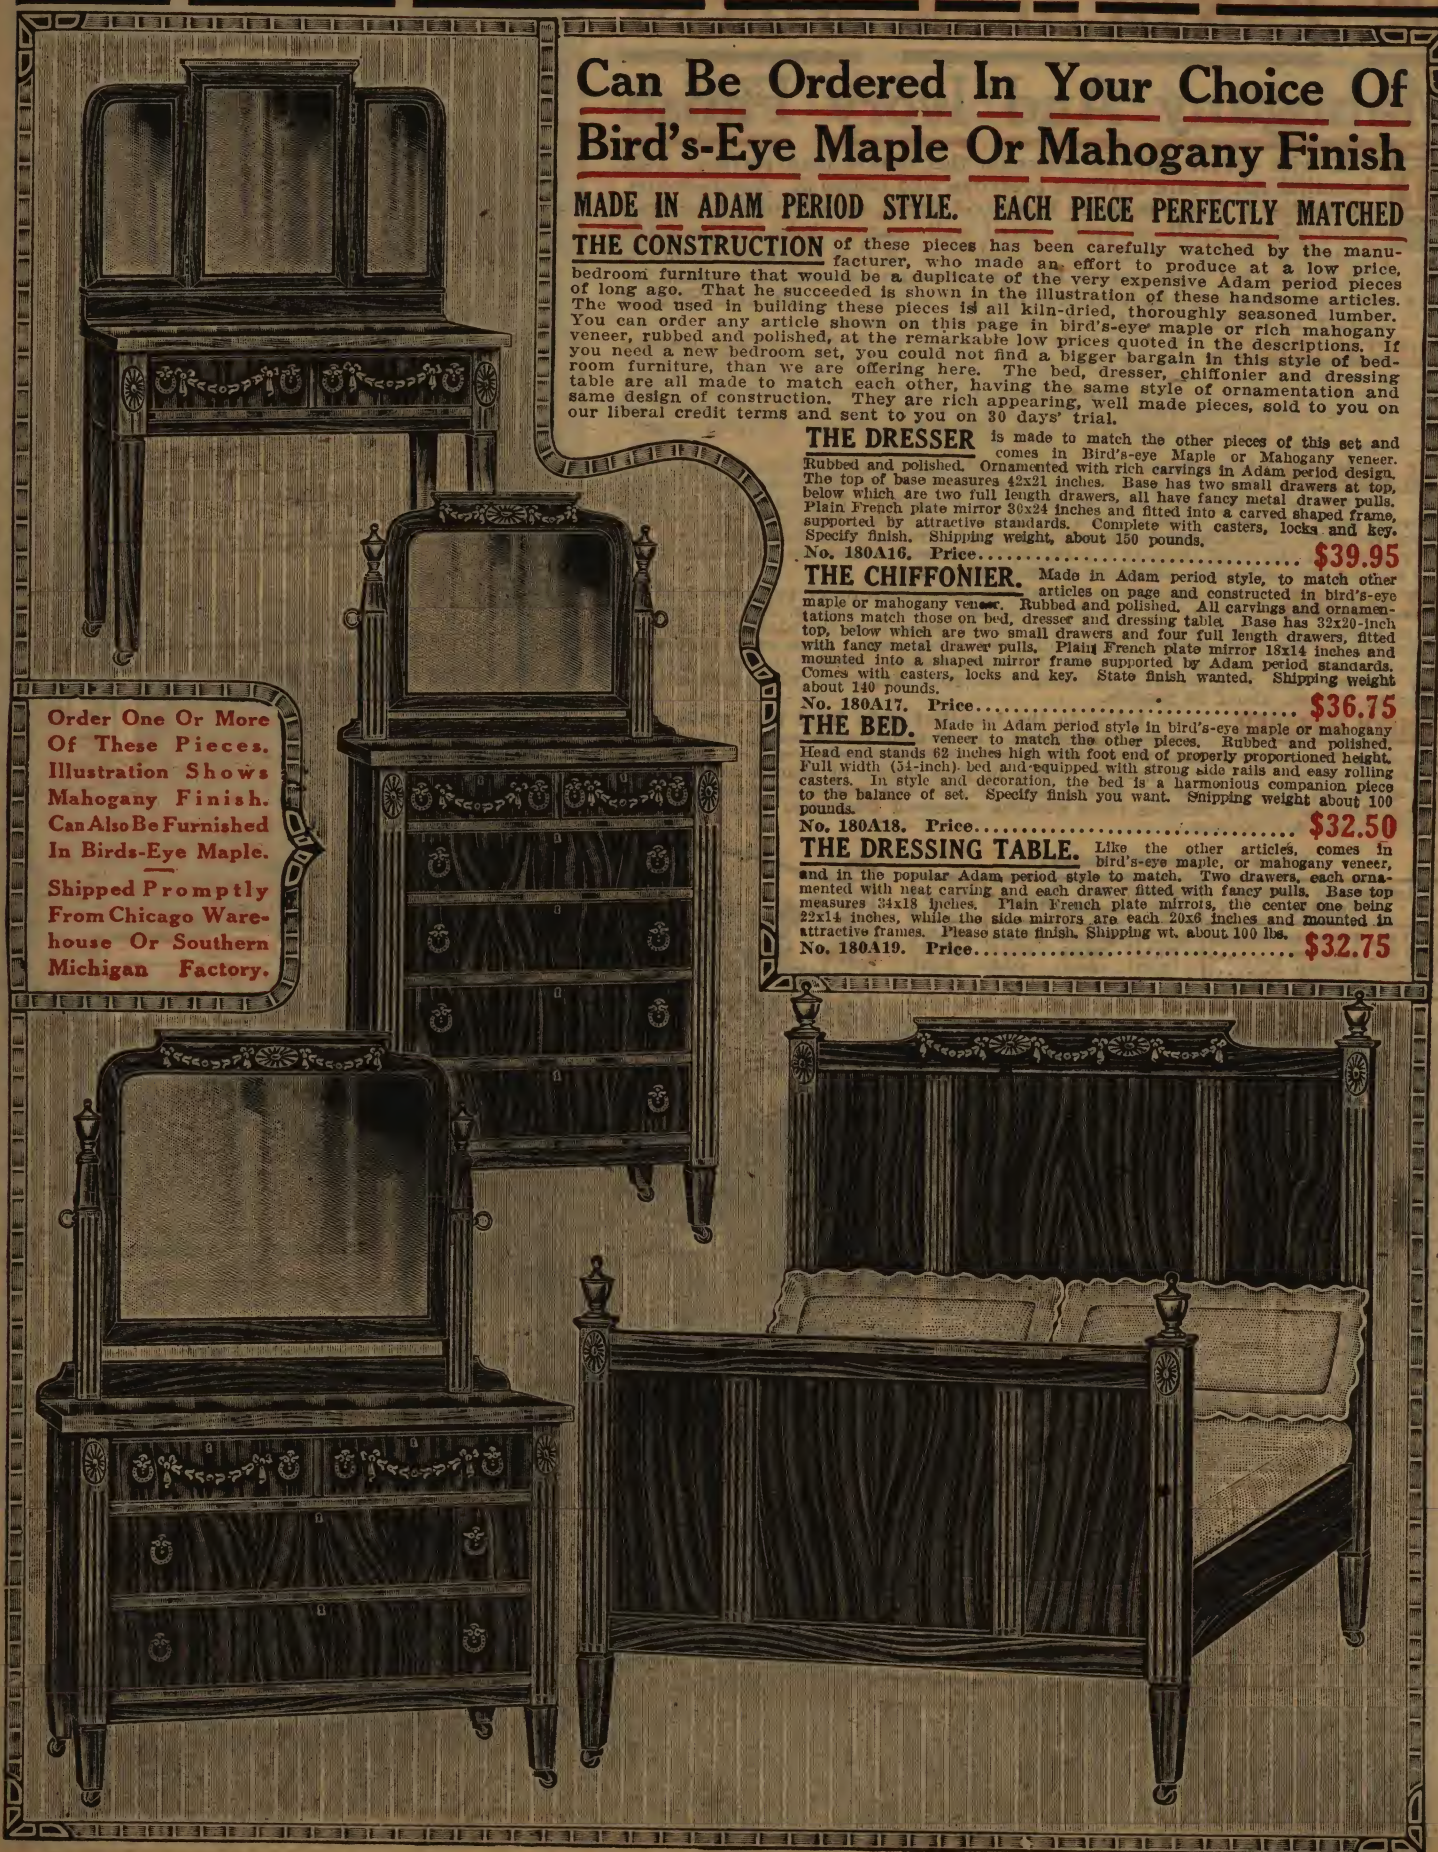

No. 180A18. Price..... **\$32.50**

THE DRESSING TABLE. Like the other articles, comes in bird's-eye maple, or mahogany veneer, and in the popular Adam period style to match. Two drawers, each ornamented with neat carving and each drawer fitted with fancy pulls. Base top measures 34x18 inches. Plain French plate mirrors, the center one being 22x14 inches, while the side mirrors are each 20x8 inches and mounted in attractive frames. Please state finish. Shipping wt. about 100 lbs.

ADAM PERIOD DESIGN BEDROOM FURNITURE

Stylish Bedroom Pieces At Moderate Prices And On Liberal Terms

THE PIECES MATCH PERFECTLY AND MAKE A HANDSOME SUIT

THE CONSTRUCTION of the various pieces shown on this page is first class. The manufacturer has succeeded in producing dainty, attractive pieces of furniture that will give excellent service and yet are priced low enough to bring them within reach of the average home. Stability and durability have not been sacrificed, however, for each piece is so well built that it will last an ordinary lifetime. These pieces come in the solid oak, golden finish with quartered oak fronts and tops or in walnut finish with genuine American walnut veneer fronts and tops. When ordering please mention finish you want. You may order one or more of these pieces at the prices quoted and pay for them on our liberal credit terms. They represent excellent value and will prove a source of much satisfaction to you. Remember, we stand back of every article we advertise. Include one or more of these handsome pieces in your order.

THE DRESSER is well constructed and comes in the Golden or Walnut finish. The base top, measuring 42x21 inches, is of quarter-sawn 5-ply construction, and the entire front is 3-ply with ornamental design along the bottom edge. Beneath the top are two small and two long drawers protected by dust-proof case bottom. All drawers are fitted with wood drawer pulls. The large, plain plate mirror, measuring 28x22 inches, is mounted in an artistic frame and supported by neat Adam period standards. Shipping weight, about 160 pounds.

No. 182B17. Price..... **\$38.95**

THE CHIFFORETTE is constructed in the same manner and style as the other pieces shown on this page, with quarter-sawn 5-ply top and quartered 3-ply front, and end panels. The base top measures 34x19 inches, beneath which are two small drawers. The double door cupboard compartment contains two trays as shown in illustration, and beneath are two long deep drawers for storage space. Drawers and doors are fitted with wood knob handles. This chifforette comes in the Golden or Walnut finish to match the other pieces. State finish wanted when ordering. Shipping weight, about 150 pounds.

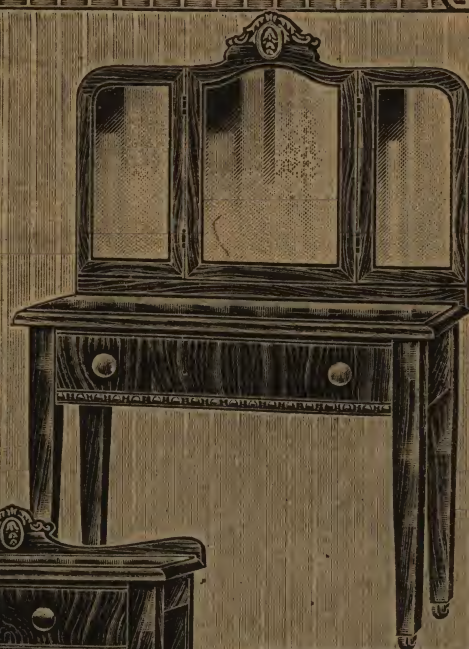

No. 182B18. Price..... **\$31.85**

THE BED is a beautiful piece of furniture in Adam period design in the Golden or Walnut finish. State finish wanted when ordering. The extreme height is 54 inches and it is full 4 ft. 6 in. in width. The top and panels are 5-ply quarter-sawn construction, making it a very substantial and durable bed. Top of head contains a neat, carved ornament. Lower edge of the foot end has beaded ornamentation to match the other pieces. Has sanitary metal rails. Shipping weight, about 120 pounds.

No. 182B19. Price..... **\$29.98**

THE DRESSING TABLE is a beautiful piece of furniture in Adam period design and Golden or Walnut finish. The 34x19-inch top is quartered 5-ply and front and end panels quartered 3-ply construction. It contains one long drawer with wood knob handles and with beaded ornamentation immediately beneath. The triple plain plate mirrors are of ample size, the center one measuring 22x12 inches and each side mirror 20x8 inches. It makes a perfect companion piece to the bed, dresser and chifforette described above. Shipping weight, about 90 pounds.

No. 182B20. Price..... **\$31.50**

ATTRACTIVE ADAM PERIOD BEDROOM SUIT

Handsome Bedroom Suit In Golden Oak

IF a neat, substantial unassuming set of furniture is desired, none better could be found than this one. These features are admirably combined with excellent workmanship and materials and serve to produce a bedroom suit that is attractive and very low in price. People with the idea of thrift in mind should immediately investigate the rare value that is represented by this suit. When this suit stands in your own home you cannot help but feel satisfied with your purchase. Order this suit sent to you on approval; we know that you will be pleased with it.

GOOD FURNITURE in the bedroom makes that room more attractive and cheerful. It is a mistaken idea that some people have of furnishing the rooms where visitors might enter in a prepossessing manner and neglecting the others. It is well, with the bedroom in particular, that you exercise care in choosing proper furniture and that you buy the kind that will make it as pleasing in appearance as possible. Order the suit, or any single piece you may desire, on this page and discard the old furniture. Even the first thrill of pleasure you experience at seeing your bedroom so attractive will merit the expenditure.

DRESSER is well constructed of solid oak with quarter-sawed oak front and top. Finished in dull golden. A very attractive piece of furniture at a low price. The delicate carvings on the mirror frame, legs and drawer and the attractive drawer pulls, serve to make it a handsome dresser. Top is 20x40 inches in size. Has two large drawers and three smaller drawers. Has plain plate mirror 24x28 inches in size. Shipped from Central Indiana factory or Chicago warehouse. Shipping weight, carefully packed, about 150 pounds.

No. 176C9. Golden Oak Finish..... **\$34.75**

CHIFFONIER is of an unusually attractive design that is sure to please. The top, which has a fancy molded edge, is 18x32 inches in size and the plain French plate mirror measures 14x20 inches. The mirror frame is set off at the top with a neat Adam design to correspond with the decoration characteristic of this period. It is fitted with three top drawers and four full length drawers. These are easy sliding and have oxidized metal drawer pulls. Center top drawer has lock. Made of quartered oak with solid oak side panels. Comes in the dull golden finish and is made to match the other pieces of suit perfectly. Shipped from Central Indiana factory or Chicago warehouse. Ship, wt., about 145 pounds.

No. 176C13. Golden Oak Finish..... **\$31.95**

DRESSING TABLE is illustrated to the left. Imagine this piece of furniture in quartered oak with solid oak side panels, dull golden finish, with its glistening expanse of mirrors, with here and there a glimpse of the oxidized metal trimmings. The center French plain plate mirror measures 14x22 in. and the two side mirrors are each 8x22 in. in size. These two smaller mirrors can be brought forward so that you can see your image from the front and both sides at the same time. Base top measures 18x36 inches. Drawers are easy sliding; center drawer has lock. You may order one or more of these pieces. Shipped from Central Indiana factory or Chicago warehouse. Shipping weight, about 120 pounds.

No. 176C15. Golden Oak Finish..... **\$27.95**

BED is made of solid oak with quartered panels finished in the dull golden finish. The rich simplicity of the design commends it to the discriminating purchaser. Height of head is 50 inches including casters. Is full size, measuring 4 ft. 6 in. wide. Has reversible metal side rails which will accommodate any kind of spring or mattress. If you desire a bed that will assure you the greatest amount of comfort and satisfaction, order this one, either separately or with the other pieces shown on this page. Be sure to include this bed in your order. See page one of this catalog for our liberal credit terms. Shipped from Central Indiana factory or Chicago warehouse. Shipping weight, carefully packed, about 95 pounds.

WHY YOU PAY LESS

for your homefurnishings at Hartman's. It is easy to understand when you know how our business is conducted. In the first place, we carry a better grade of merchandise than the ordinary, because this kind gives lasting satisfaction. You see, when goods are sold on long term credit, people have plenty of time to prove their quality; and should the articles not give the satisfaction that is to be expected from them, our customers would judge all our merchandise by the one piece that happened not to satisfy; therefore, it is absolutely essential that the merchandise we sell be exactly as represented and that it will give thoroughly satisfactory service. Here is another point: A large volume of business can be successfully conducted on a small margin of profit; and a large volume of business can be easily secured by giving guaranteed quality, low prices, and plenty of time to pay—this is why you pay less at Hartman's. This handsome well-made bedroom furniture is no exception. It is of the approved Colonial design now so universally popular, and is made of solid oak in the rich golden gloss finish. All pieces shipped promptly from Chicago warehouse or factory in central Indiana.

No. 161B19. Bed, White, \$15.69

THE BED is made of all steel tubing in neat and attractive design and of such substantial construction as will give the very best service. An important feature and one that is sure to be appreciated by the housewife is the reversible rail construction which enables you to use any kind of bed spring. The rail ends fit into patented pressed steel corners that hold the rail firmly and give great rigidity to the bed. This bed can be furnished in either the 4 ft. 6 in. or 3 ft. 3 in. size, and in your choice of white enamel or Vernis Martin finish, as priced below. Be sure to state size and finish wanted. The all-steel pillars are 2 inches in diameter and fitted with neat caps at the top as shown in the illustration. The top, bottom and filling rods are 1 1/2 inch in diameter. The head is 50 inches high and the foot 34 inches. It is fitted with steel casters of the easy rolling type. This bed has the advantage of being lighter and more easily moved about than a cast iron bed, while possessing as much strength and rigidity as the cast bed has. Shipping weight, about 75 pounds.

THIS NEAT DRESSER is made of hardwood in a very substantial manner and finished in imitation of quarter-sawn oak, golden color. It closely resembles genuine quarter-sawn oak in appearance and is a very pretty article. Has scroll feet, fitted with easy rolling casters, and Colonial design mirror standards. The plain plate mirror measures 24x20 inches in size and is fitted in a very neat frame. The base top of this dresser measures 40x19 inches. The two top drawers are overhung and produce a very pleasing effect. Beneath these are two full length drawers, carefully fitted and easy sliding. All drawers are fitted with wood knob pulls. At the price we quote, this dresser represents very good value. You may order it sent to you on our liberal 30-day-trial plan and pay for it on our easy credit terms. This dresser is substantially constructed and will render satisfactory service. Shipped promptly from our Chicago warehouse. Shipping weight, about 120 pounds.
No. 168R6. Dresser. Price. **\$26.45**

COLONIAL PRINCESS dresser of very pleasing design. It is made of hardwood to which has been given a finish that closely resembles genuine quarter-sawn oak. It is well constructed throughout and is very rigid and serviceable. The top of base measures 34x19 inches, beneath which are two small drawers and one full length drawer, all fitted with neat wood knob pulls. It has scroll feet, fitted with easy running casters. The large French plain plate mirror measures 30x18 inches and is supported by artistic standards of Colonial design. This Princess style dresser forms a fine companion piece to the other furniture shown on this page, and we recommend it as exceedingly good value. It may be bought singly or in connection with the others to form a very neat bedroom suit. It is finished in the rich golden oak color to match the dresser and chiffonier. Shipped promptly from Chicago. Shipping weight about 110 pounds.

No. 190A20. Dresser
Price - - - \$26.50

THIS DRESSER is a very exceptional bargain at the low price we are asking. It is finely constructed of kiln-dried straight grained hardwood finished in flaky imitation quartered oak and highly glossed. Its simple, straight line effect is very exquisite and greatly enhanced by the attractive mirror standards and front base posts. The top of mirror frame is gracefully curved to match the head of the bed and adds much to the beauty and attractiveness of the dresser. The base has two small extended top drawers, fitted with locks, and two full width drawers; all easy sliding and fitted with wood knobs. The top of the dresser measures 38 inches wide. The French plain plate mirror is 24x20 inches in size. This dresser represents excellent value, is neat and attractive in appearance and its very moderate price brings it within the reach of all. Order this dresser sent to you on approval and if it does not please you send it back at our expense and we will refund your money. Shipping weight, carefully packed, about 130 pounds.

THE DRESSING TABLE illustrated at the left is an attractively designed piece of bedroom furniture, made to match perfectly the bed, dresser and chiffonier shown on this page. It is constructed in a very substantial manner of thoroughly seasoned hardwood with a beautiful finish in imitation of quarter-sawed oak, highly glossed. It is so skillfully executed as to be hardly distinguishable from the grain of real quarter-sawed oak. Has a French plain plate mirror, measuring 18x22 inches, mounted into an artistic frame with gracefully curved top, supported by strong standards. The base top measures 30 inches wide. Below is a convenient drawer of ample size, fitted with round wooden pulls, as shown in the illustration. It is a very neat appearing toilet table and will give very good service. It may be ordered alone or in connection with any of the other pieces shown on this page. The price is so moderate and our credit terms so easy that you should no longer hesitate to tone up the appearance of your bedroom by ordering this neat dressing table. Shipping weight, about 75 pounds.

No. 190A22. Price of Dressing Table..... **\$18.95**

THE CHIFFONIER illustrated to the right is a fit companion piece to the bed, dresser and dressing table. It is designed along the same lines as the other pieces described on this page. Is substantially constructed of seasoned hardwood of good quality by experienced cabinet makers, and is finished in a beautiful imitation of the rich grain of quarter-sawed oak, highly glossed. The size of the base top is 30 inches wide, beneath which are two small extended drawers fitted with locks. This chiffonier also has four long drawers of ample proportions, all easy sliding and fitted with wood knobs. The plain plate mirror, 18x12 inches, is mounted in a neat frame with oval top to match the other pieces shown here. It is supported between substantial standards of plain but neat design. This chiffonier is nicely finished, well proportioned and presents a very pleasing appearance. It is a very useful piece of furniture and provides liberal storage space. Shipping weight, about 120 pounds.

AN EXCEPTIONAL VALUE

OUR APPROVAL OFFER enables you to send for this splendid dresser on 30 days' trial. In that way you can enjoy its use in your home before you decide to keep it. But we feel sure that once you have it you will be so well pleased with your purchase that you will make up your mind to retain it permanently as a part of your bedroom furnishings. It is not an ordinary looking dresser, as the illustration will reveal, but has the earmarks of distinction and style. And yet is not overwrought with embellishments that detract, but is so designed as to be pleasing to those who are particular about the appointments of the home. Has neatly moulded base top which measures 18x36 inches and shapely mirror frame, enclosing a 16x22-inch plain plate mirror. The front posts and back board have grooved design to correspond with the gracefully moulded base top. If you are looking for a good looking dresser at a low price this is the one for you to buy.

THE PRICE IS LOW for a dresser so good as this one. Consider the fact that the material used is seasoned solid oak, which is known for its great durability. The finish is a rich golden color which is so pleasing and harmonious. There are three roomy drawers, the top one being embellished with grooved trimming, and all drawers are fitted with round wooden knobs. The legs of this dresser are fitted with easy rolling casters. Don't fail to observe the gracefully shaped mirror frame standards, with which this dresser is fitted. We made an extra effort to select a dresser at a low price that we could endorse as a most unusual offering; and our efforts were rewarded when we found this number. Take advantage of it; and if you desire a chiffonier to match you will do well to choose the one shown below. Is shipped from Central Indiana or from our Chicago warehouse. Shipping weight about 150 pounds.

Handsome Vanity Dresser
In Golden Oak, Mahogany,
Walnut Or Ivory Finish
At Prices Quoted Below

\$55.00
UP

A FEATURE of this Vanity Dresser is the triplicate mirror, which enables you to observe your reflection from the front or back as well as the left and right profiles at the same time. This result is easily accomplished by bringing side mirrors slightly forward. The use of this dresser makes it unnecessary to use a hand mirror to see the back of your coiffure. Makes combing of hair easier, as you can see just how you are getting it up. Besides its great convenience in the home, it is an attractive piece of furniture that will prove an adornment to your household appointments. The comfort to be derived from this dresser is appreciated by every woman, and once you have enjoyed the use of this handy article of household furniture you will wonder how you ever managed to get along without it. For further details read carefully the following paragraph.

EXPERT CARE in constructing this attractive dresser and good materials assure long service. Comes in solid oak in the handsome golden finish or of strong hardwood in the mahogany, walnut or ivory finishes. When ordering be sure to state finish wanted. It is 48 inches wide. Has three handy drawers on each side. The center French plain plate mirror measures 20x48 inches and each side mirror is 10x32 inches. This Vanity dresser is a dainty piece of furniture and is very popular. This piece of furniture is well made and well finished throughout and of a design that matches almost any style of furniture. Order it sent to you on approval and if it does not please you send it back at our expense and we will refund your money. Shipped from factory in central Indiana or Chicago warehouse. Shipping weight, about 175 pounds.

BUILT FOR SERVICE and with reasonable care will last a lifetime. It is very well made of solid oak in the golden finish or of strong hardwood in the mahogany or walnut finish. The base top is built of durable 5-ply veneer with end panels, drawer bottoms and back of 3-ply stock. Hartman's liberal credit terms enable you to purchase this dainty Vanity dresser and pay for it while enjoying it in your home. It is handsome in appearance and constructed in a first class manner throughout. Our binding guarantee fully protects you in the purchase of every article you select from this catalog. See page 1 for liberal credit terms. We want you to send for this excellent piece of furniture. Order it upon approval, with the distinct understanding that if it does not please you we do not ask you to keep it. You take absolutely no chances. We assume all the risk.

THE ILLUSTRATION is a good representation of this article; yet, we feel that an examination of the merchandise itself will impress you even more favorably than the picture shown to the right. Order it sent to you on approval. This dresser is 40 inches wide and 20 inches deep. Has three handy drawers on each side, fitted with fancy metal drawer pulls. French plain plate mirrors. Center mirror is 20x47 inches and the side mirrors are 10x30 inches. This Vanity dresser is an article of real convenience in the home and one that adds greatly to the appearance of your bedroom. You can have your choice of golden oak, mahogany or walnut finish. When sending order kindly state finish you prefer. Shipped from factory in central Indiana. Shipping weight, about 170 pounds.

RESULTS ARE WHAT COUNT.

It is all well and good for an institution to make extravagant claims about the merchandise they have to offer and what wonderful values they may be; but, after all, the customer is the final judge of its worth. If we make a claim, we can back up that claim to the letter; but we do not ask you to take our word for any of our statements. We prefer to ship any article we have to offer, upon approval, so that you may be the sole judge as to its merits. We have been operating this business along these lines with the result that when our merchandise is sold it "stays sold" because our values are right. Results are what count; and you can be certain that when you buy from Hartman's that you are going to receive the kind of merchandise that you have a right to expect for the money that you spend.

THIS CHIFFOROBE

is a splendid example of typical Hartman value giving. It is constructed of seasoned solid oak, and is offered

in the popular glossed golden finish. It gives you the use of practically two articles combined into one, having a large wardrobe section on the left-hand side and four roomy drawers on the right. This wardrobe is fitted with a wooden rod and handy combination garment hangers. Above the drawers is a roomy base top which can be used the same as a chiffonier for toilet articles. Rising from this top are tapered mirror frame standards, which embrace a good quality plain plate mirror. This mirror measures 20x14 inches in size. Drawers and door in the wardrobe are all fitted with round wooden knobs. Stands 68½ inches high, 41 inches wide and 19¼ inches deep. Shipping weight, about 200 pounds. Shipped from factory in Central Indiana or Chicago warehouse.

SOLID OAK CHIFFOROBE

\$39⁶⁵

A Neat Chifforobe Made Of Seasoned Solid Oak With Genuine Quartered Oak Front. Golden Or Fumed Finish

CHIFFONIER AND WARDROBE.

This sturdy piece of furniture combines two articles in one, serving the purpose of a chiffonier and wardrobe. It provides a place for practically every article of wearing apparel used by the average person and is recommended by us as a thoroughly dependable article for the home. When you consider the low price at which we offer this chifforobe, and the very liberal terms upon which we sell it, you must admit that it is indeed a splendid offer and one which you cannot afford to overlook. Designed along strictly Mission lines as illustrated. This picture was made from an actual photograph and therefore accurately conveys to you how the chifforobe looks. And we are convinced that once you see the article itself you will be even more favorably impressed than by merely examining the picture which we show. The materials and workmanship both commend this chifforobe to you.

Showing Chifforobe Open

THE CONSTRUCTION

is thoroughly dependable. Genuine quarter-sawed oak is used on the front, the balance of the lumber being seasoned solid oak. Comes in high gloss golden or fumed oak finish. State preference. This is a spacious piece of furniture, measuring 64 inches high, 42 inches wide, and 20 inches deep. The French beveled plate mirror in the door of the hat box compartment measures 8x11 inches. Under the hat box compartment there are two small top drawers, below which are four drawers occupying about one-half the width of this piece, and a full width drawer across the bottom. The roomy wardrobe section is 46½ inches high, and is equipped with combination garment hangers on a sliding nicked rod. Door fitted with lock and key. Ship. wt., about 200 pounds.

FINE CHIFFOROBE

In Fumed Or Golden Finish. Has Carefully Made Veneered Quarter-Sawed Oak Front

\$44⁵⁰

SPLENDIDLY APPOINTED.

You will appreciate the many fine features possessed by this excellent chifforobe. Among these features is the jewel case, on base top above the drawers, which provides a convenient receptacle for the many small articles of personal adornment. This case has three compartments and lid, as shown. With this chifforobe in your home a safe place is provided for your apparel as well as for those articles which might otherwise be misplaced or lost. The wardrobe section also is well appointed, leaving little to be desired. The wardrobe compartment, as the picture shows, runs the full length of the case, allowing ample space for long overcoats, etc. It is equipped with extension rail and hangers secured to inside of top, and pants hanger on inside of door. There is also provided in this compartment a rack convenient for use in holding umbrellas. Every inch of space can be utilized, and it is surprising the amount of clothing and personal effects that can be kept in this handsome, neat appearing article.

DETAILED DESCRIPTION.

This chifforobe measures 68 inches high from floor to top, and is 42 inches wide and 20 inches deep. It is fitted with French plain mirror of oval shape. Size of mirror, 24x16 inches. The entire front is made of veneered quartered oak. The base top on drawer section is quartered oak and the top over wardrobe section and the ends are made of solid oak. The jewelry box is made of quartered oak. Handsome Colonial scroll mirror standard and legs. Drawers fitted with wooden knobs. Take your choice of fumed or golden oak. Be sure to mention the finish you prefer. Shipping weight, about 210 pounds.

Substantial Steel Crib

Both Sides May Be Easily
Lowered. Can Be Had In
White Or Vernis Martin
Finish. Complete With Spring

\$11.85

LOW PRICE alone does not characterize an article as a bargain. It must also be constructed of high grade materials in such a way as to render the longest period possible, of satisfactory service. This considered, we state that if a real bargain in a crib is desired, none better could be found than this very crib. It is made for the kind of service that carries with it definite assurance of a continuance over a long and satisfactory period. An added feature is incorporated in this crib—both sides may be raised or lowered. Cribs have only one drop side.

STRONG construction identifies this steel crib. It may be had in white enamel or in the handsome Vernis Martin (gold bronze) finish in the 2 ft. 6 in. or the 3 ft. size at the prices quoted below. The continuous pillars are $\frac{3}{4}$ inch in diameter. Filling rods $\frac{1}{4}$ inch in diameter. Ends are each 42 $\frac{1}{2}$ inches high. Both sides raise and lower on metal sliding rods. This is a very worthwhile feature, one which every mother will appreciate. A comfortable spring is furnished with this crib. Shipping weight, 52 lbs. Shipped promptly from Chicago warehouse.

YOUR BABY'S peaceful slumber, which is almost sure to result from placing it in a comfortable crib like this one will more than repay you for the slight trouble and expenditure that is necessary in acquiring it. In the daytime, with the side in the raised position, you have an ideal place to put baby and let it romp around to its heart's content without danger of falling out. At night, with the sides either raised or lowered, it is as comfortable a bed as could be desired. Order one of these cribs on our easy terms and give your child the same sleeping comforts that you enjoy.

THE PANEL is attractively decorated with kindergarten pictures beautifully colored. This crib has full continuous posts $\frac{3}{4}$ -in. in thickness. The top and bottom rails at head and foot are $\frac{1}{4}$ -inch, the panels measure 4 inches wide and 15 $\frac{1}{2}$ inches long. The sliding side has 11 spindles, each measuring $\frac{1}{4}$ inch; $\frac{1}{4}$ -inch top and bottom rails. The head and foot ends are 42 inches high. Comes in white enamel or Vernis Martin (gold bronze) finish. Comfortable link fabric spring is included at this price. Small size measures 2 ft. 6 in. wide and 4 ft. 6 in. long. Larger size is 3 ft. wide and 5 feet long. Shipped from our Chicago warehouse. Shipping weight, about 84 lbs.

MADE in one of the largest and best equipped factories of its kind, in the world. The resiliency of the spring is assured by oil tempered helicals, made of the highest grade tempered wire. The fabric is composed of Englander link, reinforced by lateral steel bands, and is practically indestructible. Casters on moving section are ball bearing steel wheels. To operate, extend under section and turn back mattress. (See Fig. 2). Can be separated into twin beds. (See Fig. 3).

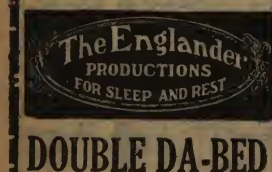

TO CONVERT into twin beds, turn frame on its side and lift out inner part; very easy to accomplish. During the day the bed can be returned to position of couch (Fig. 1) and frame can be easily concealed by use of a couch cover. Size of couch bed when opened, 3 ft. 7 in. by 6 ft. 2 in. Size when closed, 2 ft. by 6 ft. 2 in. Size of twin beds, each, about 2 feet wide. French gray enamel. Rustproof finished frame. Mattress is reversible, generously filled and is covered with good quality denim. Tapes secure mattress to frame. Shipping weight, about 84 pounds.

STRONGLY MADE of durable steel. This product of the well known Englander factory is one of the very best values that we have ever offered. This may sound like a rather broad statement—and for that reason we do not want you to take our word for it. Let us send this Da-Bed to you upon approval. Try it in your home for 30 days, and if you are not satisfied that it is all we claim, send it back at our expense and we will refund your money. Surely you could not ask for a more liberal proposition than that when it comes to the purchase of your household requirements. This excellent, comfortable Da-Bed may be purchased in mahogany or walnut finish at the prices quoted below. When ordering please mention finish desired and also give the correct catalog number specified below. See page one of this catalog for liberal credit terms.

THE ENDS have a neat panel of perforated steel in imitation of cane. Spring is well known Englander link which is reinforced by steel bands. Has an angle iron frame and helical end springs. The mattress is covered with fancy figured cretonne and is filled with new cotton. Has valanced front and ends. The two pillows that come with the couch are floss filled and covered with the same material as mattress and have neatly corded edges as shown. The sliding arrangement transforms Da-Bed into a full sized double bed very easily and quickly. If you care to possess a Da-Bed that will enhance the furnishings of your household, you will do well to order this one. The picture will give you some idea of its appearance, but you must see it in your own home to appreciate it. Shipping weight, carefully packed, about 125 lbs. Shipped from Chicago warehouse.

HERE ARE TWO, LOW PRICED, GARVY WISHBONE LINK FABRIC SPRINGS

\$3.97

In All Sizes

This View Shows Strong Corner Brace.

ANGLE IRON FRAME

bed spring made with interlaced fabric which is the famous Garvy wishbone link style. The angle iron frame has corner braces which give additional strength to the frame. The strong construction of this corner brace is clearly brought out by the magnified illustration. The link fabric is supported at the ends by 54 oil tempered helical springs in the full size (4 ft. 6 in.) spring; smaller sizes contain helicals in proportion. Each one of these wishbone links is resilient in itself, and the combination of the links in the fabric, together with the end helicals, makes one of the most resilient and comfortable springs imaginable. Order it in 4 ft. 6 in. (full width); 4 ft. 4 in., 4 ft.; 3 ft. 6 in.; 3 ft. 3 in.; or 3 ft. size at low price quoted. Shipping weight is about 40 pounds. When ordering, kindly state whether spring is wanted for iron or for wood bed and also give width of the bed.

This is the Famous Wishbone Link.

IF YOU WANT

a moderately priced bed spring that will give you good lasting service, this is the spring to order. The fabric is elevated 5 inches above the side rails. It has an interlaced top made of the celebrated Garvy wishbone link fabric which is shown in the large magnified illustration, to show you its strong construction and flexibility. This link fabric is fastened to the end angles and supported by 58 oil tempered helical springs. The sides have a $1\frac{1}{4}$ -inch steel strap which is fastened to end angles by two helical springs. The tubular steel side rails are bent to give the proper rise to the fabric. This is a strong and substantial spring that will give good service. Comes in 4 ft. 6 in. (full width); 4 ft. 4 in., 4 ft.; 3 ft. 6 in.; 3 ft. 3 in.; or 3 ft. size at price quoted below. When ordering please state whether spring is wanted for wood or iron bed, and also give width of bed. Shipping weight, about 45 lbs.

Choice Of All Sizes.
State Size Desired.
Made In Unique Non-Sag Design.

Has 1½-Inch Oval Tubular Steel Side Rails, Double Riser Pressed Steel Corners And Heavy Angle Iron Ends. Band Edges 1¼ Inches Wide.

This Spring Adapts Itself To The Curves Of The Shoulders And Hips, Allowing Complete Muscular Relaxation To The Body. Spring Top Consists Of Flexible Steel Slats Connected To Each Other By Three Rows Of Helical Springs Forming A Perfectly Flat Surface. It Is Supported By 60 Helical Springs.

COMFORT IS ASSURED to the user of this excellent spring. It adapts itself to the curves of the body, allowing complete muscular relaxation—insuring enjoyable and refreshing sleep. Two persons of unequal weight will not roll toward the center. A flexible steel slat fabric spring. The unique non-sag design conforms scientifically to the weight of the body. Top of spring consists of flexible steel slats connected to each other by three rows of helical springs, forming a perfectly flat surface. The full size spring is suspended by 60 heavy oil tempered helical springs and the smaller sizes have helicals in proportion to their size.

INTERWEAVE SLAT FABRIC BED SPRING

5-Inch Rise

Has 1½-In. Tubular Steel Side Rails With Double Riser Pressed Steel Corners, Angle Iron Ends, Slat Fabric With Edge Straps 1½-In. Wide And 56 Oil Tempered Helical Springs Supporting Fabric.

\$8.48

In All Sizes

Showing How Fabric Is Interwoven.

SANITARY AND COMFORTABLE

strong, durable, elastic and provides a flat sleeping surface. The top of spring is made of interwoven slat fabric, construction of which is clearly brought out in the magnified illustration. The frame has 1 5/16-inch tubular steel side rails with double riser pressed steel corners and angle iron ends. Fabric is elevated 5 inches above side rails. Fabric is supported to angle iron ends by 56 oil tempered helical springs on the 4 ft. 6 in. (full size) spring and the smaller sizes have helicals in proportion to their size. Has 1½-inch band edge. Can be ordered in 4 ft. 6 in.; 4 ft. 4 in.; 4 ft.; 3 ft. 6 in.; 3 ft. 3 in.; or 3 ft. sizes. When ordering be sure to state whether wanted for wood or iron bed and give width of bed. If for wood bed state whether same has metal rails. Shipped from Chicago warehouse. Ship. wt., about 48 lbs.

HARTMAN'S IMPROVED SAGLESS SPRING

5-Inch Rise

Frame Is Enameled In The New French Gray Color At The Price Quoted. The Unique Construction Conforms To The Shape Of The Body And Permits Sleep In Any Position In Comfort.

\$9.95

In All Sizes

Showing Double Riser Corners And Rope Effect Edge

So Constructed That Two Persons Of Unequal Weight Will Not Roll Toward Center

REFRESHING SLEEP

is an essential requirement in the life of every human being and you can not get this sleep on a stiff, uncomfortable spring. The Hartman Sagless spring is in reality a new achievement in bed construction. The unique feature of this spring is that it conforms to the body and permits you to sleep in any position; it cannot sag and is noiseless, sanitary and vermin proof. Will not tear bedding. The tubular steel side rails are 1½ inches and the end angle irons are of hard steel. The Malleable iron double risers raise the fabric 5 inches above side rails. Fabric is suspended from end angles by 56 oil tempered helical springs (in full size). Made with rope effect woven wire edge. Finish is French gray enamel which is very attractive. Comes in any standard size at price quoted. State whether for wood or iron bed. Shipped promptly from Chicago. Shipping weight, about 55 pounds.

HARTMAN DOUBLE-DECK "LUXURY" COIL BED SPRING

A Durable, Noiseless Spring Because
Tops Of Coils Are Tied Diagonally
With Crossed Helical
Springs

Low
Price

\$15⁹⁵ Guaranteed
For 20 Years

This Spring Has A Patented Steel Slat Bottom With Angle Iron Ends Upon Which The Coils Rest. Has Continuous Angle-Iron Hangovers Which Fit Regular Or Reversed Steel Rails Or Wooden Beds.

A Feature Of This Spring Is That Depression Of One Coil Or Line Of Coils Does Not Disturb The Level Of The Spring Elsewhere, Because The Connections Are Elastic.

The Free Action Of Each Coil Permits The Spring To Adjust Itself To The Lines Of The Body. Two People Of Unequal Weight Can Occupy The Bed Without Any Pitching Of Bed-spring Toward The Side Of Heavier Pressure

HIGH GRADE, TEMPERED, PREMIER WIRE is used in the construction of this double-deck coil bed spring. It is a very strong and rigid steel coil spring and is soft and luxurious. The main body is composed of 99 wire coils. The crossed helicals are of finest quality, extra long, and securely attached to coils by patented S-Hook fasteners which prevent the helicals from turning or injuring the bedding. All this construction results in a bed spring with a flexible top with freedom of action to each coil. Depressing one coil or a line of coils does not disturb the level of the spring elsewhere. Finished in French Gray Enamel.

FEATURES ARE MANY. It has a patented steel slat bottom with angle iron ends and continuous angle iron hangovers. When ordering be sure to tell us whether your bed has iron or wood side rails. The coils are attached to the frame and to the border wire in a very secure manner. Magnified views as shown to the right bring out in detail how the coils are fastened to slat bottom; how they are connected by crossed helicals; how they are fastened to angle iron ends; and how they are secured to border wire. There is no side motion because half way down, the fabric is held tight by an interlacing of wires. Shipped from Chicago warehouse. Ship. weight, about 100 lbs.

No. 209C19. Price in 4 ft. 6 in.; 4 ft. 4 in.; 4 ft.; 3 ft. 6 in.; 3 ft. 3 in. or 3 ft. size. Each . **\$15.95**

SLATS FOR METAL BEDS

In All Sizes

Mention Outside Width Of Your Bed

THESE SLATS are for use with metal beds. Set consists of four steel slats of round edge flat steel, japanned. Frame has hook ends to fasten over side rails of metal bed, so that spiral wire bed springs can be used. Furnished in 3 ft.; 3 ft. 3 in.; 3 ft. 6 in.; 4 ft.; and 4 ft. 6 in. lengths. Ship. wt. of four, 22 lbs. **\$2.98**

Be Sure To Mention Whether Springs Are Wanted For Wood Or Iron Bed. For An Iron Bed It Is Necessary To Use Slats, Which We Illustrate And Price Elsewhere On This Page. Also Tell Us The Width Of Bed The Spring Is To Be Used Upon

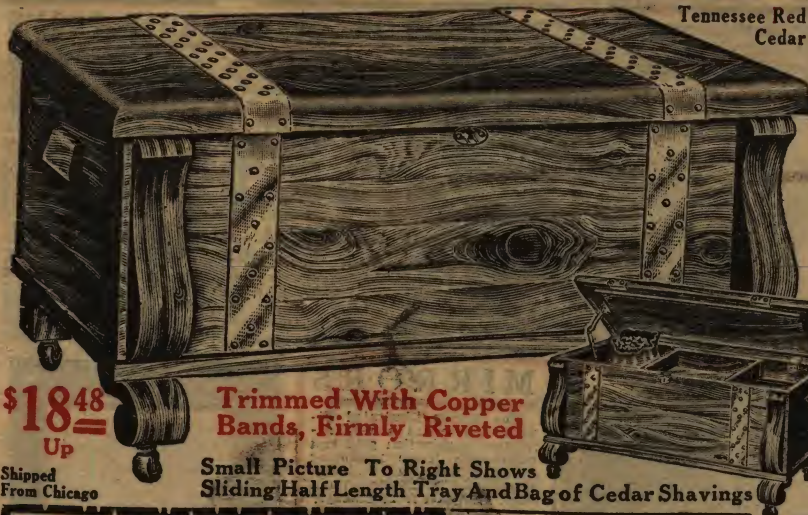

THIS SPRING is a dependable low-priced bed spring and while we quote it at this money-saving price, we do not recommend it for comfort and durability as highly as we do the higher priced coil springs shown on this page. But for the money you will get full value for every cent of its cost. The coils are made of good quality "PREMIER" wire and there are 99 winding spirals. French Gray Enamel finish. They are fitted on both sides with patented interlocking top. When ordering be sure to tell us whether it is wanted for iron or wood beds. For iron beds it is necessary to use slats which we show to the left. Comes in 3 ft.; 3 ft. 3 in.; 3 ft. 6 in.; 4 ft.; 4 ft. 4 in.; or 4 ft. 6 in. sizes. Mention size wanted. Shipped from Chicago warehouse. Shipping weight, about 30 lbs. **\$5.90**

HERE IS a fine cone spiral bed-spring at a very moderate price. It is shown directly above and can be ordered in 3 ft.; 3 ft. 3 in.; 3 ft. 6 in.; 4 ft.; 4 ft. 4 in. and 4 ft. 6 in. sizes. Has 99 single cone spirals of best grade high carbon, tempered "PREMIER" wire. Fitted with patented interlocking top crimp wires, with heavy border wires. The coils are attached to patented steel slat bottom, which is fitted with heavy full-length side hangovers. When sending your order be sure to tell us whether your bed has iron or wood side rails. Finished in French gray. This spring is very comfortable to sleep on and is a good value for the money. Mention on your order size wanted. Shipped from our Chicago warehouse. Shipping weight, about 60 pounds.

Imitation
Quartered
Oak Dining
Room Table
42 In. Top

FOR 6 FT. SIZE

THIS TABLE is made of thoroughly seasoned lumber and finished in imitation quartered oak, which is applied to the wood in such a way as to give the appearance of the real quarter-sawed oak, golden color. The size of the top is 42x42 inches, and the box rim measures 4½ inches. All corners carefully mitered. The slides are made of well seasoned hard maple, assuring long life. They can be taken out and replaced with ease—a factor of interest to purchaser.

THE LEGS furnished are five in number and are made of the same substantial lumber as the top. They are nicely turned and measure 3 inches in diameter. You can order this attractive looking extension table in your choice of 6 or 8 foot sizes, as you prefer. When ordering please mention size desired, and be sure to give the correct number. Comes complete with casters as shown. Order it sent upon approval. Shipping weight about 130 pounds.

THE CONSTRUCTION and finish of this dining table are described in detail as follows: It has a large 42-inch round top which, with the use of the extra leaves furnished, extends to either 6 feet or 8 feet. The table is made of hardwood finished in imitation quarter-sawed oak. The bolted construction and the manner with which the 3-inch rim is fastened with screws and glued blocks, make it very firm. The extra leaves included are also finished in imitation quarter-sawed oak to match table. The heavy extension slides are 2¾ inches thick. It comes packed complete in one crate. Shipping weight about 120 pounds.

Imitation
Quartered
Oak Table
With 45
Inch Top

FOR 6 FT. SIZE

THIS PICTURE was made from a photograph taken from the article itself. It is an extension table that is not unduly elaborate yet possessing sufficient grace to please the particular housekeeper. It is made of thoroughly seasoned lumber to which is applied a finish in imitation of quarter-sawed oak that looks very much like the real wood; golden color. The size of the top is 45x45 inches and the neatly rounded shape box rim measures 4 inches deep.

ALL CORNERS are carefully mitered. The slides used in the top are made of seasoned hard maple, and are warranted as to service. The legs are made of durable wood and are of a good size, measuring 5 inches in diameter. The simple rounded legs are set off at the bottom with a rim as shown in the illustration. When ordering be sure to state whether you want this table to extend to 6, 8 or 10 feet. Shipping weight about 130 pounds.

Headquarters
For Household
Furnishings

THE LOW PRICES make this table one of the most remarkable values ever offered by this institution. We placed a contract with the manufacturer for a large quantity of this particular design, and we obtained them at prices that enable us to offer them to you at these tempting figures. Select the size that you require and order it sent upon approval. It will go forward without delay.

HEAVILY BUILT

throughout of well seasoned solid oak, which is known for its great service-giving qualities. The rich golden finish gives to this dining table a most pleasing appearance. The pedestal is non-dividing. The wood used in constructing the top and base is joined by a dove-tailing machine, which lessens splitting and warping.

THE TOP measures 42 inches in diameter, has a deep box rim, is fitted with smooth running slides and has extra extension leaves. It is well made and is not offered simply because of its artistic appearance. In this extension table you secure a serviceable article made in a splendidly equipped furniture factory by skilled workmen who thoroughly understand and practice the art of table-making.

WE GIVE YOU the use of the table in your own home, passing judgment after you have carefully compared it with the tables your friends and neighbors have, and if for any reason you are not satisfied with your purchase you can return it to us at our expense. Shipped promptly from factory in Central Indiana or Chicago warehouse. Shipping wt., about 125 lbs.

THE PICTURE shown herewith was made directly from this splendid dining room extension table. It is therefore an accurate representation of the table itself and will give you a very fair idea of this desirable piece of furniture. But in all justice to the model itself we must confess that you really should see the table in your home to thoroughly appreciate its meritorious qualities.

CONSTRUCTION. This table is made in a very careful manner by men whose years and years of experience is an assurance of dependable workmanship. Solid oak is used in its construction, and we give you the opportunity of selecting either fumed or golden finish, as you prefer, at the same price. When you order kindly state finish that you prefer to have us send.

THE SERVICE that you will receive from this table will convince you of all of the claims we make regarding its excellent construction and reliable materials. It possesses a 42-inch top which can be extended to 5 feet when desired. Has a six-inch square-shaped pedestal with sturdy 2-ply legs in massive Colonial scroll design as illustrated. Is fitted with easy running extension slides.

A GREAT VALUE.

When you make a purchase its worth to you is not determined by quality OR price alone, but rather the quality you receive AT the price you pay. And because you procure such splendid quality at a low price in this table we assert that it is indeed a great value. Shipped from factory in Central Indiana or from Chicago warehouse. Shipping weight, about 125 lbs.

SOLID OAK. This dining table is made of substantial solid oak, thoroughly seasoned and kiln-dried with golden gloss finish. It is heavy and substantial and is fitted with smooth running extension slides, permitting the top to be extended to 6, 8 or 10-foot lengths as purchased. The design of this table is decidedly pleasing and will enhance the surroundings of any dining room in any home. The pedestal is beautifully turned, is large and substantial and is fitted with thick curved legs ending in attractive carved claw feet. The splendid golden color, nicely glossed, likewise adds to this handsome, serviceable piece of dining room furniture. It is a real bargain for the money.

THE QUALITY is in keeping with the Hartman standard. That in itself is a guarantee that will be appreciated by all who have done their buying here. If this table appeals to you, and surely you will admit it to be a very beautiful article, tell us to send it on our 30-day approval plan. Round top measures 42 inches in diameter and admits extra leaf boards for extension according to size you select, which are furnished with the table. When you order please mention whether you wish this table to be extended to 6, 8 or 10 ft. in size. Ship. wt., about 120 lbs.

SIMPLICITY of design in homefurnishings is preferred by many persons of refined taste. And in submitting this Colonial period extension table for your consideration we particularly call your attention to the severe, dignified style that it represents. It is made by a factory that specializes in the manufacture of dining tables—a factory supervised by a man thoroughly familiar with dining table construction and a factory that employs craftsmen who have spent many years in building furniture of this kind and character. And for these reasons we are able to assure you that this is an honestly made table that represents full value for your money. Take advantage of our liberal credit terms as shown on page one of this book. See next paragraph for details.

SOLID OAK is used throughout in the construction of this table. Has a 42-inch round top which may be extended to 6 ft. in length. It is fitted with Hartman's smooth running extension slides, which eliminate "sticking." Is equipped with solid oak table leaves. The top is supported by square box pedestal, measuring 7 inches in width. This pedestal rests on shaped platform, with 24-inch spread, supported by neat block legs. We will ship you this table and you can use it as your own for 30 days before you decide to keep it. If you are not pleased with it, send it back at our expense and we will refund your money. When ordering be sure to state finish that you want. Shipping weight, about 140 pounds.

Comes In
6 Foot
Size Only

THIS DINING TABLE is designed along very popular lines, massive in appearance, yet graceful in its simplicity. We think it would be difficult to find a dining room table of this high quality elsewhere at this remarkably low price. It will improve the looks of your dining room and will be a source of great satisfaction during the many years of its service. It is made of seasoned solid oak and can be ordered in fumed or glossed golden finish. Also comes with quarter-sawed oak top as quoted below.

THE TABLE TOP measures 45 inches in diameter and can be extended to 6 feet, operating on Hartman's easy running slides, which make it easy to open and close. It has a deep rim. The top is fitted to massive hexagon pedestal which is supported by the Colonial scroll platform. The illustration will give you a good idea of this excellent table and you can judge from it, how strong and rigidly it is constructed. When ordering give correct number and mention finish you desire. Shipping weight, about 143 lbs.

YOU SHOULD always remember when selecting a Dining Room Table, that it is an article of furniture that should be purchased with extreme care, because it is used three times a day and must be strong and durable. These points were taken into consideration in the manufacture of the table we are offering here. It is well built and made to withstand hard, constant usage. Don't fail to take advantage of this opportunity if in need of a dining room table. It is one of the best bargains offered for the money.

CAREFUL study should be given to the description printed opposite, which gives the details of the construction of this table. After you have read every word of the description, we want you to send us your order and allow us to send you a table upon our approved plan. If you are not pleased with it in every way, after you receive it, you can return it to us and we will refund every penny you have paid us.

THIS TABLE is constructed of well seasoned hardwood, to which is applied a finish in imitation of quarter-sawn oak. This finish closely resembles the real wood. It comes in the rich golden color. It is made with a large 10-inch pedestal, finished at the bottom with a round collar as illustrated and supported by four heavy, gracefully curved Colonial legs. You will be more than pleased with this attractive table, and it is offered at a very reasonable price for a table of this quality.

THE TOP measures 45 inches in diameter and can be ordered to extend to 6 feet or to extend to 8 feet as desired. Is fitted with Hartman's smooth running slides. Note the square edge with which the top is finished and the deep rim on this table. Shipped promptly from factory in southern Indiana or Chicago warehouse. Shipping weight, about 130 lbs.

THIS TABLE is artistically designed in a very attractive style. Made with a heavy 10-inch pedestal, supported by richly designed legs, as illustrated. It is a very exceptional offering at our prices. It is made of hardwood and finished in imitation of quarter-sawn oak, which closely resembles the genuine wood. It has a golden oak finish, which adds greatly to its appearance. Read the description over carefully.

THE TOP is round in shape and measures 45 in. in diameter. It is finished with a neat square edge and has a deep rim. Can be ordered in two sizes, either to extend to 6 feet, or to extend to 8 feet. Comes equipped with Hartman's smooth running slides. The prices of both sizes are quoted directly underneath the illustration. When sending us your order be sure to give correct number and state size you desire us to send. See page 1 for liberal credit terms.

THE BASE is designed very artistically, having a square pedestal and measures 10 inches on each side, supported by four heavy legs, thoroughly braced and equipped with casters. Where the base is joined to the top, it is fastened very rigidly. The neat design of the extra blocks, which reinforce the legs and pedestal, greatly enhance the beauty of the base of this table. For full details of construction, see opposite paragraphs.

ORDER IT in either size and you are sure to purchase a genuine bargain in a dining room extension table. Then, too, there is our approval plan, whereby we will ship you the table and you can use it as your own for 30 days, before you decide to keep it. If you are not pleased in every way, you can send it back to us at our expense and we will refund your money. Shipped promptly from factory in Southern Indiana or Chicago warehouse. Shipping weight, about 140 pounds.

THE WOOD used in the construction of this neatly designed dining room table is thoroughly seasoned hardwood, to which is applied a finish in imitation of quarter-sawn oak, in a rich golden color. This finish resembles the real wood very closely. You can make no mistake in ordering this table, as it is a genuine value at our prices. Can be ordered in two sizes as quoted, with top that extends to 6 feet or 8 feet, as desired.

IN DESIGN this table is equal to dining room tables that cost a great deal more money. We call particular attention to the heavy platform base, with massive square legs, also to the round top, which measures 45 inches in diameter. If you are in need of a new table for your dining room and want a table that will be attractive in appearance, then this is the one to order.

PLATFORM base is made in a very clever design and is cut of heavy stock, which gives added rigidity to the table. The platform is fitted perfectly to the heavy square pedestal, which measures 10 inches on each side. The legs are of block shape, cut of heavy stock and equipped with casters. A deep collar is found at the bottom of the pedestal. The top is rigidly fastened to the pedestal. Read description over carefully.

THE TOP is carefully selected and finished with a heavy square edge and mounted on a deep rim. It is round in shape and measures 45 inches in diameter. Can be ordered in two sizes, either to extend to 6 feet or 8 feet. Comes equipped with Hartman's easy running slides. Shipped at once from factory in Southern Indiana or Chicago warehouse. Shipping weight about 140 lbs.

QUARTERED OAK is used in the top of this fine dining room table. The balance of the table is built of solid oak in a very substantial manner. The deep rim matches the top and sets it off to good advantage. It is fitted with perfect working, easily operated extension slides and a good top lock that fastens the two halves of the top securely together when closed. With each size table we furnish the necessary extra boards for extending it to the full size. You must see this table to fully appreciate its excellent quality and beautiful appearance. We recommend it as excellent value at the prices quoted.

THE LARGE PEDESTAL measuring 10 inches in diameter and neatly turned, is constructed of solid oak and supports the top very rigidly. The strong four-ply legs are shaped in a very attractive scroll design and add to the handsome appearance of the table. This table is built for us by one of the best table factories in the country and will give excellent service. It is beautifully finished in your choice of golden or fumed at the same price. When ordering, be sure to state the finish you desire us to send you. Also give correct catalog number and size of top desired.

Has Hand

Rubbed and Polished Top

A FEATURE of this dining room table is found in its massive proportions. It is a table measuring 48 or 54 inches across the top. This top is of a heavy quartered plank style, and the pillar and platform are made sufficiently large to be in keeping with the size of the top. The design is typically Colonial, with rounded scroll feet and 14-in. octagon pillar in bell shaped style.

THE PLANKED

TOP which is made to show off to the best advantage the beautiful flaky grain which makes quartersawed oak so popular, is hand-rubbed and polished. A more beautiful and better made table in this style could scarcely be found. The prices are low considering the high quality of workmanship and material involved.

Best Quality Materials Are Used Throughout

THE BASE of this table is very handsomely finished, which will be found very desirable. You can select this table in either the golden or fumed oak finish at prices quoted. Be sure to state finish you want when sending your order. Both of these finishes further the Colonial effect in a satisfactory way. Extension boards which are included are all finely finished. In sending us your order kindly state correct number and finish you desire us to send. You can have your choice of six, eight or ten foot length table at the prices quoted.

THE GRANDEUR expressed in the massive lines of this table will appeal to people who are seeking the best class of furniture to put into their homes. The veneered pedestal measures 14 inches in width. Platform measures 2 1/4 in. thick. All of the parts are made to correspond in size, and likewise the relation between the various parts is such as to produce a well proportioned piece of furniture. Give correct catalog number. Fitted with casters. Shipped from factory in Central Indiana. Ship. wt., 250 lbs.

Queen Anne Period Dining Table With A 45x60 Inch Top. Finest Construction And Comes In Mahogany Or Walnut Finish

HIGH QUALITY beauty of design and excellence in finish distinguish this Queen Anne period design table. Nothing has been slighted in its manufacture, nothing neglected to make it a table fit to grace the finest home. The material entering into it has been carefully selected and the workmanship is of the highest grade. The top measures 45x60 inches and has rounded corners and bent rim as illustrated. The Queen Anne style legs have 9-inch wings and 3 1/2-inch feet.

TWO SIZES are offered for your selection — 6 foot and 8 foot, with the necessary boards for extending to these lengths. This table is beautifully finished in your choice of mahogany or walnut as priced below. It is an excellent design and one that will always be in good taste, offered at a price and on such liberal terms as to be within the means of all. We recommend this fine table as exceedingly good value and an unusually beautiful design. Shipping weight, about 200 pounds.

Choice Of Mahogany Or Walnut Finish With Genuine Veneer, Or Genuine Quartered Oak In Golden Finish

ARTISTIC, authentic Queen Anne Period dining room furniture, the style of which dates back to the year 1639. This style is graceful in the extreme, embodying among other features the "Cabriole" or curved leg, shown in this handsome set. Any of the pieces shown and quoted on this page may be secured in golden oak, mahogany or walnut finish. The golden oak pieces are constructed of seasoned genuine quarter-sawn oak. Those offered in mahogany and walnut (with the exception of the chairs, which are of hardwood), are veneered with the genuine wood and possess the stylish, pleasing hand-rubbed satin finish. Shipped from Chicago or factory in eastern Iowa.

THE BUFFET matches the other pieces of this set in style, wood and finish. The top is 21x54 inches with moulded edges. It has a clear French plain plate mirror, 8x50 inches in size. This buffet is very substantially made in choice of finishes quoted below. State preference when ordering. Has one large and two small drawers. Shipping weight, about 150 pounds. **\$48.65**

ARTISTIC, COLONIAL DESIGNED BUFFETS

**Substantially Constructed In
Neat Design With Imitation
Quarter-Sawed Oak Finish**

THERE ARE a number of people who often pass up good bargains because the price quoted seems too low to them and gives them the impression that the article in question is of inferior quality. Now, don't ever get that idea about this buffet! While the price asked is very reasonable, we assure you that the quality is all there. This is one of the best bargains in low priced buffets we have ever been able to offer you. It is Colonial in design, well constructed and will look handsome in any dining room. Study this bargain closely when picking out your goods. Take advantage of our liberal credit terms as shown on page one of this money-saving catalog. For further details refer to the following paragraph.

THIS BUFFET is a handsome piece of furniture and priced very low considering its attractive appearance and good quality. Well made of seasoned hardwood to which is applied an imitation quartered oak finish, which closely resembles the genuine quarter-sawed oak. Comes in the popular golden color. Plank base top measures 42x20 inches. Height 57 inches. It is well made and possesses all the beauty, substantial construction and satisfaction-giving qualities that you have a right to demand in the furniture for your home. You can't afford to overlook this great bargain. We will gladly send this handsome buffet to you on approval, and if it does not please you send it back at our expense.

COLONIAL scroll design pilasters on either side of mirror support the plank top. Front legs are of Colonial design. The plain plate mirror measures 30x10 inches. There are two small swell front drawers on top, one being lined for silverware. Has full length linen drawer beneath. The roomy compartment at the bottom of base has two doors. Fitted with round wooden knobs. Shipping weight, about 150 pounds. Price..... **\$29.95**

**Built Of Solid And Quarter-
Has Sawed Oak Veneer In Fumed
Heavy Plain Or Golden Color. Specify Finish**

Plate A VERY IMPRESSIVE piece of furniture in the ever popular Colonial design. The construction is high class throughout. It is built of solid oak, with handsome 3-ply veneer quarter-sawed oak door panels. Substantially constructed and will give good service. The oak plank base-top measures 48 inches long by 21 inches deep. Beneath it are two overhung small drawers for silverware and small linens. The center of the base is occupied by a two-door cupboard of large size for storing glassware, china or linen. Below is a long drawer for table linen.

THE FRONT POSTS and feet are in the well known Colonial scroll design and of proper proportions. Between the rich, quarter-sawed oak veneer panel doors is another massive scroll that sets off the front to good advantage. The large, heavy, plain plate mirror measures 36x8 inches. Above it is a convenient shelf, supported by neat Colonial shaped standards. A back rail is provided above the shelf. All doors and drawers have round wood knob pulls. Buffet is fitted with casters. This buffet is very rich appearing, and it is just as substantial as it is beautiful.

THE FINISH may be had in either polished golden or fumed oak, and when sending your order be sure to give correct catalog number and state finish desired. No matter which finish you select, you are sure to receive a very beautiful piece of furniture and exceptionally good value. It will be shipped to you on approval with the privilege of 30 days' trial as provided in our legal guarantee. Shipped from Chicago warehouse or factory in Southern Indiana. Shipping weight, about 175 pounds.

CONSTRUCTION of this buffet has been carefully looked after at the factory. Every detail is watched so that it is sure to be built in the very best manner. It is made of solid oak with quarter-sawed oak front, top and gallery, showing a large flaky grain. It is in Colonial style, which is always popular. The plank top measures 22x46 inches. Beneath the top are two small overhung drawers, one neatly lined for silverware, the other suitable for napkins, dollies and similar small linens. The center is occupied by a commodious 3-door cupboard compartment, beneath which is a long drawer especially convenient for table linen. All drawers and doors are fitted with wood knobs. The French bevel plate mirror measures 36x10 inches and is of fine quality. The top is artistically designed and has corners that are neatly rounded, in keeping with the general lines. The gallery is arranged with a Colonial scroll standard on either side as shown in the illustration. The heavy front posts and feet are in Colonial scroll design. May be had in either fumed or golden oak finish as priced below. When ordering be sure to give correct number and mention finish you desire. Shipped promptly from factory in Central Indiana or our Chicago warehouse. Shipping weight, about 175 lbs.

COLONIAL STYLE buffet of large size and first class construction throughout. Massive and handsome in appearance it will make a fine addition to your dining room furniture. We are so sure that you will be delighted with it that we are willing to send it to you on approval; let you place it in your home, note its fine appearance, roomy space and convenient arrangement, use it for 30 days before finally deciding whether you want to keep it. Could any offer be more liberal and convincing of our faith in this fine buffet? If you find it all that we claim it to be and perfectly satisfactory, pay the balance on our liberal credit terms while using the buffet in your home. You are to be the judge. We take all the risk, and will cheerfully refund your deposit if you do not wish to keep the buffet.

IT IS BUILT for service as well as fine appearance. The lumber entering into its construction is carefully selected and thoroughly seasoned. It is shaped and fitted by expert cabinet makers. The top, ends and front are full quarter-sawed oak veneer, and it is handsomely finished in your choice of polished golden or fumed oak. The plank base top measures 48x22 inches. The large bevel plate mirror is 38x10 inches. Above the mirror is a convenient shelf with protecting back guard. This shelf is supported by Colonial scroll standards. The front posts are also Colonial scroll design, adding to the beauty of the buffet. It is massive and substantial, yet so well proportioned that you will be delighted with its handsome, imposing appearance once you have it in your dining room. It is exceptionally good value at low price we ask.

THE CONVENIENT arrangement of this excellent buffet will appeal to you. It has two half-round top drawers, one lined for silverware. Beneath these small drawers is a full width shallow drawer, especially suitable for storing table pads. This is a feature not usually found in buffets and enables you to keep your pads separated from your fine table linen. The lower drawer is deep and full width, affording ample storage space for linens. In the center of the buffet is a large double-door cupboard, suitable for china, glassware or linen. All doors and drawers are equipped with neat wood knobs. We recommend this fine buffet to you and our binding legal guarantee fully protects you. You are under no obligation to keep it if you are not fully satisfied with it. Shipped promptly from factory in central Indiana or our Chicago warehouse. Shipping weight about 220 pounds.

MISSION FURNITURE is particularly popular at this time, and especially is this true of those pieces which are used in the dining room. This model is recommended to you as a first class, typically Mission designed buffet. Genuine quarter-sawed oak is used on the front, top and gallery (upper part), the balance being seasoned solid oak. The front is handsomely matched, exhibiting the same figure from top to bottom. This buffet is a typical Hartman bargain offering and at the low prices quoted you should have no hesitancy in sending us your order for it, in either the golden oak or the fumed oak finish.

BASE TOP has plank edge, being constructed of 5-ply built-up stock, which will not warp or crack. This is a modern method of building furniture which means greater durability and longer service. There are two top drawers, one lined for silverware, a full length linen drawer across the bottom and a two-door roomy cupboard section in the center; fitted with genuine oxidized copper trim pulls, as illustrated. The sturdy posts measure 2 1/2 inches wide. Base top measures 48x22 inches and French beveled mirror is 42x10 inches in size. There is plenty of space in this buffet to place all your daily needs for setting your table and your chinaware, too, can be safely kept in the convenient center compartment.

THIS BUFFET is offered in the rich golden oak or brown fumed oak finish at prices quoted below. It is guaranteed to give satisfaction in every detail. Order it sent to you on approval and if it does not please you send it back at our expense and we will refund your money. The buffet shown here is one of our best values. Only by seeing it can you appreciate its handsome appearance, and only by examining it can you judge its solid construction. Excellent value for the money. Shipped at once from factory in central Indiana or our Chicago warehouse. Shipping weight, about 180 lbs.

BUY WISELY. If you should, by any chance happen to see some article of merchandise in your home town that appeals to you, don't buy it blindly or on the impulse of the moment. Wait until you get back home and consider your contemplated purchase in a serious manner. If it happens to be an article of household furnishing we want you to take a look through the pages of this book. You are pretty sure to find just as good a quality of merchandise at a lower price and on easy credit terms. The thing to do then, is evident. Fill out one of our order blanks immediately.

THIS BUFFET is a typical example of your money-saving opportunities in ordering your home furnishings from Hartman's. It is a big, handsome, well-constructed piece of furniture in the Colonial style which is always popular. It is massive in appearance, yet so well balanced and proportioned as not to appear clumsy. It stands 52 inches high by 54 inches wide and 22 inches deep, thus affording ample storage space for silverware, dishes and linens. The entire front of base, base top and ends are of quartered oak veneer, giving it a rich and elegant appearance, which is furthered by the beautiful finish.

CONSTRUCTION. The plank base top is five-ply built up and quartered oak veneer, 54x22 inches in size. The mirror top is made of genuine solid quarter-sawed oak, containing the heavy plain plate mirror which measures 46x38 inches in size. There are two top drawers, one lined for silverware, with two compartments fitted with good-sized doors below. Beneath these cupboard compartments is a roomy full length linen drawer. All drawers and doors are fitted with wood knobs. Comes in either the handsome golden or fumed oak finish. State which you prefer. Shipped promptly from factory in Central Indiana. Shipping weight, about 210 pounds.

COLONIAL design furniture is always very popular and in good taste, and this handsome buffet is just as serviceable and substantial as it is attractive in appearance. It is built for us by one of the best known and most reliable manufacturers and is high grade in every respect,—a buffet that will enhance the appearance of your dining room and give you years of satisfactory service. You may order it with the full assurance that you will receive excellent value and a very handsome buffet. Order it sent to you on our liberal 30 days' trial in your own home and note its fine construction and beautiful finish.

QUARTER-SAWED OAK is used in the construction of this fine buffet and it is finished in polished golden oak or fumed, as desired at the prices quoted. The front posts are 2½ inches wide with quarter-sawed oak veneer of beautiful grain on the three exposed sides. The 1½-inch plank top measures 54x24 inches. Beneath the top are two drawers with half-round fronts. One of these drawers is lined for silverware. The remainder of the base contains a large double-door compartment and a full length linen drawer. All drawers fitted with wood knobs and work smoothly and easily.

THE MIRROR measures 42x10 inches in size. On either side of this large mirror are colonial scroll standards which support the convenient shelf above. The heavy front posts are of colonial scroll design, and there is also an attractive scroll between the doors of the large compartment in center of base. Feet have easy running brass-top casters. Height of base 37½ inches. Total height of buffet is 53 inches. A very handsome buffet in either golden or fumed finish. When ordering be sure to state finish desired. Shipped promptly from factory in Central Indiana. Shipping weight about 260 pounds.

BUFFET OFFERINGS OF EXCEPTIONAL BEAUTY

**Comes In Mission
Style. Quartered
Oak Veneers Are
Used In This
Handsome Buffet**

\$54⁸⁰
Price In Golden Oak

THE BEAUTY of Mission designed furniture appeals to those who admire substantial, plain, dignified appearing household appointments. This buffet is typically Mission in style and so built that it will render very satisfactory service. Another feature of this elegant piece is expressed in its massiveness and size. It is far from a skimpy buffet, such as you often see in poorly appointed homes, but measures 54 inches in width. Carefully matched solid quartered oak veneers are used in its construction, lending an unusually beautiful appearance. The drawer sides and bottoms are of solid oak. A convenience of this model is the removable silver tray lined with plush. This tray fits into the top center drawer and is shown directly under the large illustration.

THE INTERIOR of this buffet is well finished throughout. The base top is wide and roomy, measuring 54 inches wide and 23 inches deep. French beveled mirror is of good quality and is large in size, measuring 10x48 inches. The posts are 2 3/4 inches wide and the plank edge base top is 1 1/2 inches in width. Has three roomy top drawers, the center one being fitted with removable silver tray, as explained in the above paragraph. Also observe the three cupboards, the center one containing three handy drawers, as illustrated. Across the bottom is a full length linen drawer. All of the drawers and the cupboard doors have artistic metal pulls. May be had in choice of golden or fumed finish. Shipped from Central Indiana factory. Ship. wt. about 250 lbs. **No. 262R7. HIGHEST QUALITY

Kitchen Cab-
inet to be
found anywhere is here offered to you
on such liberal credit terms that you
really cannot afford to buy an in-
ferior cabinet. The famous "Indiana-
Made" Kitchen Cabinet is the most
complete and conveniently arranged
cabinet on the market. It represents
the highest type of workmanship and
fittings, and is furnished in rich gold-
en oak or white enamel finish. It con-
tains many features not found in other
cabinets and is fully guaranteed.

LARGE SIZE,

convenient arrange-
ment and complete
appointments make this a most de-
sirable cabinet. It is full 48 inches
wide (6 to 8 inches wider than the
ordinary cabinet) and 72 inches high.
Height of base is 33 1/2 inches, with a
porcelain covered sliding table top
27x48 inches, which when extended
allows an unusually large working
surface. The convenient arrangement
of this cabinet places everything at
your finger tips.

TOP SECTION is white enamel
lined with sanitary
metal shelves, four close fitting doors
and roll curtain to make it dust proof.
Has 50-lb. flour bin with an improved
sifter. There is a swinging glass
sugar jar and six other glass jars for
coffee, tea, salt and spices. A com-
plete set of food and time charts
for cooking and baking, indexed re-
cipe cards, cook-book holder, ticket
and coin tray, wire shelf for extracts
and a 20-lb. tilting meal bin. Top
section is 11 inches deep.

THE BASE is 48 inches wide and
33 1/2 in. high, and
contains four drawers and a large utensil
compartment. The cutlery drawer is
divided into four sections. The large
size bread and cake drawer is made
of metal. The utensil compartment
has a sliding wire shelf and wooden
utensil tray. Each door contains wire
racks for pans, lids and other uten-
sils. The sliding 27x48 inch table top
is porcelain covered. Shipping weight
about 325 pounds.

**Genuine Oak
With Metal Or
Porcelain Top**

THE TOP is white enameled inside and very conveniently arranged. It has a tilting flour bin which holds 24 pounds and is fitted with handy flour sifter. There is a two-shelf cupboard for dishes, with double doors. Beneath this is a large compartment containing a 7-piece glass jar set for coffee, tea, sugar and spices. A close-fitting, easy sliding lateral roll curtain protects this compartment. Articles shown but not mentioned are not furnished. The entire top being enamel-lined, and having tightly fitting doors and curtain is very sanitary and easily kept clean. It is well constructed of oak.

THE BASE is strongly built and contains a large storage compartment with sliding tray in bottom for storing cooking utensils. It has a close fitting door, on the inside of which is a convenient pan-cover rack. There are two drawers for cutlery and other articles and a large size metal bread drawer. The sliding work table top measures 25x42 inches, and can be furnished with either nickolene metal or a porcelain top, as priced below. Entire cabinet is nicely finished in golden oak color. Shipped promptly from factory in central Indiana. Shipping weight, about 250 pounds.

White Enamel Cabinet Has Blue Decorated Panel Doors In Top Section. Oak Cabinet Has Art Glass Panels.

THERE IS nothing that a woman can have in her home that will save her as much time and labor as will a kitchen cabinet, for fully fifty per cent of the trouble and bother that usually attends kitchen work can be eliminated by its use. Think how much time can be saved in preparing a meal. You take your dishes out of the top china cabinet; your pans from the cupboard below; your silverware from the drawer provided for that purpose. Then, if you are baking a cake or bread or preparing the meal, all the ingredients that you will require are right at your finger tips. Is not this convenience worth a lot? Yet, you can have it—you can make your kitchen a playroom instead of a work shop by the expenditure of only a few dollars. For further details see opposite paragraph.

CONSTRUCTED throughout of solid oak in a very thorough manner. It is built to deliver service and to take the drudgery out of kitchen work. Many features of note are incorporated in this handsome cabinet. It has a large tilting flour bin with strong metal sides. Wire rack for spice jars. Metal covered table top, 25x42 inches in size. Metal cake or bread drawer with perforated sliding top. The height overall is 68 inches. Outside depth of base is 21 inches. Height of base overall is 32½ inches. Depth of top section 11 inches. Height of top section 35½ inches. The pan compartment in base measures 22x16x20 inches. Metal bread drawer is 14x9x18½ inches in size. Shipping weight 205 lbs. Shipped from factory in central Indiana.

On
Page 1

No. 339C44

The Woven Steel Wire Shelves In The Provision Chamber Are Adjustable And Easily Removed For Cleaning. The Galvanized Steel Ice Rack Is Also Easily Removed.

Above Illustration Shows Refrigerator Closed

CONSTRUCTION. The inside case is made of odorless and tasteless lumber, matched and clamped together, well nailed and glued, and fastened to hardwood cleats, making it a thoroughly air-tight and strong cabinet in itself. The outside case is of solid hardwood lumber, and is nailed and glued to the cleats which bind the inside case. The insulation between these two cases effectively keeps in the cool air and prevents the warmer outer air from penetrating the interior. All corners are neatly rounded so there are no sharp edges.

INTERIOR is divided into two provision compartments and an ice chamber. The large provision chamber contains four woven steel wire shelves which are adjustable and removable. This is an important feature as every housewife will appreciate the advantage of having shelves that may be moved up or down to accommodate the different articles placed in the compartment. The small provision compartment has a separate door. Ice chamber door opens flush with the wall, giving free access for ice. Lined with galvanized iron.

AIR CIRCULATION is such as to maintain the proper temperature. The air, after passing over the ice and becoming cooled, falls directly into the provision compartments, displacing the warmer and lighter air and forcing it upward through the flues to the ice chamber, where, by contact with the ice, it is cooled and purified and again falls to the provision chambers. By this method of refrigeration you are assured of keeping your food in proper condition and at the correct temperature at all times while there is ice in the ice chamber.

SANITARY. The exterior is finished in white enamel, always looks neat and is easily kept clean. Both provision chambers are white enamel lined, and the shelves in the larger compartment are easily removed for sterilizing. The ice rack in the ice chamber and the drain pipe are also removable for cleaning. The automatic door fasteners always insure the doors being tightly closed. This refrigerator is economical in ice consumption and the ideal refrigerator for family use. Shipped promptly from factory in Michigan.

**A Very Serviceable
And Sanitary White
Enamel Lined Ice Box
At Reasonable Prices
Sold On Easy Terms**

HERE'S A REFRIGERATOR that has been designed for economy of space allowing a great deal more room for ice and provision chambers, without taking up any more floor space than many refrigerators of smaller design, yet costing as much as this one. It embodies the most improved scientific principle of cold, dry air circulation which has been proved the most perfect for working great ice economy. The insulation keeps the cold air in the refrigerator and allows the warm air to pass out. We know that you will be well pleased with this fine refrigerator at the low prices we quote below. Considering the sizes and measurements of various compartments higher prices than these figures would ordinarily be considered cheap for so fine an article.

IT IS MADE of paneled construction, a splendid quality of seasoned ash being used with a rich golden oak finish. This refrigerator is recommended as a high class, sanitary article, being well made with white enamel lining as shown in the large illustration to the right. When sending us your order, be sure to give the correct number, so that we will know the exact size to ship. Be sure, also, to select a size that will be sufficiently large to fulfill your requirements. Hinges and locks are strong and durable and are made of genuine brass. Waste pipes are removable. Easy rolling casters are supplied with this refrigerator.

EASY TO CLEAN. The provision chamber is fitted with wire shelves adjustable to different heights, thoroughly sanitary and easily taken out to clean compartment. It is absolutely odorless and is guaranteed in every way. Both the ice chamber and the provision chamber have large front doors which is the most convenient construction known in the building of refrigerators. This is one of the biggest money savers ever known in refrigerators, and it preserves the food perfectly, keeping an even temperature and consuming half the quantity of cold air that is usually necessary to produce proper results in large refrigerators of this type. Shipped promptly from our Chicago warehouse.

MADE OF SOLID ASH in all the sizes at the low prices quoted below. They are handsomely finished in a rich shade of golden. Only high grade materials are used in their construction and they are extra large refrigerators, heavily built, so as to stand extreme weights. Any size is remarkably durable. The trimmings, such as locks and hinges, are made of solid brass heavily nickel plated, and easy running casters are supplied. The ice racks are of galvanized steel, rigidly riveted together and of lasting quality. Ice chamber has front door and removable accessories in interior so as to be easily kept clean and sanitary. Construction of entire refrigerator is of paneled type and only well seasoned ash is used.

THE SHELVES are made of nicked wire and easy to keep clean; they are adjustable and can be raised or lowered to suit the convenience of user. The provision chambers, both large and small, are so constructed that they at all times carry a perfect circulation of cold air, which fact alone assures you of an odorless box that will consume less ice and cut all high ice bills. Waste pipes are removable for cleaning. The insulation is of most satisfactory type, assuring the coldest air circulation at all times. You can order this splendid refrigerator in choice of the sizes listed below. Have it sent to you on approval and if you are not satisfied in every way, you can return it at our expense, and we will refund any money you have paid us. Shipped at once from our Chicago warehouse.

A REFRIGERATOR BARGAIN

\$29.95
This Is Constructed of Genuine Ash Lumber In Rich Golden Color. Is Very Sanitary And Economical. Made With White Enamel Lining A Fine Value At Our Prices

ADJUSTABLE SHELVES are features of this Hartman refrigerator. These shelves are genuine steel wire woven on heavy steel wire frame and heavily tinned. The ice rack is made of galvanized steel bars welded together, the strongest and most commonsense ice rack in the country. After passing over the ice the air falls directly into the provision compartments, displacing the warmer and lighter air, thus the warm air is forced up the flues at either end of the ice compartment, where by contact with the ice, it is purified, cooled and again falls, thus keeping up a constant circulation. By this method of refrigeration you are assured of keeping your food in proper condition and at the correct temperature. The great importance of these two points are appreciated by the well informed housewife, because she knows that the health of her family depends upon fresh, unspoiled food.

INSIDE CASE is of odorless and tasteless lumber, matched and clamped together, well nailed and glued and fastened to hardwood cleats, making it thoroughly air tight. Outside case is nailed and glued to cleats which bind the inside case, making one of the strongest and most durable refrigerators ever built. Finished in three coats of high quality filler and waterproof varnish, giving a handsome and serviceable gloss finish. Is provided with syphon drip cup. This prevents cold air from escaping through waste pipe. The insulation is the dead air space and non-conducting sheathing. Bear in mind that this method of refrigerator construction means economical ice consumption. Therefore, in the purchase of this box you not only save money in the initial cost, but also in the cost of maintenance. Surely you will not ignore these money-saving factors in selecting your refrigerator. Shipped to you promptly from our Chicago warehouse.

THE HANDSOME PLAIN WHITE PORCELAIN

dinner set, which we offer for your consideration, is one of the finest of its kind to be found anywhere at the price. It is a good plain white set, the shape of dishes being that shown in illustration above with a neat embossed design, molded at intervals on the outer edge of each piece. While there is no gold band decoration on any of the pieces of this set, the embossed pattern does away with the severely plain appearance which would be noticeable if the embossing had been omitted. A pure white set, weighing about 60 pounds, or 100-piece set, weighing about 95 pounds. Shipped promptly from our Chicago Warehouse.

THE BEAUTIFUL 3/8-INCH GOLD BAND PATTERN

of this dinner set, is a reproduction of the style of decoration now being used on the more expensive dinner sets. Each piece of this set has been molded with an embossed design on outer edge, appearing immediately below the stylish gold band, which itself encircles the extreme edge of dish. This band of gold is put on by a new process at the pottery, just before the dish is given its final firing and glazing. By this method, the decorating is put on very evenly and greatly adds to the appearance of each dish. Is double fired and glazed, which makes it very durable and gives it a velvety finish. Shipped from Chicago. Furnished in either 51-piece set, weight 60 pounds, or 100-piece set, weight 95 pounds.

WHITE AND GOLD DINNERWARE WITH NEAT ROSE BORDER

POPULAR PILGRIM SHAPE

Choice Of 51 Or 100-Piece Sets At These Low Prices

THE artistic shape, attractive design and splendid quality of this dinnerware all commend it to the prospective purchaser. All of the pieces are of practical size and grade for family use and are recommended to the discriminating buyer. It is known as white and gold dinnerware, the design on the various pieces being a stunning rose pattern executed in handsome gold color. This design appears on the various pieces as shown in the illustration; corresponding perfectly so as to make a uniform set that will adorn any table upon which it is placed. It is an embossed gold pattern—the effect being worked out in sprays of roses. Is a strong and vigorous pattern, standing out boldly, having the purity of appearance that always goes with gold when used as a decoration on china—ware—an assertive pattern of color, and one that will add elegance to any dining room appointments. The shape is known as the Pilgrim shape whose refined outlines are in keeping with the simplicity of this type of dinnerware. The clays used in these sets are very durable and consist of those imported mostly from England in conjunction with dependable clays of domestic origin. This ware is fired very hard to make it stand up under the daily use to which it is subjected in the home. We ask you to study the illustration of the 100-piece set shown on this page. Note the graceful contour of the various pieces, observe the neat pattern and consider the variety of the pieces included. Then send us your order with the understanding that if it does not please you, you are under no obligation to keep it. In the event that it is returned within 30 days we will refund all money that you have sent us, including the transportation charges both ways. Either set shipped promptly from our Chicago warehouse.

IDEAL SERVICE FOR THE HOME

THE elegance of the design found on this dinnerware is of the sort that appeals to those of refined taste. It possesses a gold stamp border design with gold band, set off with gold filigree pattern around the edge. The handled pieces are embellished with half solid gold decorations on the outside of handles, giving an air of distinction to these dishes. White and gold table service has come into vogue more strongly than ever, and the proud possessors of this set will therefore feel that their table appointments are the last word in stylish, attractive dinnerware. Imported English Kaolins of the best quality are used in the manufacture of this set, producing a pure white, soft, rich velvety effect that will be appreciated by all. These pieces are fired three times to a heat of 2200° Fahrenheit, producing a glaze of great brilliancy that cannot of utility as well as decorative tableware. You can have your choice of this beautiful, dainty dinnerware in either 51 or 100-piece set at the prices quoted below. State which you prefer, giving the correct catalog number.

STYLISH GOLD BAND INITIAL DINNER SET

Attractive Pilgrim Pattern With Your Own Initial

HANDSOME 110-PIECE DINNER SET FOR \$29.85

Your Initial On Every Piece In Gold Surrounded By A Wreath

ATTRACTIVE DINNER SET. If you are in need of a table service, we recommend our 110-piece Pilgrim Pattern dinnerware set. This set will give you a complete table service for 12 people and you will have the satisfaction of having dinnerware of the same quality and pattern and the kind that you will find in the best furnished homes. It is the kind of dinnerware you will admire the minute you see it and you will appreciate and enjoy it more and more each day you have it in your home. You must see the distinctive shape—the artistic indentations which make this pattern so different from all others. Let us send this dinner set to you on 30 days' approval. If you are not pleased with it send it back at our expense and we will refund your money.

THE NEW PILGRIM SHAPE. A pleasing feature is the popular, new Pilgrim shape. This is Colonial in effect, being modeled after an early period design and will lend grace to any dinner table upon which it is placed. A picture cannot do full justice to the exquisite beauty of this handsome gold decorated Pilgrim dinner set. No picture can show the gleam of heavy lustrous gold comprising the decorations or the snowy whiteness through the neat bands of gold and the wreath with your initial monogram in gold. Gold Band dinnerware is always popular with those who take pride in the appearance of their table. To really appreciate the beauty and daintiness of this dinnerware, is to see it in your own home.

COMPLETE SET CONSISTS OF: 12 dinner plates, 9 inches; 12 breakfast plates, 7 inches; 12 soup plates, 7½ inches; 12 cups; 12 saucers; 12 cereal dishes, 6 inches; 12 individual bread and butter plates, 6¼ inches; 12 sauce dishes; 1 platter, 13½ inches; 1 platter 11½ inches; 1 celery dish, 8¾ inches; 1 sauce boat tray, 7¾ inches; 1 butter plate, 6 inches; 1 vegetable dish, 10½ inches with lid (2 pieces); 1 deep bowl, 8¾ inches; 1 oval baker, 9 inches; 1 small deep bowl, 5 inches; 1 gravy boat, 7¼ inches; 1 creamer and 1 sugar bowl with cover (2 pieces). We ask you to study carefully the graceful contour of the various pieces, observe the neat pattern and consider the variety of the pieces included in this set. Gold initial is put on each piece. State initial wanted.

YOUR INITIAL on every piece in gold, surrounded by a wreath as shown in the illustration. When ordering be sure to mention the initial you want us to send. The only way to appreciate the real beauty and serviceability of these dishes is to order them on approval with the distinct understanding that if they do not please you, you are under no obligation to keep them. In the event that they are returned within 30 days we will refund all money that you have sent us, including transportation charges both ways. Every piece in this set is fire glazed and will keep its lustrous beauty indefinitely. Refer to page one of this book for easy credit terms. Shipped promptly from our Chicago warehouse. Shipping weight of complete set about 90 lbs.

COLONIAL DESIGN MATCHED BORDER DINNERWARE DINNERWARE

Order The 51 Or 100-Piece Set Comes In 51 Or 100 Piece Set As Quoted

PURITAN China Ware is made of the discriminating American housewife. Europe's finest Kaolins are used in manufacturing this ware to insure great strength and unusual whiteness. It is fired three times, twice to a heat exceeding 2,200° F., producing a glaze of great brilliancy that cannot craze. In order to have a suitable decoration for this remarkable China Ware, a well known Ceramic Artist was commissioned to create a design especially for this service. One can secure an accurate conception of this artistic service only by seeing the ware itself. His motif is a conventional blue flower surrounded by green foliage, each medallion connected with fine line of blue enamel and edges are covered with Gold.

"BLUE BIRD" PATTERN DINNERWARE

MADE IN THE NEW PILGRIM SHAPE

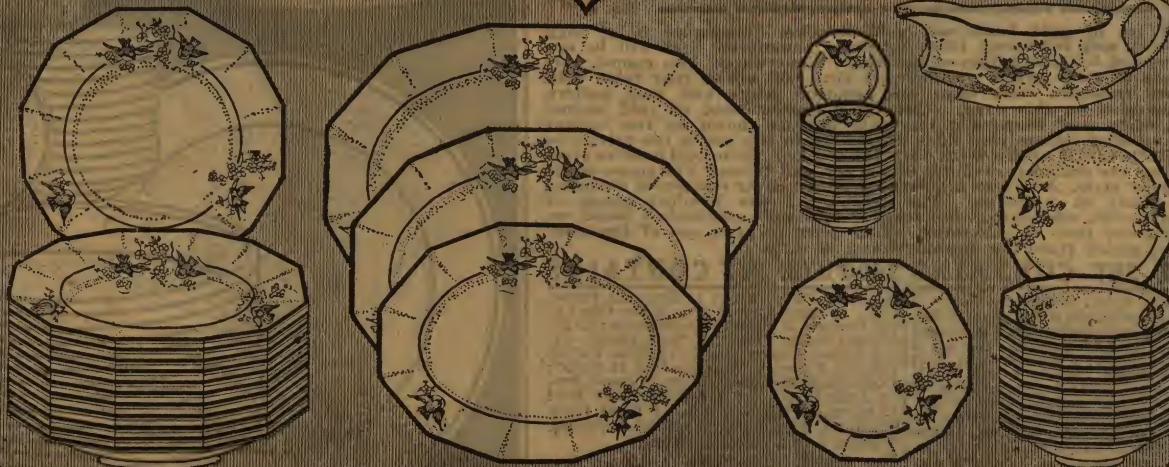

THE "Bluebird" is a popular decoration with all. There is something attractive and compelling in its design. The new treatment of the Bluebird pattern is decidedly artistic. The birds are found in their native element surrounded by foliage and clusters of pink and lavender blossoms. The treatment of the motif is soft and delicate and will please the most fastidious critic. The Bluebird effect is completed by the use of harmonious blue lines on the edge and shoulder of the various pieces, as illustrated. A pleasing feature is the new, attractive Pilgrim shape. This is Colonial in effect, being modeled after an early period design and we are sure it will lend grace to any dinner table upon which it is placed. 51-piece

set constitutes a service for 6 persons; 100-piece set, for 12 persons. Give correct number when ordering.
THE 51-PIECE SET contains: 6 9-inch Dinner Plates; 6 7-inch Pie Plates; 6 7½-inch Soup Plates; 6 Cups; 6 Saucers; 6 5½-inch Fruit Dishes; 6 3¼-inch Individual Butters; 1 10½-inch Platter; 1 11½-inch Platter; 1 Sugar Bowl and Cover (2 pieces); 1 Cream Pitcher; 1 9-inch Covered Vegetable Dish (2 pieces); 1 9-inch Salad Dish; 1 8½-inch Round Vegetable Dish. Shipping weight about 45 pounds.

THE 100-PIECE SET contains: 12 9-inch Dinner Plates; 12 7-inch Pie Plates; 12 7½-inch Soup Plates; 12 5½-inch Fruit Dishes; 12 3¼-inch Individual Butters; 12 Cups; 12 Saucers; 1-10½-inch Meat Platter; 1 11½-inch Meat Platter; 1 13½-inch Meat Platter; 1 9-inch Covered Vegetable Dish (2 pieces); 1 9-inch Salad Dish; 1 Gravy Boat; 1 Covered Butter Dish (3 pieces); 1 Sugar Bowl and Cover (2 pieces); 1 Cream Pitcher; 1 8½-inch Round Vegetable Dish; 1 10-inch Bread Plate; 1 7¼-inch Jelly Dish. Shipping weight about 85 pounds.

"Dolly Varden"-Blue and Gold-Dinnerware

A Beautiful Dinner Set with Gold Band Edge and Floral Spray Decorations

THE elegance of the design used in decorating this dinnerware is of the sort that appeals to every housewife of refined taste. It possesses a gold band edge, set off with a blue inner stripe. The "Dolly Varden" basket floral designs and sprays are beautifully worked out in colors as illustrated, with roses and sprays in green, red, old rose and pink colorings. The handled pieces are embellished with touches of gold on the outside of the handles, which lends a sort of distinction to these dishes. Blue and gold table service is extremely popular and anyone possessing a set of dinnerware like this one, will, therefore, feel confident that their table appointments are the last word in stylish and attractive dinnerware. Imported Kaolins of the best quality are used in the manufacture of these dishes, which produces a white, soft, velvety effect, that is sure to be appreciated. Each piece is fired three times to a heat of 2,200 degrees Fahrenheit, producing a glaze of great brilliancy that cannot craze. They are made to render very satisfactory service and are durable dishes of utility, as well as decorative tableware. Blue and gold dinnerware of this type usually sells at a greater price than we are asking for either size set. We assure you that only the best materials have been used in the manufacture of these dishes.

No. 320C13

51-Piece Set. Price **\$13.95**

YOU can order this attractively designed dinnerware in choice of 51 or 100-piece sets according to your requirements. The 51-piece set constitutes a service for six people, whereas, the 100-piece set embraces a sufficient number of necessary dishes to answer the requirements of twelve persons. When ordering be sure and give the correct catalog number as mentioned below and also state whether you wish the 51 or 100-piece set. The number of articles found in each of these assortments is listed in the following.

The 51-piece set contains: 6 dinner plates, 9 inches; 6 breakfast plates, 7 inches; 6 soup plates, 7½ inches; 6 individual butter dishes; 6 dessert dishes, 5¼ inches; 6 cups; 6 saucers; 1 meat platter, 11½ inches; 1 covered sugar bowl (2 pieces); 1 cream pitcher; 1 oval open vegetable dish, 8½ inches; 1 oval covered vegetable dish, 9½ inches (2 pieces); 1 open butter dish, 5¼ inches; 1 olive bowl, 5¼ inches.

The 100-piece set contains: 12 dinner plates, 9 inches; 12 breakfast plates, 7 inches; 12 soup plates, 7½ inches; 12 dessert dishes, 5¼ inches; 12 bread and butter plates, 6¼ inches; 12 cups; 12 saucers; 1 meat platter, 13¼ inches; 1 meat platter, 11½ inches; 1 oval covered vegetable dish, 9½ inches (2 pieces); 1 oval open vegetable dish, 8½ inches; 1 covered sugar bowl (2 pieces); 1 cream pitcher; 1 sauce boat; 1 sauce boat stand; 1 covered butter dish (3 pieces); 1 olive bowl, 5¼ inches; 1 round salad bowl, 8¼ inches; 1 pickle dish.

**GENUINE REED,
CORDUROY LINED,
REVERSIBLE GEAR,
FULL SIZE SLEEPER**

Comes in Your Choice of Baronial Brown, Natural Ivory or French Gray Finish

THIS CARRIAGE is unusually handsome in appearance, well constructed from high-grade materials, conveniently arranged, easy to operate and beautifully finished. At the prices we quote it offers rare value in a carriage of quality and carries our unqualified recommendation to all who wish a very fine article. It is a Pullman sleeper with a genuine reed body, made of half-round reed with round reed roll as shown in the illustration. Every detail represents the highest skill in the carriage builder's art and only select materials of high quality enter into its construction. The sturdiness of the gear, the long luxury spring, imparting a gentle cradle motion, and the high-grade materials used in upholstering make this a most desirable carriage at a moderate price.

REVERSIBLE GEAR, with which this fine carriage is equipped, is very simple in operation. You simply press the pedal lever and revolve the body of the carriage to the left (as shown in the small illustration in lower left hand corner of this page). When the body is completely reversed (as shown in the small illustration in lower right corner) it automatically locks and is securely held in this position. This is a great convenience. If the sun is shining in the child's face, or if there is a strong wind against the babe, simply turn the body around and the child is protected. The sliding, adjustable hood with heavy corduroy draft curtain at the back, fully protects your baby from the weather. (See small illustration in lower right corner.)

THE DETAILS of construction indicate the excellence of this carriage: The body is made of half-round genuine reed with round reed roll, swelled sides, reclining back and deep foot well. The half-round reed hood, adjustable on nickel-plated sliding hood irons, is corduroy lined with inter-lining between reed work and upholstering and has corduroy draft curtain. The body is upholstered with full box corduroy cushions. The gear is reversible, with long "luxury" springs, flat leaf and unbreakable. Has strong tubular steel pushers, large 14 in. artillery wood wheels with liberal size rubber tires and nickel hub caps. Fitted with an efficient foot brake. Inside measurements are: Length of body at top, back up, 29 in.; width of body at top, 15 in.; height of body from seat to top, 10 in.

\$39⁹⁵

In French Gray
Finish. Complete
With Artillery Wood
Wheels and
Rear Curtain

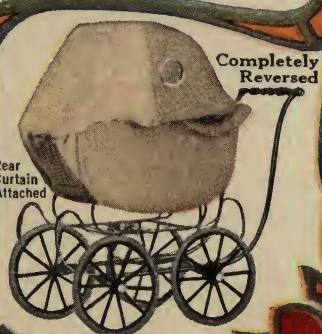

Half
Reversed

FEATURES are many and of a nature to secure your entire approval and approbation. The convenience of the reversible gear, the large, well-made wheels with heavy rubber tires, the long and specially designed "luxury" springs that perfectly support the body and impart a soft, cradle-like motion; the handsomely designed and beautifully finished body with real corduroy box cushions; the sliding hood irons, enabling you to slide the hood backward or forward and adjust it to various angles; the victoria glass windows and double lining in hood with corduroy draft curtain, all carry an appeal to those who wish the best. This is a carriage that we unreservedly recommend for satisfactory service.

COLORS: This handsome Pullman sleeper may be had in your choice of Baronial Brown, Natural Ivory or French Gray finish as priced below. Illustration shows the French Gray finish. No matter which color you prefer, you will receive a very beautiful carriage of high quality and excellent finish. Our liberal credit terms make it easy for you to enjoy the use of this fine Pullman sleeper while paying for it. When ordering be sure to give correct catalog number and state finish preferred. You will receive a carriage that will delight you and that will compare favorably with those costing more. Carriage is shipped promptly from Chicago or factory in Western Pennsylvania. Shipping weight, 80 pounds.

GRANDFATHERS and Grandmothers
will have the pleasurable opportunity
of exclaiming, "Why! daughter! you've
got baby in the very buggy I wheeled
you around in when you were just a
tiny baby." A buggy must of neces-
sity embody the very best construction
possible to enable it to withstand the
ravages of usage and of time. This
buggy is of just that sort—strong, sub-
stantial, durable, well made in every
respect and a splendid bargain withal.

THE GEAR is black enameled in
both finishes. Gear is
1/4-inch stock with full pushers, auto-
mobile style springs, insuring comfort
for the baby, and 12-inch wire wheels
with 1/2-inch rubber tires. Foot brake
is easy to operate and securely locks
carriage. This is a very fine carriage.
Shipping weight, carefully packed,

WHEN the combination of beauty and
durability in an article may
be secured at a very reasonable price,
then indeed can one feel that he has
been given the advantage of a real bar-
gain. Take this reed carriage as an
example—the graceful contour of the
body, the full sweep of the pusher bar,
the curves expressed by the sensitive
springs, the handsome upholstery—
these, one in relation to the other form
an ensemble denoting rare and distinc-
tive beauty.

BODY is very well made of round
fibre reed, woven over wire
stakes, producing the indestructible
feature so much desired in children's
vehicles. Upholstery in body and hood
is Princess cloth. The hood measures
19 1/2 inches wide and 25 inches deep.
Body (inside) width, 13 inches; length
(back up), 24 inches; (back down), 33
inches. Choice of ivory or gray finish.

Body Is Of Flat Reed With
Half Round Reed Fender
Rolls — An Exceptionally
Good Bargain At This Price

The Back Is Adjustable
To Any Position

14-Inch
Wheels

IF BABY were to be consulted at all in the matter of selecting a carriage it would look through Hartman's catalog, stop at this page and point its finger to this very buggy and exclaim, "This is the buggy I want!" Its judgment would be correct too, you can be sure of that, for this buggy, besides being especially handsome in appearance, embodies the very sturdiest form of construction, the sort that gives definite assurance of years of satisfactory service and this at as low a price as is consistent with the high quality materials and expert workmanship involved.

THE BODY of this handsome sleeper is made of flat reed, with half round reed fender rolls. An attractive combination is thus formed. The back, which is adjustable, may be fixed at any angle desired, from an upright to a reclining position. This is very convenient if the child is left to sleep in the buggy at night, as it forms a very comfortable bed with the back completely lowered. Hood embodies the sliding feature—a very useful arrangement. This sleeper, when every feature is taken into consideration, will be found to be one of exceptional worth.

COLORS. You may choose from among three finishes—natural, Baronial brown and French gray. Any of these will gratify the most discriminating taste. The upholstery is of Repp—the sides, seat and back being padded and covered with this durable material. Wheels are 14 inches, fitted with ½-inch rubber tires. Hub caps are nickel plated. Brake is very effective. The gracefully curved pushers are of continuous ¼-inch steel tubing, attractively set off with nickel plated handle corners. Shipping wt., 90 lbs. Shipped from Chicago warehouse or factory in Northern Indiana. **\$34.95**

Upholstery

CONSTRUCTION. This handsome Pullman Sleeper is durably made of full round, fibre reed, woven over steel stakes, a superior method of construction making this carriage as nearly indestructible as it is possible to make it. This feature alone is of immediate interest to the prospective purchaser, because it insures a long term of very satisfactory service; at a price that is much lower than the high quality of this sleeper would indicate. Order one of these sleepers and benefit by this improved construction. See page one of this catalog for our very liberal credit terms.

THREE FINISHES. This sleeper may be ordered in your choice of Natural, Gray or Blue finish, the Natural finish having attractively enameled black gear; the gray finished carriage having gray enameled gear and the blue carriage having cream colored gear. Bedford Cord is used for the upholstery as well as the shield in back (used as a protection against the wind). This material is of such quality as to give assurance of satisfactory service. For further details, see following paragraph.

THE GEAR which is of the stationary type, is of tubular construction. This construction makes for great strength and rigidity. Measures ¾-inch in diameter. The steel wheels measure 14 inches in diameter and are fitted with ½-inch rubber tires and have nickel plated hub caps. The inside dimensions of this carriage are as follows: Width, 14 inches; length of bed with back up, 24 inches; length of bed with back down, 36 inches. Shipped promptly from Chicago warehouse. Shipping weight, crated, about 75 pounds.

YOUR CHILD is a treasure that should be guarded very carefully. Every possible thing done for its benefit in the way of care and comfort now, will tend to make it a healthier and happier man or woman in the years to come. You shudder at the thought of your child running around uncared for, subject to dangers of all sorts and yet you hardly stop to consider how detrimental to a baby's health are the bumps and jars occasioned by an aged and decrepit conveyance. Consider your baby's future health as well as its present, think what inexpensive health insurance a go-cart of this sort will be. A go-cart like this will be appreciated by every mother because it is strongly constructed.

VERY STRONG pressed steel body, of rigid construction with handsome panel sides. This go-cart folds very easily to occupy very small space. No trouble at all either to open or close or to carry about. The attractive black enamel finish is baked on, giving it the hard, high lustre so much desired. The delicate gold striping on sides and front appeals to those who appreciate beauty. Auto style hood with side roll curtains, measures 25 inches. The tubular pushers are heavy, being 3/4-inch. Large footwell provides ample room for child's feet. Brake is positive acting. Fenders over wheels prevent mud from splashing up. Length of go-cart with back down 39 in. Shipping weight, about 60 lbs. Shipped from our Chicago warehouse.

ADJUSTABLE BACK. The back of this go-cart is adjustable to four positions—upright, reclining, and intermediate. This is a feature sure to appeal to careful mothers. The springs are full elliptical, making riding very easy. Well upholstered in fine leatherette. Seat and back carefully padded. Wheels are 12 inches in diameter, fitted with 3/8-inch rubber tires. Pusher bar is attractively set off by nicked corner handles. Taken all in all, this is an exceptional go-cart, one that should interest every mother who has a baby, and who desires to have that baby derive every bit of comfort she herself would wish to have. Be sure to include this go-cart in your order.

STORM FRONT. If you desire, you can order the storm front to fit this go-cart at the reasonable price quoted below. This front affords the child considerable protection in stormy and unpleasant weather—yet is fitted with a window that is on a level with the child's eyes when it is in a sitting position. Every desirable feature imaginable is incorporated in the building of this article.

Veneer Body, Reinforced Frame

TAKE BABY out daily—give it all the health advantages that fine weather affords. Its rosy cheeks and chubby body will be ample recompense for any trouble it may have caused you. Inconvenience to the mother can be almost entirely eliminated. Buy one of these light weight comfortable strollers. They are easy to push, and besides being less expensive, they are almost as cosy for the child as is a large carriage. This pusher being fully collapsible, may be easily carried up and down stairs. The ease with which it can be operated makes this collapsible feature a very noteworthy one.

A Bow
Hood Is
Adjustable
To Any Position

FRAME is strongly constructed of flat steel attractively enameled in black. Body is of the graceful serpentine design, so much in favor for this style of baby vehicle. Sides and dash made of 3-ply wood veneer, which is light in weight, without sacrificing strength. Hood is of the four-bow type, adjustable to any position. Back is adjustable to three positions—upright, reclining and intermediate and can be changed from one to the other in a moment. The seat and back are well padded and diamond tufted. Foot well is equipped with apron. Strong fenders over wheels keep mud from splashing up.

Hub
Caps

HERE IS A VERY WELL MADE REED STROLLER

Reed Body, Hood And Footwell
Body Has Half Round Reed Roll

Brown Cart Has Black Gear.
Gray Cart Has Gray Gear.

HERE IS an article that will prove a delight to every mother, because it is a light weight reed stroller constructed in a very fine manner and designed in a style that is rich in appearance as well as convenient to handle. It is easy riding and comfortable for the child because the seat and back are padded and upholstered. You can readily see by studying the illustration that this stroller is handsome in appearance, and is constructed in a way to insure satisfactory service. Order it sent to you on 30 days' approval and if it does not please you in every respect you can send it back at our expense. It is a splendid value at our prices and offered to you on easy credit terms.

CONSTRUCTION. The body is made of flat reed with a half-round reed roll as illustrated. The hood also is made of flat reed and is adjustable to different positions. The reed foot-well is adjustable. It has an adjustable reclining back. The seat and back are padded and upholstered with repp in colors that match the color of the body. The hood is lined with repp of the same color as used in rest of the upholstery. You can order this stroller in Baronial brown, with black enameled running gear or in gray with gray enameled running gear at the prices quoted below. Be sure to order by correct number and specify color wanted. Take advantage of our liberal credit terms as shown on page one of this catalog.

DIMENSIONS. The seat measures 10 $\frac{1}{2}$ x12 inches. Front wheels on the stroller measure 8 inches in diameter while the rear wheels measure 12 inches, all fitted with $\frac{1}{2}$ -inch rubber tires and nickeled hub caps. The pusher rods are made of $\frac{3}{8}$ -inch round steel tubing and are fitted to an ebony finished wood cross handle. The spring construction is very high grade and gives this stroller a very easy riding quality, making it comfortable for the child and reducing the jars or bumps to a minimum. The gearing is richly enameled to match the color of cart selected, in black for brown stroller or in gray for gray stroller. Shipped from factory in Northern Indiana or from our Chicago warehouse. Shipping weight, about 45 pounds.

REAL COMFORT FOR THE MOTHER AND CHILD

Here Is A Fine Promenader Made Of Full Round Fibre Reed As Illustrated

THE FEATURES of this promenader will appeal to the mother, and its comfort will be a source of appreciation to the little tot. They are constructed to give the maximum comfort to the child, and because of the fact they are so light in weight they are so easily taken about and are, therefore, a great convenience for the mother. Then too, every boy and girl will greatly enjoy playing with it. The girl can give her doll a ride or the boy can give his Teddy Bear a ride. Every child will spend many enjoyable hours playing with this promenader, which in itself is a feature. Besides the other factors to be considered in the purchase of an article of this type. You can have your choice of gray or natural finish, as you prefer, with black gear. When sending us your order kindly advise which finish you desire to have us send, giving correct catalog number as specified below. The price at which we sell this article is so low that you can't afford to overlook this great value.

CONSTRUCTION. The sides are made of full, round fibre reed, woven over steel wire stakes, producing an unbreakable fabric. Is equipped with 5/8-inch full tubular pusher, which materially increases the stability and wearing quality of this promenader. Equipped with 12-inch rear wheels and 10-inch front wheels, fitted with 1/2-inch rubber tires and nickeled hub caps. Back is adjustable to three positions. Seat and back are padded and covered with leatherette to harmonize in color with finish of the sides. At the prices offered we consider this a decided bargain and have no hesitancy in recommending its purchase to those seeking good quality at a reasonable figure. See page 1 for easy credit terms. Shipping weight, about 45 lbs.

GENUINE REED STROLLER

A Very Comfortable Go-Cart For Your Baby At A Very Moderate Price

WE TRUST YOU. The need of such an article as this stroller makes our liberal credit terms extremely welcome to the prospective purchaser. It is an article that you want "when you want it"—whose purchase cannot, as a rule, be deferred very long. Of course, you may be able to pay all cash for it, and not miss the money, but think how much more convenient it is to buy it on our confidential credit terms and to make your payments a little at a time. This child's vehicle is very comfortable and is easy riding, as well. The illustration to the left was made from a photograph of the stroller itself and therefore is an accurate reproduction of this model. We cannot impress you too strongly with the excellent construction and splendid workmanship found on this low-priced article. Order it on approval and if it does not please you send it back at our expense.

Ebony Finish Wood Cross Handle.

Pushers Are Made Of 3/4 Inch Round Steel Rods.

Made With Adjustable Back Which Is Padded And Upholstered.

Seat Is Also Padded And Upholstered And Easy Riding And Measures 10 1/2 x 12 Inches. Comfortable

DESCRIPTION. The body is constructed of genuine flat reed and is equipped with adjustable reed foot well. It may be ordered in your choice of Baronial brown or gray colors. The Baronial brown cart has black enameled gear, whereas the gray stroller comes with gear to match. When ordering state color you prefer and give the correct catalog number. Pushers are 3/4-inch round steel rods, with ebony finished wood cross handle. Front wheels measure 8 inches, rear wheels 12 inches in diameter, all fitted with 1/2-inch rubber tires. Nickeled hub caps. Back is adjustable and like the seat is padded and upholstered with imitation leather. Seat measures 10 1/2 x 12 inches and comes in colors to match the body. Shipping weight, about 43 pounds.

Flat Steel
Frame

EASY FOLDING GO-CART

A Sturdy Semi-Collapsible Go-Cart
At A Price Sure To Be Of Special
Interest To Every Thrifty Mother

A GO-CART is an article that may well be chosen with discrimination. Not only should it be expected to render long service, but satisfactory service as well. This handsome go-cart with its substantial steel frame, large rubber-tired wheels, reclining back rest and the sundry other conveniences which mark the high grade baby buggy, augmented by the quality and expert workmanship which Hartman's incorporate in every item of merchandise they sell, gives definite assurance of a long term of satisfactory service, and this at as low a price, if not lower than may be encountered anywhere else. Consider carefully how well worth your while it will be to buy this go-cart.

THE FRAME of this dandy little go-cart is constructed of strong flat steel, in a way that is bound to render substantial service. The pusher, likewise is made of flat steel, gracefully curved as shown in the picture. A wood cross handle is used to join the two sides forming the pusher of this model. A feature of this go-cart is the shock-absorbing springs which extend the entire length of the seat. These relieve the shock or jar and make easy riding for the child. The body measures 14½ inches wide and 36 inches long. Black enamel is used in the finish of this cart. Imitation leather is the material used for the covering on the hood, sides, seat and foot well; this likewise is black to match the finish of the frame.

THE HOOD is of the 3-bow type. The enameled wheels measure 10 inches in diameter and each has 14 wire spokes. These wheels are fitted with ¾-inch rubber tires and are nicely set off with nickel plated hub caps. This is a semi-collapsible go-cart that folds up with one motion. The price at which we sell this article is so low that you can't afford to ignore it if you are seeking a bargain. We feel certain that you will be very well satisfied with your purchase and therefore have no hesitancy in urging you to include it in your order. If it does not please you in every way, remember our guarantee of satisfaction protects you. Shipped promptly from Chicago. Ship. wt., 33 pounds.

Body And Frame Are Strongly
Made Of Pressed Steel

THINK of your baby's comfort when you buy a buggy. A child is not as well able to endure discomfort as you are, and yet you go out of your way to avoid it. Buy one of these smooth, easy running buggies for the baby, take it out often to enjoy the sunshine and the fresh air. A daily ride in a comfortable buggy such as this one will make any baby a healthier and happier one. Surely your baby is worth the consideration. The full folding body and frame of this buggy are of pressed steel, giving assurance of strength and long service.

THE TUBULAR PUSHERS, set at an attractive angle are enhanced by the two beautifully nickel-plated arm plates and the fancy cross handle. This is a full folding buggy, one motion being sufficient to operate simple folding device. The three-bow hood is finely made of durable leatherette, adjustable to any position by the mere turn of the thumb screw. The body and running gear are finished in hard baked enamel, handsomely striped and ornamented. 10-inch wheels are fitted with ½-inch rubber tires. The springs reduce shocks. Brake action is positive. Shipped from our Chicago warehouse. Shipping weight, about 50 lbs.

HANDY SEMI-COLLAPSIBLE SULKY

A One Motion Cart With Adjustable 3-Bow Hood, 3/4 Inch Flat Steel Frame, And Back Adjustable To Two Positions. Seat And Back Made Of 3-Ply Veneer Lumber.

AN EXCELLENT VALUE. There are many features possessed by this good looking, nicely made, substantial, comfortable, sulky, and among its numerous features there is none of greater significance or greater importance to the purchaser than the low price at which it is offered. Low price in itself, of course, means little. But the buyer of this sulky receives so much for the money that we are glad to endorse this as an exceptional value at the price. It is sold subject to our guarantee of satisfaction, and upon its receipt, if you do not find it to be all that we claim for it, or if you are not thoroughly satisfied with it in every way you may return it to us and we will refund all the money that the transaction has cost you. That shows the confidence that we have in this sulky. Include this article in your order and take advantage of our liberal payment plan shown on Page 1.

IS SEMI-COLLAPSIBLE. This sulky is semi-collapsible, folding up with one motion, into a space of 10x20x33 inches. Refer to the small picture shown to the left for the appearance of this sulky when collapsed. When so closed it is easy to carry about and can be placed out of the way where it will occupy very little room. Frame is 3/4-inch flat steel. Seat measures 10x12 inches; has flat steel springs, and seat is nicely and is adjustable to two positions. Hood is 3-bow type, has 20 1/2-inch spread and is adjustable to any position. Seat and hood covered with imitation leather. 10-inch enameled wheels fitted with 3/4-inch rubber tires. Nickle hub caps; 2 1/2-inch metal trailer wheels. When you consider the features mentioned above we are sure that you will agree that this is a splendid article at the price. Shipped promptly from Chicago Warehouse. Shipping weight, substantially crated, about 30 pounds.

SPLENDID SEMI-COLLAPSIBLE SULKY

The Sides Are Constructed Of Full Round, Hand Woven, Fibre Reed. Has Padded Seat And Back To Add To The Comfort Of The Occupant. Back Adjustable To 3 Positions.

Back, Seat And Hood Are Of Gray Leatherette. The Hood Is Of 3-Bow Type And Has A 22-Inch Spread. The Seat Measures 10x12 Inches Back Measures 12 1/2 x 13 Inches.

COMFORTABLE semi-collapsible sulky, with full round No. 5 hand woven fibre reed sides; attractively finished in French gray color. The heavily padded gray leatherette seat measures 10 inches by 12 inches and the heavily padded gray leatherette back is 12 1/2 x 13 inches high. This back is very comfortable, being adjustable to three distinct positions.

THE HOOD is likewise of gray leatherette, is of the three-bow type and has a spread of 22 inches. Gear and are fitted with 3/4-inch rubber tires. Nickel plated hub caps embellish this sulky. The 2 1/2-inch trailer wheels prevent cart from tipping backward and likewise add to the easy running qualities of the sulky. Oil tempered resilient seat springs, embossed steel foot rest and substantial, easy grip handle. You would find it difficult to duplicate this elegant, easy riding serviceable sulky anywhere else at our low bargain price and easy credit terms. The illustration gives you a fair idea of the handsome appearance of the sulky, but only an examination will reveal the sturdiness of its construction and its easy riding qualities. Shipped to you promptly from our Chicago Warehouse. Shipping weight, crated, is about 35 lbs. **\$9.95**

Tub Is Made Of Genuine Louisiana Cypress. All Iron Parts Are Enamelled

Eight
Shirt
Capacity

All Washers
Are Shipped
From Chicago
Warehouse
Or Factory In
Southern Ohio

**Tub Is Bound
With Three Strong
Steel Hoops**

A WASHER that will do the work in a satisfactory manner. The tub is strong and well put together, being constructed of Louisiana Red Cypress. Inside is deeply corrugated to make effective rubbing surface. Is finished in the natural wood with lasting quality of varnish. Tub is bound with three steel hoops, giving added strength and service. The four-pronged corrugated dasher block, measuring 10 inches in diameter is made of cypress and will not split.

THE GEARING

is strong and durable. Has roller bearings which aid in its operation, making it smooth and easy running. The high speed of the dasher causes increased agitation in the tub, which in turn insures the removal of all dirt from the clothes. This washer has an improved wringer attachment which is securely fastened to tub and admits the use of 12-inch roll wringer. The washing machine is well made and will render satisfactory service.

LEGS ARE securely bolted into iron sockets which are fastened to the tub, insuring steadiness and stability. The tub is fitted with drop metal handles on the side and has hinged cover which may be raised with ease. This washer will prove a great source of comfort in the home, because it saves both time and labor. It does away with the drudgery that usually accompanies wash day. Shipping weight, about 60 lbs.

Regent Model "G" Automatic Washer

Equalizing Springs Do The Washing
And Keep The Machine In Motion

\$13⁶⁵

Clean
Clothes.
Small
Effort

No. 421R11.
Tub Is Made
Of Cypress

**Which Grows In
Water And Is Not
Affected By Water**

HERE IS a machine that produces clean clothes without hard labor. Possesses solid piece handle that fits shaft perfectly. Hand hold is of wood smoothly turned, non-splintering. In operating, handle is turned only one-fourth around. This automatic washer is easy to run and to operate. Equalizing springs do the washing and keep the machine in motion. These springs take up one way motion of washer and use it to make reverse motion.

IT HAS a hand rest for resting one hand while operating machine with the other. Possesses wringer board, large lid, fastened with strong, malleable iron hinges which are easily slipped off tub when desired. Agitator presses clothes down, lower face has heavy corrugations. When operated sends suds surging through clothes, making them spotlessly clean. Tub constructed of cypress wood, which grows in water and is impervious to water. Varnish finish.

Use
Your
Credit

CONSIDER the many advantages possessed by this machine, its low price and the liberal terms upon which you can purchase it. This automatic washer has a capacity of about eight shirts. Is endorsed by users all over the country. Shipping weight, approximately 60 lbs.

Our Champion Winner Oscillating Washer

Simple To
Operate
SINGLE

Always Reliable **\$13⁹⁵**
And Efficient
Order It Sent
On Approval

action washer on the old and reliable rubbing, or friction, principle, having one oscillating rubber and a stationary rub-board in the bottom of the machine. The principle is one of the oldest known to washing machine manufacture.

OPERATION

is very simple consisting of merely drawing the triple handled lever backward and forward, thus imparting the oscillating or rocking movement to the corrugated upper cylinder. The clothes, which are between it and the stationary rub-board, are subject to a very efficient rubbing process which thoroughly cleanses them. Order this washer sent to you on approval, and if it does not please you send it back at our expense and we will refund your money.

MADE OF Louisiana Red Cypress finished in natural state. Soiled clothes are rubbed back and forth between the two corrugated parts, forcing hot suds through every portion of the fabric and thoroughly cleansing it. On one end is a convenient wringer attachment, so arranged that it permits the water wrung out of the clothes to flow back into the machine. Shipping weight, about 85 pounds.

No. 421R2. Price..... **\$13.95**

Regent Model "C" Rotary Washer

16-Inch Flywheel
Gives A Steady Motion

Is Easy To Operate
Order It On Credit

\$14⁹⁵

THE TUB is made of Louisiana Red Cypress, deeply corrugated on the inside, making an effective rubbing surface. The exterior of this splendid washer is finished in the natural wood with a lasting quality of varnish. The lid is detachable. Note the strong leg base with its cross-strecher reinforcement, the substantially braced and bolted wringer attachment and the galvanized hardware. The tub is large size, having capacity of eight shirts.

DASHER BLOCK is 10-inches in diameter; is made of cypress and should not split or crack. It is corrugated on under side. The telescopic dasher post does not project through dasher block and consequently does not tangle or tear even the most delicate garments. This non-floating dasher has proved eminently successful. Fly-wheel is arranged with handle to be operated by hand or with power by use of belt. Gearing is covered with a shield to guard against accident. Fine washer for the money.

METAL PARTS are finished with enamel and where necessary are heavily galvanized to protect against rust. Has simple roller bearing gear, driven by large, heavy fly-wheel. Shipping weight, about 85 pounds.

BALANCE WHEEL of this washer is most conveniently placed at the outside of the tub, where it revolves very rapidly and easily without friction or wear. This construction enables you at all times to quickly and easily get at the working parts of your outfit. Tub and other wooden parts are of genuine kiln-dried Louisiana Red Cypress. The tub is bound with three metal hoop bands and has a diameter of about 24 inches with a capacity of about eight shirts. Corrugated bottom and sides enable you to get excellent results, while the dasher block rotates at high speed and circulates the clothes round and round in the tub, at the same time rubbing the garments against the corrugation.

STRONG WRINGER ATTACHMENT

is fitted to the top of the tub, enabling you to easily and firmly attach a large sized wringer. Every circumstance which could make for the convenience of our customers has been carefully considered in the design as well as in the manufacture of Hartman's High Speed Rotary Washer. You can sit down comfortably and rest without losing any time and you achieve splendid results with great ease of operation when used as a hand power machine. For additional information concerning details of construction refer to paragraphs to the right.

DASHER POST is a high grade equipment so built to the machine that you can wash the finest fabrics without being in any way afraid that they will become tangled or torn. This is a feature that is of importance to every washing machine user. Balance wheel and all metallic parts of this washer are carefully tested and inspected so as to guarantee freedom from flaws and insure lasting durability. This washer can also be run by belt power. Tub, which is strongly bound by three metal hoop bands, stands firmly level upon its four solid braced legs. The height of this washer has been carefully figured out so as to make it most convenient for you whether you are standing or sitting.

THE STRONG IRON PARTS

are carefully finished with enamel paints. The advantage of the enamel paint improves the appearance of this washer, and protects metal from rust-producing elements. If you do not already possess a Hartman High Speed Rotary Washer, you are not yet familiar with the real conveniences which have been achieved by the most modern improvements. When you have actually used it, you will be absolutely astonished at its rapidity and thoroughness. Shipping weight, carefully packed, approximately 90 pounds.

HARTMAN'S "RAPID" WASHER

For Hand Or Belt Power. A High Speed Washer With A 12-Shirt Capacity. Improved Cut Gears. A Labor Saver

\$21⁶⁵

High Speed
Fly Wheel

IT COMBINES

in one machine all the elements of action needed to wash clothes in a clean and satisfactory manner, viz.: rubbing, suction, vacuum and tumbling. Takes out all the dirt without injury to finest fabrics and produces excellent and quick results.

Easily Operated by Working The Lever Back And Forth

Shipped From
Factory Near
Cincinnati, Ohio

FLY-WHEEL geared to make 300 revolutions with every 50 strokes of operating lever, creating tremendous cleansing force with surprising ease. Mechanism is very simple; has long double bearings. Gears covered so there is no danger in operating machine. Constructed of cypress, which won't become water-logged or tainted. Won't dry out and fall apart. Natural finish. Hardware and castings galvanized to prevent rust. Outside parts black enameled finish. Separate chamber under lower cylinder where dirt settles prevents dirt from being churned in water and coming in contact with washed clothes. Also has the advantage of the high speed fly-wheel attachment, which insures speedy and surprisingly easy operation. You merely work lever back and forth. This puts fly-wheel in motion, which in turn oscillates the two cylinders in opposite direction at the same time, with clothes between them.

LOWER CYLINDER

can be easily lifted out by means of patented detachable connections, to clean out dirt chamber when through washing. Upper cylinder adjusts itself to quantity of clothes being washed. Large solid wringer attachment. Wringer shown in small cut not included. You can use hand or belt power. Fly-wheel has groove for round belt, so machine may be belted to gas engine or motor if desired. This machine has a capacity of 12 shirts. Shipping weight, about 120 lbs.

WASHDAY is relieved of most of its drudgery, if you have this Gearless Water Power Washer in your home. It is simple and easy to operate and requires only the turning of the faucet to start and stop it. It will wash anything from the finest to the heaviest materials with perfect results. This splendid washer will pay for itself in less time than we give you to pay for it on our liberal credit terms. It will end washday slavery forever and prove a real boon in the home. Don't fail to order one. We know that you will be well pleased with it. Order it on approval.

ECONOMY of time, labor and money are all effected by this excellent Gearless Water Motor Washer. It is easy to operate—simply place clothes and hot soapy water in tub, attach supply hose to faucet, place outlet hose in sink or drain and turn on the water. You can then go about other work without worry about your washing. All materials are washed clean in a very short time. We highly recommend this water power washer. Stave legs 1 in. x 4 in., cross braced. Floating dolly of gumwood. Slides back on shaft when lid is raised. Brass dolly plate. Heavily galvanized dolly shaft. Ship. wt., 88 lbs. **\$23.65**

Water
Pressure
Of 25 Pounds
Will Give
About 80 Strokes
Per Minute

Inside And Bottom
Of Tub Corrugated

Is Shipped

From Chicago

DESCRIPTION. The motor is of the gearless type, constructed entirely of brass. Only two springs are used, these springs being made of best phosphor bronze spring wire. Equipped with a 3 1/2-inch inlet and discharge hose-coupling and non-splash discharge nozzle. The tub is 1-inch best grade Louisiana cypress tub stock, thoroughly seasoned and kiln dried. Operates efficiently on any pressure over 20 lbs. According to tests, a pressure of 20 lbs. will give 60 strokes of the dolly per minute. This is about the minimum speed which will give good service.

FURTHER DETAILS.

If water pressure is much in excess of 25 lbs. it should be reduced by only partially opening faucet. A "stroke," as used above, is one-half revolution of dolly. Diameter at bottom, 24 1/2 in.; top, 21 1/2 in.; height, 14 1/2 in.; height of washer overall, 34 1/2 in.; capacity, 6 sheets (or 12 shirts). Bound with three 1 1/4-in. hoops, 19 gauge. Inside and bottom of tub corrugated. Wringer box, latch and lifting handles natural finish. Large lid—heavy hinges with rests to support lid when open. Ship. wt., 88 lbs. **\$23.65**

Wringer Swings To Three Different Positions and Accommodates as Many Tubs

Being Very Rigidly Made It Will Give Years Of Service

This Washer Will Not Tear The Finest Fabrics

All Gearing Is Enclosed Assuring Safety

A GASOLINE ENGINE

or any other medium of power of sufficient strength to turn pulley wheel will operate this washer to your entire satisfaction. You will find your clothes to be washed in considerably less time than you can accomplish by hand washing and with very little likelihood of having articles torn. This saving of time is very important to the woman who regularly has big washings.

THE ENTIRE main frame is made of angle steel properly braced and then sub-braced. This enables it to stand firmly and to withstand continual strain. Has steel sliding shelf for extra tub and reversible water board with double extension drip boards. There are no separate little gears or belts in this machine to get out of order and cause trouble. All you have to do is to connect the washer up to your power plant, and as far as you are concerned the washing is done.

Tub Furnished With This Washer Is Made Of The Best Kiln-dried Louisiana Red Cypress.

Can Be Run By Gasoline Engine Or Any Other Kind Of Power You May Have.

Will Wash Everything.

GEARING is enclosed. You run no chance of having your fingers or clothing caught between gear wheels. Wringer can be swung around to three positions accommodating the same number of tubs. It is provided with a patented tension release which removes pressure from rolls. The inside mechanism will handle the finest fabrics without any danger of their being torn and will wash them thoroughly.

WRINGER can be instantly started, reversed or stopped by means of one lever and both washer and wringer can be operated at the same time or separately if desired. Tub has bottom drain. Frame is 16 inches high, 26 inches wide and 54 inches long. Driving pulley is 16 inches in diameter. Tub measures 22 inches at top, 25 inches at bottom. Wringer has 10-inch roll. Shipping weight, 300 lbs.

"Sterling" REGENT Gas Range Has 5-Burners, Porcelain Back Splasher, Oven And Broiler Door Panels And Two Drip Pans

"REGENT" gas ranges have proven so satisfactory from the standpoint of durability, strength and efficiency that they are recognized as leaders in their line. In beauty of design, symmetry of outline and finish they excel. Every sanitary device of real merit is to be found in the "Regent." Not only are they of pleasing appearance, but the materials entering into their construction and the workmanship is first-class. They are built for service, are economical and easy to operate. Mechanical design is scientifically correct and no gas range will bake more uniformly or economically. The white enamel splashers, oven and broiler door panels, also drip and broiler pans, make it sanitary and inviting in appearance. All outside castings except those which are nickel plated are finished with a heavy coat of Japan, baked at a very high temperature, giving a nice smooth finish that is easily kept clean. Valves are fitted with porcelain handled lever cocks. Each and every burner is carefully tested at the factory for mechanical defects and when they have passed inspection will last a life-time under fair treatment.

"Sterling" REGENT Gas Range Made For Either Artificial Or Natural Gas. State Which Fuel Is Used When Sending Your Order

CONSTRUCTION. The castings are made of the finest iron produced in this country in the proper proportions to give strength and durability. Wellsville polished steel is used for the body, which consists of an outer and inner wall with asbestos between. Ovens have cast iron rack supports and bottoms to withstand the intense heat of natural gas. All burners are one-piece cored castings, properly drilled and carefully tested. The five cooking burners are 3 standard Star; one Giant Star and one simmering burner. Valves are adjustable and easily changed to suit gas conditions. This is what the manufacturers have to say about the construction of these ranges: "We hold it as a first principle of our duty to our patrons to make a product that will give maximum service with the least expense for operation and maintenance; a product of genuine value, positively worth every dollar the user pays for it." When you buy a "Regent" gas range you are getting full value for your money.

\$17⁸⁵ To \$43⁹⁵

Shipped Promptly From Chicago Warehouse

COLONIAL DESIGN oil stove of very rigid construction and pleasing lines. The straight legs impart sturdiness and yet take up no more floor space than is necessary. They are made of extra heavy sheet steel and securely bolted to the stove. They are further reinforced by the full size tray, or shelf, which also serves as a convenient place to keep cooking utensils. Both the burner base and lower tray are dished to hold liquid that may be spilled. Extra heavy steel is used throughout, with angle braces under the top, making a strong and substantial stove. The cooking top is 17½ inches deep and 31 inches high. The grate holes are placed near the front to allow space at the back for cooking utensils. Finished with drab gray body, black japanned legs and shelf and blue enameled burner drums.

THE BURNERS are an important part of any oil stove. These are carefully designed to give proper air mixture and a clear blue flame. A glance at the small illustration of the burner will show two perforated chimney tubes. The asbestos wick is between the two chimneys. Air rushes in through the holes of the burner and tubes, mixes as gas within the combustion chamber and rises as a hot blue flame. The peculiar formation of this burner produces a flame within a flame, making an intensely hot fire and using about 500 parts of air to one of kerosene gas. This insures economy in fuel. The burners are completely enclosed in a cabinet, yet are easily accessible. There are no ratchets to stick, no springs or tubes to get out of order.

ASBESTOS RINGS woven on copper wire mean long life and will outlast three ordinary cotton wicks. It cannot be burned or easily destroyed. It will not creep or stick and does not require constant replacement as is the case with cotton or asbestos paper wicks. Our wicks are non-burnable and reversible and will last longer and burn better than other styles of wicks. A simple lever device, with an indicator on the front of the stove, enables you to lower or raise the wick into or out of the oil level and thus perfectly regulate the flame. The flame is always under perfect control. Once the height of flame is determined it will remain without variation. A constant, uniform, unvarying flame is maintained as long as there is oil in the reservoir. It is simple and easy to operate.

EASILY CONTROLLED. The operation and control of the Regent Perfect oil stove is very simple. A pressed nickel plated lever is provided for each burner. As this handle is moved from side to side the burner bowl containing the woven asbestos wick is raised or lowered into the oil supply and the flame regulated to a nicety. It is simple and safe. Back of the pointer on the handle is an embossed steel panel, the high spots of which serve as an accurate indicator as to just how far the handle is to be turned to produce a certain size flame. A simple lever device is provided for raising the chimney for lighting. Everything is so simple, handy and easily operated that a child can run the stove with safety. The flame is round, intensely hot and the consumption of fuel slight compared with the service rendered.

Refer To The Opposite Page For Illustration Of The Regent Perfect Oil Cook Stove In Actual Colors

FUEL TANK for holding the kerosene oil is blown from pure green flint glass by machinery and is very perfectly made. It has a large 2-inch opening for filling and is fitted with a handy ball for lifting out and handling. It is fitted with an automatic valve which prevents the oil from spilling after filling and while the glass tank is being placed in position in the sub-tank. The sub-tank, or support for the glass fuel tank, is drawn seamless metal and heavily lead coated. The pipe line is welded to this sub-tank and reinforced both inside and outside. The pipe line is welded to a handy shelf 8x10 inches in size that protects the tank and gives added top surface to the stove. It is hinged to a stationary bracket and is easily swung back out of the way when you desire to remove the tank.

HIGH SHELF can be furnished on the 3 and 4-burner sizes only. This shelf is very substantially made with embossed panels in the back, which add to its strength as well as to its beauty. This shelf is 24½ inches high above the cooking surface of the stove, is 11½ inches deep and 34½ inches wide for the 3-burner size, and 44½ inches for the 4-burner stove. It is strong and rigid and has nicely nickel-plated braces. The back and sides are finished gray while the shelf itself is japanned black, producing a pleasing contrast. The 3 and 4-burner size stoves may be ordered with or without the high shelf, but the 2-burner size is furnished only without the shelf. A high shelf gives you additional room for cooking utensils as well as protects your walls from spattering grease.

THE FINISH is in keeping with the high grade construction of this stove. with highly polished nickel trimmings and neat, embossed designs in the ends and front. The legs and shelves are japanned black and the body gray. This Japan is baked on at a temperature of 400 degrees and presents a high gloss finish that is easily kept clean. The burners are enameled a turquoise blue, forming a rich and pleasing contrast. The grates in cooking holes and the oil pipe line are electro zinc coated to prevent rusting and corroding. The chimneys are porcelain enamel. The Regent Perfect oil stoves are built for service and a trial will convince you that they are all that we claim them to be and thoroughly satisfactory cookers and bakers.

30-DAYS' TRIAL. You can order one of these fine, high grade Regent trial plan. Use it for cooking, baking, roasting and every purpose for which a stove is used. Note the ease of operation, the economy of fuel, the satisfactory results and its neat, attractive appearance before finally deciding whether or not it meets with your entire approval. If it does, you have use in your home. If, for any reason, you are not pleased with it, and do not want to keep it, just return it to us within 30 days and we will promptly refund any money you have paid us on it, or in freight charges.

Large Fire Box. Duplex Grate

Nickel Plated Front Legs and Base Strip

If You Have a Pressure Boiler, Order a Water Front. Price \$5.95 Sold on Easy Credit Terms

White Enamel Splasher and Door Panels to High Closet

THIS "DUPLEX" Combination Range will burn coal, coke, wood or gas, and is so constructed that the gas burners may be used at the same time that other fuel is being burned, or separately as desired. It may be ordered with the high warming closet as shown in the large illustration, or with tea shelf only, as shown in the small illustration in the lower left hand corner of this page. It is a very compact and conveniently arranged stove and will be found very satisfactory as a cooker and baker. When selecting a range the first consideration should be the utility, or usefulness, of it, and this "Duplex" will be found a most conveniently arranged and easily operated stove. In the hot summer months the three gas burners enable you to do all necessary cooking, thus insuring a cool, comfortable kitchen. In the winter coal, wood or coke may be used and a warm kitchen is the result. Not only is this an excellent range for cooking and baking, but it is very handsome in appearance as well.

A Cool Kitchen in Summer and a Warm Kitchen in Winter

IT IS BUILT for service, being constructed of high grade metals, properly blended to give great strength and lasting qualities. Every part is perfectly fitted and the range is fully guaranteed by the manufacturer to operate perfectly. The manufacturer of this "Duplex" Combination Range is a pioneer in the building of combination coal and gas ranges, and for over 30 years has been one of the leading stove builders. This long experience insures a perfect product—a range that will please and satisfy you and give you the results in cooking and baking that you have a right to expect. A trial of this "Duplex" Combination Coal and Gas Range will convince you that it is all we claim it to be.

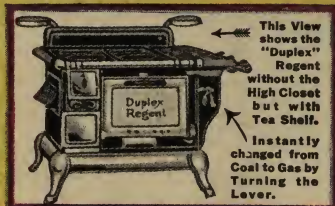

Has White Enamel Oven Door Panel With Nickel Frame

THE BODY is made of blue steel, electrically welded, combining rigidity, strength and lightness. The cooking surface measures 36x27 inches and has four 8-inch coal cooking holes and three gas burners. The oven, which may be heated by either coal or gas, is 16x18x10½ inches in size. A double line "U" gas oven burner is mounted under the cast baffle plate for heating the oven by gas. Proper flues are provided for gas fumes. The gas cooking top is fitted with 3 one-piece star burners. A convenient lever arrangement enables you to change instantly from coal to gas for cooking, or both may be used at the same time. All gas connections are made through the back of the range. There are no bolts to remove; no tools are required to change oven from coal to gas—simply slide in baffle plate furnished with range and gas connection is automatically made.

Has Three Gas Burners and Four 8-Inch Coal Cooking Holes as Shown

Duplex
Regent

OPEN FOR GAS

This View shows the "Duplex" Regent without the High Closet but with Tea Shelf. Instantly changed from Coal to Gas by Turning the Lever.

OTHER DETAILS.

The high warming closet has a white enameled splasher and panels in closet doors with nickel bands. The panel to the large oven door is also white enamel and easily kept clean. The oven door frame is nicely nickel-plated. Other nickel parts are doors to firebox and ash pit, towel rod, front base strip and two front legs, gas manifold and swing tea shelves used on the stove without high closet. The firebox is very substantial and fitted with duplex grates. A water front for heating water in a pressure boiler will be furnished for \$5.95 extra. The ash pit is of ample capacity. Shipped from our Chicago warehouse or foundry in Southern Illinois.

"SANITARY" REGENT Combination Coal And Gas RANGE

\$96⁵⁰ UP

This Stove Has No Baffle Plate Or Other Unhandy Device To Remove From The Oven When Using Coal As Is The Case On Most Stoves Of This Kind. This Is A Feature Worth Noting

Oven Easily Lighted Without Danger Of An Explosion

Star Drill Gas Burners Are Removable For Cleaning

For Coal Or Artificial Gas HAVE A COOL KITCHEN IN SUMMER AND A WARM KITCHEN IN THE WINTER

A FINE RANGE. This is a Combination Range that will burn coal and gas separately or at the same time; the gas construction being entirely independent of the coal fire and the coal flues. It is a range that has been thoroughly tried and tested, and the great number that we have sold bears testimony to the excellence of this article. It is a stove that will give absolute satisfaction and one that we therefore have no hesitancy in recommending to our customers.

Elegantly Trimmed With Nickel As Shown

Beautifully Polished Cooking Top

The Arrow Points To The Sanitary Porcelain Drip Pan Under Gas Burners

THIS RANGE is made with a cast iron square oven. The cast parts are made of Lake Superior pig iron. Fire box is large and fitted with duplex grate for burning coal or wood. Burns 22-inch wood. Large pouch feed is provided for supplying coal when top is being used for cooking. IF YOU WANT TO HEAT WATER IN A KITCHEN PRESSURE BOILER, ORDER AN "L" WATER FRONT, PRICE \$5.95 EXTRA. Balled ash pan furnished free. Has cast iron sanitary base on high cast legs, easy to sweep under. Oven door has cool wood handle.

THE TOP which embraces the lids and gas grates contains four coal and four gas burners. These star-drill gas burners are removable for cleaning. Has sanitary porcelain drip pan below, which is also easy to remove. Has indicator showing whether gas is turned on or off. High closet is made of steel and has full porcelain enameled splashers back and door panels. There are two drop doors on the high closet which form convenient shelf when lowered. Warming closet is full length of stove with pipe in back of closet, giving unobstructed space in front. This warming closet is a great-convenience, familiar to the practical housewife.

THE SANITARY "REGENT" BURNS COAL AND GAS AT THE SAME TIME OR SEPARATELY AS YOU DESIRE

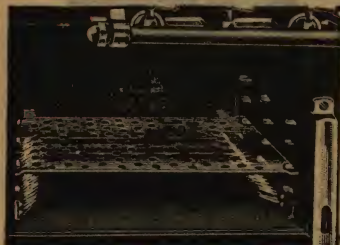

Shipped From Chicago

TO CHANGE from gas to burn coal you simply turn handle on the right side of stove behind panel. To light oven, oven door must be opened; this eliminates danger of explosion through accumulation of gas in oven. THE PRACTICAL SQUARE OVEN HAS NO Baffle Plates To Change Or Remove When Preparing To Use Coal. Oven door has thermometer as shown. Gas burners in oven are located below the shelf as illustrated in the small view to the left, and the shelf is made of steel and perforated to allow the heat from the coal flues to pass through and around the oven when coal fire is used. Order this "Sanitary" Regent sent to you on approval, we know you will be well pleased with it.

PORCELAIN enamel gas burner handles; gas grates; oven door panel; high closet door panels; complete high closet splashers back; high closet back-guard and drip pan below gas burners greatly enhance the appearance of this range and make it absolutely sanitary. The nickel parts embrace the high closet ornaments, high closet door frames; oven door frame; fire door; gas manifold pipe; front base strip and front legs; and pouch door Alaska handle. These nickel parts are of high grade nickel plating. You can order this range with or without high closet at prices given below. Be sure to specify which is wanted, and give correct catalog number when ordering.

THE QUALITY IS HIGHER THAN THE PRICE

Stove as illustrated, is Priced in Last Column of Table Shown Below.

This view shows interior of oven with gas burners under steel shelf, perforated to allow heat to pass through when gas is used for fuel instead of coal.

5-Year Guaranteed Fire Back

CONSTRUCTION. The "Leader" Regent Range is made of Southern pig iron, which is the very best metal in the world for stove-building. It possesses a wide, ventilated, shallow fire box, with heavy (20 lbs.) porcupine, three-piece fire back, guaranteed for five years, and reversible duplex grates for burning either coal or wood, and many other very desirable features.

THE FLUE is very large; in fact much larger than usually found on the average type of range. For this reason we are able to guarantee the "Leader" Regent to bake in a thoroughly satisfactory manner. This range has a sectional top, having three interchangeable hot plates, with two 8-inch covers in each section, as illustrated.

YOU CAN ORDER this fine range with or without reservoir, or with high closet either with or without reservoir. State which style is wanted. If you desire to heat water in a kitchen pressure boiler you can order our extra heavy L-shaped cast iron water front which furnishes a liberal amount of hot water, at \$7.85 extra.

THE RESERVOIR is made of copper, and what is known as the contact heat system which insures a large supply of hot water without interfering with the baking in the oven. This reservoir has a capacity of eight gallons and is bolted on to the end of range at the top and bottom of the reservoir.

Shipped Direct From Central Tennessee Foundry

Eight Gallon Reservoir Is Made Of Copper And Water Is Heated By Contact Heat System Insuring A Large Supply Of Hot Water Without Interfering With Baking

Will Give Years Of Service

Showing This Stove With Tea Shelves But Without Reservoir

May Be Ordered With Tea Shelf, With Or Without Reservoir Or With High Closet, With Or Without Water Reservoir. When Ordering A Range Be Sure To State Style Wanted

DIMENSIONS of this range are shown below. Size of fire box is as follows: Length 17 inches, depth 9 inches, width 9 inches. Height to cooking top is 31½ inches.

TRIMMINGS. White enamel is used on the backguard; with nickeled corner plates; white enamel warming closet door panels and sides with nickel trimmings, white enamel splasher back and nickeled brackets. Oven door panel is white enameled (note the thermometer in nickel plated name plate on oven door). Fire door, ash pit door, reservoir cheek, oven door frame, handle, corners and hinge box, front base strip and front legs, towel rod, and hangers are all nickeled.

RICHLY NICKEL TRIMMED. In designing the "Palace" Regent Range we have not left out a single feature which would prevent it being absolutely perfect, and in order to give it the richest appearance of any High Grade Range on the market we have produced the "Palace" elaborately nickel trimmed. The nickel parts are: The ashpit door, grate door, fire door, towel rail, entire oven door, hinge, latch and handle, low closet door, reservoir, check, name plate and the trimming of the high closet and all door handles.

THE LARGE FIRE BOX is oval and fitted with heavy cast iron linings. It is evenly ventilated. Has large cast iron punch feed and is supplied with our "Improved" combination Duplex Grates. All parts exposed to the heat are covered with heavy asbestos mill board held in place by extra heavy steel plate.

RESERVOIR is of the latest improved type. It is cast of high quality gray pig iron. Contains lift-out baked enamel lined tank. Flue damper turns heat on or off. Has 14½ qt. capacity. Range is furnished with or without this reservoir.

QUICK BAKING OVEN. The reinforced steel oven is perfectly heated and ventilated, assuring an even temperature from all sides. Dependable and durable, the "Palace" Steel Range is in a class by itself. Sheet flue construction. Accurate thermometer on oven door indicates temperature of oven at all times—a great help in baking.

A BEAUTIFUL cast range of high quality and excellent construction. It is very striking in appearance, with white enameled panels in oven door, warming closet doors, back splasher and top rail to high closet. The nickeled parts are: doors to fire box and ash pit and frames of oven and closet doors. Front legs and base strip, front band of cooking top and high closet frame. Black castings are plain and smooth finish, easy to keep clean.

THE FIRE BOX is of heavy construction with ventilated fire-back and fitted with an improved duplex grate which enables you to use either coal or wood for fuel. Fire box has pouch feed. The heavy top is cut (4 pieces) to allow for expansion and contraction and has heavy covers and centers. It is provided with six 8-inch cooking holes with lids. There is an ample size ash pit with pan for conveniently removing the ashes.

THE SQUARE OVEN is of large dimensions with full size drop door. The broad sheet flues afford the best heat circulation around five sides of the oven, insuring even baking and economy of fuel. This flue and oven construction has stood the test of over sixty years of use under all conditions. Oven top is cemented. The range is mounted on a heavy, wide, substantial base with nicely nickeled front base strip and front legs.

THE RESERVOIR is of large size and capacity. It extends the full width of the cooking top, has cast ends and sides and is fitted with a heavy galvanized iron tank holding 15 quarts in the smaller size stove and 20 quarts in the large one. It has black enameled covers that require no polishing.

THE HIGH CLOSET is substantially made of steel and is large and roomy. The warming oven is provided with two drop doors with white enameled panels and nickeled frames. The back splasher and top guard are also white enameled. The supporting brackets are nicely nickeled. Pipe is concealed back of the high closet. This is an exceptionally handsome range and requires a minimum amount of labor to keep it looking nice. It will brighten up your kitchen, and its excellent cooking and baking qualities will be a constant source of pleasure to you. Order it and enjoy the use of this fine range while paying for it on our liberal credit terms. Be sure to give catalog number and state the style you desire.

"COMFORT" REGENT CAST RANGE

Furnished In One Size Only But In Four Styles

\$57⁸⁵_{UP}

When Ordering State Style You Desire

White Enamel Panel
Drop Doors
To
Warming
Closet

THIS "COMFORT" Regent cast range is constructed of first-class materials, is attractive in appearance and an excellent cooker and baker. It is furnished in one size only, but in your choice of four styles as shown in the table at the bottom of this page. This range is well constructed, easily operated and is offered at a very moderate price. It contains many features found in much higher priced ranges, and is fully guaranteed.

CONSTRUCTION. The "Comfort" Regent is an all cast range with the exception of the four base strips and parts of the high closet, which are steel. The firebox has a three-piece hot blast ventilated back wall, cast linings, duplex grate for coal or wood, pouch feed, draft door, poker door and nickeled fire door with cast linings to protect the nickel. Smoke pipe is in the rear to give larger cooking surface.

THE OVEN measures 18x18x11 inches and has an electrically welded oven rack, spring balanced drop oven door with wood handle and sliding direct draft damper. Oven door has white enamel panel and nickeled frame. The large flues distribute the heat evenly and insure excellent baking qualities. The back or pipe collar flue is removable for taking stove through narrow doors.

THE RESERVOIR casing is made of cast iron with close fitting lids. It is fitted with a cast iron white enamel tank holding twelve quarts. The reservoir construction is unlike most ranges, as the end of the stove is open, permitting the blaze across top of oven to strike against the reservoir tank, insuring hot water all the time without interfering with baking. Care should be taken to have a supply of water in reservoir at all times. It is considered one of the best kinds of reservoir construction, and is very efficient.

Has White Enameled
Cast Iron
Reservoir
Tank

WATER

FRONT to fit in fire box can also be provided where it is desired to heat water in a pressure boiler. The water front is not furnished as a part of the stove equipment, but should be ordered extra. Price \$5.95.

THE HIGH CLOSET

is 12 inches deep, 31 inches wide and 29 1/2 inches high. It is well constructed and rigidly attached to back of stove. The warming closet is fitted with two drop doors, having white enamel panels and nickeled frames. A backguard above the warming closet prevents articles set on top from falling off. The high closet is nicely nickel trimmed. Other nickel parts are oven door frame, fire door, ashpit door, two front legs and front base strip. When this range is ordered without the high warming closet, a neat tea shelf is provided as shown in the small illustration to the right. It may be ordered with or without high closet and with or without reservoir, at prices shown in the table below. Be sure to state just which style is desired.

Our "American" Regent

In Two Sizes And In Four Styles

This Is A Splendid Cast Range With Large Sheet Flue Construction Which Insures Perfect Draft And Even Distribution Of Heat To Oven.

Stands On Sanitary Cast Iron Base

Neat End Shelf Is Supplied When Ordered Without Reservoir

THIS RANGE is one of the biggest bargains we have been able to offer this season. It is constructed in a most excellent manner of the finest materials and contains all improvements which insure the user of a cast range from which the best possible cooking, baking and roasting results can be obtained. Look at the illustration carefully and see the numerous features contained in our "American" Regent and which are explained in other paragraphs on this page. This is a cast iron range mounted on a sanitary leg base and can be ordered with or without high warming closet and with or without reservoir, as shown in table at bottom of page.

THE OVEN is of good size and is made without a pocket, thus affording a full size door opening. Has cemented top oven plate and adjustable wire rack. There is a thermometer in the oven door which enables you to see at all times the heat contained in the interior of the oven. This is an indispensable item for baking and roasting. Oven door has "kicker" which opens the door with a slight pressure of the foot. There also is a convenient oven shelf as shown in picture. The "American" has large sheet flue construction, insuring perfect draft and the cooking top is cut in four sections with long center and one sectional cover. Rods are mounted on outside and countersunk.

FIREBOX is equipped with duplex grate for burning coal or wood and has heavy front and back linings. There is a pouch feed for supplying fuel to firebox when top of stove is occupied with cooking utensils. Has large ash pit and comes with bailed ashpan. Has improved drop hearth slide. There is a sliding draft damper in pouch feed and in firebox door opposite grate bars, which insures excellent control of the fire at all times and makes the starting of a fire in firebox a very easy matter.

NICKEL PARTS are all plated with our "Highpol" silver nickel and are richly burnished. They add greatly to the effective appearance of the "American" Regent and are as follows: Towel bar; ends and bands on high closet door; name plate on high closet door; door handles, and pipe panel and bands.

Can Be Ordered With Or Without High Closet Or Reservoir

HIGH WARMING CLOSET which can be supplied for either size, is made of polished steel and is of new improved style with large warming closet with roll front door. When stove is ordered without high closet a low back rail is supplied. Extreme height from floor to top of warming closet is 55 inches. The dimensions given below concerning the oven of our "American" Regent Range include the swell of the door. You could not purchase a better range for the money and you should not hesitate to send us your order with the full understanding that if you are not pleased in every way you are to send the range back to us at the end of 30 days. That's fair, enough, isn't it?

RESERVOIR can be ordered for either size if desired and is a 16-quart porcelain lined cast tank. It is of the flue type and heats water very rapidly. When ordering without a reservoir an end shelf is fitted to stove, as shown in the small illustration below.

"American" Regent with Tea Shelf and End Shelf Without Reservoir.

Stove as shown in large illustration is priced in last column of table shown below.

\$51⁸⁵ UP

LEADING FEATURES. The important features are: The anchor plate sectional top, with convenient key plate lift, for broiling and toasting; large high warming closet, tea shelves, towel bar, massive cast iron base with protecting corners and rich nickel trimmings, all lending their part to make up the most convenient range one could wish for.

NICKEL TRIMMING. Is artistically set off with extra amount of nickel trimming. The patented process of triple plate over copper is used and wears very well. These include fire door, ash pit door, oven door frame, oven door panel, flue door, teapot shelves, brackets, plate on high closet door. Has thermometer and nicked towel bar.

The Range You've Been Looking For

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS

You Can't Match It For the Price

A BEAUTIFUL STEEL RANGE magnificently constructed. Our "Climax" Steel Range is without doubt the finest and most popular Kitchen Range ever manufactured for the money. Many, many hundreds are in daily use placed in homes by us, all over the land, under our binding legal guarantee and highly recommended by housewives.

THE RESERVOIR is supplied for both of the sizes given, or can be left off as desired. It is made of heavy cast iron, with japanned top lid. Is of the lift-out enclosed type, porcelain lined. Flue damper turns heat on or off.

THE FIRE BOX is large, has heavy linings, is reinforced, well ventilated, and has durable Combination Duplex Grates. It will burn any fuel. Has cast iron pouch feed, and fuel can be fed through the key lift lid or pouch feed door.

And Four Styles At The Low Prices Quoted

This Fine Cast Range May Be Ordered In Four Styles As Described At Prices Quoted Below. It Has 6-Hole Cooking Surface And Cemented Oven Top.

Pouch Feed

Duplex Grate Burns Either Coal Or Wood Perfectly

When Desired An Excellent Water Front Will Be Supplied For \$5.95 Extra. Bailed Ash Pan Included Free

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS. See How a Water Front Range Will Compare With a Plain Range.

Give Correct Number When Ordering

See Page One For Terms

OUR "PURITAN" Regent Range shown on this page represents unusual stove value. The construction is high grade in every detail, the materials used are of the finest and best adapted for stove manufacture. It is up-to-date and contains all improvements which insure best results in cooking and baking with a minimum consumption of fuel. Comes in two sizes and four styles.

THE OVEN is of generous proportion with full size door so that it may be opened by a slight pressure of the foot. It also is provided with a convenient oven shelf as shown in the illustration. The large sheet flue construction insures a hot oven and even baking, features that every housewife will appreciate.

THE FIREBOX is correctly proportioned and fitted with substantial linings and an improved Duplex grate for burning either coal or wood. It is also fitted with a large pouch feed for supplying fresh fuel to the firebox without disturbing cooking utensils on the stove top. Draft damper in front door and pouch feed lid regulate the fire perfectly.

THE RESERVOIR is of large capacity, with cast front and back with enameled covers. It is fitted with a heavy galvanized iron tank. The reservoir has a broad top, extending the full width of top of the stove. When no reservoir is ordered a neat end shelf is supplied as shown in the small illustration. **ORDER A WATER FRONT. PRICE \$5.95 EXTRA.**

The Small Illustration Below Shows This "Puritan" Range With Tea Shelf But Without The Reservoir.

Shipped Promptly From Southern Illinois Foundry

HIGH WARMING CLOSET to fit either size is made of polished steel with roll-front warming closet of generous size. Beneath this are two small shelves that fold up against the back, out of the way, when not in use. Pipe section contains a check draft damper as shown. When high closet is not ordered, a low tea shelf is furnished, as shown in the small illustration. When sending your order be sure to give catalog number and state the style you want. If a water front is wanted it will add \$5.95 to the price of the stove. A water front is necessary if you wish to supply hot water to a hot water tank.

Typical Hartman Value

COMPLETE and efficient steel range fully equip-
ped with warming closet. Can be had
with or without reservoir as desired. See prices at
foot of page. The oven is constructed in such a man-
ner that it should not warp, or buckle, and is well
braced. Has spring balanced oven door of drop style,
forming a shelf, when lowered. Polished steel body.
Has wire oven rack. Fitted with duplex grate for wood
or coal. Has large pouch feed and slide draft regis-
ter. This range has the reputation of being a
splendid-cooker and baker.

RESERVOIR is of 12-quart capacity and is of
the enclosed type with lift-out por-
celain tank. The flue damper enables you to turn heat
on or off. This reservoir can be supplied for sizes
quoted, at the prices mentioned. When ordered with-
out reservoir, range is fitted with end shelf. If you
select this range you will secure one that is sure to
give long and satisfactory service; for it is well con-
structed of good materials. It is fitted with strong
linings and possesses practical sheet flue construction.

NICKELED PARTS are as follows: High
closet, corners and han-
dle; closet brackets; tea shelves, oven door frame and
name plate; clean out door; fire door; ash pit door;
reservoir ornament and towel bar. These nickeled
parts are well plated. We are unable to obtain the
nickel bands for high closet and until we can secure
them will be obliged to furnish them finished in black.

Comes In Four Styles

WE TAKE PRIDE in being able to offer you a range so excellent in construction, so handsome in design and so reasonable in price as the "Marathon" Regent. It is offered in your choice of three sizes, with or without high closet, and may be secured in two larger sizes with or without reservoir, the smallest size not being made with reservoir. This reservoir is of the latest improved type, made of cast iron and lined with porcelain. We suggest that you order one of the larger sizes for fullest measure of satisfaction, as a small stove is more expensive to maintain in proportion to its size than a larger one.

A CAST RANGE. The "Marathon" Regent is a smooth finished cast iron range, with plain but beautiful lines. It will meet with the approval of those desiring a neat, graceful, sanitary stove—one that requires the least possible effort to keep clean and free from grease and dust. Possesses a large ventilated fire box which prevents the linings from burning out. The fire back is in three sections and is guaranteed for five years. Flues are properly proportioned and correct in construction. Therefore it necessitates a very small amount of fuel to operate it. Has large bailed ash pan. Is fitted with reversible duplex grates for burning either coal or wood, as desired.

THERMOMETER in oven

door shows accurately the temperature in the oven. The advantage of this feature will appeal to all thoughtful women. When this stove is ordered without high closet it is fitted with tea shelves; when ordered without reservoir is fitted with end shelf.

"Marathon" Regent
With Tea Shelf and
End Shelf, Without
Reservoir.

NICKELED PARTS embrace the back guard corners, warming closet bands, ends, panel and handle, brackets, tea pot shelves and hinges, pipe register, towel rod, oven door handle corners, oven door name plate and hinge as well as door knobs as shown in illustration.

THE STYLE of the "Marathon" Regent is very attractive, the neat nickel trimmings setting it off to great advantage. Observe the artistic white enamel panel immediately surrounding the oven door name plate. Mention correct catalog number and style wanted when ordering.

**THIS RANGE HAS STRONG
REINFORCED STEEL OVEN**

Sheet Flue Construction

BURNS COAL OR WOOD and is equipped with a convenient dough feed for putting in coal when top of stove is covered with cooking utensils. Has end draft, giving free access to grate—very handy when poking or lighting fire. The fire box is durable and fitted with strong linings. Our improved "Legion" Regent steel range, as shown on this page, represents one of the best values of the kind obtainable. It is guaranteed to perform every function in an entirely satisfactory manner, to be exactly as represented, and a trustworthy cooker and baker. Has sheet flue construction, which is well known for its reliability and efficiency in heat transmission.

RESERVOIR has cast front and removable porcelain lined tank and can be supplied as quoted below. It is advisable to order this range with reservoir, where plenty of hot water is wanted. The roomy oven has wire rack for baking on top as well as bottom and is easily adjustable to different heights. Has drop type, balanced oven door which forms a convenient shelf when open. The oven bottom has cast brace. This "Legion" Regent range does all kinds of baking satisfactorily and at such a low cost for operation that serves to make it very economical to use. Order it on our easy terms. The appearance of this range is high class in every way.

LARGE FIRE BOX is fitted with Duplex grate for burning coal or wood. Range comes in one size in which the fire box will be found to be of liberal proportions. We advise that you purchase this fine stove if you wish one that will give you satisfaction in every way. (See table at foot of page for prices.) The large volume of business transacted by this house is a factor which enables us to quote such extremely low prices and on such liberal credit terms.

NICKELED PARTS are: front base strip; 2 front legs, fire door; ash door and screw draft; oven door name plate panel; flue door; oven door frame; front band of top. Where stove is ordered with a high closet the additional nickeled parts are closet supports or brackets; closet front bands; closet backguard corners; closet front ends; closet front panel or lift; 2 tea pot stands. Has sanitary base. It is fitted to high legs and is made to carry extreme weight.

"PRIME" REGENT STOVE

Handsome Steel Cooker And Baker With Or Without Reservoir At Prices Quoted. Burns Anything Combustible. Bailed Ash Pan Furnished Free.

THIS COOK STOVE

burns coal, wood, coke, cobs or anything combustible, being equipped with our heavy substantial duplex grate. Another noticeable feature is the handy pouch feed. By using this pouch feed to supply fuel, it does not become necessary to remove articles that are on the top of the stove. This is a great help and saves many fingers and hands, which otherwise may become burnt in moving hot pots to supply fuel by top feed. A strong steel base, supported by well-designed high legs, is supplied. The legs on this substantial stove fit perfectly tight and rigid, thereby making the base capable of carrying twice the weight of the body.

THE BASE

of a stove is one of the many important parts to be watched when constructing high grade models, and any of our stoves with a base will be found to be very secure and firm. Order this "Prime" Regent now and enjoy the use of it while paying for it on easy credit terms. The body is of blue polished steel, made with large cooking holes, heavy top covers and long and short centers. The 4-piece sectional top is substantial in construction and is well jointed. The hot air flues are of good size, from which satisfactory results can be obtained. All parts exposed to fire are lined with asbestos board, and this fact alone insures long life to the stove.

THE FIRE BOX

is large, well made and arranged to give the greatest possible heat with minimum consumption of fuel. The front slide draft, opposite grate bars, is of great value in starting fires, as it gives the required draft to fire box. Cast iron feed pouch; end draft door and frame. Possesses efficient return flue construction. The reservoir is one of the latest improved contact types. Either size can be supplied with reservoir when desired. In ordering state whether wanted with or without reservoir. The reservoir front is of cast iron with neat etched design. The top fits flush to main top of stove, adding greatly to space for pans, etc. Water tank heavily galvanized and very sanitary.

A Great Value

No Water Front Or Water Coil Can Be Furnished

THE OVEN

has balance drop door with gravity handle, is operated by a spring; when lowered forms a convenient shelf. Also furnished with rack which can be raised or lowered. Door has strong catch; oven is of reinforced steel.

Accessories Include Shaker And Lifter, Has Sectional 4-Piece Top. Shipped From Northern Ohio

A LID COVER

is used on the reservoir which allows it to be easily cleaned and to give the utmost satisfaction. The trimmings are of nickel plate, being highly burnished, making a very strikingly handsome stove. The following parts are furnished nicked: Ash door, drop fire box door, oven door frame, oven door panel and oven door handle. These parts are very carefully and well nicked, so as not to tarnish, and are easily cleaned. The "quick bake" oven has an asbestos protection, insuring steady temperature, and acts as a preventive against burning out.

RESERVOIR

is removable. The heating of reservoir is operated by an extra large flue with damper, and water may be very quickly heated to about 170 degrees.

Bailed Ash Pan Furnished Free. Oven Opens From Both Sides. Bakes And Cooks Perfectly.

Burns Coal Or Wood. Made Of Best Southern Gray Pig Iron

\$29⁹⁵ UP

NICKEL TRIMMED.

Stove is neatly nickel trimmed; the nickel parts are: kicker, oven door panel, front door plate, towel rod, lifter, shaker, oven shelf, reservoir plate, tea pot shelf. This metal is heavily plated with good quality burnished nickel silver, which should not tarnish from the heat. Has the latest improved Duplex grate for burning coal or wood. It is made of the heavy Southern gray pig iron, carefully cast, bolted and jointed. It is mounted on a heavy cast base.

LARGE POUCH FEED

is supplied, as is a full sliding hearth. Oven door is equipped with handy, foot lever opener, a feature welcomed by women because of its convenience in opening oven door quickly and easily, by the slight pressure of the foot. The cast iron oven is large and furnished with a rack. The very convenient ash door has a sliding draft register. A large ash pit and wood end fed door, for use when burning wood, are also constructed in this model.

THE TOP

is supplied with long and short centers and equipped with towel rod and tea pot stand. Fire box has "never-break" Duplex grates for coal or wood. Requires very little fuel. Pouch feed has Alaska nicked lid handle. Sheet flue construction. The reservoir is supplied with all sizes or can be left off, if desired. It is made of heavy cast iron—cast in a pleasing design and is white porcelain lined, which enamel with proper care should not crack or scratch off.

You Are Advised To Order A Stove That Is Large Enough For Your Needs As A Small Stove Is More Expensive To Maintain Than A Large Size.

OUR GUARANTEE of satisfaction is your protection in the purchase of the "Duke" Regent Cook Stove.

"SUPERB" REGENT STOVE

\$19⁷⁵ UP

The Small Size Is Listed For Those Who Insist Upon It But We Advise Buying The Largest Size.

BURNS COAL OR WOOD. Flat grates for burning wood or coal are furnished with all sizes of our "Superb" Regent. Fuel may be supplied by either the pouch feed or swinging feed door. When ordering your stove be sure to order a size plenty large enough to fill your needs, as a small stove is more expensive to maintain than a large size in proportion to the results obtained.

THE DETAILS of our "Superb" Regent cook stove have received every consideration at the factory. The most valuable points are as follows: The handy pouch feed door as shown on end of stove, well proportioned oval firebox, with very heavy castings; shaking and dumping grate works exceptionally well with either wood or coal. Observe the outside oven shelf, top shelf, kicker, heavy covers and centers; cut long centers and center rest. Pouch feed permits fuel to be supplied to stove without removing cooking utensils on top. Oven door opener is operated by a slight pressure of the foot. Oven door has cupped handle (not Alaska handle as shown in illustration). We recommend the largest size as the most satisfactory size to buy. It gives you a larger cooking surface and baking oven.

YOU CAN ORDER A RESERVOIR as shown in illustration, fitted to the largest size only. Reservoir is a great addition to any stove for heating water, and we recommend that you order your "Superb" complete with flue construction reservoir, which, when supplied, is made of heavy cast iron with white porcelain lining. When stove is not equipped with reservoir a large extension end shelf is supplied. Bear in mind, when ordering, that the two smaller sizes of our "Superb" cannot be furnished with reservoir.

Shipped Promptly From Chicago

IMPORTANT.

Although we quote the "Superb" under No. 359R4 we wish you to bear in mind that we offer this size only because others do; it is not a practical size. In fact, no stove having an oven under 16 inches will prove satisfactory. We therefore urge you to order either of the two larger sizes, to derive the fullest measure of satisfaction.

This Stove Does Not Take Water Front Or Water Coil

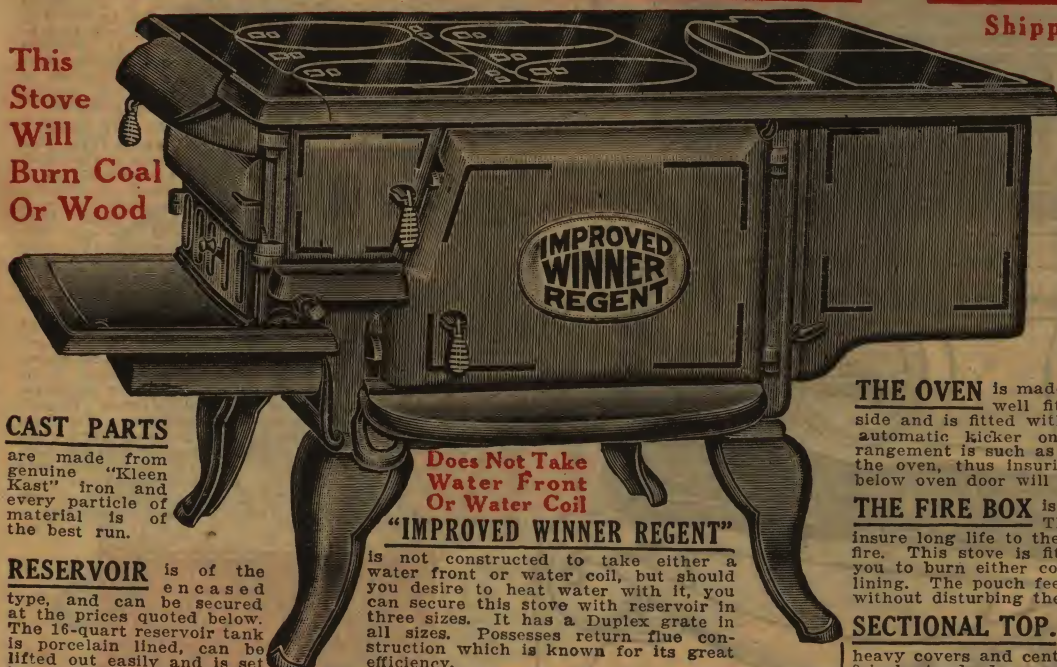

CASTINGS of our "Superb" Regent cook stove are handsomely brought out in an ornamental rococo pattern very much preferred by our customers. The design, which is very pleasing, adds grace and beauty to this model and is held in strict accordance with the balance of the stove. It is very neat in appearance, serviceable and easily cleaned, and stoves usually selling at our low prices seldom have such rich designing.

"WINNER" REGENT STOVE

This Stove Will Burn Coal Or Wood

Shipped Promptly From Chicago Warehouse

\$24⁹⁵ UP

CAST PARTS

are made from genuine "Kleen Kast" iron and every particle of material is of the best run.

RESERVOIR is of the type, and can be secured at the prices quoted below. The 16-quart reservoir tank is porcelain lined, can be lifted out easily and is set into a full cast iron casing. Is thoroughly rust-proof, and has a flue damper to turn on or off the heat.

Does Not Take Water Front Or Water Coil

"IMPROVED WINNER REGENT"

is not constructed to take either a water front or water coil, but should you desire to heat water with it, you can secure this stove with reservoir in three sizes. It has a Duplex grate in all sizes. Possesses return flue construction which is known for its great efficiency.

NICKELED PARTS. The nickeled parts are the oven door name plate and the Alaska handles used on the pouch feed, fire box and oven doors.

MADE to meet the demand for a fine appearing, low-priced stove. It has many improved features that cannot be thoroughly appreciated until this stove is put to actual usage. The workmanship throughout is far better than you would expect in a cook stove at these prices. In fact, it is the kind of a stove that in every way you would be proud to have in your kitchen. Our approval offer enables you to send for this stove and try it in your kitchen, and if it does not prove satisfactory, send it back at our expense and we will refund your money.

THE OVEN is made of heavy cast iron, securely braced and well fitted. Possesses two doors, one on each side and is fitted with wire oven rack. Swing oven door with automatic kicker on the largest size only. The flue arrangement is such as to insure an even distribution of heat to the oven, thus insuring perfect baking. The extension shelf below oven door will be found very convenient.

THE FIRE BOX is made just right, being large and heavy. The heavy linings and thorough ventilation insure long life to the parts which are directly exposed to the fire. This stove is fitted with a Duplex grate which enables you to burn either coal or wood. Has heavy one-piece back-lining. The pouch feed enables you to put coal into this stove without disturbing the utensils which may be on top.

SECTIONAL TOP. The "Improved Winner Regent" has a very heavy sectional top with good heavy covers and centers. It is supplied with four full weight 8-inch standard covers, large balled ash pan and strong, high, French design, cast iron legs. When furnished without the reservoir, it is fitted with a neat end shelf. Combination shaker and lifter. A well constructed stove that will give good service, offered at a very moderate price.

OUR "MISSION" REGENT Base Burner Heating Stove

Is A Big Saver
Of Fuel. Has A
Large Magazine,
Self - Feeder, A
Large Mica Door
And An Air Tight
Draft.

A Fine
Value.

Has Double Heating
Hot Air Flue Which Keeps
Up Constant Circulation

WHEN YOU BUY a heating stove, the first and most important point to consider is that it will produce the best results. All other features are of no avail if it fails to do the work. It must heat your room in a satisfactory manner. In this respect the "Mission" Regent will be found very efficient, and is recommended as a splendid heat-producing base burner. Another point of importance is that the stove you buy should be economical in coal consumption. And therein is another feature that we can truthfully claim in behalf of the "Mission" Regent. For the results it produces it requires a comparatively small amount of coal.

THE QUESTION OF VALUE is the next matter consideration of the prospective purchaser. Value means more than mere price—for indeed the quality that you receive at a given figure determines whether you are receiving a dollar's worth of merchandise for every dollar that you spend. And, in offering the "Mission" Regent we want to state emphatically that this stove represents one of the very best values that we have ever offered. Don't take our word for it, send for this heater and prove to your own satisfaction that it is all we claim it to be. We will send it to you on 30 days' approval.

THE APPEARANCE of a stove in the home is another vital point worthy of special mention. A heater is a relatively prominent article in the room, and for that reason it is advisable to select a stove that will prove an adornment as well as an article of utility. We call your attention to the illustration of this model. Is it indeed not a most pleasing design? Just note the wealth of nickel trimmings; observe the graceful contour of this stove, and picture the warm glowing embers through the numerous mica windows. For a detailed description of this base burner, read the following paragraphs.

THE MATERIALS used are best grade gray iron castings, smooth and clean. Air tight joints with doors ground to fit. Doors fit in recessed grooves and are held in place by turnbuckles. Has extra heavy revolving fire pot made to withstand intense heat. Large magazine self-feeder in the top of stove. If desired an extra pipe may be attached to the hot air collar and heat conducted to an upstairs room. In this way you secure the same results as if you were to have two stoves—and yet you invest in only one—which in itself is a saving that should greatly appeal to the economical and thrifty buyer.

DUPLEX GRATES. The grates are the popular and efficient Duplex type. Has wire balled ashpan. The round draft plate is air tight. Made with swing top and tea kettle attachment with 6-inch lid. The shapely body is finished in black—this against the polished nickel trimmings forms a pleasing contrast. If you want a high grade base burner we do not hesitate to recommend this one. We know that it will give excellent service and that you will be well pleased with it. This heater may be purchased in two sizes, but for the very best results and most economical maintenance we recommend the larger size. Give catalog number when ordering.

NICKEL PLATING is triple coated, polished and buffed. Nickel plated parts are: urn, swing top, top dome, side wings, front name plate, foot rails and corners, ash door with screw draft, front and side base strips, the legs and all door handles. These nickel plated trimmings give to the "Mission" Regent a very attractive and pleasing appearance. For best results we recommend the use of chestnut hard coal. When you stop to consider the many advantages procured in the purchase of this heater, and when you further consider the fact that you can have it on such easy credit terms, you really cannot afford to overlook this rare bargain. Shipped from Chicago warehouse.

**Has A Large Magazine
Heavy Fire Pot And
Duplex Center Grates**

A HIGH GRADE base burner of handsome appear-
ance and satisfactory performance.
The materials entering into its construction are care-
fully selected, and every care is taken during the
process of manufacture to produce a fine quality heat-
ing stove that will give excellent service and represent
the greatest value for the money. It is offered to you
on our well known "money back if not satisfied" plan
and you are fully protected by our ironclad guarantee.
You cannot possibly make a mistake in ordering one
of these elegant base burners and enjoy its comfort-
giving qualities in your home while paying for it on
our liberal credit terms. You run absolutely no risk
whatever.

THE DOUBLE HEATING hot air flue keeps up a
constant circulation of
warm air and makes this a most desirable and econ-
omical base burner. The Laws of Nature cause cold
air to settle to the floor and the heated, and lighter
air to rise to the ceiling. This principle is utilized
in this stove. The cold air is constantly drawn from
the floor into the hot air flue, passing upward along
the back of the fire pot and magazine, and after being
thoroughly heated is forced out at the top and dis-
tributed throughout the room. If desired, an extra
pipe may be attached to the removable hot air collar
and heat conducted to an upstairs room. This is a
very desirable feature and enables you to heat an
upstairs room without extra expense for fuel.

THE FIRE POT is of generous size, extra heavy
and made to withstand intense
heat. It is loosely hung in a cast-iron ring, thus pro-
viding for expansion and contraction. It may also be
revolved, and this should be done occasionally, to
guard against possible warping at the back next to
the flues. It is fitted with Duplex center grates, the
outside or round part shaking to the right and left,
throwing all ashes and clinkers in the center. The
center can be turned to dump the contents into the
ash pan. The magazine is of large size, located in
the top of the stove, is self-feeding and gas-proof.
The nickel plated top swings to the left for putting
in fuel and automatically opens the gas cover of the
magazine.

LARGE MICA DOORS admit light from the glow-
ing fire, radiating cheerfulness
throughout the room. The doors themselves
are gas tight, being fitted in recessed grooves, and
firmly locked by nickeled turnbuckles. It is abso-
lutely impossible for the doors to spring out of place
when expanded by the heat. The heat is easily regu-
lated by the round draft plate, which is absolutely air
tight when fully closed, thus making for economy of
fuel. The ash pit is of generous size and contains a
large ash pan with wire bail. Ash pit door is tight
fitting.

OTHER FEATURES of this excellent base
burner that are sure to
meet with your approbation include a tea-kettle
attachment conveniently located at the back of
the stove, and supplied with a six-inch removable
lid; triple coated nickel-plated parts, polished
and buffed, that will last for years and always
look bright and new with very little care and
attention. The nickel parts are swing top, dome,
side wings, foot rails, front and side base strips,
legs, draft damper and door handles, imparting
to the stove an appearance of elegance and re-
finement that instantly appeals to all who see it.
It is a very high grade and dependable heater.

THE FLUES that
conduct the cold air
from the floor and
circulate it around
the fire pot and then
distribute it
throughout the
room, are clearly
shown in the
small illustration
to the right. You
are sure to be
pleased with the
fine heating qual-
ities of this base
burner. Send your

**YOU ARE ADVISED
TO ORDER A SIZE
THAT IS LARGE ENOUGH
FOR YOUR REQUIREMENTS**

A Small Stove, a Medium Stove,
or a Large Stove, to meet your requirements.

THIS "CHEERFUL" base burner heater is of modern and up-to-date construction. It presents a very beautiful appearance, is economical in the use of fuel and is one of the finest medium-priced hard coal heaters ever built. It is constructed on scientific principles, combined with expert workmanship and perfect mounting, insuring steady even heat with the minimum consumption of coal. This fine heater is cast from aluminum match-plate patterns, insuring uniform, smooth, perfect fitting castings and air-tight joints. Air-tightness is essential to the successful operation of any heater. As all doors and drafts are ground and machine fitted, air is admitted only in the proper place and quantity to give the best results. It is easy to operate and control the "Cheerful" Regent Heater.

THE FIRE POT is made with long fingers to admit draft freely and offer ample opportunity to poke the fire through automatic poker openings. It is so constructed that firepot may be rotated to take up the wear, and may be entirely removed through lower mica doors. It is fitted with a Simplex grate that dumps all clinkers and dead ashes into the pan. Simple, durable and effective, with no cogs to break, it shakes on ball bearings and is easy to operate. The magazine holds a large amount of fuel and has cement holding lock joint to prevent leakage of gas. Magazine cover fits gas-tight and swings to the left automatically with urn, making it easy to replenish the supply of coal.

THE FLUES are an important feature in any stove. Poorly designed or badly working flues waste fuel. The two-flue system of broad, deep flues is employed in the "Cheerful" Regent. A circulating flue cup is built into the bottom, which forces the heat around the bottom flue in a solid volume against both outer and inner surface, giving the main bottom 20 per cent greater heating capacity than a flat bottom. The draft dampers enable you to regulate the heat perfectly and thus effect great fuel economy. Your fire is always under absolute control at all times. In the back of the stove is a tea kettle attachment with removable cover, which will be found very convenient.

Extra
Deep
Ash
Pit

OTHER FEATURES. The ash pit in this "Cheerful" Regent base burner is made extra large and deep, thus reducing the danger of grates burning out by ashes banking underneath. The ash pit is also provided with a large balled ash pan for removing the ashes without the usual scattering of ashes on the floor. The mica doors are perfectly fitted and contain large square pieces of mica. They lock tight to the braces, which prevent the doors and frames from warping. A double heating collar is contained in the massive and beautifully shaped dome. The new design urn is finished in Japanese Bronze trimmed with nickel. The castings are plain, smooth surfaced and easily kept clean.

NICKEL PARTS. The profusion and quality of silver-white nickel surpasses anything heretofore put on a stove of this grade. The massive dome has concave reflectors of mirror-like finish which reflect the cheerful glow of the fire into the room. The nickel side-wings and foot rails hook in place instead of being bolted on. This convenience will be appreciated by those who have had occasion to take down a base burner and store it for the summer. The other nickel parts are the legs, front and side base strips, ash fender and door handles. You will be delighted with the appearance of this stove and pleased with the service it will give.

NO RISK, FULLY GUARANTEED. We repeat again

and again throughout this book that you take no risk whatever in ordering from us. We do this to impress deeply in the minds of our customers the fact that we will not consider any order a positive sale until you are thoroughly convinced that we have saved you money and given you better quality and design than you could obtain elsewhere. If this heater is not satisfactory you simply advise us, we will give you instructions covering its return and your money will be sent you immediately. If you are satisfied; which we know you will be, keep the "Victor" and pay for it according to our terms on page one of this catalog.

THE MATERIAL USED. While we quote the lowest

possible prices on our "Victor" Regent, we have not sacrificed quality to do so. The best southern gray pig iron castings, thoroughly fitted and cemented, have been used. Expert stove makers have produced a perfect heater in this article and one we unhesitatingly guarantee. Our imitators in attempting to compete with us have been forced to sacrifice quality. This Colonial designed square heater base has a round steel interior body encased in an open-work outside cast iron casing. It has a heavy corrugated cast fire pot with draw center grate. The circulation created in this construction gives this heater immense heating capacity.

NICKEL TRIMMINGS. Artistically arranged nickel trimmings adorn the entire stove, giving it a decidedly rich appearance and making it an ornament to any room. Our best guaranteed silver nickel plate copper process is used. The nickel parts are as follows: Urn base, top, name plate, deflector panel, foot rails, dampers, base strips, legs and fancy urn. Very important is the air tight feature, the arrangement being such that the entire stove is absolutely air tight. The front feed door and ash pit door have carefully ground edges and are tightly fitted. The doors clamp securely with strong turn buckles. The ash pit door is supplied with our patented air tight damper. This plan of construction allows you to keep your fire going all night.

OTHER DETAILS: It has a mica illuminated feed door and a smoke curtain at the front of the fire chamber which prevents the smoke from coming into the room when feed door is opened, has disc ground ash door, large ash pit with ash pan and heavy, corrugated firepot with draw center grate with shaking ring. With this stove in a large enough size to meet with your requirements, you can obtain the very best results in thoroughly heating your home. It radiates heat in furnace fashion and burns soft coal or coke in a most economical manner. It will give a lifetime of service and work out a great saving in your fuel bills.

A Heating Stove That Has No Superior In Construction, Workmanship Or Material At The Price

"TORRID AIR-TIGHT" REGENT HOT BLAST

OUR COLONIAL DESIGN

"Torrid Air-Tight" Hot Blast Heater is one of the most successful air-tight hot blast heaters we have ever offered. It operates upon a perfect hot blast principle, which enables the owner to secure the greatest possible amount of heat from almost any fuel. This stove is a splendid and rich appearing parlor heater. It is fitted with the latest down draft hot blast tube, suspended from main top. This hot blast heater has no superior in construction, workmanship, or material at the reasonable prices quoted below. Ash door is perfectly fitted with ground joint and a screw damper. Other features are explained in the following paragraph.

HEAVY STEEL BOTTOM.

The "Torrid Air-Tight" Regent Hot Blast Heater is constructed with a heavy steel body, which is double seamed to make possible a perfect combustion of all gases and smoke. Other features of this heater are the large feed door, the reversible pipe collar, heavy cast linings and shaker grate. Nicked trimmings are highly polished, as shown in the illustration. There is just enough nickel to embellish this heater without undue ornamentations. The "Torrid" gives twice the heat with half the fuel of any other type of heater. It will hold fire over night with greatest of ease. It is truly the friend of the rich and poor alike. The table directly below shows the dimensions of this modern, efficient, hot blast heating stove.

An Air-Tight Hot Blast Heater. Burns 50% Less Coal And Is Therefore Very Economical To Use

"WASHINGTON" REGENT AIR-TIGHT HEATER

A FUEL SAVER. It is built to burn an unusual quantity of oxygen gas (air) in conjunction with the coal, thus producing an extremely hot fire, with the minimum consumption of fuel. This means a big saving in your coal bills. The intense heat of the oxygen gas burns the coal up cleaner, producing less ash and less smoke, thus making for greater cleanliness and reducing the labor of carrying out ashes. The manufacturer of this stove claims that it will burn 50 per cent less coal to heat a given area than the ordinary heater. This stove is a fuel saver and that means a money saver. Read description over carefully.

THE CONSTRUCTION. Castings are of Southern pig iron. Cast iron bottom sets on cast iron base. It has an extra heavy shaking grate with draw center, which allows clinkers and ashes to be removed in the ash pan. This stove has a heavy steel body, cast iron lined up to bottom of the mica feed door. Reversible pipe collar. The ashpit door has damper. Nickel parts are: urn, swinging top, name plate, top ring, feed door, draft damper, door handles and foot rails. Down draft air tight tube takes the oxygen gas from the air, burns it with the coal; this is the secret of the economy of fuel through using this heater. Shipped from Central Tennessee foundry.

Has Large
Double
Feed
Door
As
Shown

THIS HEATER is a very exceptional value at the low prices quoted at the bottom of this page and is worthy of your closest consideration, if you are searching for an Oak heater for your home. It is a new model made in the great Regent Stove foundry, and you will find by comparison with the prices that others ask for a stove of this kind, that it is by far the most satisfactory Oak heater ever constructed and offered at our prices. The "Master" will hold its fire and furnish an even temperature for a considerable length of time. In consumption of fuel it is economical. This is a point that must be considered when buying a stove, because often a stove sold at a cheap price means a large expense in the cost of operation.

WE GUARANTEE the "Master" Regent Oak heater to give you complete satisfaction in every way and we assure you that you run no risk in ordering it from us. We state this fact here to impress upon you how important it is that our customers be satisfied. You can send us your order for this heater and have it sent to you on 30 days' approval and if at the end of that time you are not entirely pleased with it, as to its value, appearance and heating quality you are at liberty to return it to us at our expense. But we are positive that once you have this stove in operation in your home that you will be more than pleased with it.

CONSTRUCTED of the best materials, the "Master" Regent Oak heater has steel body made of heavy polished blue steel and resting upon a cast iron base made of fine Southern grade cast iron. It is high enough from the floor to permit sweeping under it with ease, which is an exceptionally sanitary feature. It has an extremely heavy fire pot, of ribbed cast iron treated so as to withstand the greatest degree of heat without injury, and is large and roomy resulting in increased efficiency to this heater. The feed door is divided so that the lower part can be opened separately and is equipped with direct draft damper as illustrated. This heater has a swing cover equipped with an attractive urn.

THE GRATE is of the draw center shaker type for burning coal or wood and is heavy and substantial. The "Master" Regent is made with the middle ring in two pieces, which provides for expansion and contraction. The ash pit door is equipped with screw draft, which enables you to regulate the heat of the stove. When ordering your stove be sure to order a size large enough to answer your requirements. We offer the "Master" Regent Oak heater in the sizes listed in the table at the bottom of page.

NICKELED PARTS supplied on the "Master" Regent are of a good quality silver nickel, elegantly burnished and greatly add to the attractive appearance of the stove. The parts that are nickel are: Flaring side wings, front and side foot rails, feed door draft damper and door handle, ash pit draft register, ash pit door handle, top ring, front base strip and front legs of base. Swing cover has ornamental urn. The effectiveness of nickel trimmings on this stove can be seen by referring to the picture, but its beauty of appearance can only be best judged by seeing the stove set up at home.

Our "Brilliant" Regent Hot Blast Heating Stove

Attractively Trimmed With Nickel As Shown In Illustration. Has A Full Cast Iron Base. Is Fully Guaranteed

THIS STOVE possesses a hot blast construction that is an important feature, in that it is responsible for its economy of fuel and the remarkable efficiency of this stove as a heat producer. The air is admitted through the hot blast tube and passes in and entirely around the body of the stove, becoming superheated and mixed with the gases liberated by combustion. In this way combustion is more perfect and a great deal of the smoke instead of being wasted by passing unburned through the chimney is transformed into heat. Castings are put together with smooth joints and are carefully fitted. It has a large, heavily ribbed cast iron heat-resisting fire pot; heavy cast door front with mica windows and a heavy polished blue steel body mounted on a cast iron base. The "Brilliant" has a draw center shaker grate for coal or wood. Feed door has screw draft register and there are two draft dampers in the ash pit door.

THE SWEDGE JOINT is another important feature. The body possesses a cut-shaped flange fitted into a recessed cup on top of the fire pot and held in position by a deflector ring. This fastens the sheet steel body to the fire pot without exposing the bolts to the fire, which if left exposed will be likely to burn off, and if the bolts are burned off the body would "buckle," lose its shape and admit air around the fire pot. Nickeled parts embrace: Swing top, large reflector name plate above front door, screw draft register in fire door, foot rails and screw draft dampers in ash pit door. The "Brilliant" Regent Hot Blast is ornamented with an artistic nickel urn. The foot rail has a neat Grecian border design as illustrated. Base legs raise the stove to a proper height from the floor to allow correct radiation of heat. Has a shaker door, which enables you to shake grate without opening ash pit door. Shipped from foundry in Northern Ohio or Chicago warehouse.

A Small Stove Is More Expensive To Maintain Than A Large Size

It Burns The Smoke And Gases Economizing Fuel

Handy Shaker Door

Double Feed Door Admits Large Coal

Has A Full Cast Iron Base Fitted With Draw Center Shaker Grate

Lower Feed Door Has Mica Windows

Sheet Metal Body Is Held Securely To Fire Pot By Swedge Joint

The "Perfect" Regent Hot Blast Heater

Perfect Combustion Is Assured To The User Of This Fine Stove. Choice Of Three Sizes Below

HOT BLAST FEATURE is responsible for its wonderful economy of fuel and its remarkable efficiency as a heat producer. Air is admitted through hot blast tube and passes in and entirely around body of stove, where it becomes superheated, mixing with the gases, liberated by combustion; thus much of the smoke instead of being wasted is transformed into heat. Swedge joint is another important feature. Body possesses a cup-shaped flange fitted into a recessed cup on top of fire pot and held in position by a deflector ring. This securely fastens sheet steel body to fire pot without exposing bolts to fire, which if left exposed would be likely to burn off, and if such burning should occur the body would "buckle," lose its shape and admit air around fire pot. This construction reduces possibility of "buckling" and actually adds to the life and efficiency of the stove. Two draft dampers in ash pit door enable you to govern the heat by simply opening or closing dampers, thereby increasing or diminishing the draft on fire.

THE CASTINGS used are of a very good quality and are put together with smooth joints. Fire pot is unusual, because of its strength. Is made of heavy, ribbed cast iron, which will withstand great heat without injury. Has heavy cast iron, double-door front, lower door having mica windows. Is made with polished, blue steel body mounted on heavy cast iron base, as illustrated. Equipped with draw center shaker grate, which is adaptable to the burning of either coal or wood. Has shaker door making it unnecessary to open ash pit door when shaking grate, thus preventing dust and ashes from escaping into room. The nickel plated parts consist of the following: Draft register in ash pit door, foot rails, handles on feed doors and swing top. Possesses a fancy nickel urn. This hot blast heater is of very attractive appearance. Particularly note the Colonial columns on either side of doors and the handsome foot rails. It is a stove designed to give splendid service. The hot blast construction gives greater results, with less fuel than ordinary heaters.

**THE ATTRACTIVE NICKEL
TRIMMINGS ENHANCE THE
VERY PLEASING DESIGN**

AFTER RECEIVING this or any other stove you have ordered it must "make good" in actual wear. It is sold to you subject to our "Legal Guarantee"—the only honest test—the proper way for you to find out whether you are getting the kind of value you are expecting. You take no risk whatever in intrusting us with your orders.

YOU PERHAPS THOUGHT at some time or other, you had bought bargains, but if you will compare this bargain "Magic" Hot Blast heater with those offered by stores selling stoves at home, you'll simply say you never saw real bargains before you saw our "Magic"—so don't forget to compare it after you have received it for trial. We want you to do this, for we think you'll become an enthusiastic customer of ours and recommend us to your friends.

OUR "MAGIC" REGENT is a magnificently designed Blast. It is thoroughly well constructed of splendid materials. Every joint is perfectly fitted, insuring excellent results as an intense heater. It is right now giving the best of service in thousands of American homes, and if you buy one it will surely satisfy you.

READ THE DETAILS: Bear every one of the good points in mind in deciding to order this stove. You have our promise and guarantee that it will come fully up to the description and please you more than you expect. Consider the price—then consider the long time credit terms we give you—weigh the whole transaction well in your mind, and—take our word—you'll say our Hot Blast Heater offer is a "magic" one, indeed.

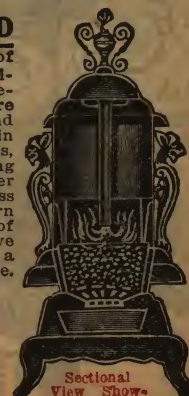

DESCRIPTION. Every part of the heater herewith offered is made for good service. The top is of heavy casting and the body is made of heavy gauge sheet steel, joined to the massive base top in a most workmanlike manner. It has a draw center and shaking grate. The base is mounted on massive legs. The front feed door is of a good size and fitted with mica panels in order to show plainly the extent of the fire within and at the same time throw a cheerful glow into the room. The fire pot is of the improved type, corrugated, extra heavy and generous in size. The ash pit door is supplied with an air screw draft to complete the Hot Blast idea. It is fitted with nickel-plated Reflector over the feed door, beautiful side ornamental columns, convenient foot rail, and artistically designed stove base.

THE HOT BLAST ARRANGEMENT

Is the redeeming feature of this grand heating stove. It is the improved style by which the heat is intensified and the gases and smoke are entirely consumed. A hollow tube extends from the top of the fire chamber to just above the fire bed, meeting a current of air admitted through the screw damper in the ash pit door, causing advantageous combustion that will be found only in Hot Blast Heaters. The small illustration below will give a fair idea of how a fire operates in our "Magic" Regent.

THE NICKELED

PARTS are made of splendid quality silver nickel on prepared cast metal, and are as follows: Front legs and front strip, screw draft in ash pit door, foot rails, side wings, reflector, swing top, top ring and lever handles. Also has brass or nickel ornamental urn on top. The brilliancy of these nickeled parts give the "Magic" Regent a bright, flashy-appearance.

**YOU ARE ADVISED
TO ORDER A STOVE
THAT IS LARGE ENOUGH
FOR YOUR REQUIREMENTS**

*A Small Stove Means More Expense
To Maintain Than a Larger Size*

OUR "PET" REGENT HEATER

A GOOD SMALL OAK STOVE

The Body Is Made Of Polished Blue Steel.
Castings Are Plain Smooth Finished And
Easily Kept Clean. Nickel Trimmed As Shown

OUR GUARANTEE protects you in anything you purchase from Hartman's, whether it is this small "Pet" Regent or any other article in this catalog. You must be pleased with every purchase. You are to be the judge. If you do not find it just as represented, you are under no obligation to keep it, but may return it to us and we will refund any money you have paid on it, or any freight charges. That is the policy of our house—the surest means of protecting you in every purchase. We aim to illustrate and describe every article accurately and to give you exact information before making your purchase so as to avoid disappointing you. Take this "Pet" Regent heater for example; it will not be found as economical in fuel consumption as a larger stove, and we strongly urge you to buy one of our large heaters, unless the space you wish to heat is too small to permit of the use of a large stove.

THIS HEATER is a well built and fine looking small stove and, is excellent value for the purpose for which it is intended. It is of small dimensions and intended to heat a small area of space. It will not take the place of a large heater and is intended for use where it is impossible to use a larger sized stove. The construction is first class and it is a fine appearing small heater. The body is made of polished blue steel. The castings are plain and smoothly finished, will not gather dust or dirt, and are easily kept clean. The fire pot has a flat dump grate and cast iron bottom. There are two screw-turn registers, one in the feed door and one in the ash door, to regulate the draft. The nickel parts are door knobs, draft registers, urn, top ring and foot rail, giving the stove a very neat and attractive appearance.

Large Feed Door And Bailed Ash Pan

Two Smaller Sizes Have Only One Turn Draft In Ash Pit Door

Ash Pan Free

Easy Credit To You

THE WORKMANSHIP. There is nothing cheap about this heater, except the price. All of the joints are fitted carefully in order to render them practically air tight. A generous number of bolts is used where necessary to insure permanency to the castings. Not a single stove is allowed to pass except under the most rigid and scrutinizing inspection. There is no special attention given to any one feature, but all points receive the same careful minute investigation. It is made in the latest Colonial design and is a most artistic and beautiful looking stove. It is thoroughly practical and sanitary, as well, for it possesses no dirt catching designs, and therefore can be kept clean with the least possible effort. The nickel parts are all highly polished, adding tone to the appearance of this heater, and at the same time improving its lasting quality. Nickel parts consist of: Foot rails, beautifully designed swing cover, name plate over the door, as well as screw drafts as shown in the accompanying illustration. Ornamental urn. Body is made of heavy gauge, cold rolled, blue polished, sheet steel, securely fitted into cast parts, rendering all joints air-tight.

THE FIRE POT of the "Acme" Oak Regent heater is corrugated to give the largest amount of radiation and is made extra heavy to give good hard service. The size of the feed door likewise deserves your consideration, because upon this feature largely devolves the ease with which the heater is supplied with fuel. The one possessed by the "Acme" is large and is furnished with solid, cast check screw damper. The ash pit is also of extra size, and is made in one piece with heavy cast iron bottom and large bailed ash pan. Other features possessed by this heater: Nickel screw draft is used in feed door and nickel turn drafts in ash door. These enable you to regulate the heat. The grate is of flat style with removable center and aptly termed a non-clinker draw center grate. The castings are smoothly made, well fitted and nothing but first class pig iron is used. Has heavy cast legs and base strips. Lift for shaker in ash pit door enables you to shake grate without opening door, thereby preventing dust and ashes from circulating around room.

THE "NATIONAL" Regent air-tight heater will burn chips, cobs or anything combustible, except coal. Body is of durable, smooth sheet steel.

Catalog Number	Size of Body, Inches	Pipe Collar, Inches	Shipping Wt., Pounds	Price
395R1	17x14	5	14	\$2.49
395R2	20x18	6	19	3.29
395R3	24x23	6	25	4.27

THIS MODEL is a typical Cannon stove, specially built to burn coal. It has all the very latest improvements, as you will recognize after having used it. Possesses a large coal feed door with register for checking the draft. The grate can be replaced without dismounting the stoves. Draft register extends all around the bottom of fire pot. Fire pot is built especially heavy. Has shaking and dumping grate.

Catalog Number	Size of Fire Pot	Size of Grate	Size of Pipe Collar	Height Inches	Shipping Wt., Lbs.	Price

395R25	11½ In.	8 Inches	5½ Inches	37	138	17.95
395R26	13 In.	9 Inches	6 Inches	39	160	20.95
395R27	15 In.	12 Inches	6 Inches	42	200	25.75
395R28	17½ In.	14 Inches	7 Inches	51	260	31.50

NEAT URN surmounts fancy stand-ard steel top. Rigidly bolted legs. Draft admitted through the lower screw register. Absolutely air-tight. (Shown to left.)

THE REGISTER admits cold air equally to all parts at the same time, and in so doing prevents the grate and the fire pot from burning out. The "Hermitage" Cannon is a very heavy stove with the weight properly distributed, giving sufficient strength where it is most needed. Nothing but good quality gray iron is used, with smooth molded castings. Has large cooking top. Large double hinged door and large ashpit.

ORDER THIS EXCELLENT "BOXWOOD" REGENT WOOD HEATER

**Will Be Found Economical
In Cost Of Operation**

THIS HEATER is well made of heavy cast iron throughout, set upon heavy cast iron legs. Comes in the 6 sizes listed. Large end door and draft register. All bolts placed on outside. We do not recommend the small size to give complete satisfaction because of inability to keep fire any length of time. Therefore, we advise the purchase of one of the larger sizes. When ordering be sure to give the correct catalog number, listed to the right. For further details see opposite paragraph.

"Success" Oil Heater In One Or Two Burner Sizes

1-Burner "Success" Heater.
No. 354R38. Price.....\$6.95
Extra Wicks No. 354R41. Price, each...15c

WELL MADE in two sizes. There is no difference in their construction except for the number of burners and consequent difference in size and weight. There is likewise a difference in oil consumption. The one-burner will burn 15 hours on 2 quarts of oil and the two-burner will burn 15 hours on 4 quarts of oil. Central draft burner, odorless, clean, safe, light-producing and intense in heating quality. One burner measures 22 inches high, 12½ inches wide, 9 inches deep. Shipping wt. about 14½ lbs. Is fitted with a "Success" burner and heat-resisting lead glass chimney. No. 354R38. 1-Burner Size. Price.....\$6.95

The Two Burner Size Is Shown To The Right

SHEET STEEL used in their construction, perforated on sides and fitted with coppered reflector, which distributes heat evenly and throws out a glow of light as well as an intense heat. Body made of blue steel. Coppered reflector at the back and bottom gives double reflection of heat. Double air chamber at top produces pure hot air. At back is flue connection. Fount made in oval shape, of heavy brass, capacity, 2 quarts. Two burner stands 22 in. high, 17¾ in. wide, 9 in. deep. Has capacity of 4 qts. of oil. Weights about 18 pounds. No. 354R39. 2-Burner Size. Price...\$9.98

The One Burner Size Is Shown To Left

Two - Burner "Success" Heater. No. 354R39. Price.....\$9.98

AN EXTRA LARGE OIL HEATING STOVE

ECONOMICAL Comes In 4 Or 5 Quart Size. 30% MORE In Polished Steel or Porcelain. Mention Size And Finish Wanted. Only 5 Qt. Oil Heater Made

in cost of operation and maintenance. Special, individual painted construction makes it possible to use a longer wick which can be replaced readily. When your coal supply goes back on you, this great boon is your "first aid."

EVERY HOME

should have one or more oil heaters, not only in case of emergency but in order to conserve coal and save much unnecessary expense. Coal is scarce—kerosene oil is plentiful. Use the oil stove for practical and economical reasons.

HOT BLAST

burner, cold blast tank and double heating drum heats more and with no more oil and the heat is more evenly distributed—you get heat near the floor where it is most needed; besides the large amount radiates from the top.

HEATING DRUM

divided into two parts. Upper part emits full force of heat, lower half produces and throws out hot air which otherwise would be lost. A clearer, sweeter heat is obtained from the use of a white flame (the hottest flame known.)

DURABLE

heating stove. Large mica window makes regulation possible. Upper drum tips back for lighting. Automatic wick stop, to prevent smoking. Double, drawn-in one-piece brass burner. Four-quart size takes 12-inch wick; stands 24 in. high and weighs about 22 lbs.; 5 quart size takes 15 inch wick, stands 26 inches high and weighs about 28 lbs.

GOOD VALUES IN HIGH GRADE ALUMINUM OUTFITS

22-Piece Aluminum Outfit

\$19⁷⁵

A Practical And Useful Set In Neat Panel Style

THE 22 PIECES comprising this fine aluminum ware outfit consists of articles in daily use in every kitchen. Every woman recognizes the advantages of aluminum utensils over those of other kinds—such as tinware, iron, or enamelware. Aluminum is more pleasing to the eye and inviting in appearance. It is more sanitary because it does not rust, scale or peel. It is easily kept clean and bright and requires less heat for cooking, thus saving in fuel. In addition to all this, it is light weight, and therefore much more easily handled than iron or enameled ware vessels. Aluminum does not tarnish easily and with proper care will last a great many years and always look neat and clean. There is not so much danger of food becoming spoiled by standing in an aluminum article as when it is left in one made of tin or iron. The articles in this set have been selected with great care so as to provide a cooking utensil for practically every need of the housewife. The quality is high grade, and long and satisfactory service is assured the purchaser. You will never be sorry if you purchase this fine 22-piece set of aluminum ware.

No. 416C10. Price, Complete Set of 22 Pieces.

SET CONTAINS a 5-qt. seamless combination tea kettle and double boiler (3 pcs.) with 2-qt. inset; two bread pans, 9½x5½x2½ in.; two 9-in. pie plates; 4-oz. funnel; 9½x5-in. colander; pan cake turner; 3½-qt. cake pan and 3½-qt. baking dish which, put together, forms a double roaster (2 pcs.); ½-pt. ladle; 1½-qt. double lipped stew pan; 2-qt. percolating coffee pot (2 pcs.); 8-qt. lipped preserving kettle with sun-ray finish inside; double lipped frying pan, 9½x2-in.; 3-qt. convex sauce pan with cover (2 pcs.); 6-qt. combination strainer and cooker with Beacon-ray finish inside (2 pcs.). Made of pure sheet aluminum with an excellent finish. Light to handle, economical to buy because of the long and satisfactory service it will render and ever a source of pride and satisfaction to the housewife because of its handsome appearance. We recommend this set as excellent value. Our liberal credit terms enable you to enjoy its use in your home while paying for it in such convenient amounts as to hardly be missed. Shipped promptly, securely packed, from our Chicago warehouse. Shipping weight, about 12 pounds.

29-Piece Aluminum Outfit

\$22⁹⁵

A High Grade Complete Set Of Utensils On Easy Terms

A VERY COMPLETE set of kitchen utensils in daily use is embodied in this big 29-piece aluminum ware outfit. It is a set that we can recommend with absolute confidence that it will please you in appearance and satisfy you in the excellent service it will render. It is made of a heavy grade of pure sheet aluminum in attractive designs and beautifully finished. Aluminum ware is sanitary and is to be preferred to any other ware for cooking purposes. It will not crack, craze or peel. There is no possibility of particles of metal becoming detached and mixing with your food. Aluminum will not rust and will withstand the action of acids more than any other metal from which cooking utensils are manufactured. It is light in weight, easy to handle, easy to keep clean and always presents a neat and inviting appearance. Aluminum kitchen utensils are the most economical to buy and the most satisfactory to use. Every housewife will be delighted to have this fine 29-piece aluminum outfit in her kitchen, and it is sold on our absolute guarantee of being exactly as represented in every respect or you are under no obligation to keep it. Include one of these handsome and useful outfits in your order. You are sure to receive excellent value. For further details, see opposite paragraph.

SPLENDID "LONGWARE" ALUMINUM 42-PIECE SET

\$12⁹⁵

\$12⁹⁵

A 42-PIECE SET

of genuine "Longware" aluminum ware, comprising practically every utensil of daily need in the kitchen.

Aluminum ware possesses many advantages over tin, galvanized or enameled ware. It is light and easy to handle. It never rusts. It will not chip, crack or craze. There is no possibility of particles of metal becoming detached and mixed with food. Aluminum is sanitary, easily kept clean and bright, and always looks neat, clean and inviting. It is the ideal ware for cooking purposes and much to be preferred to utensils made of other metals. The low price at which we offer this big 42-piece set brings the cost of each individual piece down to only a few cents. You really can not afford to be without this fine set when you can procure it at our low price and on our liberal credit terms, which enable you to have the set in your home enjoying its use while paying for it in small, conveniently arranged payments. Carefully read the following paragraph describing the articles comprising this set, and you are sure to be impressed with the practical usefulness of every piece included in the set.

THIS SET COMPRISES:

THIS SET COMPRISES: A 9-piece combination double roaster, with two outer shells, inside pudding pan, 5 custard cups and perforated cup-holding pan. The two outer shells make an excellent roaster. By using the perforated inset and small pudding pan it becomes a combination cooker and steamer. The three pans may also be used separately for cooking over the open fire or for baking purposes. There is also a Colonial style, panel effect, 7-cup coffee percolator with inset (2 pieces); 6-quart preserving kettle; 2 bread pans; 2 pie plates, 1-qt. and 2-qt. typed sauce pans with handles; 1 hot and 2 jelly cake pans, with loose bottoms (4 pieces); 1 butter and 2 jelly cake perforator shakers, tooth pick holder and frame (4 pieces); 1 measuring cup; 1 combination funnel, fruit jar filler, sieve and colander, (6 pieces); 3 measuring spoons conveniently arranged on a ring; 1 strainer; 1 sugar shaker; 1 cookie or biscuit cutter; 1 cake turner and a handy lemon juice extractor. Every piece is a necessity in the kitchen and the entire set forms an ideal selection of useful utensils in everyday demand.

30 DAYS' TRIAL.

30 DAYS' TRIAL. So confident are we that this big 42-piece set of genuine "Longware" aluminum will please and satisfy you in every way, that we are willing to send it to you on 30 days' trial in your own home. Order it sent to you on this plan; examine it thoroughly and at your leisure; note the practical usefulness of every piece in the set, and then if you are not entirely satisfied, if you do not consider it excellent value, you may return it to us at our expense of freight charges and we will promptly refund to you any money you may have paid on it or in freight charges. You need not ask what a favor we could not afford to make such an offer on any merchandise that would not measure up in every respect to our representations. We know that you will be delighted with this set and will consider it excellent value when you have seen the quality of the ware and the great variety of usefulness to which the various articles comprising the set may be put. The style of the different pieces also has received careful consideration, and the result is attractive appearance combined with good wearing quality.

WHEN YOU BUY

WHEN YOU BUY

any merchandise from Hartman's, you deal with a national institution whose success has been based on honesty, protection and integrity. Honesty in furnishing goods of quality and grade that measures up in every respect to our representations. Protection to our customers in permitting them to order on 30 days' approval any article listed in our catalog, with the privilege of thorough examination and test before the sale can be considered closed. Integrity in keeping our word and fulfilling our every promise to the letter, so that each and every customer will have implicit faith in our house. These are some of the reasons why you should buy from Hartman's, where you are assured fair treatment, honest values and the most liberal credit terms. All this applies to the big 42-piece set of aluminum ware shown above. It will be found to be all that we claim for it and excellent value. The entire set is securely packed in a specially constructed carton and shipped promptly from our Chicago warehouse. Shipping weight of complete 42-piece set is approximately 10 pounds.

Double Strength "Glasbake" 14-Piece Baking Set

\$8⁴⁸

**Guaranteed
Not To
Craze Or
Crack When
In The Oven**

"GLASBAKE" ware is double strength with a smooth polished surface that does not craze or crack at any heat in the oven. It bakes food rapidly and thoroughly with a uniform crust and has many advantages over metal dishes for baking. Being transparent, you can observe the bottom as well as the sides and top of the food while cooking. It is very sanitary and can be removed from the oven and served on the dining table, thus keeping the food hot and retaining its substance and flavor. "Glasbake" is easily cleaned, nothing sticks to the highly polished surface. It is neat in appearance, clean and clear, with a canary tint of transparency. These "Glasbake" pieces are guaranteed not to break from heat while in oven. Your baking problems will be satisfactorily solved if you use "Glasbake" ware in your kitchen. Order a set on our easy terms and pay for it while you enjoy the use of the various pieces.

19 Piece PYREX Baking Set \$12⁵⁵

Sanitary
And

**Contains
Every Dish
You Can Possi-
bly Need**

Very
Attractive

**Quicker
Baking —
Takes The
Heat Readily**

**Guaranteed For Life Against
Cracking Or Breaking In Oven**

WITH THIS SET your baking problems will be readily solved. Any-
thing that can be baked in the old fashioned
baking tins can be baked in Pyrex glassware, with much more success-
ful results, for Pyrex facilitates easy handling with the added ad-
vantage of your being able, when baking, to easily see the bottom and
sides of the food being prepared and thus avoiding chances of burn-
ing or over-baking. This complete set contains practically every
baking dish you can possibly need. PYREX ware is known all over
the world as being the best, the most attractive and the most sanitary
baking ware made. Try a set of it in your home. Bake in it any
and every food you desire. You are sure to find it entirely to your
satisfaction, and we predict that your family will comment favorably
on the savor of the food prepared in Pyrex dishes. Bring the food
right to the table in your Pyrex dishes. At our low price and on our
easy terms every housewife should consider it a duty to order a set at
once and see for herself how very much more gratifying will be the
results of her baking.

YOU MUST SEE these wonderful, transparent dishes to understand
how superior they are—even to baking dishes sold
at several times our price on Pyrex. They are so clear—so crystalline
that you see not only the top, but the sides and bottom of the food
when cooking. You can take the dish directly from oven to table. So,
really Pyrex ware does double duty—for baking or roasting and for
serving. Guaranteed by both the makers and by us not to break in
any oven heat. In Pyrex dishes you can bake meat pies, macaroni,
pudding, baked beans, escalloped oysters, shirred eggs, bread, pies,
cakes, custards, etc.—perfectly. Compare the results you get from
Pyrex dishes with those you have obtained before. The comparison
will be complimentary to Pyrex ware. All the flavor is retained—food
is prepared with far more delicious flavor than is possible with ordi-
nary baking dishes. The 19-piece set contains the following pieces:
2 qt. oval casserole with cover (2 pieces); 1½ qt. round casserole with
cover (2 pieces); 6-4 oz. custard cups (6 pieces); 1½ inch pie plate,
1 9/16 inch pie plate; 3 oblong bread pans (3 pieces); 3 cake
dishes (3 pieces); 1 utility or loaf cake pan; total, 19
pieces. Shipped from Chicago. Shipping weight,
about 37 lbs.

Order One Of These Trunks On Our
Liberal Credit Terms

JUST AS a man is judged by the clothes he wears so is a traveler judged by the trunk he owns. Money saved by purchasing a cheap trunk is not really saved, for a trunk is an article that must withstand hard usage, and it is certain that a cheap trunk will not last under the strain. Therefore, it is well to buy a good trunk for it will be decidedly cheaper in the end. Look over the trunks listed on this and the opposite page and order the one you desire. You are sure to be well satisfied with it.

METAL COVERED SLATLESS TRUNK

WELL SEASONED lumber is used in the construction of this trunk. It is covered with a heavy Russian sheet iron, finished in an attractive color. LIFT TOP VULCANIZED FIBRE WARDROBE TRUNK

THIS IS a high grade trunk, designed for long service and hard usage. The materials used in its construction are of the best, an indication of its ability to stand the jars and hard knocks to which a trunk might be subjected to. Numerous improved conveniences are incorporated in this trunk. The lift lid enables one easily to remove apparel from the hangers. It has a clothes compressor too, which is an improvement of note. This compressor presses against the clothes after one has them packed and serves to keep them in good order. Handy convertible drawers for the storage of hats. Has shoe pockets and laundry bag. Ship. wt. about 75 pounds. **\$59.95**

USE YOUR TRUNK AT HOME.

A trunk is not only to be used on a trip, as some people are prone to believe. In a small apartment or wherever closets or storing quarters are limited a roomy trunk is an ideal place in which to keep one's wardrobe. As an instance—a wardrobe trunk, with its large compartments and roomy drawers, its convenient hangers, its dustproof construction will be found to be just the thing in which one can keep apparel in a first class condition.

A FIVE-PLY VENEER TRUNK

Sea-Going Trunk

WELL MADE of three-ply veneer selected basswood, covered with a heavy vulcanized fibre and interlined on the inside with the same strong material, making a five-ply construction which will withstand hard usage. It is light enough in weight to eliminate any possibility of excess baggage charges. This trunk is bound on all edges with heavy vulcanized fibre and all corners are protected by heavy brass plated steel bumpers, which are firmly riveted into place. Fitted with a strong spring lock and draw bolts. The interior is handsomely lined and is equipped with one roomy tray. Comes in your choice of three sizes. Be sure to give correct catalog number. Shipping weight about 80 lbs. **\$27.65**

HOW TO MEASURE YOUR FINGER FOR A RING

Please bear in mind that when you order a finger ring from us that it is essential for you to mention correct size. To assist you to determine the correct measurement, we ask you to please read the following:

Take a ring which exactly fits the finger on which you expect to wear the new ring, place it on the chart to the left, move it over these circles until you find one that just fits inside the ring. The number on that circle is the exact size ring that you will require. If one circle is slightly smaller and the next one slightly larger than the inside of ring which fits your finger, you will require one between the two. For instance, if size 5 is a little too small and size 6 is just a bit too large, you will require size 5½.

If no ring is available for you to use to measure by, take a soft piece of copper wire or a hairpin, then twist it together to form a ring which will just pass over the middle joint of the ring finger. You can then determine the size by moving this wire ring on the chart, as explained above; or if you prefer, send us this wire ring (wrapped in paper) with your order.

WELL KNOWN MOVEMENTS

Elgin and Illinois movements are known the world over as being two of the best movements that expert watch makers can produce. Every part that goes into their making—every jewel, wheel and spring—is of such quality as to give assurance of your getting the full measure of satisfaction you have a right to expect from the grade you select. No matter what grade of movement you may order, whether it has seven jewels or nineteen jewels, the high standard of quality that makes these movements justly famous, is readily apparent. You can choose any movement in whatever case you desire as quoted.

YOU DON'T necessarily have to see a watch when you buy it. Every illustration shown in our catalog accurately portrays each detail of the merchandise. Our watches are an example. The size, shape and in some instances the construction is shown in the illustrations. The information regarding the quality of the case and the jewels in the movement is placed beneath each illustration. Any disadvantage that might remain in not actually having the watch in your hand is offset by Hartman's guarantee of perfect satisfaction or your money back. The maker too, of each case and movement stands back of his product to the fullest extent. A definite assurance that you cannot go wrong in ordering your watch from us.

ALL WATCHES ON THIS PAGE ARE 16 SIZE AND WILL PASS RAILROAD INSPECTION

We can furnish any of the high grade 19 jewel, 21 Jewel and 23 jewel movements described on this page in either a solid nickel, 20 year guaranteed gold filled, plain polish case or a 20 year guaranteed gold filled, engine turned case at the prices quoted below the description of each movement. The cases all have the dust proof pendant—a feature that has proven very practical for a railroad grade watch. Either the plain or Montgomery dial will be furnished as you may desire. The movements described on this page embody the very highest form of watch construction—a construction that is probably more intricate than that in a cheaper, less accurate movement. We have chosen this style of case to afford the movement all the protection that is required for its continued good service. Your monogram will be engraved free on the 20 year plain polished case only. The two styles of dials are pictured directly below. State when ordering which style you desire.

26-PIECE "PATRICIAN" SILVER SET

A HANDSOME SET as shown in the illustration above. The
great popularity of this fine table silver service
is proven by the great number that we have sold during the past
year. And it is not surprising when you stop to consider the mag-
nificent appearance, refined contour and elegant style of this design.
Add to these points of advantage the fact that this silverware is
made by the renowned Oneida silversmiths and bear their unlimited
guarantee of continuous service for 50 years, and you will understand
why this set has met with such phenomenal success. Comes packed
in rich oak finish, hardwood chest and drawer. Set contains 6 solid
handle table knives, 6 solid handle table forks, 6 table
spoons, 6 teaspoons, 1 butter knife and 1 sugar shell.

CLOCKS AND VALET AUTO STROP RAZOR SETS

Excellent Alarm Clock

Made Of Brass
Nickel
Plated

\$4.45
Each

Stands
7 in.
High
5 1/2 in. Wide

TRUSTWORTHINESS is a requisite in an alarm clock. It is of no use if you cannot depend upon it to alarm at the time set. With this clock you can be sure of a loud alarm at just the time the regulator indicates. Strongly made of seamless drawn brass. Has heavily nickel plated and polished case. Fitted with dependable thirty-hour intermittent and long alarm movement. Height, 7 inches; width, 5 1/2 inches. Dial is 5 inches in diameter. Include this clock in your order. Shipping weight, about 3 lbs.

No. 297R26. Price..... **\$4.45**

ALARM CLOCKS. We recommend these clocks to be accurate time-keepers. The three movements quoted, give you the choice of a radiolite dial, an automatic alarm or a straight alarm. Cases finely nickel plated. Movements are of high grade American make.

VALET AUTO STROP razor is the only razor in the world that sharpens its own blades itself. The razor and the stropping machine are combined into one; nothing to be removed or taken apart when sharpening blades. Easily adjusted for light, medium or close shave.

ORDER ONE OF THESE 8-DAY MANTEL CLOCKS

Attractive 8-day mantel clocks at low prices. The movements are American made and strikes the hours and half hours. The richly finished cases show high grade workmanship throughout. Remember we guarantee our clocks to give perfect satisfaction, and you can be sure that whichever clock you select it will be a good, reliable timekeeper.

HANDSOME CLOCK

**Fine Bronze Finish
Columns and Trimmings**

THIS CLOCK is one of the new 8-day models. The case is finished in polished black enamel, which makes a beautiful contrasting color as a background for the rich ornaments, consisting of green marbled mouldings, bronze finish columns and upper trimmings. It has gilt metal caps and bases. The size of this clock is 18 inches long by 11 inches high. It has a dial 5 inches in diameter. If your home has not a reliable and attractive mantel clock you should study carefully those illustrated on this page.

No. 298B21. Price.... **\$10.95**

8-DAY MOVEMENT

**It Is 18 Inches Wide
And 11 Inches High**

FITTED with a good eight-day movement and strikes the hours and half hours on a rich tone cathedral gong. A clock is an absolute necessity and all well regulated homes cannot afford to be without a reliable timepiece. Here is a splendid clock both in appearance and as a timekeeper. It is just the kind of a clock that you can place on a shelf and pay no more attention to it, except for its weekly windings. Order it on approval and if it does not please you send it back at our expense. Shipping weight, about 18 pounds.

No. 307C54. Crown quality, silver plated knife and fork set, comprising six solid handle knives and six solid handled forks. A most exceptional value at our price. Just as shown in the picture.
Price, per Set..... **\$3.95**

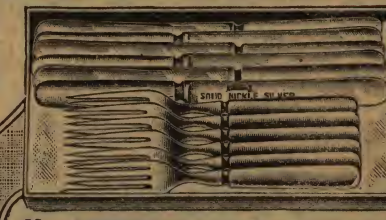

No. 307C56. A stunning, serviceable 3-piece carving set, recommended to those who want "something better". Is made in an expert manner of the highest grade steel. The stag handle is found on the carving knife, fork and steel, to match and each handle is set off with sterling silver ferrule. This set is sold complete in handsome moire silk presentation box. Will make an ideal gift to someone whom you wish to favor with a worth-while, practical present.
Price, per Set..... **\$7.45**

No. 307C53. Famous 1847 Rogers Brothers 16 Dwt. silver plated knife and fork set. Comprises twelve pieces—6 knives and 6 forks, as shown in the illustration above. Service is a feature of this splendid set. Buy it and you will not be disappointed.
Price, per Set..... **\$9.00**

No. 307C52. High grade knife and fork set, comprising 6 knives and 6 forks. Is known as the Jumbo style. The knives are 12 Dwt. silver plated; forks are solid nickel silver. Don't be misled by the low price, as this is a remarkable value.
Price, per Set..... **\$7.50**

No. 307C55. A splendid nickel silver knife and fork set, consisting of six knives and six forks. The knives have the swage blade, and this set bears the "Universal" brand.
Price, per Set..... **\$5.85**

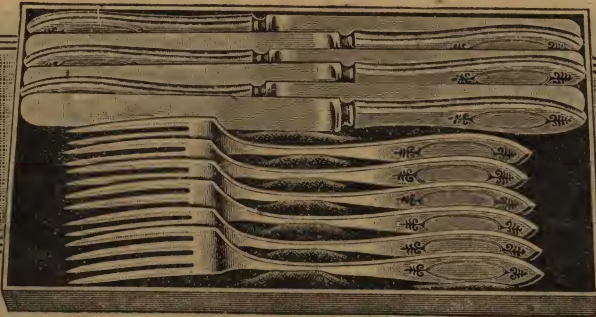

No. 307C57. This handsome carving set combines "class", appearance and service, all in one at a price that is extremely reasonable. The stunning stag handle is used on the knife, fork and steel, to match as illustrated. The knife blade is 3 inches long, with the other pieces in correct proportion. Although the illustration was made from the set, you must see the goods to fully appreciate its worth. This set is offered at a real bargain price. Include it in your order.
Price, per Set..... **\$5.95**

3-Piece Carving Sets

No. 307C58. The low price of this splendid carving set recommends it to those who want a good set for little money. All three pieces have silver plated handles; the knife blade measures 8 inches long, the entire length of knife being 12 1/2 inches; the other pieces are in proportion. Although this set is not recommended as highly as the other sets shown on this page, we state with emphasis that it is a wonderful value for the money. Use your credit.
Price, per Set.... **\$3.45**

THE "IRVING" PATTERN

French Gray Finish

THIS 26-PIECE SET shown directly above is made by Wm. A. Rogers, whose reputation for high grade silverware is too well known to require any comment. This set is executed in the very beautiful "Irving" pattern, which comes in the lovely French gray finish. Provides a service for six persons and consists of 6 table knives, 6 table forks, 6 teaspoons, 6 tablespoons, 1 butter knife and 1 sugar spoon, complete with a serviceable saten-lined, hinged cover leatherette chest, measuring 10x15x2 inches in size. Is a very unusual value at our low price. Shipping weight, about 8 pounds.

No. 307C15.

Price, complete.....

"BELVEDERE" PATTERN

Bright Polished Finish

FINE 26-PIECE SET. Just as illustrated in the picture above. This cut will give you a very fair idea of this stunning set, and the large illustration of the teaspoon will convey its beauty of pattern, but to really judge of the handsome appearance of the "Belvedere" design you must see the ware itself. This set provides a service for six persons and embraces 6 table knives, 6 table forks, 6 teaspoons, 6 tablespoons, 1 butter knife and 1 sugar spoon, and includes a saten-lined leatherette chest with hinged cover. This chest measures 10x15x2 inches. Shipping weight, about 8 pounds.

THE "RALEIGH" PATTERN

Triple Plated Tableware

A 26-PIECE SET comprising 6 table knives, 6 table forks, 6 teaspoons, 6 tablespoons, 1 butter knife and 1 sugar spoon, and an oak finish hardwood chest, lined with sateen. This chest measures 10x9x4½ inches and is made with drawer. Comes in the pleasing "Raleigh" pattern. Made by Wm. A. Rogers and is guaranteed for 25 years. Is a sectional triple plated table ware, richly embossed and comes in the elegant French Gray Finish. Scientifically made so that the points of most wear are covered with an extra overlay of pure silver, which enables the manufacturer to give this 25-year guarantee. Shipping weight, about 8 pounds.

STRADIVARIUS MODEL VIOLIN

Maple Neck And Scroll To Match. Purling Inlaid Around Edges
Ebonized Finger Board, Tail Piece And Pegs. Polished Finish

\$23⁵⁰

A GREAT VALUE. Here is one of the best values that we have ever offered in a Stradivarius model violin. Its sweet, inspiring tones will thrill the true lover of the string instrument. It has a seasoned, flamed maple back and sides. The top is selected quarter-sawn spruce. Possesses maple neck and scroll to match. Purling inlaid around edges. Ebonized finger board, tail piece and pegs. The finish is wine color, shaded on an amber base.

ORDER IT if you want to take no chances in the purchase of a violin. With it is furnished a rounded bow of close-grained hardwood, finished in a rich wine color, with ebony frog, chin rest, rosin, set of strings and instruction book, all complete in a special side opening case, as illustrated. Will make a marvelous gift to the critical violin player. Ship. wt., about 5 lbs.

OUR FAMOUS PRES-CUT GLASSWARE SETS ON CREDIT

20-PIECE "STAR AND MITRE" PATTERN

THE SET illustrated above will prove a welcome addition to the appearance of your dining table. The style is very pleasing, the "Star and Mitre" pattern being a conventional design symmetrically executed, all pieces being made to correspond perfectly. This set is a typical Hartman bargain offering. The assortment consists of the following pieces: 1 7-piece berry set comprising 1 10-inch flared berry bowl and 6 4½-inch flared berry dishes; 1 7-piece water set consisting of 1 ½-gallon jug and 6 table tumblers; 1 6-piece table set consisting of 1 butter dish and cover (2 pieces), 1 sugar bowl and cover (2 pieces), 1 cream pitcher and 1 spoon holder. We know that you will be well pleased with this neat set. Shipped promptly from Chicago warehouse. Shipping weight, approximately 30 pounds.

No. 342R1. Price of Complete Set..... **\$3.98**

24-PIECE "FLORAL" PRES-CUT GLASS SET

WE RECOMMEND the purchase of the above set if you desire an attractively designed serviceable Pres-Cut glassware combination at a low figure. This set comprises twenty-four pieces designed in a very handsome floral pattern as shown in the illustration. We feel sure that you will be well pleased with your purchase. It comprises twenty-four useful pieces as listed below: 1 10-inch flared berry bowl; 6 4½-inch flared berry dishes; 1 ½-gallon tankard jug; 6 table tumblers; 1 butter dish and cover (2 pieces); 1 sugar bowl and cover (2 pieces); 1 cream pitcher; 1 spoon holder; 1 5-inch handled olive dish; 1 pickle dish; 1 6-inch 3-footed bon bon dish and 1 footed, crimped edge fruit bowl. Shipped promptly from Chicago warehouse. Shipping weight, about 35 pounds.

40 PIECES RICHLY DESIGNED PRES-CUT GLASSWARE

40-PIECE GLASSWARE OUTFIT IN THE ATTRACTIVE "MARTHA WASHINGTON" PATTERN

THIS PATTERN is a remarkably attractive one, reflecting the Colonial idea in design and aptly named the "Martha Washington" pattern. This design is not overly elaborate but refined in style, having a neatly fluted effect worked out on all of the pieces and set off at the top with a decorative band. This type of Pres-Cut glassware is very popular among discriminating buyers and is offered at a bargain price. In addition to the attractive style of this set, we recommend it for its service-giving qualities. These pieces are not "flimsy" in any sense of the word, but will stand up under ordinary family use. We were fortunate in getting this set at an extremely low price and we, in turn are giving you the benefit of this saving. Include this set in your order, we know that you will be pleased with it. See page 1 for terms.

SET COMPRISES: 1 butter dish and cover (2 pieces), 1 sugar bowl and cover (2 pieces), 1 cream pitcher, 1 spoon holder, 1 ½-gal. jug, 6 table tumblers, 6 custard cups, 1 10-in. flared berry bowl, 6 4½-in. flared berry dishes, 1 7½-in. footed salad bowl, 6 4½-in. footed salad dishes, 1 pickle dish, 2 fancy vases, 1 tall footed jelly bowl, 1 5-in. three-footed bon bon dish, 1 6-in. nut bowl, 1 5-in. handled olive dish. Let us send you this big bargain—we know that you will be pleased with it. Order it upon approval and if it does not please you, send it back at our expense and we will refund your money including freight charges. See page one for credit terms. Shipped from Chicago. Shipping weight of complete set of 40 pieces, carefully packed, is approximately 45 pounds.

SPECIAL VALUES IN PRES-CUT GLASSWARE SETS

20-PIECE "MARTEC" PRES-CUT GLASS SET

THIS SET is an example of how we supply our customers with very unusual values. It's a value you won't find offered by any other concern at the low price we quote. We were very fortunate in getting this set at a wonderfully low price and therefore you, also, gain by our saving in the way of lower price. This "Martec," 20-piece Pres-cut glassware set is beautifully designed in a real cut glass pattern, made of highly burnished clear glass and consists of the following pieces: 1 butter dish and cover (2 pieces); 1 sugar bowl and cover (2 pieces); 1 cream pitcher; 1 spoon holder; 1 8-inch berry bowl; 6 4 1/4-inch berry dishes; 1 1/2-gallon pitcher and 6 tumblers. Include one of these glass sets in your order. Shipped promptly from our Chicago warehouse. Shipping weight, about 38 pounds.

No. 342C11. Price of Complete Set..... **\$6.68**

26-PIECE "SUNBURST" PRES-CUT GLASS SET

ATTRACTIVE 26-piece Pres-cut glassware set at a very low price and listed below on liberal credit terms. The set consists of pieces as listed below and shown in the illustration: 1 butter dish and cover (2 pieces); 1 sugar bowl and cover (2 pieces); 1 creamer; 1 spoon holder; 1 celery tray; 1 1/2-gallon pitcher; 6 tumblers; 1 8-inch berry bowl; 6 4 1/4-inch berry dishes; 1 salt shaker, glass top; 1 pepper shaker, glass top; 1 oil, or vinegar cruet, with glass stopper; 1 8-inch footed bowl, crimped. This glass ware is perfectly finished and burnished, and it comes in the ever-popular "Sunburst" pattern. To really appreciate the beauty of this glassware is to see it in your own home. Order it on approval. See page one for credit terms. Shipped promptly from Chicago. Shipping weight, about 45 lbs.

HERE'S ANOTHER EXAMPLE of Hartman's great buying power, which brings luxury within easy reach of the most moderate income. Our moderate prices and liberal credit terms make it possible for every home to enjoy the pleasure of having this handsome genuine cut glass set. The floral cut is very beautiful appearing on the highly polished blanks. The shape of the various pieces comprising the set, the artistic design and the exquisite cut, all combine to make this a most desirable set. We know it will greatly appeal to every housewife, who appreciates the beauty of rich cut glass. Every piece in the set is useful and beautiful in appearance. A set of cut glass such as we are offering here, is really a remarkable bargain at such a low price. There is not a piece included in this set that cannot be put to any number of uses in the course of serving any meal, during each day. You cannot really estimate the great worth of a set of cut glass like this one, until you actually have it at home to use. You may order it sent to you on our thirty-day approval plan and then you can note its charm and beauty in your own dining room, before completing the easy payments as shown in our liberal credit terms. Here is your opportunity to purchase a handsome set of genuine cut glass at a low price and on easy credit.

THIS COMPLETE SET is composed of 32 handy articles of glass-ware, comprising; one large capacity new model pitcher, 9 inches high, 5 $\frac{3}{4}$ inches in diameter; one double handle unique design sugar bowl, 2 $\frac{3}{4}$ inches high, 5 $\frac{1}{4}$ inches wide, including handles; one exquisitely dainty cream pitcher, 2 $\frac{7}{8}$ inches tall, 4 inches wide, with handle; one berry or fruit bowl, 2 $\frac{3}{4}$ inches high, 9 $\frac{1}{2}$ inches in diameter; one flower vase, 8 inches tall, 3 inches in diameter; one large cake plate, 10 inches in diameter; one extra long stem compote, 5 $\frac{1}{4}$ inches high, 5 $\frac{1}{4}$ inches wide; one pickle or olive dish, 8 $\frac{3}{4}$ inches long, 3 $\frac{3}{4}$ inches wide; six flare-shape tumblers, 5 inches high, capacity, 8 oz.; six grape juice tumblers, 3 $\frac{3}{4}$ inches high, capacity, 5 ounces; six berry dishes, 1 $\frac{1}{4}$ inches high, 4 $\frac{3}{4}$ inches wide; six low footed sherbets, 3 $\frac{3}{4}$ inches high, 3 inches in diameter. You can easily see what a great convenience a set of this cut glass tableware will be. How many times have you said to yourself, when setting your table, "that you wished you had this kind of a glass or that kind of a sherbet glass for serving different articles." Now, here is your chance to get just those pieces and have them on hand all ready to use the next time the occasion arises. Every piece has been carefully selected for its beauty and usefulness and the entire set presents an elegant appearance.

INCLUDE IT in your order, along with the other articles which you desire from the bargains shown in this book, and have it sent to you on approval. You can try it out as your own for 30 days and if after you have given it the trial, you don't wish to keep it—you can send it back to us at our expense and you won't be out a single penny by the transaction. But we are positive that after you have seen this set and used it—that you would not part with it at any price, if you could not replace it with another set. Cut glass will give to your dining room an air of distinction and dignity. You must see this attractive set to appreciate its great beauty. Remember, that the great House of Hartman's with its legal guarantee, is back of this great bargain and that, alone, is an assurance to you that this cut glass set is all we claim and that's why we urge you to include it in your order. Shipped promptly from our Chicago warehouse. Shipping weight, about 35 pounds.

THE CABINET is of quarter-sawn oak veneer with the exception of the back, which is solid oak. Comes in a rich golden finish. The door, top and side panels are of richly grained stock. Has a handy pocket on inside of door for keeping accessories, attachments, etc. On front of the table top is an 18-inch tape measure. Equipped with an automatic head lift, which automatically raises and lowers the head. Constructed of a heavy grade steel nickel-plated bicycle chain which runs over a pulley wheel and is adjustable so that sewing head can be kept even with the table. Both the rotary head and vibrating head are finished with baked-on black enamel, neatly decorated with decalomania transfers. Exposed parts are heavily nickel-plated.

This View Shows "National-Columbian" Machine Closed.

Shipped From Factory
In Northern Illinois

THE ROTARY HEAD works on the principle of a revolving shaft carrier and shuttle lever used on vibrating heads. The automatic tension gives you a perfect stitch and need not be adjusted for different grades of goods. The length of stitch is adjusted by a little lever. It makes a double-lock stitch finished alike on both sides of goods. The automatic bobbin winder stops winding when bobbin is filled with thread and has two spool pins which permits the machine to go on sewing while bobbin is being wound. Has steel capped needle bar and presser bar. The automatic stitch regulator allows a wide range of stitches. This fine cabinet machine is built to give satisfactory service and is a special value at the prices quoted.

BALL-BEARING. The National Columbian cabinet machine is of the full ball-bearing type, which means that the fly-wheel operates on steel encased ball-bearing and that the polished steel pitman has ball-bearing connections at each end. The fly-wheel is equipped with a substantial cast-iron dress guard finished in black baked-on enamel. The treadle is of a convenient shape and restful to the feet. It is smooth running and silent in operation, whether it is ordered with the rotary head or with the side tension vibrating head. There is plenty of room for the handling of bulky materials being sewed, because the space underneath the arm is 5½x8 inches.

AMPLE KNEE ROOM is supplied by the modern inner arrangement of cabinet. Has automatic belt release, which throws the belt off the fly-wheel when the head is lowered and replaces it upon the fly-wheel when the head is raised. Included is a set of nickelled steel attachments in a metal box consisting of: Tucker, Ruffler, Braider, Binder, 4 Hemmers of different widths, Shirring Slide, Feller, Quilter, and Cloth Guide, accompanied by a complete set of accessories including 4 bobbins, 6 needles, large and small screw driver, oil can and direction book. Shipping weight, about 135 lbs.

THE SIDE TENSION HEAD is of the vibrating type. Makes a double-lock stitch, top and bottom being alike. It has the latest improved type of disc style tension which is easily adjusted. The automatic tension release allows you to draw materials from under the presser foot without breaking the threads or damaging the needle. It has a high arm which reduces vibration to a minimum. It has an automatic bobbin winder, self-threading shuttle and self-setting needle. The take-up is positive and has no springs to get out of order. Needle bar and presser bar are capped. Stitch regulator is operated by a thumb screw which slides in the side of the arm. Working parts are made of carefully hardened, high-quality steel. Read the description over carefully.

THE ROTARY HEAD

is smooth running, silent and speedy of operation. It works on the principle of a revolving shaft taking the place of a long shuttle, shuttle carrier and shuttle lever used on vibrating heads. It has an automatic tension which gives you a perfect stitch and need not be adjusted for different grades of goods. Length of stitch is adjustable by use of a little lever. It makes a double-lock stitch finished alike on both sides of goods. It has a working space below arm $5\frac{1}{2} \times 8$ inches. The automatic bobbin winder stops winding when the bobbin is filled with thread and has two spool pins which permits the operator to go on sewing while bobbin is being wound. Has steel capped needle bar and presser bar. The automatic stitch regulator allows a wide range of stitches. It is finished in black baked-on enamel and neatly decorated with decalomania transfers. The exposed parts are heavily nickel-plated.

THIS MACHINE is made in a factory where quality and durability are the first considerations in constructing sewing machines. It is the result of careful thinking, planning and experimenting on the part of the factory designers and is a sewing machine that will give unlimited service and genuine satisfaction. In other paragraphs on this page we display many other features, and we ask that you read these carefully for a more thorough understanding of the many advantages possessed by this National Columbian "R" Sewing Machine. It is capable of doing all sewing in an efficient manner and can be ordered equipped with our National Columbian rotary head or our National Columbian side tension vibrating head at the prices quoted below.

THE ATTACHMENTS included with the National Columbian "R" Sewing Machine are made of nickel-plated steel and come in a metal box. The set consists of: Tucker, Ruffler, Braider, Binder, 4 Hemmers of different widths, Shirring Slide, Feller and Quilter, Cloth Guide, accompanied by a complete set of accessories including 4 bobbins, 6 needles, large and small screw driver, oil can and illustrated book of directions. An added feature to this National Columbian "R" machine is the automatic belt retainer which always keeps the belt in position when the head is lowered or when the head is raised. There is plenty of knee room when head is lifted in sewing position.

Guaranteed For 10 Years

Shipped From Factory In Northern Illinois.

National - Columbian Model "R"

THE CABINET is very rich in appearance, made of quarter-sawn oak veneer throughout, excepting the back which is made of solid oak. Comes in a hand-rubbed golden oak finish. It is of the drop apron front type and fitted with National Columbian automatic lift, which raises and lowers the head and apron automatically when the lid is lifted or closed down. There are six drawers as illustrated, each drawer being equipped with cupped-out pulls of neat over-laid design. Drawers are arranged with locks and a key is supplied. By noticing the large picture above you will see how richly corners of this cabinet are curved and how ornamental are the panels bordering front apron. An 18-inch tape measure is transferred on front of table.

THE STAND of the National Columbian "R" machine is full ball-bearing, the fly-wheel operates on steel encased ball-bearings and the steel pitman has ball-bearing connections at each end. The fly-wheel is equipped with a strong, cast-iron dress guard finished in black baked-on enamel. The treadle is of large size, convenient shape and enables the operator to run the machine at great rate of speed. The balance of stand is finished with black baked-on enamel and is made in a very ornamental design. When sending us your order for this machine please be sure to specify which head you desire and give the correct number as shown below. We consider this machine one of our best values.

SIDE TENSION HEAD is of the vibrating type and equipped with many modern improvements. Makes a double-lock stitch, top and bottom being alike. It is of the latest improved type of disc style tension which is easily adjusted. The automatic tension release allows you to draw materials from under the presser foot without breaking the threads or damaging the needle. It has a high arm which reduces vibration to a minimum and also gives a working space of $5\frac{1}{2} \times 9$ inches, thereby permitting the easy handling of bulky goods. It has an automatic bobbin winder, self-threading shuttle and self-setting needle. The take-up is positive and has no springs to get out-of-order. Needle bar and presser bar are capped. Stitch regulator is operated by a thumb screw which slides in the side of the arm. It is finished with baked-on black enamel neatly decorated with decalomania transfers. Working parts are made of carefully hardened high quality steel. Exposed parts are heavily nickel-plated.

National Columbian Model "G"

FREE Complete Set Of Nickel Plated Attachments And Accessories

THE ROTARY HEAD is smooth running, silent and speedy of operation. It works on the principle of a revolving shaft taking the place of a long shuttle, shuttle carrier, and shuttle lever used on vibrating heads. It has an automatic tension which gives you a perfect stitch and need not be adjusted for different grades of goods. The length of stitch is adjusted by a little lever. It makes a double-lock stitch finished alike on both sides of goods. It has a working space below arm $5\frac{1}{2} \times 3$ inches. The automatic bobbin winder stops winding when the bobbin is filled with thread and has two spool pins which permits the machine to go on sewing while bobbin is being wound. Has steel capped needle bar and presser bar. The automatic stitch regulator allows a wide range of stitches.

THE STAND is made entirely of metal and strongly reinforced. It has graceful curved legs, large comfortable treadle and artistic braces, which are simple and neat in design, well finished and easy to keep clean. It is a full ball bearing stand, the fly-wheel running on ball bearings and connected to the treadle by a pitman arm which is ball bearing at both ends. A feature is found in the dress guard which surrounds lower half of fly-wheel and is a preventative against accidents caused by the operator's skirt getting caught in the fly-wheel. The stand is finished in black baked-on enamel. There is plenty of knee-room and you will find the model "G" a very easy machine to operate. Bulky materials can easily be handled on the sewing table, because of the space under the arm of $5\frac{1}{2} \times 3$ inches.

THE SIDE TENSION HEAD is of the vibrating type and equipped with many modern improvements. Makes a double-lock stitch, top and bottom being alike. It has the latest improved type of disc style tension which is easily adjusted. The automatic tension release allows you to draw materials from under the presser foot without breaking the threads or damaging the needle. It has a high arm which reduces vibration to the minimum and also gives a working space of $5\frac{1}{2} \times 3$ inches, thereby permitting the easy handling of bulky goods. It has an automatic bobbin winder, self-threading shuttle and self-setting needle. The take-up is positive and has no springs to get out of order. Needle bar and presser bar are capped. Stitch regulator is operated by a thumb screw which slides in the side of the arm.

OTHER DETAILS of the model "G" worth while mentioning are found in the automatic belt retainer which always keeps the belt in position when the head is lowered or when the head is raised; the ten-year guarantee and the full set of attachments which are included free in the machine. The attachments come in a metal box and include a Tucker, Ruffler, Braider, Binder, 4 Hemmers of different widths, Shirring Slide, Feller, Quilter and Cloth Guide. There also is a complete set of accessories including 4 bobbins, 6 needles, large and small screw drivers, oil can and illustrated book of directions. This is an exceptional bargain at our price, and is offered to you on our very liberal credit terms as shown on page one of this money saving catalog. Shipping weight, about 125 pounds.

MACHINE HAS an automatic lift, which is operated by a nicked chain and pulley and which automatically raises and lowers the sewing head and front apron when the lid is opened or closed. This is quite an improvement over the old type lifts and when the head is raised into the sewing position the chain is embedded into a slot provided for it, so that nothing appears above table, excepting the head of the machine. Both the rotary head and the vibrating head are finished with baked-on black enamel neatly decorated with decalcomania transfers. Exposed parts are heavily nickel plated, there is an 18-inch tape measure in decalcomania transfer on the front of table as indicated in small illustration below.

The Picture Below Shows The Model "G" With Side Tension Vibrating Head.

National Columbian Model "F"

FREE Complete Set Of Accessories And Nickel Plated Attachments.

THE STAND of our National Columbian Model "F" Sewing Machine is of the full ball bearing type. It has a large fly-wheel which revolves on steel encased ball bearing hub connections. There is a polished steel pitman rod with ball bearings at both ends which results in the machine being very easy to operate and at a great rate of speed. There is a cast iron dress guard in connection with the fly-wheel, a safety device worthy of great mention. Graceful curved leg stand is entirely made of metal, strongly braced and equipped with a large comfortable treadle. It is easily cleaned. Stand is finished with black baked-on enamel. There is ample knee room underneath, when the head is raised in sewing position because the head automatically raises front apron out of the way, as well as replacing it.

IT HAS an automatic lift of the very newest type, which operates with a nicked chain and pulley which raises and lowers the front apron and sewing head automatically when the lid is raised or lowered. This is quite an improvement over some of the old style lids. When the sewing head is raised the chain is embedded into a slot provided for it and nothing appears above the table top that has any connection with the head lifting device. It is adjustable, being regulated by a set screw which makes it possible for you to keep the base of the sewing machine head flush with the table top at all times. The sewing head of the model "F" is finished with baked-on black enamel neatly decorated with decalcomania transfers. Exposed parts are heavily nickel plated.

THE HEAD is of the side tension vibrating type and contains many modern improvements. It makes a double-lock stitch, top and bottom being alike. It is of the latest improved type of disc style tension which is easily adjusted. The automatic tension release allows you to draw materials from under the presser foot without breaking the threads or damaging the needle. It has a high arm which reduces vibration to a minimum and also gives a working space of 5½ inches, thereby permitting the easy handling of bulky goods. It has an automatic bobbin winder, self threading shuttle and self setting needle. The take-up is positive and has no springs to get out of order. Needle bar and presser bar are capped. Stitch regulator is operated by a thumb screw which slides in the side of the arm. Working parts are made of carefully hardened high quality steel.

YOU GET a set of attachments free with the model "F" which includes the Tucker, Ruffler, Braider, Binder, 4 Hemmers of different widths, Shirring Slide, Feller, Quilter and Cloth Guide. A complete set of accessories is also included which contains 4 bobbins, 6 needles, large and small screw drivers, oil can and illustrated book of directions. Attachments come in a metal box. We are positive you will find this model "F" machine a very capable one for doing all kinds of sewing in a very satisfactory manner. Like the more expensive National Columbian machines this model "F" also has the automatic belt retainer which always keeps the belt in position when head is lowered or when head is raised. Shipping weight, carefully packed, about 125 pounds.

National Columbian Model "D"

FREE Complete Set Of Accessories
And Nickel Plated Attachments

THE SEWING HEAD is of the top tension,
vibrating type and makes a
double-lock stitch that is even and perfect. It is well pro-
portioned, has a high arm with a space underneath of
5 1/4 x 7 1/4 inches which allows easy handling of bulky material.
Has an automatic bobbin winder, automatic bobbin winder
release, self setting needle and easily adjusted stitch regu-
lator. It has a self threading shuttle. Tension is easily
adjusted on the top, the pressure on the thread being
regulated by a thumb screw. Has a round presser bar,
capped and easily adjustable to different thicknesses of
materials. The feed is positive in action and is operated
by and controlled by the main shaft without the use of
springs. This head is of full size and has a self threading
vibrating shuttle, which is cylindrical in shape.

YOU GET FREE with the National Columbian
Model "D" Sewing Machine a set
of attachments which includes a Tucker, Ruffler, Braider,
Binder, 4 Hemmers of different widths, Shirring Slide,
Feller, Quilter and Cloth Guide. In addition to the at-
tachments a complete set of accessories is included which
contains 4 bobbins, 6 needles, large and small screw driv-
ers, oil can and illustrated book of directions. The attach-
ments are neatly packed in a metal box. Like the more
expensive National Columbian Sewing Machines this model
"D" is equipped with the automatic belt retainer which
always keeps the belt in position when the head is lowered
or when the head is raised. We are sure that you will be
more than satisfied with this model "D" and we ask you to
have it sent to you on our approval plan.

THE STAND is made of cast iron and finished with
baked-on black enamel. It is con-
structed of the curved leg type, strongly braced and
equipped with a large comfortable treadle. It also has a
large fly-wheel which is of the ball bearing type, revolving
on steel encased ball bearing hub connection. The pitman
rod is made of seasoned wood, expertly finished and con-
nected with fly-wheel and treadle in a very rigid manner.
There is a cast iron dress guard around the lower half
of fly-wheel which is a preventative of accidents happening
from the operator's skirt or other material being caught
in the fly-wheel. The model "D" will be found easy to
keep clean. Ample knee room is supplied below the table
when the machine is opened for use, because the apron
front is automatically raised.

THE AUTOMATIC LIFT of the model "D" is Raises
of the very newest
type, operating with a nicked chain and pulley, which And
raises and lowers the sewing head and apron front auto-
matically when the lid is opened or closed. You will find
this type of lift quite an improvement over many types now
used on other sewing machines. When the sewing head is
raised the chain is embedded into a slot provided for it on
the table top and nothing appears above the table top
that has any connection with this device. It is adjustable
so that you can keep the base of sewing head flush with the
table top. The sewing head of the model "D" is finished
in baked-on black enamel. Decorated with decalcomania
transfers. Exposed parts are heavily nickel plated. Shipping
weight, about 125 pounds.

THE CABINET of the National Columbian Model "C" Sewing Machine is constructed in a very artistic design with a table top that is curved in a unique serpentine effect and seven drawers (three on each side and one in the center under table top), each of which is highly ornamented with rich embossing as illustrated. The side drawers are fitted with round wooden drawer pulls and are equipped with locks and key. On the model "C" the lid is constructed of quarter-sawn oak veneer while the balance of the woodwork is of solid oak. It comes in a popular golden gloss finish. On the front of the table there is a convenient 18-inch tape measure put on with decalcomania transfers, which will be found exceptionally useful for measuring various articles used in connection with work done on the machine. Drawer fronts are swelled as shown in illustration.

THE STAND of the National Columbian Model "C" Sewing Machine is made of cast iron and is of the curved leg type, strongly braced, equipped with a large treadle and finished with baked-on black enamel. It has a ball bearing fly-wheel which revolves on steel encased ball bearing hub connections. The pitman rod is constructed of seasoned wood and is connected to the fly-wheel and treadle with substantial connections. Lower part of fly-wheel is protected by a cast iron dress guard. There is ample knee room underneath the model "C" because it is constructed with a neatly shaped bottom as shown in the illustration. It is easily cleaned, because the design is so created that sides, braces, and treadle have open-work that is large enough to give easy access for cleaning purposes. The model "C" will do excellent work and will give you satisfaction in every particular.

**Guaranteed
For 10 Years**

National Columbian Model "C"

THE ATTACHMENTS which come with the "C" Sewing Machine consist of a Tucker, Buffer, Braider, Binder, 4 Hemmers of different widths, Shirring Slide, Feller, Quilter and Cloth Guide. There also is included a complete set of accessories which contains 4 bobbins, 6 needles, large and small screw drivers, oil can and illustrated book of directions. All attachments are neatly packed in a metal box. With these attachments it is possible for you to do most any kind of sewing. Attachments are made of high quality steel and are nickel plated. The sewing head of this National Columbian model "C" is of the drop head type and is lowered by hand into the cabinet when closing up the machine. The head is finished in baked-on black enamel and is ornamented with decalcomania transfers in very neat design.

THE HEAD is of the top tension, vibrating, drop head type and makes a double-lock stitch that with a space underneath of 5/16 to 7/16 inches which allows easy handling of bulky material. Has an automatic bobbin winder, automatic bobbin winder release, self setting needle and easily adjusted stitch regulator. It has a self threading shuttle. Tension is easily adjusted on the top, the pressure on the thread being regulated by a thumb screw. Has a round presser bar, capped and easily adjustable to different thicknesses of materials. The feed is positive in action and is operated and controlled by the main shaft without the use of springs. This head is of the full size and has a self threading vibrating shuttle, which is cylindrical in shape. Exposed parts are heavily nickel plated. Shipping weight is about 125 pounds.

16-SECTION COLLAPSIBLE DRESS FORM

Absolutely Solves The Fitting Problem Adjustable To Any Woman's Figure

NEVER GETS TIRED. You know how tedious it is to stand for long periods to have a gown fitted and how nerve-racking it is to stand before a mirror and twist and turn in an effort to see how the fit is in the back. The improved "Marvel" does not tire. It is an exact image of your form in a natural position, not a twisted figure in a mirror. Its utility, however, is not confined to one person, as it is completely adjustable, and can easily and quickly be changed to fit the figure of other women. When ordering this improved "Marvel" collapsible dress form be sure to state size wanted.

STATE SIZE WANTED. This Form is made in three sizes, designated as A., B., and C., the measurements of which are given in detail on this page. **BE SURE TO MENTION ON YOUR ORDER WHICH SIZE IS WANTED.** The improved "Marvel" Dress Form practically pays for itself in the saving of dressmaker's bills, in the prevention of errors in fitting and consequent saving of expensive materials, and in making it easy for the housewife to finish up her garments stylishly and effectively, and in perfect accordance with her fashion books and patterns. For credit terms see page 1.

No Reaching Inside—Just Pull Sections Out To Correspond With Your Figure. Has Arm Extensions For Sleeve Fitting, Long Body For Pinning Skirts. Skirt Length Measures As Well As Skirt Marker Insure Accuracy.

WITH THIS FORM CLOTHES CAN BE MADE THAT FIT RIGHT, HANG RIGHT, AND POSSESS STYLE AND SNAP WITHOUT UNNECESSARY COST

The Illustration Below Shows How The Improved "Marvel" Dress Form Can Be Collapsed When Not In Use. A Special Feature.

Adjusts To Fit Any Figure

Extra Long Body To Pin To

Has Every Adjustment Required

Showing Dress Form Collapsed.

ORDER THIS FORM

and you can furnish your wardrobe with the latest dictates of fashion at a moderate cost. With the use of the modern fashion books and patterns which are usually in advance of ready-to-wear clothes, you can have the snap and style of ready-to-wear garments before they are shown in the most up-to-date stores. At the same time this form gives you the advantages of the made-to-order creations of the modiste at a much lower cost—an advantage that will appeal to the economical and thrifty woman who does her own sewing. Order one now.

CUTTING PROBLEMS

are solved by the pattern makers; the problem of fitting is solved by the "Marvel" Adjustable Dress Form, illustrated on this page. With this form the sleeves are easily fitted—the skirt can be draped or pleated, for you can pin to the extra long body part which is Jersey covered almost to the knees and you can arrange the garment so that it will hang to suit your taste. You really cannot make a mistake in the length as you will observe that the adjustable skirt length measure and hem guide insure the length desired.

COMES IN 3 SIZES

"A," "B" or "C" according to your stature. Size "A" adjusts from 32 to 44 bust measure; size "B" adjusts from 36 to 48 bust measure; size "C" adjusts from 39 to 54 bust measure. All three of these sizes are sold at the same price. We caution you, however, to be sure and state which size you desire, so that there may be no error in shipment. By so doing you will eliminate delay and unnecessary correspondence. The many advantages that are possessed by the "Marvel" 16-Section Adjustable Dress Form apply to all three of the sizes.

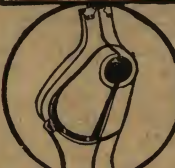

MEASUREMENTS.

Size "A"	Size "B"
NECK Closed 12 in. Open 19 in.	NECK Closed 12 in. Open 20 in.

HIPS Closed 36 in. Open 45 in.	HIPS Closed 37 in. Open 45 in.
Back L'gth Closed 13 in. Op. 15½ in.	Back L'gth Clo. 13½ in. Op. 15½ in.
Size "C"	
NECK Closed 13 in. Open 20 in.	WAIST Closed 28 in. Open 37 in.
BUST Closed 39 in. Open 54 in.	HIPS Closed 39 in. Open 50 in.
BACK LENGTH Closed 15 in. Open 18 in.	

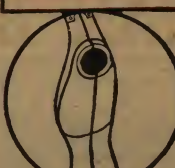

STATE SIZE WANTED

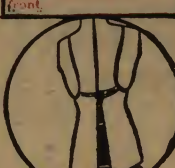

Simply pull out to desired position.

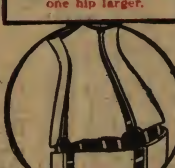

Full bust, wide or narrow shoulders, erect figure.

Flat chest, stoop shoulders, long in back or short in front.

One shoulder higher or one hip larger.

Extra wide hips. Large seat or large abdomen.

Adjusting skirt measure and hem guide.

MEETS EVERY STYLE CHANGE OF THE FUTURE. IS VERY ESSENTIAL IN EVERY HOME

NOTE ESPECIALLY

that this form is divided just a trifle below the hip line. There is no other make of form of which we know that gives these adjustments for enlarging and widening the hips, seat or abdomen. Next to the SKIRT LENGTH MEASURE AND HEM GUIDE this is the most important improvement that has been made in adjustable dress forms. In addition to this, you can enlarge the bust without affecting the waist, hips and seat. Likewise, you can make one shoulder higher than the other—a desirable adjustment.

IS EASILY ADJUSTED

so as to suit the lines of a stoop shouldered or square shouldered figure with equal ease. You can enlarge the waist without affecting the bust, hips or seat, or you can enlarge the hips without altering the waist, bust or seat and in making all of these adjustments you do not have to reach inside of the form to loosen or tighten the set screws. You simply pull each section out to the measurements required. Thus you see that the manipulation of this form is as simple as it is accurate. It is easily adjusted to correspond with every measurement of your figure, insuring a correct fit.

ANOTHER FEATURE

of adjustment is that you can raise the bust without effecting the back, or you can lengthen the back without raising the bust. In short, you can duplicate your figure just as you are with very little difficulty. This form is made according to our own specifications. Extra heavy paper mache which is used in its construction will render years of service to the owner. It is covered with a good quality of Jersey cloth. The full nickel trimmings found on this dress form add to its life as well as to its bright and pleasing appearance. The "Marvel" is a great aid in dressmaking.

REVOLVING STAND

upon which the "Marvel" Adjustable Dress Form is mounted is made of iron and is very strong and substantial. You can adjust this form to any height that you desire. Fitted with claw and ball feet instead of casters which get out of order and cause considerable annoyance. We desire to impress you with the fact that when you can secure a collapsible dress form made in 16 sections that has the many desirable adjustable features of the "Marvel" at this low price, you are obtaining a value that is worthy of its name. In the panel to the left, headed "Measurements," you will find the minimum and the maximum measure to which each adjustment can be made. It tells how small and how large each of the three different sizes can be adjusted. Be sure to mention on your order whether you want size "A," size "B," or size "C". This improved "Marvel" adjustable dress form is a great value at our low price. See page 1 of this catalog for our very liberal credit terms. Shipping weight about 45 lbs. **\$16.95**

HEALTH-PRODUCING VEHICLES FOR THE BOYS

A Ball-Bearing Wagon That Every Boy Will Thoroughly Enjoy

No. 358A54
Price - \$7.95

Length Is 32 Inches; Width 14 Inches and Height Is 16 Inches. A Splendid Toy At The Price Quoted

Body Is Strongly Bolted To Wood

Axle Blocks And Steel Braces Which

Makes It Extremely Durable. Can Be

Used As A Coaster Or Pulled As A Wagon

Has Ball-Bearing 10-Inch Wheels With $\frac{3}{4}$ Inch Steel Tires.

The "Despatch" Is Made Of Hardwood With Rich Finish In Red And Black Enamel With Lettering

Order This Wagon On Our Liberal Credit Terms As Shown On Page One Of This Catalog.

YOUR BOY can pull the "Despatch" as a wagon or sit in it and ride it as a coaster. Front board cut out for easy steering when used as a coaster. It is made of natural hardwood trimmed in red and black enamel. Has wooden axle blocks and steel braces which are strongly bolted to wagon body. Axles are of $\frac{1}{2}$ -inch round steel. Front axle steering device protected by flat steel plate. Has 10-inch wheels with $\frac{3}{4}$ -inch steel tires. It is built along the same lines as a full size, regular, horse-drawn wagon and is sure to be a source of genuine pleasure to every boy who owns one. We will trust you for this splendid Ball Bearing "Despatch".

THE "DESPATCH" is one of the easiest running wagons of its kind ever constructed. This is due to ball-bearing hubs, which run on steel balls just like a bicycle. The small cut to right shows this hub construction. Length 32 inches; width 14 inches; height 16 inches. You can order this coaster wagon for your boy with the satisfied feeling that he is going to have a toy that will be as useful as it will be enjoyable. There are so many uses that a boy can find for a wagon of this sort that every mother should have one for her son. A great bargain for the money. Shipped from our Chicago warehouse. Shipping weight, about 40 pounds. No. 358A54. Price.....

ABOUT OUR FAMOUS "MAJESTIC" GASOLINE ENGINE

The "Majestic" Gasoline Engine Will Solve Your Farm Labor Problem—Order One On Credit

THE HELP SITUATION on farms throughout the United States is a very serious one. It can be remedied, however, by a little judicious management. The hard work, long hours and poor equipment on most farms drives help away to easier work and shorter hours; even the sons and daughters leave home as soon as they become of age to seek their fortunes in large cities. This is because on the farm, they see no relief from endless drudgery. The Hartman Concern of Chicago maintains a Farm Machinery Department expressly for the purpose of helping the honest farmer with unselfish credit and without any obligation on his part places in his hands, on a full 30 days' free trial, THAT MASTER of farm problems, that all helpful, uncomplaining, powerful—"MAJESTIC" engine. Remember all this proof which we place in your hands is wholly and absolutely at OUR risk—not yours. We send you the engine promptly, properly inspected and tested, and ready to run.

THE REAL SOLUTION of this knotty problem is power. Cheap, efficient, constant power always ready at hand. The United States of America is acknowledged to be the greatest manufacturing country in the world, producing everything from a needle to a locomotive, and the reason for this supremacy is POWER and plenty of it. Without POWER our mills and factories would shut down and millions of men and women would be out of employment and there would be no market for farm produce or manufactured products of any kind. Our Government has issued bulletins, maintained bureaus and compiled statistics for farmers and has proven to the majority of them that without POWER he cannot hope to produce crops profitably; as POWER is as necessary on the farm as is water. Order a "Majestic" gasoline engine on the wonderful HARTMAN FREE TRIAL CREDIT PLAN.

See The Following Pages For Further Description And Prices Of "Majestic" Engines. All Sizes In Stock And Ready For Immediate Shipment Direct From Factory In Northern Indiana

A "MAJESTIC" ENGINE will pump water, run a washing machine, grind grain, saw wood, run a cream separator, fill silos, or thresh without a whimper or threat to quit. Just figure for yourself what it would cost you in man-power to cut ten cords of wood, and on the other side of the sheet place the price of four gallons of gasoline and one-half pint of lubricating oil—figure it out for yourself. Remember those hot summer days when there was no wind to run your windmill and your cattle drank water faster than your tired arms could pump—a "Majestic" Engine and pump jack did the work in no time. Think what a "Majestic" Engine would save your wife when you have belted the engine to the washing machine, cream separator or churn. Surely her health, happiness and comfort are of vital importance to you. Think it over, and tell us for what purpose you intend to use the "Majestic" engine and we will suggest the size you need.

YOU WILL FIND any amount of work every day for your "Majestic" Engine. And it will do that work, too, quicker and more efficient than any other engine offered at the price of a "Majestic." An engine on your farm does its work cheaper than you can hire help to do the job and enables you to be out in the field or doing other work while it is in operation. It is a time, labor and money saver and gives complete satisfaction in every way. It is always ready to work when you are—even after the sun has set. A "Majestic" engine is far from being a luxury on your farm—it is an absolute necessity. Lastly, check up carefully on the past costs of operating your farm and you will find that it is not a question of whether you can afford a "Majestic" Engine, but a question of how soon you can get one. Sold on Hartman's remarkably easy and liberal credit terms, which give you 30 days' free trial and a full year in which to pay.

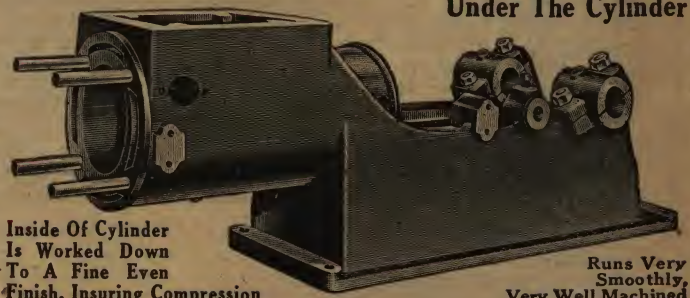

Perfect Cooling Assured By The Extra Large Water Jacket

The "Majestic" Cylinder And Base

FOR AN ENGINE that will give the maximum of service and power at the minimum of cost, none better or more efficient can be recommended than the "Majestic." Every piece of material that is used in the construction is of the very best quality—machined and assembled by the most skilled mechanics, the result being an engine as nearly perfect as any can be. The cylinder and base, as shown in above illustration are cast in one piece. This eliminates any possibility of their becoming loose, thereby getting out of alignment and causing serious trouble. This is a distinctive feature that has made the "Majestic" well known throughout the United States. The water jacket is of such large capacity that engine cannot become injured by heat as long as hopper is filled with water.

THE DRAIN PIPE is located directly under the cylinder, so that water can be drained out of cylinder in cold weather, preventing bursting of jacket by freezing. Cylinder is bored almost to size, then worked down to a fine finish. This insures good compression. Lower half of bearing casting is in one piece with the cylinder and bed making it impossible to work out of line as would be the case were it bolted on. Cam gear pin boss is also cast on base of engine, so that it may be kept in perfect alignment with the other moving parts. The cylinder heads of all "Majestic" Engines with the exception of the 2 and 3 H.P. models are cast with water jackets. A desirable feature to be found only on high class engines. This arrangement will keep the valve stems from becoming overheated and warped.

Cylinder And Base Of This Engine Is Cast In One Piece. Impossible For Bearings To Work Loose. Drain Pipe Is Located Directly Under The Cylinder

Inside Of Cylinder Is Worked Down To A Fine Even Finish, Insuring Compression

Runs Very Smoothly, Very Well Machined

READ THIS "MAJESTIC" GUARANTEE

We, unreservedly guarantee every "Majestic" Engine we sell to be made of the very best material and workmanship, and to be free from flaws and imperfections of any kind, and

That, should any part of the "Majestic" Engine we ship you prove defective in material or manufacture, we will cheerfully replace the defective part free of charge should our engineers find that the defect was due to faulty material or workmanship any time within five years, and

That the "Majestic" Engine we ship you has been most carefully tested and inspected and has actually pulled at reasonable working speed, power equal to or in excess of our rating of it, and

That, owing to the perfectly balanced construction and correct weight of the "Majestic" Engine, it will actually deliver its power right to the machinery you are operating.

The "Majestic" Cylinder Head

THE INNER SURFACE

of this cylinder head is thoroughly machined and valve seats are carefully ground, making it impossible for compression to escape at any point. The careful and expert workmanship and the very fine materials used are responsible for the popularity and successful record that this engine enjoys. In the small size engines there is not enough heat generated to require the use of a water jacket. Other features of the "Majestic" engine are explained elsewhere on this page.

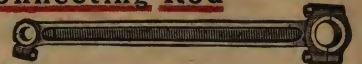

Improved Crank

"Majestic" Shaft

THE CRANK SHAFT is a drop forging, made from the very best steel obtainable. All of our crank shafts are accurately ground down to size, none of them vary more than one-quarter of one thousandth part of an inch from another. This accuracy insures a perfect fit and prevents any end play that would tend to wear out the bearings. Bearings are wide and babbitted with the highest grade frictionless babbitt metal. This full sized, full length crank shaft—like all the other parts of this high grade engine, is made from materials that greatly reduce the danger of breakage.

The "Majestic" I-Beam Connecting Rod

THE CONNECTING ROD

shown above is of the I-beam type, forged from toughest metal that can be procured. Every connecting rod is given an exhaustive strength test. Notice the small end of the connecting rod. This is where the wrist pin is held in adjustable bronze bearing that can be taken up by means of adjusting screw. This bearing is practically frictionless. At crankshaft end is babbitted bearing with grease channels cut in. Several shims are placed between rod cap and rod to take up wear on connecting rod bearing.

IGNITER, MIXER, GOVERNOR AND SPEED REGULATING SCREW

The "Majestic" Igniter

The "Majestic" igniter is of the Make-and-Break style, simple, convenient and reliable. Igniter has meteor wire points which are out of contact except when lever brings them together to make a spark. This only occurs when a charge of gas is ready to be ignited. Igniter parts are only subject to wear and dry cells to use, when igniter lever brings points together, so that both in use of dry cells and wear of igniter parts the "Majestic" igniter has proved itself a great economy.

IGNITER. Assembled and detailed illustration of the igniter, showing front and rear of igniter block and every piece that goes to make up the igniter.

The "Majestic" Mixer

This type mixer controls the engine from no load to full load without changing the needle valve. During this time it maintains a perfect mixture. It is, therefore, an automatic mixer. When the engine is on light load, the charge of gasoline is reduced and when on heavy load is increased automatically.

The working parts are all brass, including the screened check valve, tubing and the needle valve. All the working parts of the mixer can be removed by unscrewing the seat of the needle valve and drawing the check valve and stem up through the mixer body without disturbing the mixer body.

The shutter must be kept closed while starting the engine. But, after the engine is started, keep the shutter wide open.

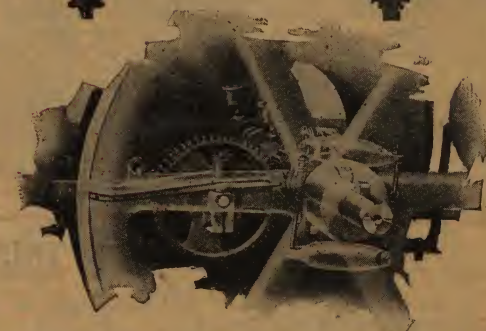

The two points of great merit in this mixer are, first, its simplicity—there is nothing about the mixer that can well go wrong or wear out—second the automatic control of gas which enables the operator to always get the greatest amount of power out of the engine with the least amount of fuel.

MIXER. Two views of "Majestic" Automatic Mixer. Simple, Reliable and Economical.

The "Majestic" Governor

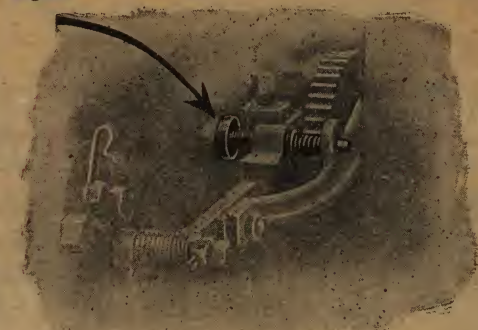

A GOVERNOR THAT REALLY GOVERNS. It is of the centrifugal fly ball "hit and miss" type with fly balls in fly wheel. Positive in action, simple in construction, and sensitive, controlling perfectly the speed of the engine. Governor points are located on the side lever, and they hold the exhaust valve open when the engine is on the idle stroke. In this way they cut off the fuel supply, release the igniter and control the speed of the engine.

GOVERNOR. Has perfect control over speed of engine.

The "Majestic" Regulating Screw

We were among the first to add this feature to our engines. If, while the engine is running at any required speed, you wish to change speed, you can easily make a change of 50 to 75 revolutions per minute without stopping the engine. Speed regulating screw acts the same as throttle on steam engine. By turning speed regulating screw one way or the other you vary the speed of the engine as desired. Speed regulating screw aids governor in reducing fuel consumption, and is an attachment of the highest utility and economy.

SPEED REGULATING SCREW. Acts like throttle on steam engine. Helps reduce fuel consumption, and is a real economizer.

"Majestic" Fly Wheels

The "Majestic" fly wheel is a model of accuracy. For long wear your engine must have a perfectly balanced and carefully machined fly wheel, if it is to carry a load at an even, steady motion. Our fly wheels are finished on large, up-to-date boring mills and are most accurately keyed. The center hole of every fly wheel we make is gauged by plug or limit gauge EXACT TO THE ONE-THOUSANDTH PART OF AN INCH.

THE ENGINE YOU HAVE BEEN WAITING FOR

NEITHER TOO HEAVY NOR TOO LIGHT

NEVER lose sight of this thought. When you buy an Engine you buy it for just one reason—the **POWER** that it can deliver—the actual *service* that it can render in sawing your wood, pumping water, running your washing machine, grindstone, cream separator, churn, feed grinder, fanning mill, corn sheller, ensilage cutter, hay baler, threshing machine and the many other jobs that experience has proved can be done better, quicker and cheaper than by the tedious back-breaking drudgery of hand labor.

MOST POWER AT LOWEST COST IS WHAT YOU WANT

You don't care how fancy an engine may look; you don't care how prettily it may be "dolled up;" you don't care how many "frills and flourishes" it may have; you don't care how much the manufacturer may think about his "beautiful" engine; you don't care how "powerful" it may look in a catalog;—if it doesn't actually deliver the power that you've got coming for every gallon of gasoline that you feed it—then it ceases to be an engine as far as you're concerned.

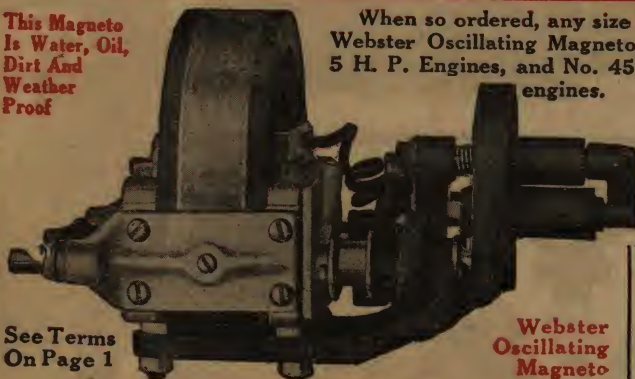

USABLE POWER IS WHAT COUNTS

NOT only *developed* power, mind you, but *delivered* power—is what you must figure in your calculation for getting the most value for your engine money. For power that is *wasted*—power that for ANY reason is *lost* in development or in transmission from your engine to the machine you are operating—is an expensive luxury, so don't take chances, send us your order immediately for a "Majestic" and get an engine that always delivers the power right to the machinery you are operating.

Now it follows, just as surely and inevitably as night follows day, that the engine which delivers the most power at the smallest cost must be the most efficient as well as the most economical. For an engine simply can't be the most economical—can't be the one to deliver the most power at the lowest cost, unless it be the engine that is designed most correctly, built the best, easiest to operate, cheapest to keep up and that is of lasting durability.

WHY YOUR ENGINE SHOULD BE WEBSTER EQUIPPED

This Magneto
Is Water, Oil,
Dirt And
Weather
Proof

When so ordered, any size "Majestic" Gasoline Engine can be equipped with a built-in Webster Oscillating Magneto, No. 451R15, for \$13.40 extra on 2 H. P., 3 H. P. and 5 H. P. Engines, and No. 451R16 for \$15.45 extra on 7 H. P., 9 H. P. and 14 H. P. engines.

See Terms
On Page 1

Webster
Oscillating
Magneto

Every "Majestic" Engine is regularly equipped with the dry-cell battery with spark coil and switch as described. This, in itself, is an independent ignition system and a most effective one, especially in the smaller size "Majestics"—the 2 and 3 H. P.

As better sparking equipment, however, and especially for any one of the larger size "Majestic" Engines—either a 5, 7, 9 or 14 H. P.—we strongly recommend that you order it equipped with a Webster Oscillating Magneto.

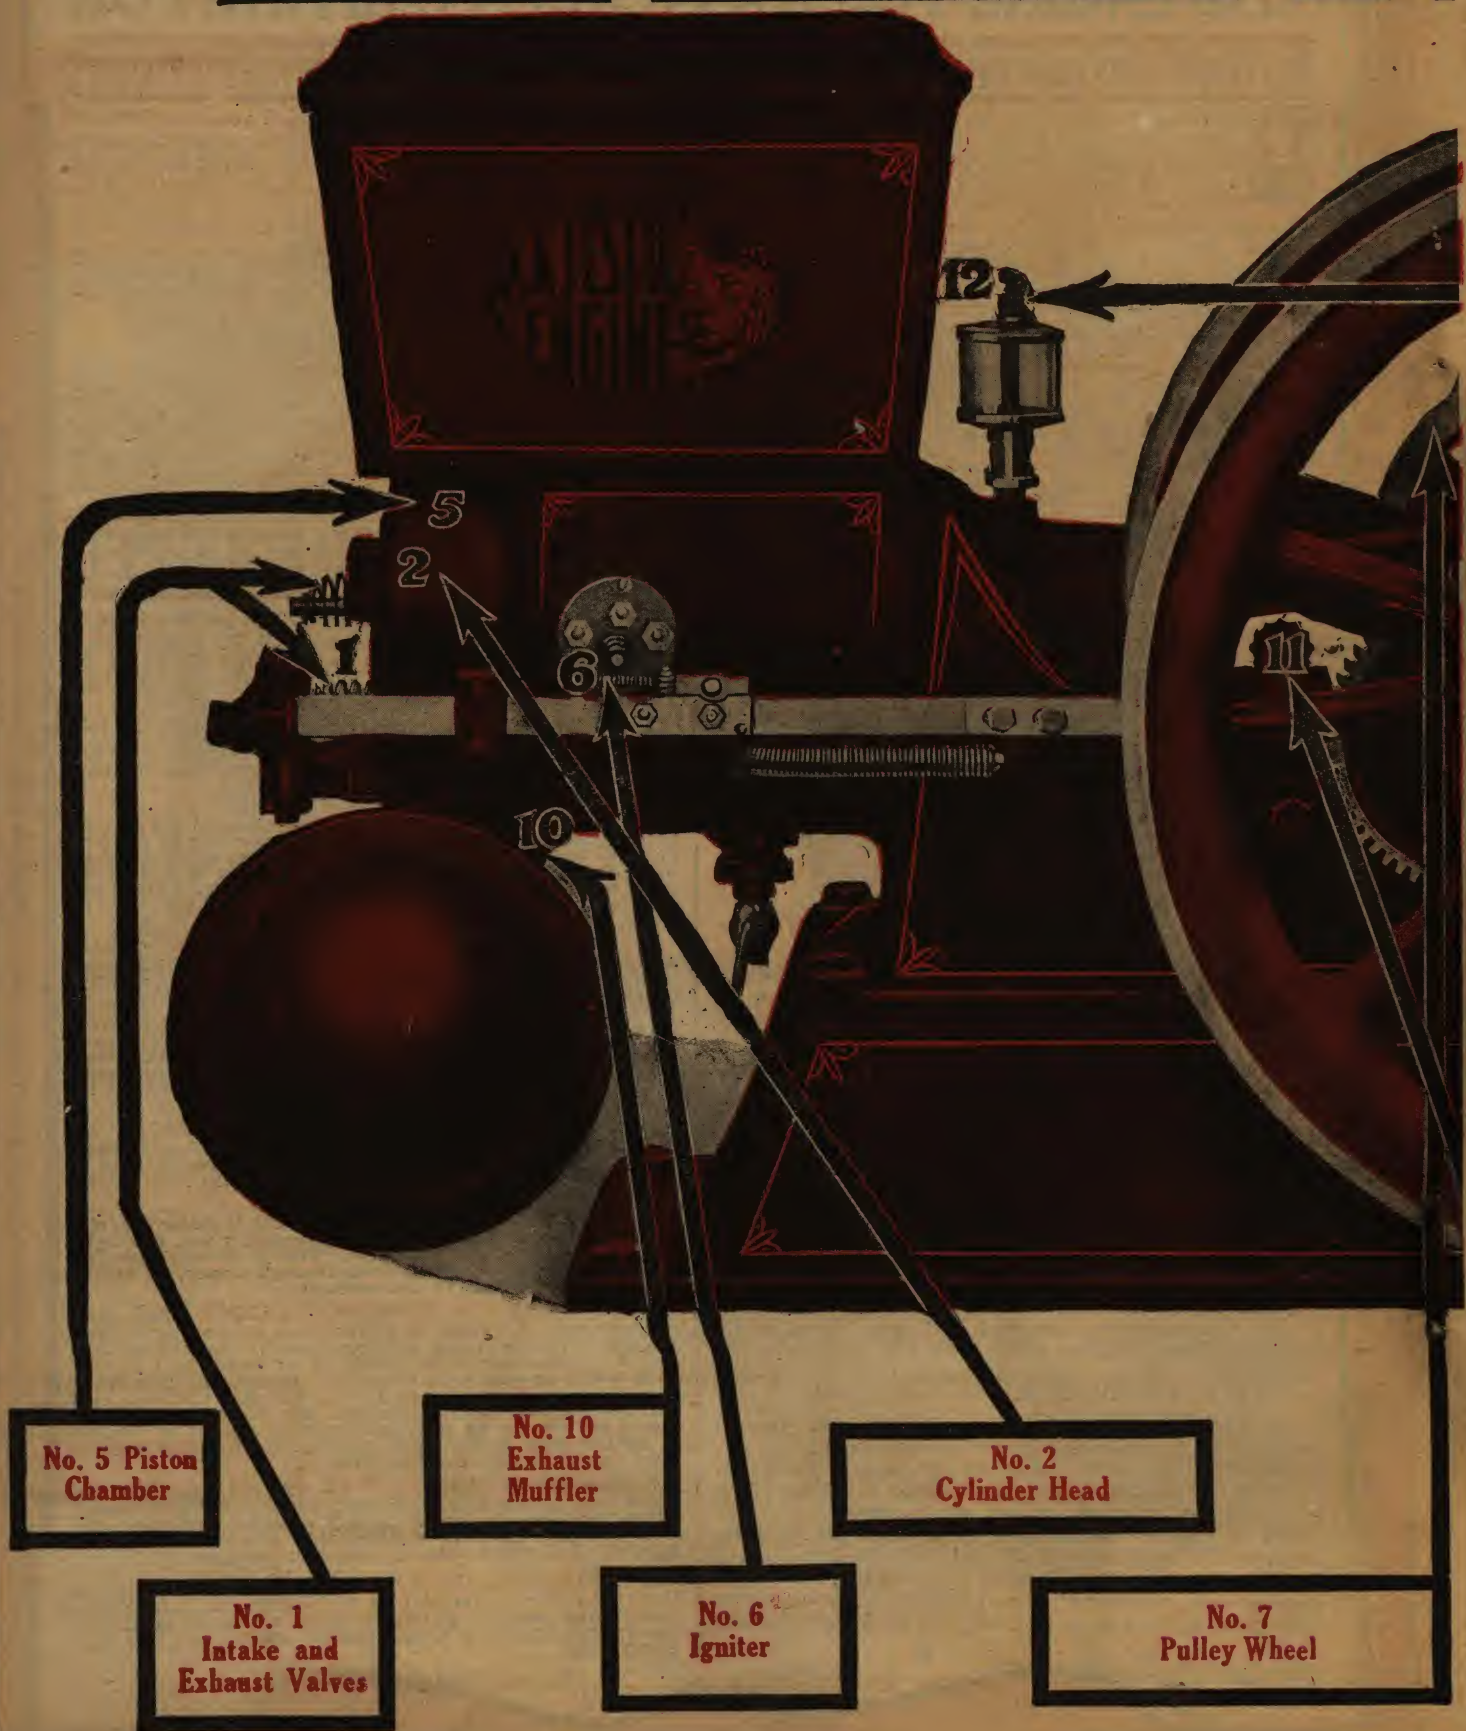

It will vastly increase the efficiency of your engine. It insures absolutely perfect ignition at all times—and faulty ignition is one of the most common of all engine troubles. You must always remember that it is the **EXPLOSION** of the fuel charge that creates **POWER** and when a charge of gas fails to ignite it means a dead loss. Then by the time the next explosion takes place the machinery has slowed down to some extent and the recovery of that lost power puts an additional strain upon every part.

Of course, the waste of fuel and loss of power from a single unused explosion doesn't amount to much. But multiply that waste by thousands and tens of thousands as the result of continuous faulty ignition and before long it amounts to a great deal—a wholly unnecessary loss which is entirely eliminated with a Webster Magneto. Besides this great saving of fuel and conservation of power with a Webster Magneto attached to your engine there's never a chance of a breakdown or vexatious delay from your battery or coil giving out or from a broken switch.

We claim for the Webster Oscillating Magneto the following points of superiority over other magnetos—advantages which anyone who has had experience with ignition systems will be quick to recognize.

- 1. NO BRUSHES.** In every rotating magneto the current is collected by brushes, held to the collector ring or commutator by springs. The brushes and commutator must often be cleaned to insure a perfect contact, and it is from these parts that the majority of ignition troubles arise. There are no brushes in the Webster, therefore, no such troubles can occur.
- 2. NO COMMUTATOR OR COLLECTOR RING.** Trouble also rises from a "glazed" commutator in a rotating magneto, but in the Webster these troubles are an impossibility, owing to the absence of a commutator or collector ring.
- 3. NO MOVING WIRES.** When the armature of an ordinary magneto is revolving swiftly, the coils of wire are thrown away from the core by centrifugal force. This wears out the insulation, causing short circuits, and consequently disabling the magneto. This is obviated in the Webster, by absence of rotating parts.
- 4. WATER, OIL, DIRT AND WEATHER PROOF.** All connections in the Webster are encased in metal hoods, wires and coils are insulated and in addition are treated with a preparation, preserving them from deterioration from water, oil or weather conditions.
- 5. PERFECTLY LUBRICATED.** In the Webster, the oiling system is so perfect that each part gets just the right amount of oil, no more, no less. This is accomplished by feeding the oil from the reservoir through a wick, all excess oil being carried back to the reservoir.
- 6. STARTS ENGINE WITHOUT CRANKING.** The spark obtained from a Webster is hotter when starting than when running. When starting, a hotter spark is required because fuel does not vaporize as readily in an engine that is cold as it will in an engine that has been warmed up. The Webster is the only magneto on the market that possesses this feature. No batteries are required. The Webster Magneto is also a self starter, as the engine may be started by turning it against compression and tripping the magneto with a lever furnished with each machine.
- 7. MINIMUM WEAR AND TEAR.** As the Webster is idle when the governor cuts out the explosions and the movement which produces the spark is only a slight oscillation, the wear and tear on parts is minimized. Compare this to the high speed at which ordinary magnetos revolve!
- 8. A COMPLETE UNIT.** The Webster is so designed as to become an integral part of the engine. It is free from complicated parts, operating in direct connection with the spark plug, making a simple ignition system which is efficiency itself.

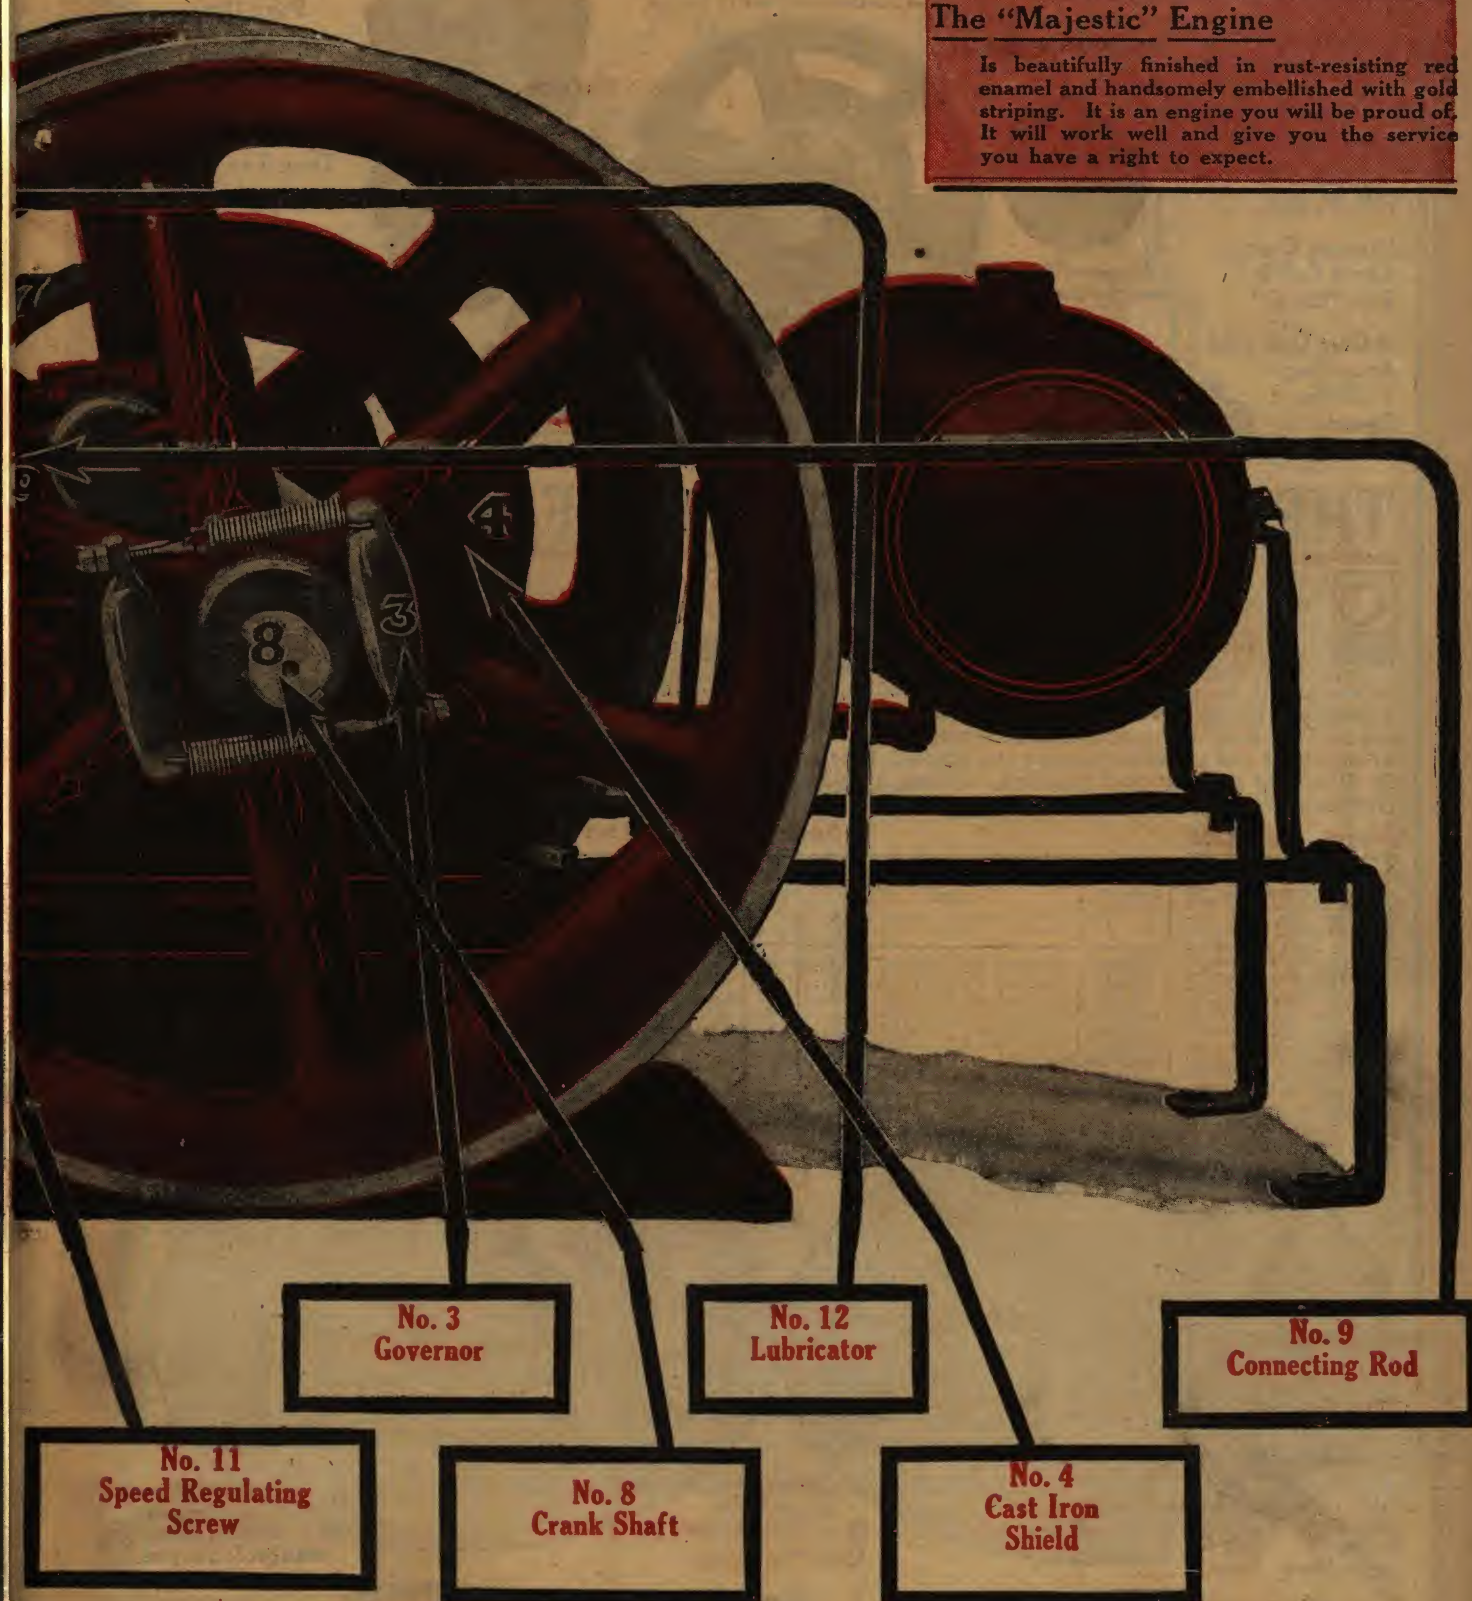

DETAILED ILLUSTRATION OF

"MAJESTIC" GASOLINE ENGINE

The "Majestic" Engine

Is beautifully finished in rust-resisting red enamel and handsomely embellished with gold striping. It is an engine you will be proud of. It will work well and give you the service you have a right to expect.

For Very Heavy
Work Consider
The 7 H. P.,
9 H. P.,
And 14 H. P.

THE IDEAL ALL-PURPOSE FARM ENGINE

THE 2 H. P. Engine is the practical Engine for anyone who is pumping water, running a cream separator, washing machine, or milking machine by hand; as it positively will do the work cheaper, quicker, and more thoroughly than any person could do it. The 3 H. P. Engine will prove a time and money saver. This Engine will do all that the 2 H. P. Engine can do and a little more. It is built to stay built and to deliver service and power. Give the H. P. a trial on light feed grinding, running a 20-inch circular saw or any other piece of light machinery.

THE 5 H. P. and 7 H. P. Engines are intended for heavy work, such as running feed grinders and choppers, 28 and 30-inch circular saws, operating medium-sized hoisting machines, etc. You can set up a line shaft in your work house—equip it with pulleys and operate several machines from it and still have surplus power. We recommend a large engine as it is far better and cheaper to have surplus power than not enough power. Every "Majestic" Engine no matter what size is thoroughly tested for power and critically inspected before it leaves our factory.

About Magnetos

You should order your engine equipped with the famous Webster oscillating magneto. The slight additional cost of this equipment is more than offset by the greater efficiency of your engine and the trouble it eliminates. The charge for this extra equipment covers only the actual cost of the magneto. Prices of "Majestic" gasoline engines equipped with magneto ignition are quoted in last column of table shown to right.

We Recommend The Webster Magneto Equipment For Majestic Engines. See First Pages Of Engine Section

On Credit

WHEN so ordered, a "Majestic" Engine of either the 2 H. P., 3 H. P. or 5 H. P. size will be mounted on a strong, durable, flexible, easy-to-pull hand truck as here shown. This is a most convenient outfit, as you can take your engine right to your work instead of bringing your work to the engine. One day you will be wanting to use the engine out near the barn for running the fanning mill or corn sheller or some other piece of machinery. The next day the women folks may want to use it for running the cream separator, churn or washing machine, and it is easily hauled from one place to another.

THE wheels of this specially constructed hand truck are all metal with $2\frac{1}{4}$ in. tires. The hubs are large and strongly re-inforced. Axles are strong and of good size, the front axle having a swivel joint which makes easy turning. If at any time you wish a stationary engine you can quickly and easily remove it from the truck by simply unbolting it. The engine, being securely mounted on its own skids, can then be placed anywhere you wish it. This outfit comes to you complete as pictured and described on this page and includes a complete set of accessories. Prices and complete details are given below.

Specifications and Prices

TRUCK: Wheels 12 inches front; 12 inches rear, with $2\frac{1}{4}$ -inch tires; 6 spokes with hubs 3 inches long. Axles made of 1-inch round steel. Track 2 ft. 6 in. Tongue made of steel, strong and readily removable. Engine skids bolted firmly to axles.

IF you have heavy work on your place to do, or if there is any probability of your ever having it, you will make no mistake in ordering the "MAJESTIC" 9 H. P. It is an engine that will give you many years of service no matter how hard or how continuously you keep it at work. You will always find it able to pull a heavy load up to and beyond its horse-power rating and that on the smallest possible amount of fuel. We can't too strongly emphasize the fact that in the 9 H. P. you get an abundance of power.

You May Test This Engine Thoroughly

We will send you either of these big gasoline engines on the same liberal terms that are effective on the smaller sizes, giving you 30 days' trial, and a full year to pay without interest.

Order your engine equipped with the famous Webster oscillating magneto. The slight additional cost of this equipment is more than offset by the greater efficiency of your engine and the trouble it eliminates. The charge for this extra equipment covers only the actual cost of the magneto. Prices quoted in last column below.

WHEN it comes to filling a silo you positively cannot afford to fool away your time with a light weight engine. You will make a serious mistake if you attempt that kind of work with anything less than a 14 Horse-power engine. We prefer to recommend the 14 Horse-power "Majestic" for your silo filling, knowing that you will be far better satisfied, because this is a job that must have lots of steady power without a let-up for hours at a stretch. This engine gives you just that kind of power.

There Are Many Uses For This Big Engine

If you do not happen to have a silo it may be that you will have one some day, and every man buying an engine should look well to his future no less than to his present needs.

There are many uses for this engine. For running an irrigation plant you couldn't buy a better engine than the big "Majestic" 14 H. P., as it will pump up to 1,000 gallons of water per minute. And it makes easy work of running heavy threshing machines, big cylinder corn shellers, clover hullers, etc. Splendid engine for the money.

Special Majestic
Friction-Clutch
Pulley Included
With This Outfit.
A Handy And Very
Useful Feature

THESE outfits consist of either 5 H. P., 7 H. P., 9 H. P. or 14 Horse-Power "Majestic" Engine mounted on a heavy all-steel truck. The slight additional cost of the truck is offset many times by the great advantages of having your engine mounted in this way. It is often impossible, or at least inconvenient, to move the engine to where the work is to be done—as filling a silo or running a threshing machine, for instance. And with a staunch, sturdy, 9 H. P. or 14 H. P. Engine on a wide-tired truck it can be done in all kinds of weather and over all kinds of roads. WITH THIS OUTFIT WE HAVE INCLUDED THE "MAJESTIC" FRICTION-CLUTCH PULLEY, WHICH IS A SPECIAL FEATURE. At any time you wish to stop the machinery you may be operating with this outfit, all you have to do is to throw off the friction clutch; the engine will keep on running ready to pick up its load again when you throw on the clutch. Order your engine equipped with the famous Webster oscillating magneto. The slight additional cost of this equipment is more than offset by the greater efficiency of your engine and the trouble it eliminates. The charge for this extra equipment covers only the actual cost of magneto. Prices of engines with magneto ignition quoted below.

No.	Rated H.P.	Speed R.P.M.	Bore & Stroke Inches	P. C. Pulley Inches	Wheel Track	Ship's Wt. Pounds	Price Equip'd With Battery	Price Equip'd With Webster Magneto
451R17	5	375	4½ x 9	16x8	2 ft. 11 in.	1200	\$221.75	\$235.15
451R18	7	340	5½ x 10	24x8	4 ft. 6 in.	2200	260.00	275.45
451R19	9	275-325	6x12	24x8	4 ft. 6 in.	2400	346.90	362.35
451R20	14	250-300	7½ x 14	30x8	4 ft. 6 in.	3400	489.00	504.45

THIS truck is especially designed and built for a heavy engine. It is a very strong and at the same time a very light running, well built engine truck. Everything about the mounting, excepting the tongue, is steel—steel channels, steel axles and reinforced steel wheels with extra long and heavy hubs, staggered spokes and 5-inch tires. Front axle is swivel type, so constructed that the

level of the engine is not disturbed, no matter how uneven the road may be. Read the description over carefully.

Keeping Out Moisture And Cold

\$15⁹⁵

THE CASE of "Majestic" hot water incubator has an outer wall made of one-inch lumber, free from knots and defects; an inner wall of specially treated fibre board that is not affected by moisture, with a dead air space of $\frac{3}{4}$ inch between the outer and inner wall. It is impossible for cold or heat to penetrate the walls, and an even temperature is assured. The door has two panes of glass with a space between them. Eggs, chicks and thermometer are easily seen without opening the door.

HEATING SYSTEM consists of a heavy polished copper tubular tank and boiler, extending entirely around the upper part of the egg chamber. Hot water is constantly circulated, insuring an even temperature. The lamp fount is made of heavy metal and cannot leak. A special sun-hinge burner and metal chimney, with mica window, is used for heating the water. An automatic regulator controls the heat. Ventilators carry off the foul air as pure warm air is forced into the egg chamber automatically.

70 EGG SIZE incubator shown at the left has a very substantial outer case, with double glass door, steel angle iron legs, and is fitted with the hot water heating system described in the foregoing paragraphs. The case is finished in imitation mahogany and is very neat in appearance. This is our smallest size incubator, but it is very efficient. Shipped promptly from factory near Chicago.

Shipped Promptly From Factory Near Chicago No. 454A8. Shipping Weight About 52 lbs. Price..... **\$15.95**

\$19⁹⁵
100
Egg
Size

A VERY POPULAR incubator that may be had in either the 100 egg or 175 egg size. Both sizes are exactly alike in construction and equipment, the only difference being in the fact that one is larger and will accommodate more eggs than the other. Case is made of 1 inch lumber free from knots or defects, a $\frac{3}{4}$ -inch dead air space and a fibre board inner wall, that will not crack, split, warp or rot. This construction gives a two-inch wall for sides and top.

THIS CONSTRUCTION

prevents cold or heat from penetrating the interior and insures an even temperature. The door is fitted with two panes of glass, with a space between them to exclude the cold. This glass window permits easy inspection of eggs, chicks and thermometer without opening the door and risking the chilling of the eggs. When ordering be sure to give correct number and state size wanted. No. 454A9. 100-Egg Size. **\$19.95** Ship. Wt. About 65 lbs.

HEAT IS SUPPLIED by a very reliable, self-regulating, hot water system. This consists of a high grade incubator lamp with metal bowl, brass sun-hinge burner and bell-shaped metal chimney with mica window to see lamp flame. The water is contained in a heavy, polished copper tubular tank and boiler. The tank extends entirely around the upper part of the egg chamber, providing a perfect distribution of heat. An automatic regulator controls the temperature.

VENTILATORS are provided to carry off the foul, impure air as the fresh, warm air is forced into the egg chamber. Has burlap protection tray, placed below the hatching tray, to prevent the young chicks from falling to the metal floor, and injuring themselves. Comes completely equipped, including thermometer and instructions for operating. Shipped promptly from factory near Chicago. Give correct number and size. No. 454A10. 175-Egg Size. Ship. "MAJESTIC"
\$39⁹⁵
300-Egg Size

THIS INCUBATOR is built of strong reliable material. The front is made of 1-inch lumber, well insulated. Door has two panes of glass, with space between situated so that the eggs, chicks and thermometer can be seen without opening the door. Outside walls are made of 1-inch lumber. Inner walls are built of specially treated heavy fibre boards that cannot warp, check, crack or rot, and do not absorb moisture. There is a space between the inner and outer walls of $\frac{3}{4}$ inch, packed with insulating material which makes it impossible for the cold to penetrate and maintains an even hatching temperature within the incubator at all times. This incubator is provided with double egg tray, on account of its large capacity, thus making the handling of trays much easier.

THIS "MAJESTIC" INCUBATOR has two tops, the inner top made of two thicknesses of fibre board with $\frac{1}{2}$ -inch insulating material packed in between. The inner top fits down tight on the inside of incubator. Outer top fits down snugly over outer wall. The space between the inner and outer top for ventilating the incubator is $\frac{1}{2}$ inch. Has burlap nursery tray placed below the hatching tray, which protects young chicks from becoming injured should they fall to the floor. Is handsomely finished in imitation mahogany. Has polished brass hinges, knobs and door pulls. It is heated with a tubular copper tank. Guaranteed not to leak. Shipped promptly from factory near Chicago. No. 454A11. 300-Egg Size. Your
Chicks

HOW WE BUILD OUR METAL INCUBATOR CASES

Incubator case is constructed of first class 1-inch lumber. Over inside of this wooden case we place heavy covering of insulating material; then entire outside of incubator case is covered with strong galvanized iron, with exception of bottom of incubator case, which is covered with extra strong black iron, painted. Underside of top is lined on inside with layer of heavy fibre board, which makes top of incubator board well insulated, being made of four thicknesses of material. It is trimmed with black enamel iron and supported by strong steel angle iron legs.

"MAJESTIC" INCUBATOR HEATING PLANTS

Our Metal Covered "Majestic" Incubators are heated with a first class tubular copper tank and copper heater. This tank and heater are made of first class pure Lake Superior cold rolled copper, guaranteed not to leak. This grade of copper produces a tank and heater that will give lasting durability. The heater is encased in a strong metal case and is connected with the inside of the egg chamber. It is so constructed as to produce a perfect circulation of hot water at all times, thus insuring an equal temperature in all parts of the egg chamber.

For Your Family's Sake

There's nothing like poultry raising to promote good health, good temper and all 'round good feeling. All the family take an interest in watching the "MAJESTIC" hatch out the big percentage of eggs, and when the fluffy chicks break through and escape from their prison shells, my! what a sight for sore eyes!!

Anyone Can Operate It

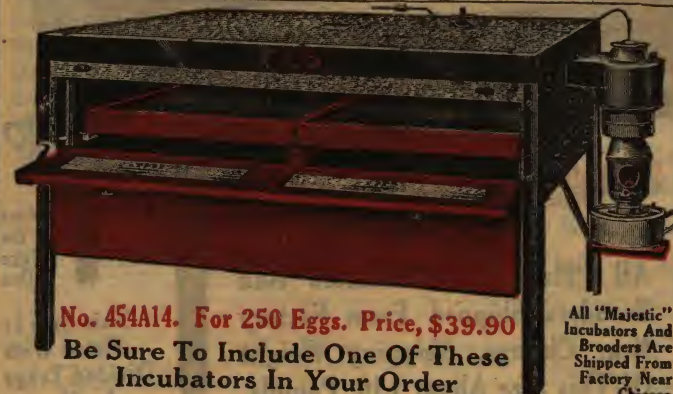

The "MAJESTIC" is so simple in construction and so easy to handle that any woman or child can make money without calling on the "men folks" for help. Just follow our plain directions that we send with each "MAJESTIC" Incubator and you simply can't go wrong. Take advantage of our liberal easy-to-pay credit terms.

INCUBATOR LAMP. We furnish first class safety lamp. The bowl is stamped out of one solid piece of metal, guaranteed not to leak and so constructed that gases formed in the oil are carried off at all times. Lamp is equipped with a heavy, solid brass sun-hinge burner and metal chimney with window so lamp flame can be seen without removing chimney. Lamp is held in position by a handy, convenient, substantial lamp bracket.

THE REGULATOR. All "Majestic" Metal Covered Incubators are guaranteed to be thoroughly satisfactory in its action, and when properly adjusted will keep the temperature of egg chamber at the proper point. This regulator is very simple and easy to operate.

THE THERMOMETER. With every "Majestic" Metal Covered Incubator we furnish a high class, tested incubator thermometer and thermometer holder. We are very particular with these thermometers—they are tested and guaranteed to be absolutely correct. The thermometer holder is very convenient and holds the thermometer in the proper position at all times.

EQUIPMENT. We furnish very strong and substantial egg trays. The bottom of the egg tray is made of heavy hardware cloth, not fly screen, is strong and substantial and will last as long as you will want to do hatching. With each incubator we send a complete instruction book, telling how to operate incubator successfully, how to produce hatchable eggs and care for them, and other information concerning poultry breeding.

"Majestic" 85 Chick

Hot Air Brooder

\$14⁹⁵

THIS BROODER is constructed so that it operates with perfect satisfaction and is adapted for indoor use. It has a very strong, substantial wooden top to which is fitted hinged top door with large glass panel.

THE LAMP BOX and heater are entirely enclosed. Fumes from the lamp can not get to the chicks and the brooder is built so that there is a perfect circulation of fresh air at all times. It is heated by hot air, over head, heating pipes made of galvanized iron.

THE FLOOR of the brooder is elevated off the ground, which insures dryness. This brooder is divided into two compartments. The hover is directly under the heating pipes, while the exercising room is in front next to the glass window. The top of the brooder has a pane of glass, admitting light and sunshine. The top door that covers the exercising room of the brooder swings on hinges so that it can be opened easily and makes the entire inside of the brooder accessible for cleaning purposes. A complete lamp, thermometer and directions accompany each brooder.

Don't Forget To Order A Brooder When You Order Your Incubator

Remember, raising your chicks is even more important than hatching them. You can't trust to an inferior Brooder, but should order your "MAJESTIC" Brooder at the same time you send to us for your "MAJESTIC" Incubator in order to have the complete equipment all ready. Delay is always dangerous in poultry raising. Better be safe than sorry—get your Brooder order in early.

A Fine "Majestic" Hatch

Here is the picture of a most enthusiastic admirer of our Incubators and Brooders. This customer has found that the "Majestic" lives up to our description in every particular, and he has been able to make substantial profits from poultry raising.

The "Majestic" Brooder Equals The Quality Of "Majestic" Incubator

That's the best assurance you could possibly have that our Brooders are absolutely right. They are built on honor, strictly up to the high standards of our famous Incubators. Some makers of Brooders do not regard them as worthy of the same effort that they put into their hatching outfits, but we do not make that mistake. Our Brooder Guarantee protects you fully.

For Every Poultry Raiser

125 Chick Size, \$15.75
225 Chick Size, 19.90

THIS "MAJESTIC" BROODER in either the 125 chick or 225 chick size is a splendid brooder for every poultry raiser's use. It has always given the very best of satisfaction. It is well constructed, provided with plenty of light, convenient and perfectly safe. Divided into two compartments. The hover is that part of the brooder which is directly under the overhead, hot air, galvanized iron heating pipes and is separated from the exercising room by a heavy felt curtain so arranged that the chicks can go back and forth without any trouble. The exercising room is in front of the brooder and has two large panes of glass, thus affording plenty of light and sunshine. The top of the brooder is covered with galvanized iron and so arranged that it cannot leak. The door is hinged to the top, which makes it convenient to get at all parts of the brooder for cleaning or other purposes. The floor of the brooder is raised off the ground, which insures a dry floor. These "MAJESTIC" Brooders are provided with ventilators, safety lamps, thermometer, and complete instructions for operating. "MAJESTIC" Brooders are hot air heated. The lamp box and heater are entirely separate from the brooder. The heater and pipes are so constructed that no fumes from the lamp can get into the brooder. Our "MAJESTIC" Brooders are handsomely finished with high grade varnish. Prices of both the 125 chick and 225 chick sizes given below.

SUBSTANTIALLY MADE of strong, galvanized steel. The tank itself has a large capacity, holding fully eight gallons of water. The chickens can drink all around the fountain, and the water is supplied automatically as the chickens drink. There is a brass screw plug at the top through which the tank is filled. Each fountain is equipped with a special "Majestic" Heater, which consists of a brass burner especially constructed and adapted for the purpose of heating, and which requires no chimney. There is a reservoir for the lamp which will hold a good supply of coal oil. It warms the water in the fountain and helps keep the chicken house warm and at an even temperature. Shipping weight, about 20 pounds.

Will Be Pleased With It

Picture Above Shows Wall Feed Hopper

THE WALL FEED HOPPER is made of galvanized steel and can be attached to the wall of the poultry house and set any distance desired from the ground to accommodate small or grown chicks. Being attached to the wall it prevents dirt from mixing in the feed. Has hinged door for filling. Measures 24 inches long, 6 inches wide and 6 inches high.

THE FOUNTAIN is made of galvanized steel in two pieces and can be easily taken up and cleaned, the bottom being entirely separate from the top. Water is automatically fed into the trough as the chicks drink. The trough extends entirely around the fountain and will accommodate a dozen or more chicks at one time.

GRIT AND FEED BOX is made entirely of galvanized steel with a hinged slanting cover so constructed that fowls cannot roost upon it. It has three compartments which are automatically supplied, eliminating waste and keeping the grit, oyster shells and charcoal clean and sanitary. Shipped from factory near Chicago. Shipping weight of complete set, about 12 pounds.

HANDY "MAJESTIC" ALL PURPOSE SPRAYER

Will Produce Real Results.

**Has An Automatic Shut-Off
Solid Brass Nozzle With An
Especially Constructed Spray Cap**

\$6⁹⁵

THE "MAJESTIC" SPRAYER can be used in a multitude of different ways. Do you want to spray your fruit trees? Here is the very outfit for you. Is it necessary to spray your cattle? The "Majestic" Sprayer will give them instant relief. Look around your barns, chicken houses, hog sheds and other outbuildings, and you will find where the "Majestic" All-Purpose Sprayer can be made useful and earn its purchase price over and over again in a short time. Some of its many superior features are: Perfect simplicity and all-round reliability. Easily taken apart for cleaning. It is light and convenient to handle. All parts of high standard quality. Less spraying material required. More ground covered in less time. Contents kept continually and thoroughly well mixed. Same pressure at all times. Every drop sprayed out of tank. Diameter of bottom so accurately proportioned to the working strength of the tank that it is practically impossible for it to burst. Tank made of high grade galvanized steel with lock seam and hand riveted, removing the necessity of safety valve. For further details see paragraph below.

WORKING PARTS made of brass. Seamless brass tubing pump, with high grade three-ply rubber tubing. Automatic shut-off solid brass nozzle, with an especially constructed spray cap. In operation the air is pumped into the bottom of the tank while spraying, and in this way the air is forced through the liquid and keeps it in motion, thus preventing any settling at the bottom. Gives splendid satisfaction when spraying on trees, vegetables and cattle. A sprayer that we are proud to have included under the famous "Majestic" name. Shipped from Chicago warehouse. Shipping weight, about 10 pounds.

Pail Or
Bucket

FOOT REST

made of malleable iron. If you have a small job of spraying where it won't pay to handle a big quantity of mixture in a barrel, then put mixture in a bucket, slip the stem of pump through upper part of foot rest and hold it firmly in place in the bucket by placing foot on lower part of rest. See small picture below showing foot rest in use.

Handy
For
Spraying
Bordeaux
Mixture

BORDEAUX NOZZLE

is made entirely of brass with a threaded connection for standard quarter-inch pipe.

**The Big Capacity Combination Barrel
Or Bucket Sprayer That Will Make
Short Work Of Any Big Job You Have**

\$3⁹⁸

THIS "MAJESTIC" Sprayer should be on every farm. You can handle the contents of a 50-gallon barrel all at one time. If you wish to do only a small amount of spraying, you can fill a bucket and use the sprayer by adding the special foot rest which comes with the outfit. This foot rest is not to be used when spraying from barrel. Light in weight. The pump is double acting and works in an up and down stroke, insuring an even stream at all times. Pump handle works easily and is just the right height. The three nozzles furnished with pump enable you to do all kinds of spraying.

MADE OF brass, except handle and foot rest, which are made of heavy malleable iron. Pump body made of heavy, seamless brass with heavy barrel plunger, brass ball valve, easy working lever, handle, heavy foot rest and barrel plate. Fitted with strainer, which prevents clogging. Has brass stuffing box packed with cotton, which prevents any overflow or leak at top. Equipped with 3½ feet of heavy rubber hose, and three solid brass nozzles—one straight stream, one for coarse spraying and a Bordeaux nozzle. Shipping weight, about 12 lbs.

Use A "Majestic" Cider Mill
On Your Farm And Prevent
Waste. Quickly Pays For Itself

\$19⁸⁵

ON MANY FARMS

there is great waste in the matter of the apple crop. There is hardly a farm without some apple trees, there is hardly an apple tree under which apples are not allowed to rot and decay. Save money by preventing waste and gather up these windfalls. Use a cider-press and eliminate all waste. The proceeds from cider mills on the ordinary farm is just like finding money. Economical people are utilizing every means of eliminating waste. This "Majestic" Single Tub Cider Mill is an excellent outfit for family use. Both the quantity and quality of the work it does is very satisfactory. Tell us to include one of these handy cider mills in your order. If it pleases you, as we feel sure that it will, you make your payments as explained in detail on page one of this catalog. If, on the other hand, you are not thoroughly satisfied with this cider mill in every way, you may return it at our expense and we will refund your money. Hartman's guarantee itself would protect you against disappointment, but this offer to ship on 30 days' free trial places the whole matter in your hands. That is the fair, square Hartman way of dealing, which assures positive satisfaction to the purchaser.

WITH THIS

"Majestic" Outfit it is entirely unnecessary to halve or quarter the apples. Both the mill and tub are made of the best material. The frame is of hardwood and the working parts are made of the best grade of iron and steel. There is also a steel press screw. This "Majestic" Single Tub Cider Mill has a large hopper and wide throat, and has a large balance wheel which insures easy running. The tub is especially designed, and is accurately proportioned to the size of the machine. Under Hartman's Wide Open Liberal Credit Terms you can buy this splendid outfit with 30 days' free trial, and your payments extend over a full year. You will find it a very profitable investment, and it has a capacity of from one to two barrels of cider per day. Consider the low price we are asking for this cider mill and you will certainly agree with us that it is a great bargain. Like all other Hartman merchandise this article is sold upon our wide open credit terms. Has "positive force feed." Size of tub 10½ in. high by 11 in. diameter. Shipped promptly from factory near Chicago. Shipping weight, about 130 pounds.

DOUBLE TUB CIDER MILL

\$24⁷⁵

This Mill Is Very Economical,
And Every Piece Of Material
Is Of The Highest Grade

"MAJESTIC" CIDER MILLS are real profit makers. There is always a ready, profitable market for apple cider and vinegar. A very few gallons will pay for your cider mill. When you consider that a cider mill is something that a child can operate and that the children on the farm can gather up the apples and add to your income without interfering with the ordinary farm work, you must see that a cider mill on a farm where there are any apple trees at all, is an actual pressing necessity. Like all other "Majestic" outfits the keynote of this "Majestic" Double Tub Cider Mill is simplicity. This mill is very economical, and every piece of material which enters into its construction is of the highest grade. Take advantage of our very liberal credit terms and order this practical cider mill sent to you.

IT IS STRONGLY BUILT

and guaranteed to give satisfaction. The frame is of heavy hardwood strongly bolted together, and the working parts are made of the best grade of iron and steel. All the parts are perfectly proportioned, and you can easily and thoroughly crush either large or small apples, and you can readily take out all the juice. There are two tubs which are specially designed and accurately proportioned to the size of the machine, and there is a large and convenient hopper. As there are two tubs with this outfit, you can press one while filling the other which is a very convenient arrangement. You will find this outfit a useful addition to your farm, and it has a capacity of from two to four barrels of cider per day. "Positive force feed." Tubs are 10½ in. high and measure 11 inches in diameter. Shipped from factory near Chicago. Shipping weight, about 155 pounds.

THIS IS a strong, reliable and efficient outfit. There is a strong malleable frame with handles adjustable to height of operator. There are five teeth, two hoes, and right hand plow. There being five teeth, instead of three, allows very close work and leaves the ground so level that no rake is needed. The teeth are made of chilled metal with the face chilled very hard, giving great wearing qualities. Consider the low price we are asking for this cultivator and you will certainly agree with us that it is a great bargain. A strong, reliable and efficient outfit needed in every garden. Be sure to include it in your order.

THIS CULTIVATOR will be found a great time and labor saver. The various attachments are quickly interchanged to suit the kind of work to be done. The attachments consist of a right hand plow for hilling or furrowing; two hoes for weeding, and five cultivator teeth for cultivating and harrowing. The advantage of having five cultivator teeth will be apparent to all who have used a 3-tooth cultivator. Five teeth not only cultivate closely but they also leave the earth level and in good condition. This cultivator is well built. Handles are adjustable so that it may be used with equal ease by tall or short persons. It is fitted with a single wheel, is strong, light and durable, and fully guaranteed. Shipping weight, about 20 pounds. No. 453A107. Price.....**\$5.98**

"MAJESTIC" COMBINATION OUTFIT AT A SAVING

THE HILL DROPPER will deposit seed in compact hills 9, 12, 18 or 36 inches apart.

THE DRILLS have shoe opener which deposits seed in a narrow line allowing close cultivation.

THE CULTIVATOR has five teeth, two hoes and a right hand plow. It can be used as a double or single wheeled implement, either with two wheels working straddle the row or later with one wheel working between the rows.

THE FEED. You can handle phosphates with this "Majestic" Feed. When you use the combined implement for working the crop, the drill part can be entirely separated from the cultivator by simply removing four small bolts.

THE TEETH have the face chilled very hard, giving great wearing qualities.

RAKE AND HOES. "Majestic" Hoes leave the ground level and do not leave the roots exposed. Shipping weight, about 50 lbs. No. 453R44. Complete outfit.....**\$19.95**

"MAJESTIC" STEEL HARROW

\$12⁹⁸

**Has Compound Lever, Expander
Wheel And Outside Handle Braces**

THIS OUTFIT is very convenient for working close to small plants. It thoroughly pulverizes, but throws no dirt on the plants. It is also used as a straight diamond tooth harrow, also as a smoother with sharp points down in order to cut and level the surface. The tooth with sheared end down is less liable to injure young plants when smoothing them over.

In putting on outside handle braces, the harrow should be expanded its full width and the braces are then easily bolted on. Shipping weight, about 65 pounds. Shipped from factory in Northern Ohio. No. 453A97. Price, only.....**\$12.98**

BUY A "MAJESTIC" ADJUSTABLE FARM GATE

Measures 12 Feet Long And 4½ Feet High

THE "MAJESTIC" Farm Gate can be adjusted to any height or any angle by the use of an adjusting pin at iron flat to the ground by removing this adjusting pin. Even when the post is not perfectly upright, the gate will swing on the level, and even if the post sags you can at all times keep the gate from dragging on the ground. The "MAJESTIC" Farm Gate can be lifted over any obstruction due to its special adjustment. We feel sure that you will be well satisfied with this article.

STANDARD SIZE "MAJESTIC" farm gate measuring 12 feet in length and 4½ feet high. Very rigid construction, being made of five strong boards, each 6x1 inch, firmly bolted together with 1x½x¼ inch channel irons and braced with 1x¼ inch strap irons securely fastened together with ¾ inch bolts as shown in the illustration. This farm gate is nicely painted. Furnished with two hooks on which to properly hang the gate. Shipped from our Chicago warehouse. Weight, 120 lbs. **No. 453A126. Price.....\$6.95**

A Very Scientifically Constructed "Majestic" Cattle Dehorner

VERY EFFICIENT. This article is very efficient for dehorning your cattle. It is a recognized fact that dehorned cattle are easier to handle than those with horns. They feed better and fatten more quickly. You will, furthermore, find that dehorning improves the appearance of your herd. It is agreed among modern up-to-date farmers that dehorning cattle increases the value of your stock and it is far more humane to remove the horns than to permit your cattle to injure and annoy each other. The "Majestic" dehorner is devised along scientific principles. Its operation is simple. This "Majestic" dehorner is especially suitable for medium to large size horns; will do small work in an efficient manner. It has an opening 3x3 inches in size and the length is 3 feet. It possesses the most powerful leverage known. The famous "V" blades cut all around the horn. It has proven its worth among many thousands of users throughout the world. This "Majestic" dehorner carries our unqualified guarantee of satisfaction. Shipped from factory in Eastern Illinois. Shipping weight, about 15 lbs.

Made Of Very Fine Quality Crucible Steel. Length 4 ft. 6 in. Easy To Operate

Is 2¾ Inches Wide At The Point End

Is 7½ Inches Wide At The Butt End

THE "MAJESTIC" One-Man Saw is well made of 15-gauge crucible steel. It is 4 ft. 6 in. long and the teeth are arranged in sets of two, alternating with a drag or raker. Saw is ground flat in a careful manner so that its thickness is uniform, making it free and easy to operate. There is a top handle and an end handle made of selected beech. The end handle has comfortable grip, as shown, and is fastened to the blade by two brass screws and a brass medallion. End handle is 8¾ inches long and 5¾ inches wide and will not become loose or wobbly. **No. 453A178. Price..... \$4.95**

JUST RIGHT for cutting logs, poles, railroad ties, bridge timbers and other lumber into suitable lengths, so that they can be easily handled, or so they can be used conveniently on a power-sawing outfit. An excellent saw to use in connection with cutting timber, a number of boards or planks at one time when you are building, putting in culverts or curbing. For real heavy work, which requires a two-man saw, we refer you to the lower half of this page. Shipped from Chicago warehouse. Shipping weight, about 7 pounds. **\$4.95**

Majestic Two-Man Cross Cut Saw For Only \$8.97

Made Of High Quality Crucible Steel. This Saw Measures 6 Feet Long. Teeth Arranged In Sets Of Two Alternating With A Drag

Order It

THE FIRST ESSENTIAL in manufacturing a cross-cut saw is the material used in the blade. It must be hard and tough so as to prevent the teeth from bending or easily becoming dull. It must withstand hard knots and obstructions; should file and set readily and must not be brittle. These are points that have been carefully looked after in this "Majestic" Two-Man Cross-Cut Saw. It is made of high quality crucible steel and measures 6 ft. long. It is warranted to be of perfect temper and construction. It is an ideal saw to use for the heaviest kind of work. **No. 453A179. Price..... \$8.97**

THIS SAW has two handles made of selected, thoroughly seasoned hardwood stock carefully shaped and easily attached to the blade in a manner that makes the handles absolutely rigid and secure. The "Majestic" Two-Man Cross-Cut Saw has a straight top edge with a curved tooth edge. The blade is especially ground and polished and will not bind in green or wet wood. Blade is 14-gauge at the cutting edge and 16-gauge at the top. The teeth are arranged in sets of two and alternate with a drag or raker. Shipped from Chicago warehouse. Shipping weight, about 14 pounds. **\$8.97**

This Farm Forge Can Be Ordered With Or Without Hood

THE CONVENIENCE

of a forge upon the farm really deserves no comment, because its advantages are almost self-evident. And yet, there are many who, merely through the fact that they have never given this any particular thought, wait until their implements need repairing before considering the purchase of an article of this type. By deferring the purchase of a forge they are compelled to take their tools to some repair shop, thus wasting their time and going to an unnecessary expense to have the work executed. This forge has a deep cast iron hearth mounted on steel pipe and legs. The lever operated steel fan has a tuyere plate which is so perforated that it insures an even spread of the blast, adding to the efficiency of this well-made scientifically built farm forge.

THE ADVANTAGES

of the hood are manifold. For all ordinary purposes perhaps the wind-shield is sufficient; and yet where the forge is used out of doors a very high wind may cause sparks to fly and scatter the fire. It is apparent that when the hood is placed with the back against the wind it will minimize this objection. Where the forge is used inside, the hood can be equipped with a pipe leading to the smokestack, thereby permitting the smoke to be carried out into the chimney. It further prevents the sparks from flying around the room, and carries off the fumes and gases arising from the fire. This hood is made of sheet metal. Is rigidly attached to the iron hearth and will give excellent service, being guaranteed in every way. May be ordered with or without hood at prices quoted below. **\$13.95**

"Majestic" Repair Outfit Well Made for Service

COMBINATION OUTFIT.

A combination outfit such as this one will pay for itself many times over in the time that it saves the owner, as well as the actual saving in money that it will effect through the work that it will perform. It combines a forge, anvil, drill, hardy, vise, tool pan and pipe jaws. This outfit is indispensable to the up-to-date farmer who is generally a considerable distance from a repair shop. It enables the farmer to economically repair his machinery and equipment and to always keep them in a highly efficient state. It is devised and built to perform hard, heavy and practical work and will prove to be a boon to the man who desires to secure the utmost in profits from his farm. Why pay others for doing the work that you can do yourself?

WHY WASTE THE TIME

of taking your machinery and tools to town when you can repair them on your premises, to say nothing of the loss that it means to you, because of the delay that would be entailed by so doing? Frame of this repair outfit is steel, solidly braced with center shelf, tools, oil can, etc. Forge is oval in shape 12x15 inches and 27 inches above floor. Fan is 7 inches in diameter and is driven by accurately cut gear and pinion. Anvil is 12½ inches long by 3½ inches wide. Vise has jaws 3½ inches wide and opens to 11 inches. Pipe jaws will take pipe up to 2 inches in diameter. Drill chuck is steel and will take ½-inch round shank drills. Height overall, 36 inches, length 31 inches. This outfit is shipped from factory in Northern Illinois. Shipping weight, about 145 pounds. **\$31.95**

ITS USES are almost without number. It is an article which is so handy that once you have used it you will wonder how you ever managed to get along without it. It is practical and serviceable as well. The farmer's wife will find it the very thing for quickly cutting large quantities of minced meat, hash, scrapple, hamburger steak, hogs head cheese, croquettes, chicken and lobster for salads. Will also be found very handy for chopping suet, tripe, codfish, clams, peppers, cocoanuts, meat for beef tea, scrap meat for the poultry, corn for fritters, stale bread and crackers for crumbs, etc. It is just the correct size for household use and is built for real long, lasting service.

SCIENTIFICALLY MADE. There is a four-blade steel knife revolving against the inner surface and perforated steel blade which cuts sharply like a pair of shears. With this handy outfit you can quickly and easily cut up all foods which are usually passed through a meat and food chopper and you can accomplish this in such a thorough way that each piece will retain all of its original juice and flavor. The best materials and workmanship enter into the construction of the "Majestic" food chopper. Capacity about 3½ pounds per minute. Shipped from Chicago. Shipping weight, about 12 pounds.

THIS IS an outfit that is much needed in every home for its uses are so many and the convenience it affords to the housewife is so great that no kitchen is properly equipped without it. It is an excellent press for fruit, lard, jelly, etc., and is made in the very best manner of splendid materials. The very best workmanship has been used in its manufacture and it is well finished in every way. The cylinder is made of exceptionally heavy tin plate, while the screw is of cold rolled steel threaded in a way that gives very powerful pressure. The "Majestic" Fruit Press is finished in good enamel, baked on in an expert manner which gives it a very neat appearance. You cannot get a press that will be more effective in extracting all the juice to the last drop than the "Majestic" we are offering you here. Gives you the advantage of every drop of juice in your fruits. It is an ideal outfit in every sense of the word.

NOTICE HOW FIRM and strong this "Majestic" Fruit Press is constructed. It was especially designed to prevent waste and is exceptionally easy to operate. There is nothing complicated in its construction and there are no parts that can easily get out of order. We feel sure that the "Majestic" Press will earn its purchase price for you and pay for itself over and over again while you are paying us for it. You will find it a very useful outfit and one that is built for long, lasting service. There is no slipping and no weak pressure, because the steel screw has well cut threads that result in the greatest amount of pressure in extracting the juices. Let us ship the "Majestic" Fruit Press to you on our 30 day approval plan, whereby you can try it out for that length of time and if you do not feel entirely satisfied in every way you do not have to keep it. However, we are sure it will give you the best of service and prove entirely satisfactory. Shipped from factory in Northern Illinois. Shipping weight, about 28 pounds.

THE FAMOUS SANITARY "MAJESTIC" CREAM SEPARATOR

MAKES YOUR DAIRY PROFITS LARGER

The "Majestic" Separator Pays For Itself Within A Few Months' Use On Your Farm

THERE is plenty of work for everybody on the farm and anything that saves time or labor is welcome. If you are milking cows, whether your herd is large or small, it will pay you to take advantage of our 30 days' free trial of a Sanitary "Majestic" Cream Separator. Every day that you let pass without using a "Majestic" registers a dead loss on your dairy herd. Get your full share for your hard work and the high priced feed you are putting into your cattle. Stop this waste and make money. A "Majestic" Cream Separator gets practically every drop of cream from the milk and delivers it fresh, sweet, purified and in perfect condition after cooling, to ship long distances or to ripen for butter making. The "Majestic" Cream Separator gives you sweet, warm, skim milk and a perfect, natural food for your calves and pigs, as it has a feeding value equal to whole milk when mixed with a little corn meal or oil meal. It also effects a great saving in dairy work, doing away with the hardest and most disagreeable part; performing in minutes, work which formerly took hours to do.

Look To The Maker As Well As To The Machine Itself For Satisfaction

THERE are two kinds of concerns from whom you can buy a separator. One is the kind who wants merely to make a sale and the other is the kind who wants to make a satisfied customer. HARTMAN'S, with a record of sixty-six years of successful merchandising and with a capital of twelve million dollars, could not afford to experiment with any questionable article. When buying a separator, or any other kind of merchandise, look to the firm back of it and also look at their guarantee. With the "Majestic" separator you have the great firm of Hartman behind the machine and a binding guarantee behind your purchase, assuring a complete satisfaction or your money back. The "Majestic" has won and holds by its own sterling qualities, first place in the esteem of all dairy men who have tried it. It has won its friends by actual use. Let us send you one on 30 days' free trial and let it prove its worth to you. You take no chances.

Just Think What A "Majestic" Cream Separator Means In Increased Profits

MAJESTIC" Cream Separators make profitable dairies more profitable and will in most cases turn a losing dairy into a paying proposition. Dairy men all over the country who are using "Majestic" Cream Separators, are making money by extracting big profits from what formerly was considered waste. They strongly recommend the "Majestic" to every one who is in the dairy business or contemplates going into it, as it makes the dairy the real money maker of the farm. Suppose for example you are milking ten cows, setting the milk in shallow pans or crocks, or using the water diluting system; you are losing, as shown by scientific tests, about \$15.00 a year on every cow, or \$150.00 a year on your herd. In ten years you lost \$1,500.00—a whole lot of money to lose. Using the old method you have the milk house floor covered with crocks and pans which take hours a day to wash. With a "Majestic" Cream Separator this drudgery ceases—no littered floor—no pots—no crocks—only a smooth sanitary supply tank and bowl to wash; a task of ten minutes.

Read This "Majestic" Separator Guarantee. Our Responsibility Is Unquestioned

GUARANTEE ON "MAJESTIC" SEPARATORS

WE, unreservedly guarantee the "Majestic" Cream Separator to be made of the best materials obtainable and to be free from flaws and imperfections of any kind.

WE, unreservedly guarantee it to skim to a trace and to be in every way equal to the catalog description.

IF for any reason whatever, it fails to satisfy you, we will accept its return within 30 days and refund any money paid on it, including transportation charges.

30 Days' Free Trial And A Whole Year to Pay

VERY honest farmer or dairy man in the United States is entitled to 30 days' free trial on any "Majestic" Cream Separator he orders. We mean by this that you need only send us your order according to the terms of our liberal credit plan, as explained on page 1, and we will ship your separator to you with the understanding that if in 30 days it does not convince you that it is the closest skimming, lightest running and most sanitary separator made, you can send it back and we will refund any money you have paid on it, including freight charges. If, on the other hand, you decide to keep it, and we are sure you will be more than pleased with it, you pay a small fixed amount each month until it is paid for. There are no notes—no interest—no mortgages. You can see for yourself that the "Majestic" Cream Separator must be right or we could not make an offer of this kind.

"MAJESTIC" SUPERIORITY

20 REASONS WHY THE SEPARATOR YOU BUY SHOULD BE A "MAJESTIC"

BUILT FOR LIFETIME SERVICE—SIMPLICITY THE KEYNOTE

Long Life For The Working Parts

HERE are manufacturers who will tell you how nice their separators look, how carefully they are finished and how beautifully they are painted. If they can interest you in the outside of the machine you won't think of the inside—that's their point. We want you to know all about the inner working parts of the "Majestic" because we want you to see that the mechanism of the "Majestic" makes this separator one of the easiest running, longest lasting and most economical separators ever built. Simplicity is the keynote of design and construction of the "Majestic" and as a result, it is a separator that is easy to clean and easy to operate.

The Improved Oiling System

ONE of the most important features of a cream separator is the oiling system. A cream separator is a high speed machine and it is, therefore, of the utmost importance that its working parts be perfectly lubricated. The oiling system of the "Majestic" separator is one of the easiest, surest and most perfect ever devised. There are no exposed oil cups. No oiling whatever from the outside. The famous "Majestic" automatic, "inside splash" oiling system, whereby all lubricants are encased in metal, makes it absolutely impossible for the slightest particle of oil to touch the cream, and the system is so perfectly devised that only a small quantity of oil is required.

Nothing To Get Out Of Order

SEPARATOR that is easy to operate, easy to clean, sanitary and hygienic, is the separator that will give good results with little attention and care. The "Majestic" will last a very long time because it is free from delicate pieces of mechanism that succumb to wear and usage. Remember this all-important feature of simplicity when you are choosing your separator. Remember, too, that CLEANLINESS and hygiene are essential factors. When you are sure you have a separator that is easy to operate, easy to keep clean and separates a HIGH PERCENTAGE OF CREAM FROM ANY GIVEN QUANTITY OF MILK, you can be sure you have the separator you want.

Here Is The Real Test

HERE is the real test of superiority: Put a "Majestic" cream separator along side of the separator you are now using or any other separator you have in mind. Use the two machines side by side. We will send the "Majestic" to you to prove that—the "Majestic" will skim more cream from your milk; that the "Majestic" will run lighter and easier; that the "Majestic" can be so easily cleaned and kept clean that you will have no patience with any other make of separator. You owe it to yourself to make this genuine practical test and under the terms of our guarantee and 30 days' free trial plan, you should not hesitate to order.

AS EASY TO CLEAN AS CHINAWARE

ELIMINATES ALL DANGER OF TAINTED CREAM

EASY TO RUN—SKIMS TO A TRACE

How The "Majestic" Makes More And Better Cream

It is a scientific fact that cream is composed of fat globules. These globules are tiny sacs containing the butter-fat. When these tiny sacs are broken by the unscientific devices in other machines, the fat runs together and the quality of your cream is depreciated. The grade of butter produced is not so fine as butter made from unbroken cream. It is this extra quality insured by the "Majestic" that adds to the value of the cream and butter produced. Cream separated by ordinary machinery is broken to such an extent as a rule, that the extra or finest grade of butter cannot be made from it. This is an extremely important reason why the "Majestic" is a big money-making investment for you.

Lessens the Work for the Housewife

The care of the Dairy generally falls to the housewife, who has enough household cares to occupy her time without washing pans and crocks, and cleaning up a dairy floor. Get a "Majestic" cream separator and relieve her of unnecessary drudgery and she will take a real interest in the dairy. Remember, in doing this you are not going to any unnecessary expense at all, because you will be making a great saving in both time and labor that will mean extra profits. These extra profits alone will more than pay for the machine in a short time and the "Majestic" Separator will continue to bring in profits for years. The women folks on a farm work hard! Lessen their work—give them more time to rest! Install a "Majestic" separator—the simplest—smoothest running and cleanest skimming machine in the country. Every "Majestic" that goes out is tested and has proven itself a "master skimmer" and must sell itself to you by its own merits.

Discs Can Be Easily Cleaned in Anti-Splash Supply Tank

You will find it extremely handy to clean the discs of a "Majestic" cream separator in the anti-splash supply tank, as it is unusually large and well formed. Being flat on the bottom it rests firmly on the table and cannot easily be upset during the time you are rinsing and brushing the discs or cream spouts. The washing of the "Majestic" discs can be done in almost no time at all, because they can be taken from the separator by a simple operation and reassembled in quick order after cleaning.

Special "Majestic" Skimming Bowl with Disc

It is the very heart of the machine. Here is where the real work of separation is done. The secret of the exceptional skimming ability of the "Majestic" lies in the construction of the inside parts—the vitals—of the bowl. Most separators have either the disc bowl or wing bowl. Our bowl is a combination of both! It is both a disc bowl and a wing bowl. The principle of the disc is obviously important, as its very construction makes for perfect skimming. You have the explanation for this in the fact that cream rises quicker in a flat, shallow pan than it does in a tall, narrow one. But the milk in the bowl moves slower than the bowl moves. This results in lost motion. To eliminate this lost motion there must be something to accelerate the milk. There you have the reason for our use of the wing feature. The milk cannot lag behind without meeting the wings, which push it along, bringing about the full separation quicker.

Unique Helical Self-Lubricating Gears

The gears constitute the mechanism driving the bowl. The successful operation of a cream separator depends upon the gearing. "Majestic" gearing is the most remarkable gearing mechanism ever put into a cream separator. The large master drive gear is of the famous helical design. It was invented in France and is the only gear suited to high speed machines. It costs us a great deal of money to use this ingenious gear, but we have spared no expense or effort to surpass all other separators. "Majestic" gears are few and uniquely simple. There are no complicated gears as on ordinary machines—only gears absolutely necessary to efficiency and high speed.

Wonderful "Majestic" Triangular Neck Bearing

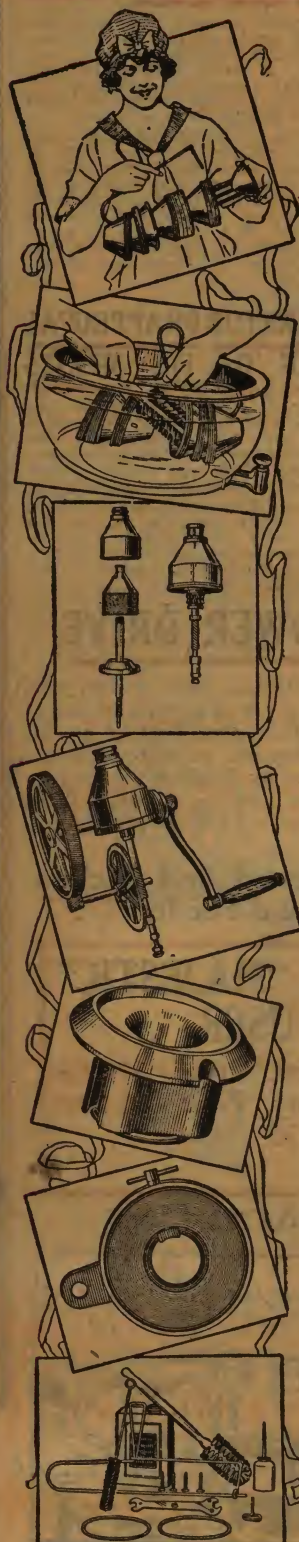

The vital importance of the neck bearing is seen in the fact that its purpose is to allow a little vibration of the bowl when coming up to speed. All separators have some sort of spring to allow the bowl a certain amount of play. Without this play the terrific speed of the bowl spinning at the rate of about 8,400 revolutions per minute would soon tear the machine to pieces. We do not use the old style spring in the "Majestic." We have perfected a striking improvement in the "Majestic" neck bearing that makes greater efficiency and reliability than the old methods. It is the real neck-bearing device that allows so ideally the play needed by the bearing with the bowl in such perfect balance. The "Majestic" one-piece neck bearing is triangular in shape, absolutely reliable and gives lasting service. There are no complicated parts to get out of order or to puzzle you. Be sure of the neck-bearing when you buy a separator.

Combined Pail Support and Bowl Vise

This is another special feature of the "Majestic" cream separator. It combines a cream pail support and bowl vise in one piece. It is hinged onto the side of the separator and can be swung back out of the way or placed in position to support the pail for cream. The bowl vise is arranged in the center of support and by tightening hand screw the bowl is held firmly in position. This arrangement is very convenient for removing the bowl top nut and for easily taking the bowl apart for cleaning and reassembling. You will see that we have not overlooked a single detail which would make for your convenience and satisfaction. The most minute points have been thought out by efficient experts and every improvement which has been made, has been first carefully discussed and considered by the most competent manufacturing authorities on cream separator production.

Accessories and Tools Included Free

With every "Majestic" cream separator we include free a complete set of accessories, consisting of: 1 pint can of the best separator oil; large, well made squirt type oil can; large, durable disc brush; twisted wire spout brush; rack to hold the discs while washing and drying; 4 lag screws so that machine can be bolted securely to the floors; skim milk wrench to regulate the flow of milk; bowl top nut key, and one stout screw driver.

HOW TO BUY "MAJESTIC" CREAM SEPARATORS

THE RIGHT SIZE TO BUY

WHEN placing your order for a "Majestic" Cream Separator it is to your advantage to order a machine a little larger than your present requirements would indicate, as the probabilities are that you will increase your herd of cattle from time to time and then the small machine would have to be replaced by a larger one. It is a known fact that most every farmer who buys a second cream separator always selects a larger size than he had at first, even if he is milking the same number of cows. The reason for that is that a larger size separator does the work much quicker and allows more time for work in the field. For your guidance we recommend the following sizes:

For a herd up to four head use 375 lb. Separator.
For a herd of 4 to 8 head use 500 lb. Separator.
For a herd of 8 to 12 head use 750 lb. Separator.
For a herd of 12 head and up use 1,000 lb. Separator.

ALL PARTS STANDARD AND INTERCHANGEABLE PROMPT SERVICE ON RENEWALS AND REPAIRS

ONE of the greatest achievements of the engineers who designed the "Majestic" Cream Separator, was to standardize it, that is, they made each part so accurately that repair parts fit exactly without any alterations and can be installed by the most inexperienced person. We carry on hand a complete stock of repair parts ready for immediate delivery, so there is no chance of your being delayed in the event of needing a new part. Don't buy any machine unless you have this assurance—you are entitled to prompt service, and you should get it. Our instruction book gives the name and number of each part. You can't make a mistake.

THE "MAJESTIC" PULLEY FOR POWER DRIVE

If you wish to have your cream separator operated by a gasoline engine, then you should purchase one of our "Majestic" Cream Separator pulleys. It is a friction clutch type, which gently brings your separator up to speed, no matter what kind of power you use. It is very simple to attach. When this pulley is shipped, we also send the usual crank handle, so that you can use your separator either by hand or by engine power, just as suits you best. Pulley is 13 inches in diameter and has $2\frac{1}{2}$ -inch face. The small extra charge of the "Majestic" Cream Separator pulley is \$6.75. Order pulley by No. 452R5.

Order Your "Majestic" Cream Separator Now. It Is Already Tested And Packed At Our Warehouse Near Chicago—Waiting For You To Send For It.

FOR OUR LIBERAL CREDIT TERMS SEE PAGE ONE

YOU ARE TO BE THE JUDGE

YOU ARE the one who is going to use the separator—not the manufacturer. What he claims for his particular separator and what it actually does for you are two different things. A mere catalog in your hands is no assurance that a separator is going to be the one you need and want. You don't care what Mr. Manufacturer or Mr. Dealer thinks of his product or what he says John Jones or Henry Smith thinks of it. It's simply a matter of what you, yourself, can get the separator to do for you. So, after all is said and done, there is only one safe way to buy a cream separator, and that is the same way you buy any "Majestic" farm necessity. It must make good on your own place for you, satisfy you in every way, or you don't have to keep it. We want you to know that all "Majestic" products are sent on approval and that you are the judge of the work it does. See page one of this catalog for our liberal credit terms.

ORDER A "MAJESTIC" SEPARATOR ON APPROVAL AND SATISFY YOURSELF OF ITS MERITS

COMPARE it for simplicity of design and operation. Compare it for sturdiness and durability. Compare it for skimming ability and the condition of the cream when skimmed. Compare it in every respect—then compare it for price. You will see then that the price of the "Majestic" is amazingly small. True, you can get a cheaper separator—but can you get as much real separator value for every penny as you get in the "Majestic"? If we were a firm only in ordinary circumstances—if we did not have the purchasing power of Twelve Millions of Dollars, we could never produce a separator like this and sell it for anywhere near the price.

Dependable Paint and Roofing

WHY HARTMAN'S CAN SELL HIGH GRADE PAINT AND ROOFING AT BARGAIN PRICES

It is a very easy matter for a manufacturer to say that his particular paint or roofing is the best in the world. But it is a very different matter for him to prove to his customers that they are the best.

The final test for paint and roofing is in the length of time they wear. For instance, a certain paint may look very fine when it is first put on a house or barn. It may have a beautiful color and shiny luster and to all outward appearance be as fine a paint as anyone could want. But wait. A few terrifically hot days come along. Then it clouds up and rains for a day or so. Again the sun comes out blazing hot and you notice something looks wrong with your nice, fresh coat of paint. You examine it and find that it has begun to blister and peel off. Also, it has begun to fade. You touch it with your finger and find that you can rub it off—that it is more or less powdery. It wasn't such a very good paint, after all, was it? No.

And why? Well, in the first place a poor grade of color pigments was used and also a cheap grade of linseed oil. The pigments were improperly ground, hastily mixed with the oil and the whole mass run off into barrels and kegs and cans, labeled and put on the market as "Fine Ready-Mixed Paint!" No wonder it blisters, cracks, peels off and fades. That kind of paint always does. It may have the color, the luster—the appearance—of good paint, but it does not possess the wearing and preservative qualities.

Practically the same thing may be said about ready roofing. There are no end of different makes and brands of roofings on the market. They all look a great deal alike. But again the final test is in the length of service they give. Nine out of ten warp, crack, get dry and brittle in a few months after they are laid. They can't stand the test of time and weather. A leaky roof is bound to result and they are a constant source of trouble and expense.

MADE IN A MODERN, UP-TO-DATE PAINT PLANT

THE FACTORY has been equipped with every labor-saving machine known to Paint Makers that insures efficiency and low cost of production. The factory layout is such that no unnecessary handling of material is ever seen; this means more efficiency and still lower cost of production. All Paints and Varnishes sold by us under our guaranteed "Hercules" Brand are of the highest standard of quality. They are made for us under special arrangements in one of the largest, most modern and most scientifically equipped Paint and Varnish factories. Nothing is left undone to make our guaranteed "Hercules" products the very acme of perfection, and we know that in offering our customers guaranteed "Hercules" ready-mixed House and Barn Paints, Enamels, Stains and Varnishes, we are placing on the market thoroughly high grade paints and varnishes, and we back these products with our reputation of over 56 years of honest and successful merchandising. Guaranteed "Hercules" paints and varnishes are sold on liberal Hartman terms of long time credit.

THE FORMULAS

after which our paints are mixed are old and tried through many years of paint making. This insures a uniform paint all the time. We stopped experimenting years ago and that means more saving. These formulas are worked out carefully by chemists whose specialty has been paint making for years and each kind of paint has a formula of its own. Then, when a paint is mixed according to its formula, the chemist tries some of it, it gets exposed to the weather, it is subjected to sun, rain, heat and cold, and if it appears that any changes in the formula are necessary to better the wearing quality of the paint, it is made, and another trial is given, and so on until the chemist is satisfied that with the proper ingredients he has a paint that is just right, and such are our guaranteed "Hercules" Paints and Varnishes. Not an experiment, but tried and proven products. Order what you want, and pay for it according to our easy credit terms.

THE INGREDIENTS used in the manufacture of "Hercules" Paint and Varnish products are the best money can buy and when we say best we mean just that—best linseed oil, best turpentine, best Japan Dryer, best white lead, best zinc oxide, best dry colors, best gum.

EVERY ITEM of raw material needed to make our paints and varnishes is scientifically tested in the laboratories of the factory by the most expert Paint Chemists of the country and must come up to our high standard of quality before one item of it is allowed to go into the factory.

FACTS ABOUT "HERCULES" GUARANTEED ROOFING

A "HERCULES" Never-Leak Roof is not expensive in first cost. It costs next to nothing to lay; you can do it yourself; after it is down there is no further cost of any kind. No cost for painting, no cost for repairs, you get the roofing cost entirely with the price you pay for "Hercules" Never-Leak Roofing. Every roll you buy is thoroughly guaranteed.

KNOWING HERCULES NEVER-LEAK ROOFING

as we do, knowing the comparative strength of 1, 2 and 3-ply roofing we want to suggest to you that you carefully consider these different thicknesses of roofing before definitely deciding which to order. Remember that while one-ply and two-ply roofing costs a trifle less than three-ply roofing, for the slight additional cost three-ply roofing will return ten times that amount to you in longer wear and better protection to your roof.

TO FIND THE QUANTITY of roofing required for your house, measure the length of the rafters and multiply this dimension by the length of the building; this will give you the number of square feet needed for one side of the roof, double this amount and divide by 100; the answer is the number of rolls of roofing you will need.

AS A commercial rating of A-1 means the best, so does A-1 on guaranteed "Hercules" Ready Mixed House Paint mean the best we know how to make. It means that years of painstaking research, and the results of scientific betterment in paint making have gone into every drop of this paint, and it goes to you under our personal recommendations. In buying No. A-1 guaranteed "Hercules" you are buying the best we have, and we don't hesitate to say to you that we know of no better product in ready mixed house paint and our full guarantee of satisfaction covers every gallon of it.

This is one of many buildings painted with Guaranteed "Hercules" Ready Mixed House Paint No. A-1.

LOOK AT IT as you will, guaranteed "Hercules" Ready Mixed House Paint No. A-1, is unquestionably the biggest paint bargain offered by anyone. First, it is guaranteed by the great Hartman Concern, with every last cent of its enormous resources; secondly, it is sold to you on credit; thirdly, you have a chance while you are paying for it, to watch how well it wears; lastly, the price at which we sell it, is not as high as that of others for paint, which we believe is not as good as No. A-1 "Hercules." For colors in which "Hercules" House Paint No. A-1, can be ordered, see page 384.

DON'T LET YOUR PAINTER at home tell you that paint mixed by hand is better than our A-1 "Hercules" Ready Mixed House Paint. He is mistaken. Our paints are mixed by machinery. The pigments and oils are slowly ground together until every particle is thoroughly impregnated with and absorbed by the other, they are inseparably bound together. This assures greater spreading qualities and a more uniform color.

IT IS ABSOLUTELY impossible to get a uniform color with hand-mixed paints. Your painter lacks the knowledge of the chemist who alone knows fully the chemical action of one ingredient upon another when so mixed together that they are really one substance. You will make no mistake in ordering A-1 "Hercules" Ready Mixed House Paint, made according to a formula which years of experiments have proven to be best. Its covering and protecting qualities are unsurpassed.

HERCULES Porch Floor Paint

Ready Mixed Paint Guaranteed

Ordinary house paint will not do for porch floors, because it is not made for that purpose and will never give satisfaction. Our Hercules Porch Floor Paint is especially made to stand the wear of outdoors. It will resist the destructive influence of rain, snow and ice, and the wear of walking over it. We have combined oils, gums and pigments in such a manner that we produce a tough, hard drying, yet elastic floor paint that is especially well fitted to stand extreme usage. For colors see page 384, and mention the catalog number.

HERCULES Floor Paint

Ready Mixed Paint Guaranteed

Hercules Floor Paint is made to stand successfully the hard usage to which floor paint is subjected. It is quick drying, very elastic and wear-resisting, and is guaranteed to give satisfaction. Make your old floor look like a new one by giving it a coat of fresh new paint, then it can be kept spotlessly clean by simply mopping it with a clean mop and weak soap water. Six different shades shown on page 384. Give name and number of the color you select.

Hercules Mineral Barn Paint No. 1

(See page 384 for Color Chart.)

"CONSERVATION" has become the watchword of the country. Keep your farm buildings in good repair by painting them regularly with Hercules Mineral Paint. This paint is compounded by one of the most expert paint chemists and has all the wood preserving properties that good barn paint should possess. We recommend it especially for Barns, Grain Elevators, Silos and other Structures of like nature. As a wood preservative it is especially recommended. The minerals and oils of which the paint is made are thoroughly ground and re-ground together by modern, up-to-date machinery and you may use it with the fullest confidence that we stand back of it should it not prove all we claim for it. We make this Hercules Paint in two colors: Bright Red and Brown. Be sure and mention the color you prefer.

Hercules Ready-Mixed Shingle Stain

(See page 384 for Color Chart.)

Too much stress cannot be laid on the necessity of preserving your shingle roof and protecting it against the weather. Hercules Shingle Stain is a paint as well as a wood preservative—a combination of pure, strong colors, ground very fine and thinned with refined creosote and oils that double the life of shingles. It is better than paint for shingles, as it does not clog the surfaces; it leaves a clear, non-porous roof, and it will not affect the rain water which runs off the roof into your cistern. Two and one-half gallons of Hercules Shingle Stain will saturate 1,000 shingles, dipping them, or a gallon will cover from 100 to 125 square feet of roof surface when applied with a brush. We furnish Hercules Shingle Stain in 4 colors as shown on page 384. Specify color you want.

HERCULES ROOF PAINT

Ready Mixed — Guaranteed

Hercules Roof Paint is one of the best substances known for repairing roofs and keeping them in good condition. It preserves shingles, tin, iron or felt from the action of the weather and will make an ordinary roof last many years longer. Can also be used for structural iron work, iron tanks, iron shutters, steel bridges, stand-pipes and fire-escapes.

It is an excellent damp-proof coating on brick and concrete cellar walls, when heavily applied on the outside of the wall.

Apply very heavily when painting the roof; a good thick coat of "Hercules" Roof Paint is equivalent to an extra layer of felt.

Comes in black, maroon and green. Will cover about 250 square feet per gallon, one coat.

"Hercules" Plastic Asbestos Roof Cement. Makes Your Roof Waterproof

A plastic preparation that is applied with a trowel to both new and old roofs without a single lap, seam, joint or nail. It owes its permanence as a paint to the fact that it can be applied heavier than paint and also to the chemical inactivity of its ingredients—semi-drying carbonaceous materials which are thoroughly interlaced with long staple asbestos fibres and tempered by chemical fusion with heavy, waterproofing oils that add materially to the life of the roofing.

Unlike felt, metal and similar materials, no cutting, fitting or estimating is required. To lay a roof 1/16-inch thick, approximately 40 lbs. are required for 100 square feet.

No matter how old or worn a roof may be, it can be made absolutely waterproof with a coat of this preparation. It is unnecessary to tear up the old material, as our plastic roofing can be spread directly over any warped or torn portions and will permanently stop the leaks.

"Hercules" Liquid Asbestos Roof Cement. A Gallon Will Cover 50 Square Ft.

This product is similar to our Plastic Roof Cement except that it has a thinner consistency and is applied with a brush instead of a trowel. It must not, however, be confused with a paint. It solves the problem of repairing old, worn-out, leaky roofs without tearing off the roofing for property owners who are continually facing the problem of tearing off their old, worn and leaky roofs and replacing them with another.

It is spread out in one continuous layer without a seam, lap or joint, and there are no nails exposed. "Hercules" Liquid Asbestos Roof Cement never dries out completely. It forms a heavy protective layer on the outside while the material below remains soft and pliable. It never cracks or becomes brittle, making necessary costly repairs. It adheres equally well to cement, wood, metal, glass or felt, and on wet surfaces as well as dry. One gallon will cover 50 square feet. Be sure to order by correct catalog number.

HERCULES Gloss Lacquer VARNISH STAINS

Ready Mixed Guaranteed

This is about the most useful product of the paint industry and is without doubt one of the most wonderful wood finishes ever produced because of its brilliancy of colors and lasting qualities. Is far superior to the ordinary wood finishes. It is so easily applied that the most inexperienced can use it and it is offered at a price so low that it makes it possible for you to make old and scratched pieces of furniture just as good as new at an expense of a few cents, and the finished work will be almost as satisfactory. Indeed, the greatest merit of Hercules Varnish Stains lies in this one quality—that it does not require expert handling to produce satisfactory results. It is put up by us ready for use; nothing is to be added by the purchaser; just open the can, pour a little of the liquid into a saucer or cup and brush it on the piece of furniture or the woodwork you wish to decorate. For further details see opposite paragraph.

HERCULES Enamel

Artistic-Interior-Gloss

HERCULES Wall Finish

Sanitary Flat

This is a high-grade all-purpose interior finish for walls, woodwork, iron beds, baby buggies, reed furniture, wood seat chairs; in fact, it can be used on anything to be finished in any color. It gives a smooth, glossy porcelain finish.

Made in 9 shades as shown on page 384. Dries hard, with a gloss finish, in twenty-four hours. Be sure and order a sufficient quantity of under-coat to put on the first coat of it. Using the under-coat, which is especially prepared as a first coat under white gloss enamel, will make a much better job.

After years of experimenting we have succeeded in bringing out a hard, flat drying oil paint that forever does away with the old-time, unhealthful and unsanitary kalsomine and wall paper for bedrooms, library, pantry or kitchen decoration. Hercules Sanitary Flat Wall Finish is washable; it is economical; its first cost is less than that of wall paper and it will last ten times as long as kalsomine and always look better.

Hercules has all the properties of paint except the high luster, which is not desired in some interior work. Hercules Flat Wall Finish can also be used as a base for enameling, and is superior to all other first coatings. One gallon will cover about 200 square feet. You buy it with our guarantee that it will give complete satisfaction.

Sheep Dip And Disinfectant

1/72 Dilution

A soluble preparation for general disinfecting purposes, for the treatment of certain diseases and for the elimination of parasites with which cattle, sheep, swine, poultry and other live stock are afflicted. Hercules Sheep Dip, if used in accordance with directions, will prevent many diseases, which constantly menace cattle and swine herds. It should be kept on hand at all times by every up-to-date farmer who takes pride in the health and comfort of his cattle. The price is so low that it can be used liberally all over wherever germs are apt to develop. In the stables, poultry houses, farm yards, outbuildings, cesspools and sinks. Order what you want on our easy credit terms.

"Hercules" Fly Stock Spray

Easily Applied

Flies are a source of great harm to live stock during the summer months. An insecticide which will ward off the attacks of these pests will pay for its original cost many times over. Our Live Stock Spray contains no harmful ingredients and is absolutely non-injurious to cattle when applied according to our directions. It will be effective for about 48 hours after application, thus making daily application unnecessary. Can be easily applied with a hand sprayer. Hercules Fly Spray may be ordered in 1-gallon cans, 5-gallon kits, 25-gallon half-barrels and 50-gallon barrels at prices quoted below. OUR "HERCULES" LIQUID WOOD FILLER

Hercules liquid wood filler is what its name implies, a filler, or first coat. When varnishing a new floor use wood filler as a first coat. It dries quickly in about 10 hours, fills the pores of the wood and will save that much varnish as it has taken wood filler to put on the first coat. For sizing plaster about to be painted it is without an equal; in fact, for any purpose as a first coat to prepare the surface for painting or varnishing liquid wood filler is the best.

HERCULES Guaranteed ROOFING

Absolutely Uniform In Quality

Every inch of Hercules roofing is just exactly the same as every other inch, its quality is the most uniform ever achieved in Ready-Made Roofing. It is not only composed of truly remarkable wear-resisting, element-resisting materials, but is so nearly uniform in its construction and manufacture that we give it our hearty endorsement. Our experts go on the theory that if roofing is made uniform, the same throughout, that it must give out all at one time or keep its perfect shape all the time. A chain is no stronger than its weakest link, a roofing is no stronger than its weakest inch and if there are no weak inches, then how can the roofing ever show wear?

GUARANTEED ROOF PROTECTION

The roof is more continuously exposed to the weather than any other part of a building. Therefore, in the construction of any roofing material, its weather-proof and wear-resisting features must receive first consideration. Hence, when we decided to enter the roofing field, we determined that we would bend all our energies toward the production of roofing which could be absolutely depended upon to be of the high quality that a combination of years of experience, skill, modern machinery and unlimited capital could produce.

Roof Your House At Our Risk

Roof your house or barn at our risk, no matter where you live. We don't ask you to take our word for a single statement. We will let Hercules guaranteed roofing prove its superior qualities to you in actual test. You lay the roofing in accordance with our directions at our risk. Let it be exposed to all the wearing and tearing strain that storm, rain, and snow can give it. Let the sun beat down on it, let the cold freeze it. While you are paying for it, Hercules Roofing will be silently proving to you its fine quality by actual service. If it does not come out unharmed we will make good to you. You run no risk at all—Hercules roofing is fully guaranteed.

"HERCULES" FLINT SURFACED ROOFING

There is real economy in Hercules guaranteed roofing. Its first cost is the only cost and you save all repair money and all paint money. Your roof will not require it.

Here's the reason why Hercules guaranteed roofings are superior to all others. All prepared roofings should be made from high grade roofing felt, the same as Hercules—some unscrupulous makers work in paper, which weakens the life of the roofing. Pure asphalt is necessary to make a strictly high-grade, lasting roofing—here some manufacturers lower the grade by using tar substitutes. Tar cracks in cold weather, melts in summer. Oil evaporates, leaving the roof dry and brittle, so that it buckles and cracks.

Hercules Roofing contains no substitutes for pure asphalt or felt base. Whenever asphalt roofing is mentioned, the Hercules Guaranteed Flint Surface kind is always in the foreground. Its wearing qualities put it there.

When you buy Flint, Surfaced Hercules Roofing you are guaranteed an honestly made roofing that will give you complete satisfaction.

No. 409R7. LIGHT WT., 55 LBS. PER ROLL, GUARANTEED TO WEAR 5 YEARS. PRICE **\$2.25**

No. 409R8. MEDIUM WT., 65 LBS. PER ROLL, GUARANTEED TO WEAR 8 YEARS. PRICE **2.78**

No. 409R9. HEAVY WT., 75 LBS. PER ROLL, GUARANTEED TO WEAR 12 YEARS. PRICE **3.15**

HERE'S THE VERY BEST \$3.23 PER ROLL OF 108 SQ. FEET ROOFING EVER MADE

Hercules Rock Surfaced Roofing will outlast and surpass in beauty any Ready Roofing on the market. Its popularity is increasing every day, but its wear-resisting qualities and beauty can be fully appreciated only after it has been laid and in use for a number of years.

You can buy roofing for less money than the prices that we ask—but you cannot, at any price, buy any kind of roofing that will afford you better continuous satisfactory service and lasting beauty. These facts make our Hercules Rock Surfaced Roofing the most economical in which you can invest.

Hercules Rock Surfaced Roofing is made from a very high grade felt base. It is of extra heavy strength and weight. The fibre is carefully and mechanically saturated with the greatest water-proofing compound known to the Roofing World—Pure Asphalt. After the process of Pure Asphalt saturation is completed, it is given an additional mechanical treatment, requiring great time and care, to make it still more water-proof and durable.

THE COLORS DO NOT FADE—THEY'RE NATURE'S OWN PRODUCT

The next step in the process of manufacture is to give the roofing a bath of especially prepared high-grade coating which protects the fibres from the weather wear, after which it is coated on both sides with finely crushed rock. This rock surface which will never fade, produces the beautiful appearance shown in the illustration and also materially adds to the fire-resisting and lasting qualities of the roofing.

Great Care Is Used in the manufacture of this roofing, as it is necessary that the rock surfacing is so well imbedded into the coating as to make it difficult to remove or rub off.

WILL GIVE MORE THAN 15 YEARS OF ROOFING SATISFACTION

We cannot recommend too strongly the purchase of this roofing, for it will add to the appearance of any building—it is of high quality and manufactured from Pure Asphalt—it is far superior and less expensive to apply than shingles or any other kind of roofing—it will retain its beautiful appearance—its water-proof qualities are the best because of the careful refining to which the asphalt solution is subjected—there is nothing which can be drawn out of the saturation that will discolor the crushed rock finish. Our Fifteen Year Guarantee Protects You Fully.

You cannot possibly make a mistake in ordering this guaranteed ready roofing for your house, barn, sheds or any other buildings because it successfully withstands the elements. Summer heat or arctic cold has little or no influence on its wearing quality. If laid right to begin with, if our directions covering laying and cementing are followed, it will not warp, buckle or rot, and snow, sleet or rain will not affect it in the slightest degree. While the rock surfacing is put on primarily for protection, it gives the roofing a beautiful appearance to be found in no other ready roofing.

MADE IN TWO COLORS

Hercules Red Rock Surfaced Roofing—A natural deep red rock surface of remarkably striking beauty.

Hercules Green Rock Surfaced Roofing—A quiet, restful greyish green rock surface that is pleasing to the eye.

It is put up 108 square feet to roll, sufficient to cover 100 square feet. It weighs approximately 75 pounds to the roll. It is 32 inches wide.

No. 411R3. RED ROCK SURFACED ROOFING. WEIGHT, PER ROLL, 75 POUNDS. PRICE **\$3.23**

No. 411R4. GREEN ROCK SURFACED ROOFING. WEIGHT, PER ROLL, 75 POUNDS. PRICE **3.23**

SHIPPED FROM CHICAGO

EASY TO LAY

No previous experience is needed in laying this roofing. Simple, yet complete instructions are sent with each roll. It requires no painting after it is put on the roof. We furnish all needed supplies, that is, cement for the laps and large headed nails to lay.

EACH ROLL COMPLETE

We furnish this roofing in one thickness and one weight only, and that the very best.

Each roll contains large-headed, rust-proof nails and cement.

THIS TOILET gives you all the convenience, comfort and sanitary condition that every family in the city has with their up-to-date plumbing and running water. But while they have to pay for expensive plumbing and equipment, you get a convenient, modern, sanitary toilet at a little price. Pronounced by authorities to be the most useful and important invention brought out in years for the home without sewer connections. Think what it would mean to you to get rid of all that discomfort which you suffer in cold weather and on rainy days, going to an outdoor toilet, to say nothing of the possibility of catching cold, la grippe or pneumonia. This modern, scientific indoor toilet can be put anywhere, easily moved. You do not have to build on a room, you don't have to make any special arrangements whatever. Not a penny for you to spend for plumbing. No sewer pipe needed. You just set it where convenient and connect your pipe. After the centuries in which the old out-door toilet has been used, it seems almost unbelievable that such a simple and perfect invention as this has been produced. But thousands and thousands have been sold, and any user will tell you how indispensable it has become to them. There is really no argument about it. Read the description of the "Majestic" sanitary toilet over carefully.

THE CONTENTS of the old style outdoor arrangement soak through the ground and contaminate the water supply, often causing epidemics of typhoid fever and other diseases. For years doctors, Federal, State and local health authorities have been fighting the unhealthy outdoor arrangement and they will tell you that it is a positive breeder of disease. It is a breeder of flies which carry germs directly to the food you eat. It is filled with odors and it lacks in privacy. Why not exchange all those disagreeable, unhealthy conditions for this clean, odorless, sanitary toilet which is so easy to install right in the home?

FULL EQUIPMENT INCLUDED FREE

IT COMES TO YOU with the following equipment: One sanitary enameled receptacle and galvanized container with cover, one enameled elbow, four 2-foot sections of 4-inch enameled pipe; one reducer; one removable metal shield, one toilet paper holder, two rolls toilet paper and one-half gallon of chemical. That is all you need to install a complete sanitary toilet in any part of your home. In a closet, in a corner, behind a screen, in a bed room, in a cellar, upstairs or downstairs.

No Trouble
To Install
This Outfit

THE "MAJESTIC" Indoor Toilet is made of heavy steel, 17½ inches high over all and is rust-proof. Finished in gray color enamel. Seat and top cover are in golden oak finish, properly hinged so as to raise and lower, as may be necessary. Inside the closet is a container of heavy galvanized metal, equipped with a cover. The cabinet is connected with a 4-inch ventilating pipe which leads into a chimney or outside of the building, thus giving perfect ventilation, and in that way disposing of all odors. It is portable and can be moved at any time. The price of this outfit is very low considering the full equipment included, and its high grade construction. You install the "Majestic" Toilet just as you install a stove—merely by connecting the pipe with a flue, or if there is no flue, running the pipe straight to the roof. Only a gallon of the chemical is required to operate this toilet for a year for a family of four. So you see how little you pay for this wonderful convenience and for the protection of the health of your family. Remember that our guarantee of satisfaction is back of every "Majestic" Sanitary Indoor Toilet that we sell.

**Costs Less Than
1c A Week Per
Person To Operate**

SUPPLIED WITH harmless, non-explosive chemical which sterilizes organic matter, kills germs and prevents odors. Acts immediately upon excrement, allowing to remain a small amount of odorless residue. Contents will not freeze and you do not have to bury it. Requires emptying about every two weeks. Enough chemical is supplied free to last a family of four six months; a new supply to last about a year for only \$1.98.

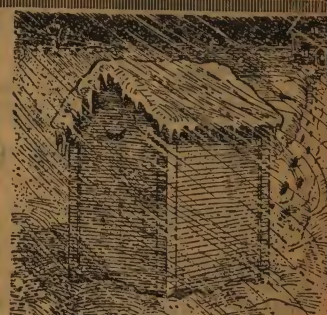

FULLY GUARANTEED

WE GUARANTEE that the "Majestic" Toilet will reach you in good condition. That it will be satisfactory in workmanship. That it will be sanitary and odorless if installed according to printed instructions and, the chemical used as directed. If the "Majestic" does not fulfill this guarantee, you need not be out a single cent, provided toilet is returned to us within thirty days from date of delivery. That is our positive, absolute guarantee of satisfaction or your money back. Shipping weight, about 45 lbs. Shipped immediately from Chicago.
